## Addendum to Anderson Unit Application

\*TOTAL E&P USA Barnett, LLC (Total) has acquired oil and gas leases on nearly 300 tracts of land within Tarrant County, Texas since it took over operatorship of these assets in September of 2017. The highest bonus paid by Total since its inception has been \$2,000/acre, with a minimum lump sum bonus of \$500 for any tract less than 0.25 acres.

\*\* The Anderson Unit is an old voluntary unit with one unit well drilled by the prior operator that began production in 2012. Total plans to drill two new wells in and through the unit (the Anderson MIPA Unit 2H and the Anderson MIPA Unit 3H) in mid-2021. The purpose of the requested pooling is to allow the drilling and completion of the two new allocation wells and to ensure the County participates in all the wells in the unit.

COMMISSIONERS COURT  
COMMUNICATION

REFERENCE NUMBER

PAGE 1 OF

5

DATE: 03/02/2021

SUBJECT: **APPROVAL OF TEXAS GENERAL LAND OFFICE COUNTY ROAD BONUS FORM WITH TEP BARNETT USA, LLC – REF. 0.2786 ACRES COMPRISING E. ROSEDALE STREET, LOCATED IN THE ANDERSON UNIT, GEORGE W. COONROD SURVEY, A-291, TARRANT COUNTY, TEXAS**

**\*\*\* CONSENT AGENDA \*\*\***

**COMMISSIONERS COURT ACTION REQUESTED:**

It is requested that the Commissioners Court approve a County Road Bonus Form required by the Texas General Land Office (GLO) in response to an Application for Pooling Unleased County Road as applied for by TEP Barnett, USA, LLC (Total) for approximately 0.2786 acres comprising of a portion of E. Rosedale Street, located within the boundaries of the Anderson Unit, George W. Coonrod Survey, A-291, Tarrant County, Texas, as set forth in the attached application and map.

**BACKGROUND:**

Total TEP Barnett USA, LLC formed the Anderson Unit in 2011. Total now plans to drill additional wells within the Anderson Unit and requires permission to pool this portion of unleased county road. Total is seeking to force pool all unleased properties within this Unit under the Mineral Interest Pooling Act (MIPA) with the Texas Railroad Commission. The GLO requires a Pooling Right-of-Way Agreement for state and county owned properties when MIPA applications are filed. The County will receive the full bonus amount but will need to approve and execute the County Road Bonus Form before the GLO will approve the final Pooling Right-of-Way Agreement. The purpose of the requested bonus form is to allow the drilling and completion of the new wells and to ensure that Tarrant County is included as a lessor and future payee in the Unit. The total County acreage to be included in the Anderson Unit is 0.2786 acres.

Argent Mineral Management serves as the agent for the County in oil and gas matters and has confirmed the proposed Units include unleased mineral acres that Tarrant County owns under E. Rosedale Street. Argent Mineral Management has recommended the approval of the County Road Bonus Form at the offered terms of \$2,000.00 per net acres bonus.

**FISCAL IMPACT:**

Tarrant County will receive a lease bonus of \$557.20.

**FIRST AMENDMENT TO  
DECLARATION OF POOLED UNIT  
ANDERSON UNIT**

STATE OF TEXAS            )  
                                  )     KNOW ALL PERSONS BY THESE PRESENTS:  
COUNTY OF TARRANT    )

Reference is made to that Declaration of Pooled Unit for Anderson Unit, recorded September 2, 2011, as D211213591, Official Public Records of Tarrant County, Texas, and to a Corrected Declaration of Pooled Unit for Anderson Unit, recorded July 20, 2012, as D212174685, Official Public Records of Tarrant County, Texas. Said Declaration and Amendments are incorporated herein for all purposes.

Whereas, the purpose and intent of this First Amendment to the Declaration of Pooled Unit – Anderson Unit is to amend the Exhibit "A" to include additional leases, to exclude a certain lease, and to amend the Exhibit "B" of the Declaration of Pooled Unit to correct the unit description.

RECITALS

WHEREAS, each of the Leases authorizes the undersigned Lessee thereunder to pool, unitize or combine all or a portion of the lands covered thereby with other land, lands, lease, or leases, to form a pooled unit of the size prescribed or permitted under the rules or regulations of the appropriate governmental authority for the exploration, development and production of oil, gas and associated and constituent hydrocarbons from the lands covered by the Leases; and

WHEREAS, the pooling, unitization and combination of the Leases and mineral estates to the extent necessary to form the hereinafter described pooled unit are necessary and advisable in the judgment of the undersigned.

NOW, THEREFORE, in consideration of the foregoing premises, the mutual benefits to be derived by the parties hereto and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned agree as follows:

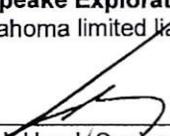

This Declaration of Pooled Unit, Anderson Unit, is hereby amended to include additional leases and to exclude a certain lease on said Exhibit "A," as well as to amend the legal description of the Anderson Unit as further described in Exhibit "B" attached hereto.

This instrument may be executed as one document signed by all parties, or parties named herein may join herein by execution of a counterpart or ratification, with the same effect as if all parties executed this instrument. Executed signature pages from different originals may be combined to form a single original instrument for recording purposes. The failure of any one or more person owning an interest in the Unit to execute this instrument or a counter part or ratification thereof shall not in any manner affect the validity or same as to the parties who do execute this instrument. This Unit may not be ratified or joined in by a party who is not named below without the consent of parties hereto.

Except as amended hereby, said Declaration remains in full force and effect.

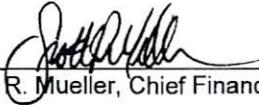

EXECUTED by the undersigned party on the respective date of acknowledgment hereof, to be effective for all purposes as of the recording date.

# MEMORANDUM

TEXAS GENERAL LAND OFFICE • GEORGE P. BUSH • COMMISSIONER

---

**Date:** February 16, 2021

**Unit # 11066**

**To:** School Land Board

**From:** Mineral Leasing Staff

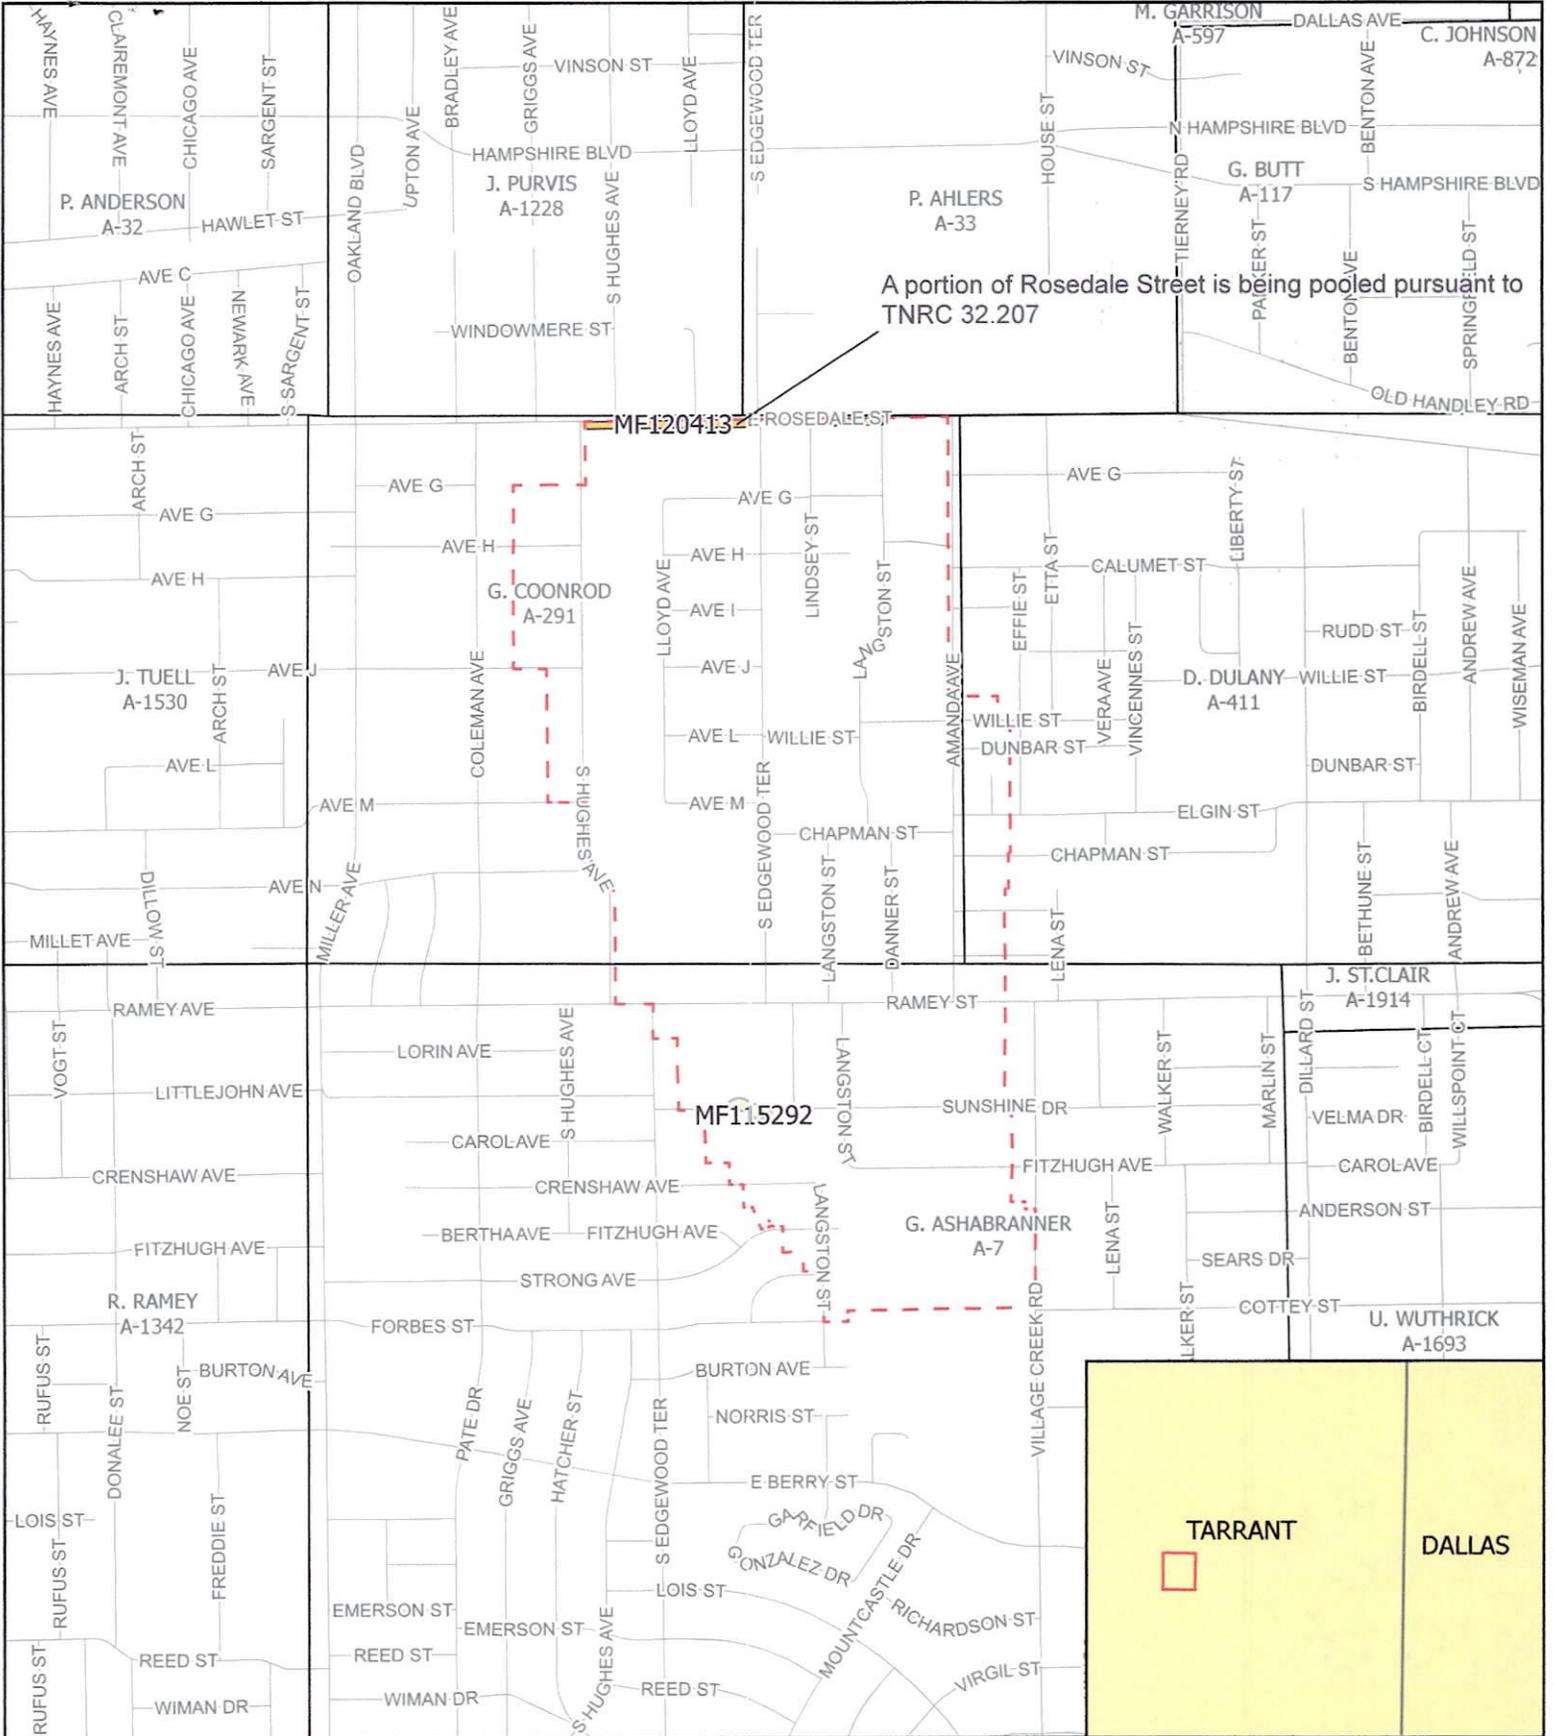

**Subject: Request from TEP Barnett USA, LLC to pool approximately 0.2786 acres of E. Rosedale Street (unleased County HROW) pursuant to Texas Natural Resources Code §32.207, into the Anderson Unit (amended).**

---

- SM Energy Company is requesting permanent oil and gas pooling of depths from the surface of the earth to the base of the Barnett Shale Formation.
- The State will receive a bonus of \$557.20, which is \$500.00 per net mineral acre.
- The State's unit royalty participation and bonus will be based on the final survey.

## **STAFF RECOMMENDATION:**

- The Mineral Leasing Staff recommends Board approval of a permanent oil and gas unit under the above-stated provisions.

RE: §32.207 Pooling Agreement  
Anderson Unit  
Tarrant County, Texas

Dear Mr. Johnson:

On March 12, 2021, the School Land Board approved your application to pool 0.2786 acres of Tarrant County's unleased mineral interest under East Rosedale Street into the 302.16-acre unit subject to the conditions in the enclosed Pooling Agreement pursuant to TNRC §32.207 and its respective exhibits. Enclosed are duplicate originals of the Agreement to be executed and acknowledged by a duly authorized representative of TEP Barnett USA, LLC.

Please attach the following to each agreement after Exhibit "2": a list of all the oil and gas leases included in the unit as Exhibit "A"; a legal description (metes and bounds or a list of the tracts, if they are readily identifiable) of the unit as Exhibit "B"; a legible, accurate plat as Exhibit "C".

After proper execution and acknowledgment, please return the duplicate originals of the Agreement for execution by the Commissioner. **The Board requires that execution be completed within ninety (90) days of approval.** An executed original of the Agreement will then be returned to you.

In accordance with Section 32.201 of the Texas Natural Resources Code, the bonus and any royalties paid under this agreement should be paid directly to the County.

We also hereby acknowledge receipt of the County Road Bonus Form from Tarrant County in the amount of \$557.20, as the consideration for pooling the unleased interest under E. Rosedale Street.

Thank you for your cooperation, if you have any questions, please contact me at the number listed.

Sincerely,

Mary Beth Barnstone, Landman

Dear Ms. Barnstone:

Please find enclosed two (2) executed copies of Pooling Agreement M-120413 for our Anderson Unit. Also included is a list of all leases in the Anderson Unit to act as Exhibit "A", a tract list to act as Exhibit "B" and a plat to act as Exhibit "C".

Additionally, please note when we amend the Designation of Pooled Unit for our Anderson Unit to include new leases we have recently taken, to include Pooling Agreement M-120413, we will send the GLO an updated list of leases or a metes and bounds description to supplement the included Exhibit "A".

Should you have any questions or need any additional information please let me know. I can be reached by phone at 817-720-1146 or by email at [jeremiah.johnson@total.com](mailto:jeremiah.johnson@total.com).

Cordially,

Jeremiah Johnson, Sr. Landman for TEP Barnett USA, LLC

Tarrant County, Texas

Dear Mr. Johnson:

Enclosed is a duplicate original of the above referenced §32.207 Pooling Agreement that has been signed by George P. Bush, Commissioner of the Texas General Land Office ("GLO"). We have retained the other original of the Agreement, which will be filed in Mineral File No, **M-120413**. Please refer to this file number when reporting and paying royalties to the County and in all future correspondence involving the County's unleased mineral interest within the referenced unit. Additionally, for royalty reporting purposes this Unit has been assigned **GLO Unit No. 11066**. A copy of the executed Agreement has also been forwarded to the Tarrant County Clerk.

Thank you for your assistance, if you have any questions or need anything further, please do not hesitate to contact me.

**POOLING AGREEMENT PURSUANT TO TNRC §32.207  
STATE OF TEXAS / TEP BARNETT USA, LLC  
ANDERSON UNIT  
M-120413 GLO UNIT NO. 11066  
TARRANT COUNTY, TEXAS**

**INCLUDING PAYMENTS DIRECTLY TO COUNTY**

THIS AGREEMENT ("Agreement") is made and entered into effective March 12, 2021, by and between the Commissioner of the General Land Office of the State of Texas (the "State"), and TEP Barnett USA, LLC hereinafter referred to as ("Lessee").

A. The State owns the minerals under approximately 0.2786 acres of E. Rosedale Street that are unleased and within the boundaries of the 302.16-acre Anderson Unit ("Unit"), said 0.2786 acres being hereinafter referred to as the "unleased interest".

B. Pursuant to Texas Natural Resources Code §32.207, the School Land Board has authority to pool the oil and gas under land owned by the State that was acquired to construct or maintain a highway, road, street, or alley ("ROW").

C. Lessee and the State desire to pool the unleased interest in the ROW into the Unit.

D. Pursuant to Texas Natural Resources Code §Sec. 32.2015, royalties due on lands owned by the State that were acquired by a county to construct a county road, such as the ROW, shall be paid to the county treasurer, or officer performing the function of that office, in the county in which the lands are located, for deposit to the credit of the county's road and bridge fund.

E. The School Land Board, at its regular meeting on March 12, 2021, determined that pooling the unleased interest into the Unit as further described in Exhibit "2" is in the best interest of the State.

NOW, THEREFORE, in consideration of the payment to Howard County (the "County") of \$557.20 and of the mutual agreements hereinafter set forth and together with other valuable consideration, the receipt and sufficiency of which are hereby acknowledged and on the terms and conditions contained herein, including in the Exhibits hereto, the parties agree as follows:

1. This Agreement is entered into pursuant to the authority granted in Chapters 32 and 52, of the Texas Natural Resources Code and Chapter 9 of Title 31 of the Texas Administrative Code and is intended to be performed pursuant to and in compliance with all applicable statutes, decisions, regulations, rules, orders and directives of any governmental agency having jurisdiction over the production and conservation of minerals from the Unit and in the interpretation and application hereof this Agreement shall be, in all things, subject thereto.

2. Lessee agrees to provide the General Land Office with a recorded copy of the instrument creating the Unit (Declaration or Designation etc.) and any Amendments to the Unit within thirty (30) days of recording. Lessee has the right to amend the Unit as may be provided in the leases pooled or the instrument creating the Unit, provided that any Amendment that will include additional unleased ROW requires School Land Board approval and consideration to be paid for the additional unleased ROW. The State and Lessee agree that nothing herein shall be construed as granting a leasehold interest to Lessee in the unleased interest but rather this Agreement is a contractual pooling of interests with the respective rights and duties of the parties defined in paragraph 3, below.

3. The rights and duties of the State and Lessee with respect to the unleased interest within the boundaries of the Unit shall be established, governed and controlled by the terms, conditions and covenants contained in Exhibit "1" and Exhibit "2" attached hereto and incorporated herein, wherein the State shall be considered the Lessor and the County shall receive its share of unit production in the form of a royalty as provided in Exhibit "1" and allocated to the County as provided in Exhibit "2" with no obligation to the County for operating costs of any kind, including but not limited to exploring, drilling, equipping, completion, treating, transporting, marketing, plugging, abandonment or restoration.

4. This Agreement shall remain in effect for a term of one year from the effective date, (herein called "primary term") and so long as the pooled mineral is being produced in paying quantities from the Unit, or so long as the instrument creating the Unit remains in effect; provided that this Agreement shall automatically terminate on the date production of the pooled mineral ceases and there are no further operations on the Unit to re-establish production of the pooled mineral, even though the instrument creating the pooled unit may remain in effect because a dissolution of unit has not been filed of record.

5. Production Sharing Agreements or similar type agreements may be submitted for execution by the State. Upon

finding that such an agreement is in the best interest of the State and upon submission of the required \$500.00 processing fee, the agreement will be submitted for execution by the Commissioner of the Texas General Land Office.

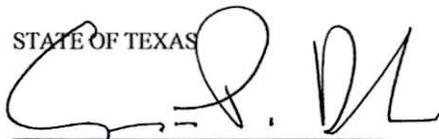

6. A counterpart hereof may be executed by each party to this Agreement, each of which shall be considered an original, and all of said counterparts shall be construed together as one instrument.

7. The terms and provisions hereof shall extend to and be binding upon the heirs, legal representatives, successors, and assigns of the parties hereto.

IN WITNESS WHEREOF, the parties have executed this Agreement upon the respective dates indicated below.

## EXHIBIT "1"

§32.207 Exhibit 1, Revised 11/2017

**1. RESERVATION AND GRANT:** There is hereby excepted and reserved to Lessor the full use of the property covered hereby and all rights with respect to the surface and subsurface thereof for any and all purposes except those granted to Lessee, being the right to explore for, drill and produce the pooled mineral from the pooled area, and Lessor further reserves the rights of ingress and egress and use of said lands by Lessor and its mineral lessees, for purposes of exploring for and producing the minerals and zones which are not covered by this Agreement. All of the rights in and to the pooled area retained by Lessor and all of the rights in and to the pooled area granted to Lessee herein shall be exercised in such a manner that neither shall unduly interfere with the operations of the other.

**2. PRODUCTION ROYALTIES:** Upon production of the pooled mineral, Lessee agrees to pay or cause to be paid to the County of Tarrant (the "County"), for the use and benefit of the County, during the term hereof:

(A) **OIL:** As a royalty on oil, which is defined as including all hydrocarbons produced in a liquid form at the mouth of the well and also all condensate, distillate, and other liquid hydrocarbons recovered from oil or gas run through a separator or other equipment, as hereinafter provided, 1/4 part of the gross production or the market value thereof, at the option of the Lessor, such value to be determined by 1) the highest posted price, plus premium, if any, offered or paid for oil, condensate, distillate, or other liquid hydrocarbons, respectively, of a like type and gravity in the general area where produced and when run, or 2) the highest market price thereof offered or paid in the general area where produced and when run, or 3) the gross proceeds of the sale thereof, whichever is the greater. Lessee agrees that before any gas produced from the land hereby pooled is sold, used or processed in a plant, it will be run free of cost to Lessor and County, through an adequate oil and gas separator of conventional type or other equipment at least as efficient to the end that all liquid hydrocarbons recoverable from the gas by such means will be recovered. Upon written consent of Lessor, the requirement that such gas be run through such a separator or other equipment may be waived upon such terms and conditions as prescribed by Lessor.

(B) **NON-PROCESSED GAS:** As a royalty on any gas (including flared gas), which is defined as all hydrocarbons and gaseous substances not defined as oil in subparagraph (A) above, produced from any well on said land (except as provided herein with respect to gas processed in a plant for the extraction of gasoline, liquid hydrocarbons or other products) 1/4 part of the gross production or the market value thereof, at the option of the Lessor, such value to be based on the highest market price paid or offered for gas of comparable quality in the general area where produced and when run, or the gross price paid or offered to the producer, whichever is greater provided that the maximum pressure base in measuring the gas under this agreement contract shall not at any time exceed 14.65 pounds per square inch absolute, and the standard base temperature shall be sixty (60) degrees Fahrenheit, correction to be made for pressure according to Boyle's Law, and for specific gravity according to test made by the Balance Method or by the most approved method of testing being used by the industry at the time of testing.

(C) **PROCESSED GAS:** As a royalty on any gas processed in a gasoline plant or other plant for the recovery of gasoline or other liquid hydrocarbons, 1/4 part of the residue gas and the liquid hydrocarbons extracted or the market value thereof, at the option of the Lessor. All royalties due herein shall be based on one hundred percent (100%) of the total plant production of residue gas attributable to gas produced from this agreement, and on fifty percent (50%) or that percent accruing to Lessee, whichever is the greater, of the total plant production of liquid hydrocarbons, attributable to the gas produced from this agreement; provided that if liquid hydrocarbons are recovered from gas processed in a plant in which Lessee (or its parent, subsidiary or affiliate) owns an interest, then the percentage applicable to liquid hydrocarbons shall be fifty percent (50%) or the highest percent accruing to a third party processing gas through such plant under a processing agreement negotiated at arms' length (or if there is no such third party, the highest percent then being specified in processing agreements or contracts in the industry), whichever is the greater. The respective royalties on residue gas and on liquid hydrocarbons shall be determined by 1) the highest market price paid or offered for any gas (or liquid hydrocarbons) of comparable quality in the general area or 2) the gross price paid or offered for such residue gas (or the weighted average gross selling price for the respective grades of liquid hydrocarbons), whichever is the greater. In no event, however, shall the royalties payable under this paragraph be less than the royalties which would have been due had the gas not been processed.

(D) **OTHER PRODUCTS:** As a royalty on carbon black, sulphur or any other products produced or manufactured from gas (excepting liquid hydrocarbons) whether said gas be "casinghead," "dry" or any other gas, by fractionating, burning or any other processing, 1/4 part of the gross production of such products, or the market value thereof, at the option of Lessor, such market value to be determined as follows:

- (1) On the basis of the highest market price of each product, during the same month in which such product is produced, or
- (2) On the basis of the average gross sale price of each product for the same month in which such products are produced; whichever is the greater.

(E) **NO DEDUCTIONS:** Lessee agrees that all royalties accruing to the County under this agreement shall be without deduction for the cost of producing, transporting, and otherwise making the oil, gas and other products produced hereunder ready for sale or use.

(F) **ROYALTY IN KIND:** Notwithstanding anything contained herein to the contrary, the County may, at its option, upon not less than 60 days notice to Lessee, require at any time or from time to time that payment of all or any royalties accruing to the County under this agreement be made in kind without deduction for the cost of producing, gathering, storing, separating, treating, dehydrating, compressing, processing, transporting and otherwise making the oil, gas and other products produced hereunder ready for sale or use. The County's right to take its royalty in kind shall not diminish or negate the County's rights or Lessee's obligations, whether express or implied, under this agreement.

(G) **PLANT FUEL AND RECYCLED GAS:** No royalty shall be payable on any gas as may represent this agreement's proportionate share of any fuel used to process gas produced hereunder in any processing plant. Notwithstanding anything contained herein to the contrary, Lessee may recycle gas for gas lift purposes on the pooled area after the liquid hydrocarbons contained in the gas have been removed, and no royalties shall be payable on the gas so recycled until such time as the same may thereafter be produced and sold or used by Lessee in such manner as to entitle the County to a royalty thereon under the royalty provisions of this agreement.

**3. ROYALTY PAYMENTS AND REPORTS:** All royalties not taken in kind shall be paid to the County, in the following manner:

(A) Payment of the County's royalty on production of oil and gas shall be made directly to the County treasurer, or officer performing the function of that office, for deposit to the credit of the County's road and bridge fund. Royalty on oil is due and must be received in the County on or before the 5th day of the second month succeeding the month of production, and royalty on gas is due and must be received in the County on or before the 15th day of the second month succeeding the month of production, accompanied by an affidavit of the owner, manager or other authorized agent, if required by the County, completed in the form (if any) and manner prescribed by the County and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, as well as a copy of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records which the County may require to verify the gross production, disposition and market value. Each royalty payment shall be accompanied by a check stub, schedule, summary or other remittance advice showing by the assigned General Land Office lease number the amount of royalty being paid to each lease number. If Lessee pays his royalty on or before thirty (30) days after the royalty payment was due, then Lessee owes a penalty of 5% on the royalty or \$25.00, whichever is greater. A royalty payment which is over thirty (30) days late shall accrue a penalty of 10% of the royalty due or \$25.00 whichever is greater. In addition to a penalty, royalties shall accrue interest at the rate established by the General Land Office for royalties due to the Permanent School Fund; such interest will begin accruing when the royalty is sixty (60) days overdue. Affidavits and supporting documents which are not filed when due shall incur a penalty in an amount set by the General Land Office for State mineral lease reporting according to the administrative rules effective on the date when the affidavits or supporting documents were due. The Lessee shall bear all responsibility for paying or causing royalties to be paid as prescribed by the due date provided herein. Payment of the delinquency penalty shall in no way operate to prohibit the State's right of forfeiture as provided by law nor act to postpone the date on which royalties were originally due. The above penalty provisions shall not apply in cases of title dispute as to the County's portion of the royalty or to that portion of the royalty in dispute as to fair market value.

(B) For all royalty payments made pursuant to this paragraph 3, even though the payments are made directly to the County, Lessee must submit to the General Land Office (1) the affidavit of the owner, manager, or other authorized agent, completed in the form and manner prescribed by the General Land Office and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, together with a copy of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records which the General Land Office may require to verify the gross production, disposition and market value, and (2) any other production/royalty reports required to be made pursuant to the Texas Administrative Code as applicable to minerals leased from the Permanent School Fund, even though royalty payments hereunder are made directly to the County. In all cases the authority of a manager or agent to act for the Lessee herein must be filed in the General Land Office. Affidavits and supporting documents which are not filed when due shall incur a penalty in an amount set by the General Land Office administrative rule which is effective on the date when the affidavits or supporting documents were due.

**4. (A) CONTRACTS AND OTHER RECORDS:** When requested by the General Land Office or the County, Lessee will furnish the General Land Office with copies of all contracts under which gas is sold or processed and all subsequent agreements and amendments to such contracts. Such contracts and agreements when received by the General Land Office shall be held in confidence by the General Land Office unless otherwise authorized by Lessee. All other contracts and records pertaining to the production, transportation, sale and marketing of the pooled mineral produced from the pooled area, including the books and accounts, receipts and discharges of all wells, tanks, pools, meters, and pipelines shall at all times be subject to inspection and examination by the Commissioner of the General Land Office, the Attorney General, the Governor, or the representative of any of them.

**(B) DRILLING RECORDS:** Copies of Railroad Commission forms such as applications to drill, well tests, completion reports and plugging reports shall be supplied to the General Land Office at the time they are filed with the Texas Railroad Commission. Lessee shall upon written request supply the General Land Office with any records, memoranda, accounts, reports, or other information relative to the operation of the above-described premises in addition to those herein expressly provided for.

**5. NO SURFACE USE:** No drilling or other operations are allowed on the surface of land during the period in which the land is used by this state as a highway, road, street, alley or maintenance facility.

**6. POLLUTION:** In developing this pooled area, Lessee shall use the highest degree of care and all proper safeguards to prevent pollution. Without limiting the foregoing, pollution of coastal wetlands, natural waterways, rivers and impounded water shall be prevented by the use of containment facilities sufficient to prevent spillage, seepage or ground water contamination. In the event of pollution, Lessee shall use all means at its disposal to recapture all escaped hydrocarbons or other pollutant and shall be responsible for all damage to public and private properties. Failure to comply with the requirements of this provision may result in the maximum penalty allowed by law including forfeiture of the agreement. Lessee shall be liable for the damages caused by such failure and any costs and expenses incurred in cleaning areas affected by the discharged hydrocarbons or other pollutants.

**7. ASSIGNMENTS:** The agreement may be transferred at any time. All transfers must reference this agreement by the State Lease Number and must be recorded in the county where the pooled area is located, and the recorded transfer or a copy certified to by the County Clerk of the county where the transfer is recorded must be filed in the General Land Office within ninety (90) days of the execution date accompanied by the filing fee prescribed by the General Land Office rules in effect on the date of receipt by the General Land Office of such transfer or certified copy thereof. Every transferee shall succeed to all rights and be subject to all obligations, liabilities, and penalties owed to the State by the original lessee or any prior transferee of the agreement, including any liabilities to the County for unpaid royalties.

**8. LIEN:** By acceptance of this agreement, Lessee grants the County, in addition to any other applicable lien, an express contractual lien on and security interest in all pooled minerals in and extracted from the pooled area, all proceeds which may accrue to Lessee from the sale of such minerals, whether such proceeds are held by Lessee or by a third party, and all fixtures on and improvements to the pooled area used in connection with the production or processing of such minerals in order to secure the payment of all royalties or other amounts due or to become due under this agreement and to secure payment of any damages or loss that Lessor may suffer by reason of Lessee's breach of any covenant or condition of this agreement, whether express or implied. This lien and security interest may be foreclosed with or without court proceedings in the manner provided in the Title 1, Chapter 9 of the Texas Business and Commerce Code. Lessee agrees that the County may require Lessee to execute and record such instruments as may be reasonably necessary to acknowledge, attach or perfect this lien. Lessee hereby represents that there are no prior or superior liens arising from and relating to Lessee's activities upon the above-described property or from Lessee's pooling of the area. Should the Commissioner at any time determine that this representation is not true, then the Commissioner may declare this agreement forfeited as provided herein.

**9. FORFEITURE:** If Lessee shall fail or refuse to make the payment of any sum within thirty (30) days after it becomes due, or if Lessee or an authorized agent should knowingly make any false return or false report concerning production or drilling, or if Lessee should fail to file reports in the manner required by this agreement, by law or fail to comply with applicable rules and regulations promulgated by the General Land Office, the School Land Board, or the Railroad Commission, or refuse the proper authority access to the records pertaining to operations, or if Lessee or an authorized agent should knowingly fail or refuse to give correct information to the proper authority, or if Lessee shall knowingly violate any of the material provisions of this agreement, or if this agreement is assigned and the assignment is not filed in the General Land Office as required by law, the rights acquired under this agreement shall be subject to forfeiture by the Commissioner, and he shall forfeit same when sufficiently informed of the facts which authorize a forfeiture, and when forfeited the area shall again be subject to lease or pooling. However, nothing herein shall be construed as waiving the automatic termination of this agreement by operation of law or by reason of any special limitation arising hereunder. Forfeitures may be set aside and this agreement and all rights thereunder reinstated before the rights of another intervene upon satisfactory evidence to the Commissioner of the General Land Office of future compliance with the provisions of the law and of this agreement and the rules and regulations that may be adopted relative hereto.

**10. APPLICABLE LAWS:** This agreement is entered into by the State on behalf of the County, and even though royalties hereunder are payable directly to the County, this agreement shall be subject to all rules and regulations, and amendments thereto, promulgated by the Commissioner of the General Land Office governing drilling and producing operations on Permanent School Fund land, payment of royalties, and auditing procedures, and shall be subject to all other valid statutes, rules, regulations, orders and ordinances that may affect operations under the provisions of this agreement. Without limiting the generality of the foregoing, Lessee hereby agrees, by the acceptance of this agreement, to be bound by and subject to all statutory and regulatory provisions relating to the General Land Office's audit billing notice and audit hearings procedures. Said provisions are currently found at Texas Natural Resources Code Sections 52.135 and 52.137 through 52.140.

**11. FORCE MAJEURE:** Should Lessee be prevented from complying with any express or implied covenant of this agreement, from conducting drilling operations thereon, or from producing the pooled mineral therefrom, after effort made in good faith, by reason of war, rebellion, riots, strikes, fires, acts of God or any order, rule or regulation of governmental authority, then while so prevented, Lessee's obligation to comply with such covenant shall be suspended and Lessee shall not be liable for damages for failure to comply therewith and this agreement shall be extended while and so long as Lessee is prevented, by any such cause, from drilling, reworking operations or producing the pooled mineral from the pooled area. Lessee agrees to immediately notify the GLO of any force majeure event and when the reason for force majeure has ceased.

**12. NO WARRANTY AND PROPORTIONATE REDUCTION CLAUSE:** This agreement is entered into by the State without any covenant of title or warranty of title, express or implied, and without any recourse against the State in the event of any failure of title, not even for the return of any consideration paid. If the State owns less than the entire undivided interest in the above described land, then the royalties herein provided to be paid to the County shall be paid in the proportion which its interest bears to the entire undivided interest. However, before Lessee adjusts the royalty due to the County, Lessee or his authorized representative must submit to the County and to the General Land Office a written statement which explains the discrepancy between the interest purportedly pooled under this agreement and the actual interest owned by the State.

**13. SECURITY:** Lessee shall take the highest degree of care and all proper safeguards to protect said premises and to prevent theft of oil, gas, and other hydrocarbons produced from the pooled area. This includes, but is not limited to, the installation of all necessary equipment, seals, locks, or other appropriate protective devices on or at all access points of the pooled area's production, gathering and storage systems where theft of hydrocarbons can occur. Lessee shall be liable for the loss of any hydrocarbons resulting from theft and shall pay the County's royalties thereon as provided herein on all oil, gas or other hydrocarbons lost by reason of theft.

**14. SUCCESSORS AND ASSIGNS:** The covenants, conditions and agreements contained herein shall extend to and be binding upon the heirs, executors, administrators, successors or assigns of Lessee herein.

**15. ANTIQUITIES CODE:** In the event that any site, object, location, artifact or other feature of archaeological, scientific, educational, cultural, archeological or historical interest are encountered on State Land during the activities authorized by this agreement, Lessee will immediately cease activities and will immediately notify the General Land Office (ATTN. Archaeologist, Asset Management Division, 1700 N. Congress Ave., Austin, Texas 78701) and the Texas Historical Commission (P.O. Box 12276, Austin, TX 78711) so that adequate measures may be undertaken to protect or recover such discoveries or findings, as appropriate. Lessee is expressly placed on notice of the National Historical Preservation Act of 1966 (PB-89-66, 80 Statute 915; 16 U.S.C.A. 470) and the Antiquities Code of Texas, Chapter 191, Tex. Nat. Res. Code.

**16. VENUE:** Lessor and lessee, hereby agree that venue for any dispute arising out of a provision of this agreement, whether express or implied, regarding interpretation of this agreement, or relating in any way to this agreement or to applicable case law, statutes, or administrative rules, shall be in a court of competent jurisdiction located in Travis County, State of Texas.

**17. FILING:** Pursuant to Chapter 9 of the Tex. Bus. & Com. Code, this agreement must be filed of record in the office of the County Clerk in any county in which all or any part of the pooled area is located, and recorded copies thereof must be filed in the General Land Office.

## EXHIBIT "2"

### PURPOSES:

1.

This Pooling Agreement ("Agreement") is made for the purposes of conservation and utilization of the pooled mineral, to prevent waste, to facilitate orderly development and to preserve correlative rights. To such end, it is the purpose of this Agreement to effect equitable participation within the unit. This Agreement is intended to be performed pursuant to and in compliance with all applicable statutes, decisions, regulations, rules, orders and directives of any governmental agency having jurisdiction over the production and conservation of the pooled mineral and in its interpretation and application shall, in all things, be subject thereto.

### UNIT DESCRIPTION:

2.

The oil and gas leases, which are included within the pooled Unit, are listed on the attached Exhibit "A", to which leases and the records thereof reference is here made for all pertinent purposes. The pooled Unit shall consist of all of the lands described in Exhibit "B" attached hereto and made a part hereof, insofar as said lands cover and include those depths described below as the unitized interval. A plat of the pooled Unit is attached hereto as Exhibit "C".

### MINERAL POOLED:

3.

The mineral pooled and unitized ("pooled mineral") hereby shall be oil and gas including all hydrocarbons that may be produced from an oil well or a gas well as such wells are recognized and designated by the Railroad Commission of Texas or other state regulatory agency having jurisdiction of the drilling and production of oil and gas wells. The pooled mineral shall extend to those depths underlying the surface boundaries of the pooled unit from the surface of the earth to the base of the Barnett Shale Formation ("unitized interval").

### POOLING AND EFFECT:

4.

The parties hereto commit all of their interests which are within the unit to the extent and as above described into said unit and unitize and pool hereunder the separate tracts described on the attached Exhibit "B", for and during the term hereof, so that such pooling or unitization shall have the following effect:

- (a) The Unit, to the extent as above described, shall be operated as an entirety for the exploration, development and production of the pooled mineral, rather than as separate tracts.
- (b) All drilling operations, reworking or other operations with respect to the pooled mineral on land within the Unit shall be considered as though the same were on each separate tract in the Unit, regardless of the actual location of the well or wells thereon, for all purposes under the terms of the respective leases or other contracts thereon and this Agreement.
- (c) Production of the pooled mineral from the Unit allocated to each separate tract, respectively, as hereinafter provided, shall be deemed to have been produced from each such separate tract in the Unit, regardless of the actual location of the well or wells thereon, for all purposes under the terms of the respective leases or other contracts thereon and this Agreement.
- (d) All rights to the production of the pooled mineral from the Unit, including royalties and other payments, shall be determined and governed by the lease or other contract pertaining to each separate tract, respectively, based upon the production so allocated to such tract only, in lieu of the actual production of the pooled mineral therefrom.

### ALLOCATION OF PRODUCTION:

5.

For the purpose of computing the share of production of the pooled mineral to which each interest owner shall be entitled from the pooled Unit, there shall be allocated to each tract committed to said Unit that pro rata portion of the pooled mineral produced from the pooled Unit which the number of surface acres covered by each such tract and included in the Unit bears to the total number of surface acres included in said Unit, and the share of production to which each interest owner is

entitled shall be computed on the basis of such owner's interest in the production so allocated to each tract.

RATIFICATION/WAIVER:

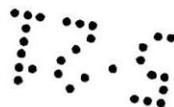

6.

Nothing in this Agreement, nor the approval of this Agreement by the School Land Board, nor the execution of this Agreement by the Commissioner shall: (1) operate as a ratification or revivor of any State lease or Pooling Agreement that has expired, terminated, or has been released in whole or in part or terminated under the their terms or the laws applicable thereto; (2) constitute a waiver or release of any claim for money, oil, gas or other hydrocarbons, or other thing due to the State or County by reason of the existence or failure of such lease or Pooling Agreement; (3) constitute a waiver or release of any claim by the State that such lease or Pooling Agreement is void or voidable for any reason, including, without limitation, violations of the laws of the State with respect to such lease or Pooling Agreement or failure of consideration; (4) constitute a confirmation or recognition of any boundary or acreage of any tract or parcel of land in which the State has or claims an interest; (5) constitute a ratification of, or a waiver or release of any claim by the State or the County with respect to any violation of a statute, regulation, or any of the common laws of this State, or any breach of any contract, duty, or other obligation owed to the State or the County; or (6) constitute a waiver of sovereign or governmental immunity.

Pooling Agreement 11066

Date filed: 7/22/21

Gregg. H. Bush, Commissioner  
By: MB Barnstone

CHANGE  
EFFECTIVE

**Mary Barnstone**

**From:** Jeremiah JOHNSON <jeremiah.johnson@total.com> *Date to 8/1/21*  
**Sent:** Monday, May 24, 2021 3:44 PM  
**To:** Mary Barnstone  
**Subject:** [EXTERNAL] RE: Anderson Unit - County ROW Pooling Agreement  
**Attachments:** GLO - TEP Barnett - Anderson Unit - Pooling Agreement Eff Date.pdf

Mary Beth,

I've attached a pdf copy of a letter which requests the effective date of Pooling Agreement M120413 be changed to 8/1/2021. By making this change it will allow us to finalize leasing efforts in this area such that we can record an amended designation of pooled unit and make necessary deck revisions prior to reporting to the State for a lease which we do not have set up in our system.

If you have any questions or would like to discuss please call me at 817-720-1146 or on my cell at 817-897-7532.

Thank you,

**Jeremiah Johnson**  
Senior Landman

**Subject:** [EXTERNAL] Anderson Unit - County ROW Pooling Agreement

Mary Beth,

I just received notification that the Anderson Unit – County ROW Pooling Agreement was delivered to the GLO office this morning at about 10:30.

I am still working on an effective date. I hope to have something to you in the next few days.

I will begin working on the amended unit agreement and will send you a copy for review when it is complete.

Thank you,

Jeremiah Johnson  
Senior Landman

Re: M-120413 GLO Unit No. 11066  
Anderson Unit Located in Tarrant County.  
Anderson 1H API# 42-439-35263  
Applicant Name: Total E&P USA Barnett, LLC  
Operator Number #: 842986

Dear Ms. Barnstone:

As we have discussed TEP Barnett USA, LLC (TEP) would like to request a new effective date for Pooling Agreement M-120413. The current effective date is March 12, 2021. TEP could like to request a new effective date of August 1, 2021. This will allow TEP to finalize leasing efforts in this area prior to revising our Designation of Pooled Unit and pay deck for the existing and new drill wells in the Anderson Unit.

I've enclosed a partially executed copy of Pooling Agreement M-120413 for reference.

Should you have any questions or need any additional information please let me know. I can be reached by phone at 817-720-1146 or by email at [jeremiah.johnson@total.com](mailto:jeremiah.johnson@total.com).

Cordially,

A handwritten signature in black ink, appearing to read "Jeremiah Johnson".

Jeremiah Johnson, Sr. Landman for TEP Barnett USA, LLC

Pooling Agreement M-120413

POOLING AGREEMENT PURSUANT TO TNRC §32.207  
STATE OF TEXAS / TEP BARNETT USA, LLC  
ANDERSON UNIT  
M-120413 GLO UNIT NO. 11066  
TARRANT COUNTY, TEXAS

INCLUDING PAYMENTS DIRECTLY TO COUNTY

THIS AGREEMENT ("Agreement") is made and entered into effective March 12, 2021, by and between the Commissioner of the General Land Office of the State of Texas (the "State"), and TEP Barnett USA, LLC hereinafter referred to as ("Lessee").

A. The State owns the minerals under approximately 0.2786 acres of E. Rosedale Street that are unleased and within the boundaries of the 302.16-acre Anderson Unit ("Unit"), said 0.2786 acres being hereinafter referred to as the "unleased interest".

B. Pursuant to Texas Natural Resources Code §32.207, the School Land Board has authority to pool the oil and gas under land owned by the State that was acquired to construct or maintain a highway, road, street, or alley ("ROW").

C. Lessee and the State desire to pool the unleased interest in the ROW into the Unit.

D. Pursuant to Texas Natural Resources Code §Sec. 32.2015, royalties due on lands owned by the State that were acquired by a county to construct a county road, such as the ROW, shall be paid to the county treasurer, or officer performing the function of that office, in the county in which the lands are located, for deposit to the credit of the county's road and bridge fund.

E. The School Land Board, at its regular meeting on March 12, 2021, determined that pooling the unleased interest into the Unit as further described in Exhibit "2" is in the best interest of the State.

NOW, THEREFORE, in consideration of the payment to Howard County (the "County") of \$557.20 and of the mutual agreements hereinafter set forth and together with other valuable consideration, the receipt and sufficiency of which are hereby acknowledged and on the terms and conditions contained herein, including in the Exhibits hereto, the parties agree as follows:

1. This Agreement is entered into pursuant to the authority granted in Chapters 32 and 52, of the Texas Natural Resources Code and Chapter 9 of Title 31 of the Texas Administrative Code and is intended to be performed pursuant to and in compliance with all applicable statutes, decisions, regulations, rules, orders and directives of any governmental agency having jurisdiction over the production and conservation of minerals from the Unit and in the interpretation and application hereof this Agreement shall be, in all things, subject thereto.

2. Lessee agrees to provide the General Land Office with a recorded copy of the instrument creating the Unit (Declaration or Designation etc.) and any Amendments to the Unit within thirty (30) days of recording. Lessee has the right to amend the Unit as may be provided in the leases pooled or the instrument creating the Unit, provided that any Amendment that will include additional unleased ROW requires School Land Board approval and consideration to be paid for the additional unleased ROW. The State and Lessee agree that nothing herein shall be construed as granting a leasehold interest to Lessee in the unleased interest but rather this Agreement is a contractual pooling of interests with the respective rights and duties of the parties defined in paragraph 3, below.

3. The rights and duties of the State and Lessee with respect to the unleased interest within the boundaries of the Unit shall be established, governed and controlled by the terms, conditions and covenants contained in Exhibit "1" and Exhibit "2" attached hereto and incorporated herein, wherein the State shall be considered the Lessor and the County shall receive its share of unit production in the form of a royalty as provided in Exhibit "1" and allocated to the County as provided in Exhibit "2" with no obligation to the County for operating costs of any kind, including but not limited to exploring, drilling, equipping, completion, treating, transporting, marketing, plugging, abandonment or restoration.

4. This Agreement shall remain in effect for a term of one year from the effective date, (herein called "primary term") and so long as the pooled mineral is being produced in paying quantities from the Unit, or so long as the instrument creating the Unit remains in effect; provided that this Agreement shall automatically terminate on the date production of the pooled mineral ceases and there are no further operations on the Unit to re-establish production of the pooled mineral, even though the instrument creating the pooled unit may remain in effect because a dissolution of unit has not been filed of record.

5. Production Sharing Agreements or similar type agreements may be submitted for execution by the State. Upon

finding that such an agreement is in the best interest of the State and upon submission of the required \$500.00 processing fee, the agreement will be submitted for execution by the Commissioner of the Texas General Land Office.

6. A counterpart hereof may be executed by each party to this Agreement, each of which shall be considered an original, and all of said counterparts shall be construed together as one instrument.

7. The terms and provisions hereof shall extend to and be binding upon the heirs, legal representatives, successors, and assigns of the parties hereto.

IN WITNESS WHEREOF, the parties have executed this Agreement upon the respective dates indicated below.

CERTIFICATE

I, Stephanie Crenshaw, Secretary of the School Land Board of the State of Texas, do hereby certify that at a meeting of the School Land Board duly held on March 12, 2021, the foregoing instrument was approved by said Board under the provisions of Chapter 32 and 52 of the Natural Resources Code all of which is set forth in the Minutes of the Board of which I am custodian.

IN TESTIMONY WHEREOF, witness my hand this the \_\_\_\_\_ day of \_\_\_\_\_, 2021.

\_\_\_\_\_  
Secretary of the School Land Board

## EXHIBIT "I"

§32.207 Exhibit I, Revised 11/2017

1. **RESERVATION AND GRANT:** There is hereby excepted and reserved to Lessor the full use of the property covered hereby and all rights with respect to the surface and subsurface thereof for any and all purposes except those granted to Lessee, being the right to explore for, drill and produce the pooled mineral from the pooled area, and Lessor further reserves the rights of ingress and egress and use of said lands by Lessor and its mineral lessees, for purposes of exploring for and producing the minerals and zones which are not covered by this Agreement. All of the rights in and to the pooled area retained by Lessor and all of the rights in and to the pooled area granted to Lessee herein shall be exercised in such a manner that neither shall unduly interfere with the operations of the other.

2. **PRODUCTION ROYALTIES:** Upon production of the pooled mineral, Lessee agrees to pay or cause to be paid to the County of Tarrant (the "County"), for the use and benefit of the County, during the term hereof:

(A) **OIL:** As a royalty on oil, which is defined as including all hydrocarbons produced in a liquid form at the mouth of the well and also all condensate, distillate, and other liquid hydrocarbons recovered from oil or gas run through a separator or other equipment, as hereinafter provided,  $\frac{1}{4}$  part of the gross production or the market value thereof, at the option of the Lessor, such value to be determined by 1) the highest posted price, plus premium, if any, offered or paid for oil, condensate, distillate, or other liquid hydrocarbons, respectively, of a like type and gravity in the general area where produced and when run, or 2) the highest market price thereof offered or paid in the general area where produced and when run, or 3) the gross proceeds of the sale thereof, whichever is the greater. Lessee agrees that before any gas produced from the land hereby pooled is sold, used or processed in a plant, it will be run free of cost to Lessor and County, through an adequate oil and gas separator of conventional type or other equipment at least as efficient to the end that all liquid hydrocarbons recoverable from the gas by such means will be recovered. Upon written consent of Lessor, the requirement that such gas be run through such a separator or other equipment may be waived upon such terms and conditions as prescribed by Lessor.

(B) **NON-PROCESSED GAS:** As a royalty on any gas (including flared gas), which is defined as all hydrocarbons and gaseous substances not defined as oil in subparagraph (A) above, produced from any well on said land (except as provided herein with respect to gas processed in a plant for the extraction of gasoline, liquid hydrocarbons or other products)  $\frac{1}{4}$  part of the gross production or the market value thereof, at the option of the Lessor, such value to be based on the highest market price paid or offered for gas of comparable quality in the general area where produced and when run, or the gross price paid or offered to the producer, whichever is greater provided that the maximum pressure base in measuring the gas under this agreement contract shall not at any time exceed 14.65 pounds per square inch absolute, and the standard base temperature shall be sixty (60) degrees Fahrenheit, correction to be made for pressure according to Boyle's Law, and for specific gravity according to test made by the Balance Method or by the most approved method of testing being used by the industry at the time of testing.

(C) **PROCESSED GAS:** As a royalty on any gas processed in a gasoline plant or other plant for the recovery of gasoline or other liquid hydrocarbons,  $\frac{1}{4}$  part of the residue gas and the liquid hydrocarbons extracted or the market value thereof, at the option of the Lessor. All royalties due herein shall be based on one hundred percent (100%) of the total plant production of residue gas attributable to gas produced from this agreement, and on fifty percent (50%) of that percent accruing to Lessee, whichever is the greater, of the total plant production of liquid hydrocarbons, attributable to the gas produced from this agreement; provided that if liquid hydrocarbons are recovered from gas processed in a plant in which Lessee (or its parent, subsidiary or affiliate) owns an interest, then the percentage applicable to liquid hydrocarbons shall be fifty percent (50%) or the highest percent accruing to a third party processing gas through such plant under a processing agreement negotiated at arms' length (or if there is no such third party, the highest percent then being specified in processing agreements or contracts in the industry), whichever is the greater. The respective royalties on residue gas and on liquid hydrocarbons shall be determined by 1) the highest market price paid or offered for any gas (or liquid hydrocarbons) of comparable quality in the general area or 2) the gross price paid or offered for such residue gas (or the weighted average gross selling price for the respective grades of liquid hydrocarbons), whichever is the greater. In no event, however, shall the royalties payable under this paragraph be less than the royalties which would have been due had the gas not been processed.

(D) **OTHER PRODUCTS:** As a royalty on carbon black, sulphur or any other products produced or manufactured from gas (excepting liquid hydrocarbons) whether said gas be "casinghead," "dry" or any other gas, by fractionating, burning or any other processing,  $\frac{1}{4}$  part of the gross production of such products, or the market value thereof, at the option of Lessor, such market value to be determined as follows:

- (1) On the basis of the highest market price of each product, during the same month in which such product is produced, or
- (2) On the basis of the average gross sale price of each product for the same month in which such products are produced; whichever is the greater.

(E) **NO DEDUCTIONS:** Lessee agrees that all royalties accruing to the County under this agreement shall be without deduction for the cost of producing, transporting, and otherwise making the oil, gas and other products produced hereunder ready for sale or use.

(F) **ROYALTY IN KIND:** Notwithstanding anything contained herein to the contrary, the County may, at its option, upon not less than 60 days notice to Lessee, require at any time or from time to time that payment of all or any royalties accruing to the County under this agreement be made in kind without deduction for the cost of producing, gathering, storing, separating, treating, dehydrating, compressing, processing, transporting and otherwise making the oil, gas and other products produced hereunder ready for sale or use. The County's right to take its royalty in kind shall not diminish or negate the County's rights or Lessee's obligations, whether express or implied, under this agreement.

(G) **PLANT FUEL AND RECYCLED GAS:** No royalty shall be payable on any gas as may represent this agreement's proportionate share of any fuel used to process gas produced hereunder in any processing plant. Notwithstanding anything contained herein to the contrary, Lessee may recycle gas for gas lift purposes on the pooled area after the liquid hydrocarbons contained in the gas have been removed, and no royalties shall be payable on the gas so recycled until such time as the same may thereafter be produced and sold or used by Lessee in such manner as to entitle the County to a royalty thereon under the royalty provisions of this agreement.

3. **ROYALTY PAYMENTS AND REPORTS:** All royalties not taken in kind shall be paid to the County, in the following manner:

(A) Payment of the County's royalty on production of oil and gas shall be made directly to the County treasurer, or officer performing the function of that office, for deposit to the credit of the County's road and bridge fund. Royalty on oil is due and must be received in the County on or before the 5th day of the second month succeeding the month of production, and royalty on gas is due and must be received in the County on or before the 15th day of the second month succeeding the month of production, accompanied by an affidavit of the owner, manager or other authorized agent, if required by the County, completed in the form (if any) and manner prescribed by the County and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, as well as a copy of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records which the County may require to verify the gross production, disposition and market value. Each royalty payment shall be accompanied by a check stub, schedule, summary or other remittance advice showing by the assigned General Land Office lease number the amount of royalty being paid to each lease number. If Lessee pays his royalty on or before thirty (30) days after the royalty payment was due, then Lessee owes a penalty of 5% on the royalty or \$25.00, whichever is greater. A royalty payment which is over thirty (30) days late shall accrue a penalty of 10% of the royalty due or \$25.00 whichever is greater. In addition to a penalty, royalties shall accrue interest at the rate established by the General Land Office for royalties due to the Permanent School Fund; such interest will begin accruing when the royalty is sixty (60) days overdue. Affidavits and supporting documents which are not filed when due shall incur a penalty in an amount set by the General Land Office for State mineral lease reporting according to the administrative rules effective on the date when the affidavits or supporting documents were due. The Lessee shall bear all responsibility for paying or causing royalties to be paid as prescribed by the due date provided herein. Payment of the delinquency penalty shall in no way operate to prohibit the State's right of forfeiture as provided by law nor act to postpone the date on which royalties were originally due. The above penalty provisions shall not apply in cases of title dispute as to the County's portion of the royalty or to that portion of the royalty in dispute as to fair market value.

(B) For all royalty payments made pursuant to this paragraph 3, even though the payments are made directly to the County, Lessee must submit to the General Land Office (1) the affidavit of the owner, manager, or other authorized agent, completed in the form and manner prescribed by the General Land Office and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, together with a copy of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records which the General Land Office may require to verify the gross production, disposition and market value, and (2) any other production/royalty reports required to be made pursuant to the Texas Administrative Code as applicable to minerals leased from the Permanent School Fund, even though royalty payments hereunder are made directly to the County. In all cases the authority of a manager or agent to act for the Lessee herein must be filed in the General Land Office. Affidavits and supporting documents which are not filed when due shall incur a penalty in an amount set by the General Land Office administrative rule which is effective on the date when the affidavits or supporting documents were due.
