- 10) Compliance in the accessibility and design of Projects with the Americans with Disabilities Act of 1990 (if applicable), known as ADA requirements, with HUD exceptions;
- 11) Meeting of the requirements of the GLO Visitability Standards, located on the GLO-CDR website at <http://recovery.texas.gov/>; and

B. ADDITIONAL REQUIREMENTS

Contractor must perform additional duties including, but not limited to, the following:

- 1) Providing professional labor, equipment, and materials adequate to perform the work in accordance with the scope of Work issued for each eligible applicant's residential structure while ensuring that all applicable housing standards and codes are met;

- 2) Complying with all applicable local, state, and federal laws, regulations, and guidelines, which may include the following: HUD Community Development Block Grant disaster laws, regulations, and guidelines; Section 3 of the Housing and Urban Development Act of 1968; and the Davis Bacon Act (for repairs to properties containing more than eight (8) units);
- 3) Mobilizing in the awarded Zone within 45 days from the effective date of this Work Order;

- 7) Providing a certificate of compliance from the Green Standard governing body (see the GLO Minimum Design Standards for further information);
- 8) Providing information responsive to Public Information Act requests in a timely manner;
- 9) Meeting all federal, state, and local requirements for the transport and disposal of municipal solid, industrial, hazardous, and other waste from demolished structures;

PROJECT ASSIGNMENT(S)

Prior to any assignments, Contractor will be required to coordinate with the GLO and its vendors responsible for the administration and project management of the Homeowner Assistance Program on behalf of the GLO. These meetings may occur any time within the first 45 days following execution of this Work Order.

Assignments will be based on the GLO's Builder Assignment Method, which may include the assessment of workmanship, project management, and customer service.

Each Project will require completion within 120 days of the Notice to Proceed.

PRICING

Reconstruction and New Construction Services: Composite Square-Foot Pricing

Set prices per square foot will be used for all standard reconstruction and new construction services described in each executed GLO Form 11.17, *Work Write-Up/Cost Estimate*, with the price per square foot for a Project correlating to the selected house size and the service period in which the Form 11.17 for the Project was executed, as outlined in the following table.

The GLO shall ensure that all deliverables, duties, and/or responsibilities in this Work Order are completed prior to the disbursement of funds.
