PAID-UP

OIL AND GAS LEASE NO. M-94397
GENERAL LAND OFFICE
AUSTIN, TEXAS

THIS AGREEMENT made and entered into by and between the Commissioner of the General Land Office of the State of Texas, whose address is Stephen F. Austin Building, 1700 North Congress, Austin, Texas, 78701, hereinafter called "Lessor", hereunto authorized by the School Land Board, pursuant to the provisions of Chapters 32, 34 and 52 of the Natural Resources Code (hereinafter called N.R.C.), and amendments thereto, and all applicable rules promulgated by the School Land Board, and Keith D. Graham, whose address is 110 Wild Basin Road, Ste. 250 Austin, Texas 78746-3338, hereinafter called "Lessee". 41000026175

1. Lessor, in consideration of Five Hundred Sixty One and 68/100 Dollars ($561.68), receipt of which is hereby acknowledged, and of the covenants and agreements of Lessee hereinafter contained, does hereby grant, lease, and let unto Lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, and all other hydrocarbons, produced from the land covered hereby. The land covered hereby, herein called "said land" is located in the County of Brazos, State of Texas, and is described as follows:

> 5.6168 acres of land, more or less, situated in the John Williams Survey, Abstract No. 237 in Brazos County, Texas, more particularly described in Exhibit "A"

attached hereto and made a part hereof together with a plat, attached hereto as Exhibit "B", depicting said right-of-way and surrounding area for purposes of illustration only.

For the purpose of determining the amount of any bonus or other payment hereunder, said land shall be deemed to contain 5.6168 acres, whether actually containing more or less, and the above recital of acreage shall be deemed to be the true acreage thereof. Lessor accepts the bonus as lump sum consideration for this lease and all rights and options hereunder.

2. PRIMARY TERM: This lease, which is a "paid up" lease requiring no rentals, shall remain in force for a term of three years (3) years from September 3, 1991, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. ROYALTIES: As royalty Lessee covenants and agrees:

(a) To deliver to the credit of Lessor, in the pipe line to which Lessee may connect its well, the equal three-sixteenths (3/16) part of all oil produced and saved by Lessee from said land, or from time to time, at the option of Lessee, to pay Lessor the average posted market price of such three-sixteenths (3/16) part of such oil at the wells as of the day it is run to the pipe line or storage tanks, Lessor's interest, in either case, to bear three-sixteenths (3/16) of the cost of treating oil to render it marketable pipe line oil;

(b) To pay Lessor on gas and casinghead gas produced from said land (1) when sold by lessee, three-sixteenths (3/16) of the amount realized by Lessee, computed at the mouth of the well, or (2) when used by Lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of three-sixteenths (3/16) of such gas and casinghead gas.

(c) If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-in, and thereafter this lease may be continued in force as if no shut-in had occurred.

(d) Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, Lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines,

separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to Lessee.

(e) If at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check of lessee, as royalty, the sum of $5.62. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

(f) All royalties not taken in kind shall be paid to the Commissioner of the General Land Office at Austin, Texas, in the following manner:

Royalty on oil is due and must be received in the General Land Office on or before the 5th day of the second month succeeding the month of production, and royalty on gas is due and must be received in the General Land Office on or before the 15th day of the second month succeeding the month of production, accompanied by the affidavit of the owner, manager, or other authorized agent, completed in the form and manner prescribed by the General Land Office and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, together with a copy of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records which the General Land Office may require to verify the gross production, disposition and market value. In all cases the authority of a manager or agent to act for the Lessee herein must be filed in the General Land Office. Each royalty payment shall be accompanied by a check stub, schedule, summary or other remittance advice showing by the assigned General Land Office lease number the amount of royalty being paid on each lease. If Lessee pays his royalty on or before thirty (30) days after the royalty payment was due, the Lessee owes a penalty of 5% on the royalty or $25.00, whichever is greater. A royalty payment which is over thirty (30) days late shall accrue a penalty of 10% of the royalty due or $25.00, whichever is greater. In addition to a penalty, royalties shall accrue interest at a rate of 12% per year; such interest will

begin accruing when the royalty is sixty (60) days overdue. Affidavits and supporting documents which are not filed when due shall incur a penalty in an amount set by the General Land Office administrative rule which is effective on the date when the affidavits or supporting documents were due. The Lessee shall bear all responsibility for paying or causing royalties to be paid as prescribed by the due date provided herein. Payment of the delinquency penalty shall in no way operate to prohibit the State's right of forfeiture as provided by law nor act to postpone the date on which royalties were originally due. The above penalty provisions shall not apply in cases of title dispute as to the State's portion of the royalty or to that portion of the royalty in dispute as to fair market value. The State shall have first lien upon all oil and gas produced from the area covered by this lease to secure the payment of all unpaid royalty and other sums of money that may become due to the State hereunder.

4. POOLING: (a) Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons. Units pooled for oil hereunder shall not exceed 160 acres each in area, and units pooled for gas hereunder shall not exceed in area 640 acres each plus a tolerance of ten percent (10%) thereof, unless oil or gas units of a greater size are allowed under or prescribed by rules of the Railroad Commission of Texas. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, as operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) the proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any

shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of Lessee to release as provided in paragraph 5 hereof, except that Lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force Lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force for so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but Lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

(b) Neither unit production of oil or gas, nor unit operations, nor payment of shut-in royalties from a unit gas well, shall serve to hold the lease in force as to any area outside the unit, regardless of whether the production, maintenance of a shut-in gas well, or operations are actually located on the State tract or not.

(c) Lessee agrees to file with the General Land Office a copy of any unit designation which this lease is included within ninety (90) days of such designation.

(d) It is understood and provided this lease cannot be held, maintained nor extended by virtue of the shut-in gas well provision of this lease for a longer term than the primary term and two (2) years immediately thereafter, and from time to time thereafter for non-consecutive periods of not more than one (1) year each.

5. RELEASE: Lessee may relinquish the rights granted hereunder to the State at any time by recording the relinquishment in the county where this area is situated and filing the recorded relinquishment or certified copy of same in the General Land Office within ninety (90) days after its execution accompanied by the prescribed filing fee. Such relinquishment will not have the effect of releasing Lessee from any liability theretofore accrued in favor of the State.

6. REWORK: If at any time or times during the primary term operations are conducted on said land and if all operations are

discontinued, this lease shall thereafter terminate at the end of the primary term or on the ninetieth day after discontinuance of all operations, whichever is the later date, unless on such later date either (1) Lessee is conducting operations or (2) the shut-in well provisions of paragraph 3 or the provisions of paragraph 9 are applicable. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil or gas, or production of oil or gas in paying quantities.

7. MINERAL USE: Lessee shall have the use, free from royalty, of oil and gas produced from said land in all operations hereunder.

8. NOTICE: In the event Lessor considers that Lessee has not complied with all its obligations hereunder, both express and implied, Lessor shall notify Lessee in writing, setting out specifically in what respects Lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by Lessor. The service of said notice shall be precedent to the bringing of any action by Lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on Lessee. Neither the service of said notice nor the doing of any acts by Lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that Lessee has failed to perform all its obligations hereunder. If this lease is canceled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by Lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations. Lessee shall also have such easements on said land as are necessary to operations on the acreage so retained.

9. FORCE MAJEURE: If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and Lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of Lessee, the primary term shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

10. LESSER ESTATE CLAUSE: If this lease covers a less interest in the oil or gas in all or any part of said land than the entire and undivided fee simple estate (whether lessors interest is herein specified or not), or no interest therein, then the royalties, and other monies accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease bears to the whole and undivided fee simple estate therein.

11. ASSIGNMENTS: This lease may be transferred at any time. All transfers must reference the lease by file number and must be recorded in the county where the land covered hereby is located, and the recorded transfer or a copy certified to by the County Clerk of the county where the transfer is recorded must be filed in the General Land Office within ninety (90) days of the execution date, as provided by N.R.C. Section 52.026, accompanied by the prescribed filing fee. Every transferee shall succeed to all rights and be subject to all obligations, liabilities, and penalties owed to the State by the original Lessee or any prior transferee of the lease, including any liabilities to the State for unpaid royalties.

12. WELL INFORMATION: Lessee agrees to forthwith furnish Lessor, upon written request, with copies of all drilling logs, electrical logs, cores and core records and other information pertaining to all wells drilled by lessee either on the leased premises or acreage pooled therewith, when requested to do so. Said information shall remain confidential as required by statute.

13. SURFACE: Notwithstanding anything herein to the contrary, it is agreed that Lessee will not conduct any exploration or drilling on the surface of the leased premises or use the surface in the exercise of any rights herein granted. Any development of said land shall be by means of a directional well located off the leased premises, or by pooling of said land with other land, lease or leases as hereinabove provided.

14. COMPENSATORY ROYALTY: Lessee shall pay a compensatory royalty if this lease is not being held by production on the leased premises, by production from a pooled unit, or by payment of shut-in royalties in accordance with the terms of this lease, and if oil or gas is sold or delivered in paying quantities from a well located within 2500 feet of the leased premises and completed in a producible reservoir underlying the area leased hereunder or in any case in which drainage is occurring. Such compensatory royalty shall be paid at the royalty rate provided in this lease based on the value of production from the well as provided in the lease on which such well is located. The compensatory royalty shall be paid in the same proportion that the acreage of this lease has to the acreage of the proration unit surrounding the draining well plus the acreage of this lease. The compensatory royalty shall be paid monthly to the Commissioner of the General Land Office on or before

the last day of the month after the month in which the oil or gas is sold and delivered from the well causing the drainage or from the well located within 2500 feet of the leased premises and completed in a producible reservoir under this lease. Notwithstanding anything herein to the contrary, compensatory royalty payable hereunder shall be no less than an amount equal to $11.24, and shall maintain this lease in effect for so long as such payments are made as provided herein.

15. FORFEITURE: If Lessee shall fail or refuse to make payment of any sum within thirty (30) days after it becomes due, or if Lessee or an authorized agent should knowingly make any false return or false report concerning production or drilling, or if Lessee shall fail or refuse to drill any offset well or wells in good faith as required by law and the rules and regulations adopted by the Commissioner of the General Land Office, or if Lessee should fail to file reports in the manner required by law or fail to comply with rules and regulations promulgated by the General Land Office, or refuse the proper authority access to the records pertaining to operations, or if Lessee or an authorized agent should knowingly fail or refuse to give correct information to the proper authority, or knowingly fail or refuse to furnish the General Land Office a correct log of any well, or if this lease is pooled or assigned and the unit designation or assignment is not filed in the General Land Office as required by law, the rights acquired under this lease shall be subject to forfeiture by the Commissioner, and he shall forfeit same when sufficiently informed of the facts which authorize a forfeiture, and when forfeited the area shall again be subject to lease. However, nothing herein shall be construed as waiving the automatic termination of this lease by operations of law or by reason of any special limitation arising hereunder. Forfeitures may be set aside and this lease and all rights thereunder reinstated before the rights of another intervene upon satisfactory evidence to the Commissioner of the General Land Office of future compliance with the provisions of the law and of this lease and the rules and regulations that may be adopted relative hereto.

16. RAILROAD COMMISSION: No natural gas or casinghead gas, including both associated and non-associated gas, produced from the mineral estate subject to this lease may be sold or contracted for sale to any person for ultimate use outside the State unless the Railroad Commission of Texas, after notice and hearing as provided in Title 3 of the N.R.C., finds that:

(a) the person, agency, or entity that executed the lease in question does not require the natural gas or casinghead gas to meet its own existing needs for fuel;

(b) no private or public hospital, nursing home, or other similar health-care facility in this state requires the natural gas or casinghead gas to meet its existing needs for fuel;

(c) no public or private school in this state that

provides elementary, secondary, or higher education requires the natural gas or casinghead gas to meet its existing needs for fuel;

(d) no facility of the State or of any county, municipality, or other political subdivision in this state requires the natural gas or casinghead gas to meet its existing needs for fuel;

(e) no producer of food and fiber requires the natural gas or casinghead gas necessary to meet the existing needs of irrigation pumps and other machinery directly related to this production; and

(f) no person who resides in this state and who relies on natural gas or casinghead gas to provide in whole or part his existing needs for fuel or raw material requires the natural gas or casinghead gas to meet those needs; provided, however, after notice and hearing as provided in Title 3 of the N.R.C., the Railroad Commission of Texas may grant exceptions to these provisions of Subchapter H of Chapter 52 of the N.R.C. if it finds and determines that enforcement of such provisions:

(1) would cause physical waste as defined in Title 3 of the N.R.C.; or

(2) would unreasonably deny to the Lessee an opportunity to produce economically hydrocarbons from the land subject to this lease.

IN TESTIMONY WHEREOF, witness the signature of the Commissioner of the General Land Office, under the seal of the General Land Office, effective as of September 3, 1991.

5.6168 acres of land, more or less, situated in the John Williams Survey, Abstract No. 237 in Brazos County, Texas, more particularly described in Exhibit "A"

attached hereto and made a part hereof together with a plat, attached hereto as Exhibit "B", depicting said right-of-way and surrounding area for purposes of illustration only.

For the purpose of determining the amount of any bonus or other payment hereunder, said land shall be deemed to contain 5.6168 acres, whether actually containing more or less, and the above recital of acreage shall be deemed to be the true acreage thereof. Lessor accepts the bonus as lump sum consideration for this lease and all rights and options hereunder.

2. PRIMARY TERM: This lease, which is a "paid up" lease requiring no rentals, shall remain in force for a term of three years (3) years from September 3, 1991, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. ROYALTIES: As royalty Lessee covenants and agrees:

(a) To deliver to the credit of Lessor, in the pipe line to which Lessee may connect its well, the equal three-sixteenths (3/16) part of all oil produced and saved by Lessee from said land, or from time to time, at the option of Lessee, to pay Lessor the average posted market price of such three-sixteenths (3/16) part of such oil at the wells as of the day it is run to the pipe line or storage tanks, Lessor's interest, in either case, to bear three-sixteenths (3/16) of the cost of treating oil to render it marketable pipe line oil;

(b) To pay Lessor on gas and casinghead gas produced from said land (1) when sold by lessee, three-sixteenths (3/16) of the amount realized by Lessee, computed at the mouth of the well, or (2) when used by Lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of three-sixteenths (3/16) of such gas and casinghead gas.

(c) If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-in, and thereafter this lease may be continued in force as if no shut-in had occurred.

(d) Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, Lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines,

VOL 1349 PAGE 327

separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to Lessee.

(e) If at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check of lessee, as royalty, the sum of $5.62. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

(f) All royalties not taken in kind shall be paid to the Commissioner of the General Land Office at Austin, Texas, in the following manner:

Royalty on oil is due and must be received in the General Land Office on or before the 5th day of the second month succeeding the month of production, and royalty on gas is due and must be received in the General Land Office on or before the 15th day of the second month succeeding the month of production, accompanied by the affidavit of the owner, manager, or other authorized agent, completed in the form and manner prescribed by the General Land Office and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, together with a copy of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records which the General Land Office may require to verify the gross production, disposition and market value. In all cases the authority of a manager or agent to act for the Lessee herein must be filed in the General Land Office. Each royalty payment shall be accompanied by a check stub, schedule, summary or other remittance advice showing by the assigned General Land Office lease number the amount of royalty being paid on each lease. If Lessee pays his royalty on or before thirty (30) days after the royalty payment was due, the Lessee owes a penalty of 5% on the royalty or $25.00, whichever is greater. A royalty payment which is over thirty (30) days late shall accrue a penalty of 10% of the royalty due or $25.00, whichever is greater. In addition to a penalty, royalties shall accrue interest at a rate of 12% per year; such interest will

VOL 1349 PAGE 328

begin accruing when the royalty is sixty (60) days overdue. Affidavits and supporting documents which are not filed when due shall incur a penalty in an amount set by the General Land Office administrative rule which is effective on the date when the affidavits or supporting documents were due. The Lessee shall bear all responsibility for paying or causing royalties to be paid as prescribed by the due date provided herein. Payment of the delinquency penalty shall in no way operate to prohibit the State's right of forfeiture as provided by law nor act to postpone the date on which royalties were originally due. The above penalty provisions shall not apply in cases of title dispute as to the State's portion of the royalty or to that portion of the royalty in dispute as to fair market value. The State shall have first lien upon all oil and gas produced from the area covered by this lease to secure the payment of all unpaid royalty and other sums of money that may become due to the State hereunder.

4. POOLING: (a) Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons. Units pooled for oil hereunder shall not exceed 160 acres each in area, and units pooled for gas hereunder shall not exceed in area 640 acres each plus a tolerance of ten percent (10%) thereof, unless oil or gas units of a greater size are allowed under or prescribed by rules of the Railroad Commission of Texas. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, as operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) the proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any

shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of Lessee to release as provided in paragraph 5 hereof, except that Lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force Lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force for so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but Lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

(b) Neither unit production of oil or gas, nor unit operations, nor payment of shut-in royalties from a unit gas well, shall serve to hold the lease in force as to any area outside the unit, regardless of whether the production, maintenance of a shut-in gas well, or operations are actually located on the State tract or not.

(c) Lessee agrees to file with the General Land Office a copy of any unit designation which this lease is included within ninety (90) days of such designation.

(d) It is understood and provided this lease cannot be held, maintained nor extended by virtue of the shut-in gas well provision of this lease for a longer term than the primary term and two (2) years immediately thereafter, and from time to time thereafter for non-consecutive periods of not more than one (1) year each.

5. RELEASE: Lessee may relinquish the rights granted hereunder to the State at any time by recording the relinquishment in the county where this area is situated and filing the recorded relinquishment or certified copy of same in the General Land Office within ninety (90) days after its execution accompanied by the prescribed filing fee. Such relinquishment will not have the effect of releasing Lessee from any liability theretofore accrued in favor of the State.

6. REWORK: If at any time or times during the primary term operations are conducted on said land and if all operations are

discontinued, this lease shall thereafter terminate at the end of the primary term or on the ninetieth day after discontinuance of all operations, whichever is the later date, unless on such later date either (1) Lessee is conducting operations or (2) the shut-in well provisions of paragraph 3 or the provisions of paragraph 9 are applicable. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil or gas, or production of oil or gas in paying quantities.

7. MINERAL USE: Lessee shall have the use, free from royalty, of oil and gas produced from said land in all operations hereunder.

8. NOTICE: In the event Lessor considers that Lessee has not complied with all its obligations hereunder, both express and implied, Lessor shall notify Lessee in writing, setting out specifically in what respects Lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by Lessor. The service of said notice shall be precedent to the bringing of any action by Lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on Lessee. Neither the service of said notice nor the doing of any acts by Lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that Lessee has failed to perform all its obligations hereunder. If this lease is canceled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by Lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations. Lessee shall also have such easements on said land as are necessary to operations on the acreage so retained.

9. FORCE MAJEURE: If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and Lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of Lessee, the primary term shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

10. LESSER ESTATE CLAUSE: If this lease covers a less interest in the oil or gas in all or any part of said land than the entire and undivided fee simple estate (whether lessors interest is herein specified or not), or no interest therein, then the royalties, and other monies accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease bears to the whole and undivided fee simple estate therein.

11. ASSIGNMENTS: This lease may be transferred at any time. All transfers must reference the lease by file number and must be recorded in the county where the land covered hereby is located, and the recorded transfer or a copy certified to by the County Clerk of the county where the transfer is recorded must be filed in the General Land Office within ninety (90) days of the execution date, as provided by N.R.C. Section 52.026, accompanied by the prescribed filing fee. Every transferee shall succeed to all rights and be subject to all obligations, liabilities, and penalties owed to the State by the original Lessee or any prior transferee of the lease, including any liabilities to the State for unpaid royalties.

12. WELL INFORMATION: Lessee agrees to forthwith furnish Lessor, upon written request, with copies of all drilling logs, electrical logs, cores and core records and other information pertaining to all wells drilled by lessee either on the leased premises or acreage pooled therewith, when requested to do so. Said information shall remain confidential as required by statute.

13. SURFACE: Notwithstanding anything herein to the contrary, it is agreed that Lessee will not conduct any exploration or drilling on the surface of the leased premises or use the surface in the exercise of any rights herein granted. Any development of said land shall be by means of a directional well located off the leased premises, or by pooling of said land with other land, lease or leases as hereinabove provided.

14. COMPENSATORY ROYALTY: Lessee shall pay a compensatory royalty if this lease is not being held by production on the leased premises, by production from a pooled unit, or by payment of shut-in royalties in accordance with the terms of this lease, and if oil or gas is sold or delivered in paying quantities from a well located within 2500 feet of the leased premises and completed in a producible reservoir underlying the area leased hereunder or in any case in which drainage is occurring. Such compensatory royalty shall be paid at the royalty rate provided in this lease based on the value of production from the well as provided in the lease on which such well is located. The compensatory royalty shall be paid in the same proportion that the acreage of this lease has to the acreage of the proration unit surrounding the draining well plus the acreage of this lease. The compensatory royalty shall be paid monthly to the Commissioner of the General Land Office on or before

the last day of the month after the month in which the oil or gas is sold and delivered from the well causing the drainage or from the well located within 2500 feet of the leased premises and completed in a producible reservoir under this lease. Notwithstanding anything herein to the contrary, compensatory royalty payable hereunder shall be no less than an amount equal to $11.24, and shall maintain this lease in effect for so long as such payments are made as provided herein.

15. FORFEITURE: If Lessee shall fail or refuse to make payment of any sum within thirty (30) days after it becomes due, or if Lessee or an authorized agent should knowingly make any false return or false report concerning production or drilling, or if Lessee shall fail or refuse to drill any offset well or wells in good faith as required by law and the rules and regulations adopted by the Commissioner of the General Land Office, or if Lessee should fail to file reports in the manner required by law or fail to comply with rules and regulations promulgated by the General Land Office, or refuse the proper authority access to the records pertaining to operations, or if Lessee or an authorized agent should knowingly fail or refuse to give correct information to the proper authority, or knowingly fail or refuse to furnish the General Land Office a correct log of any well, or if this lease is pooled or assigned and the unit designation or assignment is not filed in the General Land Office as required by law, the rights acquired under this lease shall be subject to forfeiture by the Commissioner, and he shall forfeit same when sufficiently informed of the facts which authorize a forfeiture, and when forfeited the area shall again be subject to lease. However, nothing herein shall be construed as waiving the automatic termination of this lease by operations of law or by reason of any special limitation arising hereunder. Forfeitures may be set aside and this lease and all rights thereunder reinstated before the rights of another intervene upon satisfactory evidence to the Commissioner of the General Land Office of future compliance with the provisions of the law and of this lease and the rules and regulations that may be adopted relative hereto.

16. RAILROAD COMMISSION: No natural gas or casinghead gas, including both associated and non-associated gas, produced from the mineral estate subject to this lease may be sold or contracted for sale to any person for ultimate use outside the State unless the Railroad Commission of Texas, after notice and hearing as provided in Title 3 of the N.R.C., finds that:

(a) the person, agency, or entity that executed the lease in question does not require the natural gas or casinghead gas to meet its own existing needs for fuel;

(b) no private or public hospital, nursing home, or other similar health-care facility in this state requires the natural gas or casinghead gas to meet its existing needs for fuel;

(c) no public or private school in this state that

provides elementary, secondary, or higher education requires the natural gas or casinghead gas to meet its existing needs for fuel;

(d) no facility of the State or of any county, municipality, or other political subdivision in this state requires the natural gas or casinghead gas to meet its existing needs for fuel;

(e) no producer of food and fiber requires the natural gas or casinghead gas necessary to meet the existing needs of irrigation pumps and other machinery directly related to this production; and

(f) no person who resides in this state and who relies on natural gas or casinghead gas to provide in whole or part his existing needs for fuel or raw material requires the natural gas or casinghead gas to meet those needs; provided, however, after notice and hearing as provided in Title 3 of the N.R.C., the Railroad Commission of Texas may grant exceptions to these provisions of Subchapter H of Chapter 52 of the N.R.C. if it finds and determines that enforcement of such provisions:

(1) would cause physical waste as defined in Title 3 of the N.R.C.; or

(2) would unreasonably deny to the Lessee an opportunity to produce economically hydrocarbons from the land subject to this lease.

IN TESTIMONY WHEREOF, witness the signature of the Commissioner of the General Land Office, under the seal of the General Land Office, effective as of September 3, 1991.

Dear Commissioner Mauro:

Please find attached three revised copies of the field notes and sketches for the following proposed lease.

County	Nominator	Bonus	Royalty	Primary Term	Delay Rental
Brazos	Keith D. Graham	$100.00	3/16	3 Years	Paid up

This application by Mr. Graham was previously approved by the School Land Board at their regular meeting on September 3, 1991, under Docket No. 206.

The amount of highway acreage to be leased has increased from 4.57 acres to 5.6168 acres. In our review of this additional acreage to the previously approved acreage, we found that it was included in the original Title Opinion; therefore, we have no objections to this added increase.

If additional information is needed, please contact Jimmy Perry at (512) 835-0803.

Sincerely,

Gary Bernethy, P.E.

Re: Application to lease 4.57 acres of State Highway 21 in the John Williams Survey, Abstract 237 of Brazos County, Texas.

Dear Mr. Morgan,

Re: Application to Lease
State Owned Minerals
State Highway 21
Brazos County, Texas

Dear Ms. Hyatt:

Keith D. Graham does hereby make application to lease acreage within the referenced right-of-way. This oil and gas lease is for horizontal drilling only and our plans are to pass under and across the subject right-of-way. The location of said right-of-way covering approximately 4.42 acres is shown on the attached plat.

All of the mineral rights adjoining said right-of-way are subject to valid oil and gas leases which are owned by Union Pacific Resources Company, P. O. Box 7, Fort Worth, Texas 76101-0007. The Rose E. Putz lease covers 67.906 acres on each side of the right-of-way along the west end and shown in blue on the attached plat. The Leon L. Bienski et ux lease covers 40 acres on each side of the right-of-way along the east end and is shown in green on the attached plat.

Keith D. Graham is finalizing a Letter Agreement with Union Pacific Resources Company, dated July 18, 1991, for the purpose of forming a drilling unit and drilling a horizontal well in the Austin-Chalk formation. Keith D. Graham's contribution of leases to this unit is shown in yellow and do not border the subject right-of-way.

Also enclosed with this application are the following:

1. Copy of a title opinion dated July 25, 1991 from David B. McCall to Omni Petroleum Corporation.

2. A check from Omni Petroleum Corporation to the Commissioner of the General Land Office for the $100.00 processing fee.

3. Copy of an original, recorded oil and gas lease dated January 31, 1991, from Rose E. Putz to Union Pacific Resources Company, covering 67.906 acres, more or less, and recorded in Volume 1245 at Page 237 of the Official Records of Brazos County, Texas.

4. Copy of an original, recorded oil and gas lease dated February 19, 1991, from Leon L. Bienski et ux to Union Pacific Resources Company, covering 40.00 acres more or less, and recorded in Volume 1263 at Page 184 of the Official Records of Brazos County, Texas.

5. Affidavit by Steve King stating that the bonus consideration paid for each lease was $100.00 per acre.

6. Waiver of right to receive statutory notice of intent to lease and of the preferential right to lease the adjacent right-of-way tract executed by Union Pacific Resources Company.

7. Affidavit by Darla Ross stating that on January 1, 1985, there was no well capable of producing oil or gas in paying quantities within 2500 feet of the subject right-of-way. This is submitted with the understanding that this requirement is no longer in effect, due to recent legislation and the fact that this lease is for horizontal drilling only.

8. Plat showing the location of each lease.

Also enclosed is a copy of a plat we obtained from the Department of Highways and Public Transportation.

Should you have any questions or we can provide anything further, please call. Thank you in advance for your consideration of our application.

Re: Right-of-Way Trust

Dear Don:

We have reviewed a right-of-way deed from Jacob Schramek, et ux to the State of Texas, dated February 10, 1931 and recorded in Volume 79, Page 298, Deed Records of Brazos County, Texas. For your convenience, a copy of this instrument is attached hereto. Based upon this review, we are of the opinion that the State of Texas is the fee owner of the 5.45 acres described in this deed. Accordingly, you will need to secure a lease from the State of Texas on this acreage if you desire to utilize same in your oil and gas operations.

At your request, we have also reviewed a deed from Rosa S. Putz and husband, John Putz, to the State of Texas, dated January 18, 1956 and recorded in Volume 172, Page 504, Deed Records of Brazos County, Texas. A copy of this instrument is appended hereto. Based upon our review of this deed, we are of the opinion that the State of Texas owns only the surface of the acreage described in this deed, and no mineral rights.

Please let me know if you need any further information.

Yours truly,

David B. McCall

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT made this 19th day of February 19 91, between

Leon L. Bienski and wife Dorothy Bienski

Lessor (whether one or more), whose address is: P.O. Box 43, Pattison, Texas 77466

and Union Pacific Resources Company, P.O. Box 7, Ft. Worth, Texas 76101-0007 Lessee, WITNESSETH:

1. Lessor in consideration of ----------ten and other valuable consideration---------- Dollars ($ 10.00 & OVC), in hand paid, of the royalties herein provided, and of the agreements of Lessee herein contained, hereby grants, leases and lets exclusively unto Lessee for the purpose of investigating, exploring, prospecting, drilling and mining for and producing oil, gas and all other minerals, conducting exploration, geologic and geophysical surveys by seismograph, core test, gravity and magnetic methods, injecting gas, water and other fluids, and air into subsurface strata, laying pipe lines, building roads, tanks, power stations, telephone lines and other structures thereon and on, over and across lands owned or claimed by Lessor adjacent and contiguous thereto, to produce, save, take care of, treat, transport and own said products, and housing its employees, the following described land in Brazos County, Texas, to-wit:

40 acres of land, more or less, out of the John Williams Survey A-237, Brazos County, Texas and being the same land described in that certain deed dated August 28, 1946 from Jacob Sramek and others to John N. Sramek, recorded in Volume 126, Page 239 of the Deed Records of Brazos County, Texas.

This lease also covers and includes all land owned or claimed by Lessor adjacent or contiguous to the land particularly described above, whether the same be in said survey or surveys or in adjacent surveys, although not included within the boundaries of the land particularly described above.

2. This is a paid up lease and subject to the other provisions herein contained, this lease shall be for a term of 3 years from this date (called "primary term") and as long thereafter as oil, gas or other mineral is produced from said land or land with which said land is pooled hereunder.

3. As royalty, lessee covenants and agrees: (a) To deliver to the credit of lessor, in the pipelines to which lessee may connect its wells, the equal one-eighth part of all oil produced and saved by lessee from said land, or from time to time, at the option of lessee, to pay lessor the average posted market price of such one-eighth part of such oil at the wells as of the day it is run to the pipe line or storage tanks, lessor's interest, in either case, to bear one-eighth of the cost of treating oil to render it marketable pipe line oil; (b) to pay lessor for gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, one-eighth of the amount realized from the sale of gasoline or other products extracted therefrom and one-eighth of the amount realized from the sale of residue gas after deducting the amount used for plant fuel and/or compression; (c) To pay lessor on all other minerals mined and marketed or utilized by lessee from said land, one-tenth either in kind or value at the well or mine at lessee's election, except that on sulphur mined and marketed the royalty shall be one dollar ($1.00) per long ton. If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-in, and thereafter this lease may be continued in force as if no shut-in had occurred. Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to lessee. If, at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check or draft of lessee, as royalty, a sum equal to one dollar ($1.00) for each acre of land then covered hereby. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing, and may be deposited in the ~~Bank at~~ The First National Bank of Waller County NATIONAL BANK OF WALLER COUNTY or its successors, which shall continue as the depositories, regardless of changes in the ownership of shut-in royalty. If at any time that lessee pays or tenders shut-in royalty, two or more parties are, or claim to be, entitled to receive same, lessee may, in lieu of any other method of payment herein provided, pay or tender shut-in royalty, in the manner above specified, either jointly to such parties or separately to each in accordance with their respective ownerships thereof, as lessee may elect. Any payment hereunder may be made by check or draft of lessee deposited in the mail or delivered to the party entitled to receive payment or to a depository bank provided for above on or before the last date for payment. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owners of this lease, severally as to acreage owned by each.

4. Lessee, at its option, is hereby given the right and power to pool or combine the acreage covered by this lease or any portion thereof as to oil and gas, or either of them, with any other land covered by this lease, and/or with any other land, lease or leases in the immediate vicinity thereof to the extent hereinafter stipulated, when in Lessee's judgment it is necessary or advisable to do so in order properly to explore, or to develop and operate said leased premises in compliance with the spacing rules of the Railroad Commission of Texas, or other lawful authority, or when to do so would, in the judgment of Lessee, promote the conservation of oil and gas in and under and that may be produced from said premises. Units pooled for oil hereunder shall not substantially exceed 40 acres each in area, and units pooled for gas hereunder shall not substantially exceed in area 640 acres each plus a tolerance of ten percent (10%) thereof, provided that should governmental authority having jurisdiction prescribe or permit the creation of units larger than those specified, for the drilling or operation of a well at a regular location or for obtaining maximum allowable from any well to be drilled, drilling or already drilled, units thereafter created may conform substantially in size with those prescribed or permitted by governmental regulations. Lessee under the provisions hereof may pool or combine acreage covered by this lease or any portion thereof as above provided as to oil in any one or more strata and as to gas in any one or more strata. The units formed by pooling as to any stratum or strata need not conform in size or area with the unit or units into which the lease is pooled or combined as to any other stratum or strata, and oil units need not conform as to area with gas units. The pooling in one or more instances shall not exhaust the rights of the Lessee hereunder to pool this lease or portions thereof into other units. Lessee shall file for record in the appropriate records of the county in which the leased premises are situated an instrument describing and designating the pooled acreage as a pooled unit; and upon such recordation the unit shall be effective as to all parties hereto, their heirs, successors, and assigns, irrespective of whether or not the unit is likewise effective as to all other owners of surface, mineral, royalty, or other rights in land included in such unit. Lessee may at its election exercise its pooling option before or after commencing operations for or completing an oil or gas well on the leased premises, and the pooled unit may include, but it is not required to include, land or leases upon which a well capable of producing oil or gas in paying quantities has theretofore been completed or upon which operations for the drilling of a well for oil or gas have theretofore been commenced. In the event of operations for drilling on or production of oil or gas from any part of a pooled unit which includes all or a portion of the land covered by this lease, regardless of whether such operations for drilling were commenced or such production was secured before or after the execution of this instrument or the instrument designating the pooled unit, such operations shall be considered as operations for drilling on or production of oil or gas from land covered by this lease whether or not the well or wells be located on the premises covered by this lease and in such event operations for drilling shall be deemed to have been commenced on said land within the meaning of paragraph 5 of this lease; and the entire acreage constituting such unit or units, as to oil and gas, or either of them, as herein provided, shall be treated for all purposes, except the payment of royalties on production from the pooled unit, as if the same were included in this lease. For the purpose of computing the royalties to which owners of royalties and payments out of production and each of them shall be entitled on production of oil and gas, or either of them, from the pooled unit, there shall be allocated to the land covered by this lease and included in said unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) a pro rata portion of the oil and gas, or either of them, produced from the pooled unit after deducting that used for operations on the pooled unit. Such allocation shall be on an acreage basis – that is to say, there shall be allocated to the acreage covered by this lease and included in the pooled unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that pro rata portion of the oil and gas, or either of them, produced from the pooled unit which the number of surface acres covered by this lease (or in each such separate tract) and included in the pooled unit bears to the total number of surface acres included in the pooled unit. Royalties hereunder shall be computed on the portion of such production, whether it be oil and gas, or either of them, so allocated to the land covered by this lease and included in the unit just as though such production were from such land. The production from an oil well will be considered as production from the lease or oil pooled unit from which it is producing and not as production from a gas pooled unit; and production from a gas well will be considered as production from the lease or gas pooled unit from which it is producing and not from an oil pooled unit. The formation of any unit hereunder shall not have the effect of changing the ownership of any shut-in production royalty which may become payable under this lease. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interest as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but Lessee shall nevertheless have the right to pool as provided above with consequent allocation of production as above provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. If at the expiration of the primary term, oil, gas, or other mineral is not being produced on said land, or from the land pooled therewith, but Lessee is then engaged in drilling or reworking operations thereon, or shall have completed a dry hole thereon within 60 days prior to the end of the primary term, the lease shall remain in force so long as operations on said well or for drilling or reworking of any additional well are prosecuted with no cessation of more than 60 consecutive days, and if they result in the production of oil, gas or other mineral, so long thereafter as oil, gas, or other mineral is produced from said land, or from land pooled therewith. If, after the expiration of the primary term of this lease and after oil, gas, or other mineral is produced from said land, or from land pooled therewith, the production thereof should cease from any cause, this lease shall not terminate if Lessee commences operations for drilling or reworking within 60 days after the cessation of such production, but shall remain in force and effect so long as such operations are prosecuted with no cessation of more than 60 consecutive days, and if they result in the production of oil, gas, or other mineral, so long thereafter as oil, gas, or other mineral is produced from said land, or from land pooled therewith. Any pooled unit designated by Lessee in accordance with the terms hereof, may be dissolved by Lessee by instrument filed for record in the appropriate records of the county in which the leased premises are situated at any time after the completion of a dry hole or the cessation of production on said unit. In the event a well or wells producing oil or gas in paying quantities should be brought in on adjacent land and within 330 feet of and draining the leased premises, or land pooled therewith, Lessee agrees to drill such offset well or wells as a reasonably prudent operator would drill under the same or similar circumstances. Lessee may at any time execute and deliver to Lessor or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered.

6. Lessee shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed by Lessee on said land, including the right to draw and remove all casing. When required by Lessor, Lessee will bury all pipe lines below ordinary plow depth, and no well shall be drilled within two hundred (200) feet of any residence or barn now on said land without Lessor's consent.

7. The rights of either party hereunder may be assigned in whole or in part, and the provisions hereof shall extend to their heirs, successors and assigns; but no change or division in ownership of the land, or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee; and no change or division in such ownership shall be binding on Lessee until thirty (30) days after Lessee shall have been furnished by registered U.S. mail at Lessee's principal place of business with a certified copy of recorded instrument or instruments evidencing same. In the event of assignment hereof in whole or in part, liability for breach of any obligation hereunder shall rest exclusively upon the owner of this lease or of a portion thereof who commits such breach. If six or more parties become entitled to royalty hereunder, Lessee may withhold payment thereof unless and until furnished with a recordable instrument executed by all such parties designating an agent to receive payment for all.

8. The breach by Lessee of any obligation arising hereunder shall not work a forfeiture or termination of this lease nor cause a termination or reversion of the estate created hereby nor be grounds for cancellation hereof in whole or in part. No obligation reasonably to develop the leased premises shall arise during the primary term. Should oil, gas or other mineral in paying quantities be discovered on said premises, then after the expiration of the primary term, Lessee shall develop the acreage retained hereunder as a reasonably prudent operator, but in discharging this obligation it shall in no event be required to drill more than one well per forty (40) acres of the area retained hereunder and capable of producing oil in paying quantities and one well per 640 acres plus an acreage tolerance not to exceed 10% of 640 acres of the area retained hereunder and capable of producing gas or other mineral in paying quantities. If after the expiration of the primary term, Lessor considers that operations are not at any time being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if in default, shall have sixty days after receipt of such notice in which to commence the compliance with the obligations imposed by virtue of this instrument.

9. Lessor hereby warrants and agrees to defend the title to said land and agrees that Lessee at its option may discharge any tax, mortgage or other lien upon said land, either in whole or in part, and in event Lessee does so, it shall be subrogated to such lien with right to enforce same and apply royalties accruing hereunder toward satisfying same. Without impairment of Lessee's rights under the warranty in event of failure of title, it is agreed that if this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether Lessor's interest is herein specified or not), or no interest therein, then the royalties, and other monies accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by Lessor) shall be paid out of the royalty herein provided. Should any one or more of the parties named above as Lessors fail to execute this lease, it shall nevertheless be binding upon the party or parties executing the same.

10. Should Lessee be prevented from complying with any express or implied covenant of this lease, from conducting drilling or reworking operations thereon or from producing any oil, gas or other minerals therefrom by reason of scarcity of or inability to obtain or to use equipment or material, or by operation of force majeure, and Federal or state law or any order, rule or regulation of governmental authority, then while so prevented, Lessee's obligation to comply with such covenant shall be suspended, and Lessee shall not be liable in damages for failure to comply therewith; and this lease shall be extended while and so long as Lessee is prevented by any such cause from conducting drilling or reworking operations on or from producing oil or gas from the lease premises; and the time while Lessee is so prevented shall not be counted against Lessee, anything in this lease to the contrary notwithstanding.

ATTACHED TO AND MADE A PART OF THAT CERTAIN OIL, GAS AND MINERAL LEASE DATED FEBRUARY 19, 1991, BY AND BETWEEN LEON L. BIENSKI AND WIFE DOROTHY BIENSKI, AS LESSOR AND UNION PACIFIC RESOURCES COMPANY, AS LESSEE. DB LLB

11. All references to one-eight (1/8) royalty in the printed text of this lease are hereby changed to three-sixteenths (3/16). DB LLB

12. Notwithstanding anything herein to the contrary, this lease covers and includes only oil and/or gas, which for all purposes of this lease are defined as, and limited to oil, gas, casinghead gas and other gaseous substances, distillate, condensates and associated hydrocarbons substances and all by products of the foregoing and such sulphur as is produced by the wellbore, necessarily with and incidental to the production of any of the foregoing. This lease does not cover production of any fissionable materials, iron ore, copper, lignite, coal or other material or any other type, it being understood this lease is made for oil and gas and associated hydrocarbons substances only. DB LLB

13. Lessee shall initiate the payment of any royalties under this lease within ninety (90) days following commencement of deliveries of oil or gas produced from the leased premises. If not paid within ninety (90) days, royalties shall be deemed to be delinquent. Unless the failure of Lessee to timely commence royalty payments as provided herein is due to a legitimate title problem, the delay of royalty owners in executing and returning to Lessee appropriate title curative instruments, (but not division orders whose contents alter, amend, or add to this lease agreement), or some other circumstances reasonably beyond the control of Lessee, Lessee shall pay interest on the amount of delinquent royalty at the rate of eighteen percent (18%) per annum, or the highest interest rate then permitted by law, whichever is lesser, calculated from ninety (90) days following the commencement of deliveries of oil or gas and continuing until the date that the payment of royalties is initiated by Lessee. After royalty payments commence, royalty payments will be paid on a monthly basis, subject to previously described interest penalty for delays of payment. In the event title problems are shown to exist which necessitate curative, royalty payable shall be suspended only to the extent that they are adversely affected by such title problem or dispute. Division orders which alter, add to, or amend any provision or language in this lease shall not be used as a basis for suspending royalty payments, and any payments suspended for such reason shall accrue interest as provided above. DB LLB

14. In conjunction to the definition of the word "operations" in paragraph 6 of this lease, it is further agreed and understood by Lessor and Lessee that the term "operations for drilling" shall mean the actual penetration of the surface by the drill bit. DB LLB

15. Upon 20 days written notice from Lessor to Lessee, Lessee shall allow Lessor or his agent to examine or review at Lessee's office copies of all logs, records and reports and other information obtained or developed by Lessee in the drilling of all wells on the leased premises. DB LLB

16. Lessee agrees to furnish Lessor within thirty (30) days after the termination of this lease a duly executed and acknowledged instrument releasing or evidencing the termination of this lease as to all or any portion of the leased premises that shall have terminated. DB LLB

17. Notwithstanding anything to the contrary, Lessee shall not use any water from stock tanks, surface reservoirs, existing water DB LLB

wells or steams situated on the property covered by this lease. If Lessee should drill any water wells on the leased premises, then after Lessee has completed its use of such water wells, it shall turn over such water wells, including all casing connected therewith, over to Lessor (if Lessor desires) free of any costs or charges, without any further obligation or liability of Lessee. DB LLB

18. (a) Prior to the commencing of any drilling operations, Lessee shall pay to Lessor as prepaid location damages to cover normal and usual drilling operations, the sum of $3,000.00. The location shall not encompass more than four (4) acres or as normal industry standards require. DB LLB

(b) All slush pits or excavations of any nature made by Lessee on the leased premises shall be fenced by Lessee at its cost and expense. DB LLB

(c) Lessee agrees to vacuum all pits and fill said pits with the original subsoil and then cover same with top soil within sixty (60) days after cessation of use of such pits, which in no event shall exceed one hundred eighty (180) days after the drilling rig is removed from the drillsite. Lessee further agrees to remove all equipment, refuse, garbage and contaminates from the surface therefrom and restore the surface of said land as nearly as possible to the level and condition existing before drilling and exploration was begun. DB LLB

(d) Lessee agrees that after drilling operations are concluded on a producing well all drilling equipment will be removed within sixty (60) days after the termination of drilling. Only production equipment will remain on said lease to be located within a two (2) acre area of the producing well. The two acre wellsite shall be fenced and shall be maintained, at Lessee's expense, in a neat, clean and appealing manner. Not less than quarterly, Lessee shall remove all grasses or other noxious growth upon wellsite. Lessee further agrees to paint all personal property left upon the site (tanks, wellhead, flowlines, separator, etc.) in accordance with the color scheme used by the company. Lessee shall reconstruct the site and repaint any fixtures located on the premises as often as may be reasonably necessary to maintain the aesthetic beauty of the wellsite. DB LLB

(e) Lessee further agrees that, if at any time in the future, a producing well or wells become nonproductive and cannot be brought back into production under the reworking or additional drilling provisions hereof, Lessee, at Lessee's expense, will remove within six (6) months all production equipment and the land around said well or wells will be returned as nearly as practicable to its natural environmental state. DB LLB

(f) Lessee agrees to use all reasonable efforts to prevent any waste oil or salt water from flowing on or over the surface of the leased premises and to prevent any waste oil or salt water from draining into any draw, drain creek or ravine on the leased premises or into any tank or water hole thereon. Lessee shall construct such salt water disposal facilities off the premises as shall be necessary to confine and dispose of the salt water and waste oil produced from the leased premises in accordance with the rules and regulations of the Railroad Commission of the State of Texas. Lessee shall not provide for any salt water disposal well on the property covered by this lease without Lessor's written consent. Lessee agrees to use all reasonable efforts to prevent underground water on such premises from becoming contaminated in any manner as a result of Lessee's operations and Lessee shall pay any and all damages resulting from the breach of this provision. DB LLB

(g) Lessee agrees at all times to use reasonable care in all of Lessee's operations on the leased premises to prevent injury or damage to cattle, livestock, buildings or other property situated on the surface of said land and all water wells and tanks located thereon and Lessee agrees to pay for any and all damages to the surface of said land and to cattle, crops, building, livestock, fences, tanks, water wells and without limitation, any and all other property situated on the surface of the leased premises. Lessee agrees herein that the cost of any and all damages incurred will be determined by an independent third party appraiser of Lessor's and Lessee's. DB LLB

19. (a) Lessee, in connection with its operations hereunder, may use any existing road or roads on said leased premises, or which may hereafter be constructed thereon by Lessee; but in the use of said roads, Lessee shall be fully liable for all damage done to the same by its use thereof and shall maintain and repair all roads so used to the extent of complete repair of all damages so caused. All roads and bridges used by Lessee and those entering said property for and on behalf of Lessee or at its instance, shall be used at Lessee's risk and all damages to the same or to any such persons or equipment utilizing the same, shall be at the risk of Lessee. DB LLB

(b) All roads shall be maintained by Lessee in good condition and repair so as to allow the reasonable passage of any and all passenger vehicles. DB LLB

(c) Lessee agrees to grade only one road to each location on the leases premises and to confine all travel incident to the drilling and production of such well to such road. DB LLB

(d) Lessee shall consult with Lessor as to the location of all roads and any drillsites on the leased premises. DB LLB

20. Lessee agrees that Lessee will not cut or go over any fence or fences on the leased premises at any time or in connection with any operations on the leased premises without first obtaining the consent thereto of the Lessor. Lessee agrees prior to cutting any fence to brace the existing fence adequately on both sides of the proposed cut so that when the fence is cut there will be no slackening of the wires. If the cut in such fence is an outside fence, Lessee agrees promptly after making such cut to install and maintain a metal gate in such opening, which gate shall be a type approved by the Lessor, and which gate Lessee shall keep locked at all times, and if the surface owner shall desire, Lessee shall also install and maintain a substantial iron cattleguard (a minimum of ten (10) feet in width). If the cut in such fence is an inside fence, Lessee agrees promptly after making such cut to install and maintain a metal gate or cattleguard, whichever shall be designated the surface owner, in such opening. During the term of this lease such gates and cattleguards shall be maintained by Lessee; upon termination of this lease such gates and cattleguards shall become the property of the surface owner at no expense to the Lessor and/or surface owner of shall be removed by the Lessee if the surface owner so requests, in which case the fences shall be restored to their original condition. Lessee agrees to promptly close all gates which Lessee, its agents, servants and/or employees may use in Lessee's operations on the leased premises. DB LLB

21. Lessee's right to lay pipelines shall be limited to such lines as are necessary to transport oil and gas from such wells located on Lessor's property (or property pooled therewith). Lessee's pipelines are to be located on a reasonably direct route DB LLB

which is approved by Lessor. Such approval shall not be unduly or arbitrarily withheld. All pipelines are to be buried below plow depth. Said easement is to terminate and revert to the Lessor when use thereof for the purpose aforesaid is not made by Lessee for a period of twelve (12) consecutive months or when all wells served thereby are finally plugged and abandoned by Lessee. DB LLB

22. It is understood and provided this lease cannot be held, maintained nor extended by virtue of the shut-in gas well provision of this lease for a longer term than the primary term and two (2) years immediately thereafter, and from time to time thereafter for non-consecutive periods of not more than one (1) year each. DB LLB

23. Paragraph 4 hereinabove pertaining to pooling is hereby amended as follows and any provisions above to the contrary shall be considered deleted from this lease DB LLB

(a) If Lessee exercises the right and power to pool for the production of oil and/or gas as to any well completed on the leased premises, then in such event all the acreage covered by this lease must be placed in a pool or unit. DB LLB

(b) If Lessee exercises the right and power to pool for production of oil and/or gas as to any of the acreage covered by this lease for the production of oil and/or gas as to any well completed on lands other than the leased premises, then in such event, at least one-half of the acreage covered by this lease must be placed in a pool or unit. DB LLB

(c) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided herein. DB LLB

BRYAN, TEXAS

THIS AGREEMENT made this 31st day of January 1991, between

Rose E. Putz

Lessor (whether one or more), whose address is: 1023 E. 23rd Street, Bryan, Texas 77803

and Union Pacific Resources Company, P.O. Box 7, Ft. Worth, Texas 76101-0007, Lessee, WITNESSETH:

1. Lessor, in consideration of ------ten and other valuable consideration---------- Dollars, receipt of which is hereby acknowledged, and of the covenants and agreements of lessee hereinafter contained, does hereby grant, lease and let unto lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, sulphur and all other minerals (whether or not similar to those mentioned), together with the right to make surveys on said land, lay pipe lines, establish and utilize facilities for surface or subsurface disposal of salt water, construct roads and bridges, dig canals, build tanks, power stations, telephone lines, employee houses and other structures on said land, necessary or useful in lessee's operations in exploring, drilling for, producing, treating, storing and transporting minerals produced from the land covered hereby or any other land adjacent thereto. The land covered hereby, herein called "said land", is located in the County of Brazos, State of Texas, and is described as follows:

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF FOR A DESCRIPTION OF THE LANDS HEREIN LEASED

This lease also covers and includes, in addition to that above described, all land, if any, contiguous or adjacent to or adjoining the land above described and (a) owned or claimed by lessor by limitation, prescription, possession, reversion or unrecorded instrument or (b) as to which lessor has a preference right of acquisition. Lessor agrees to execute any supplemental instrument requested by lessee for a more complete or accurate description of said land. For the purpose of determining the amount of any bonus or other payment hereunder, said land shall be deemed to contain 67.906 acres, whether actually containing more or less, and the above recital of acreage in any tract shall be deemed to be the true acreage thereof. Lessor accepts the bonus as lump sum consideration for this lease and all rights and options hereunder. REF three (3)

2. Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of ~~ten (10)~~ years from the date hereof, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. As royalty, lessee covenants and agrees: (a) To deliver to the credit of lessor, in the pipe line to which lessee may connect its wells, the equal one-eighth part of all oil produced and saved by lessee from said land, or from time to time, at the option of lessee, to pay lessor the average posted market price of such one-eighth part of such oil at the wells as of the day it is run to the pipe line or storage tanks, lessor's interest, in either case, to bear one-eighth of the cost of treating oil to render it marketable pipe line oil; (b) To pay lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of one-eighth of such gas and casinghead gas; (c) To pay lessor on all other minerals mined and marketed or utilized by lessee from said land, one-tenth either in kind or value at the well or mine at lessee's election, except that on sulphur mined and marketed the royalty shall be one dollar ($1.00) per long ton. If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-ins, and thereafter this lease may be continued in force as if no shut-in had occurred. Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to lessee. If, at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check or draft of lessee, as royalty, a sum equal to one dollar ($1.00) for each acre of land then covered hereby. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing, and may be ~~deposited in the~~ Pay directly to Lessor at the above address ~~Bank~~ at _____, or its successors, which shall continue as the depositories, regardless of changes in the ownership of shut-in royalty. If at any time that lessee pays or tenders shut-in royalty, two or more parties are, or claim to be, entitled to receive same, lessee may, in lieu of any other method of payment herein provided, pay or tender such shut-in royalty, in the manner above specified, either jointly to such parties or separately to each in accordance with their respective ownerships thereof, as lessee may elect. Any payment hereunder may be made by check or draft of lessee deposited in the mail or delivered to the party entitled to receive payment or to a depository bank provided for above on or before the last date for payment. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

4. Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons, so as to establish units containing not more than 80 surface acres, plus 10% acreage tolerance; provided, however, units may be established as to any one or more horizons, or existing units may be enlarged as to any one or more horizons, so as to contain not more than 640 surface acres plus 10% acreage tolerance, if limited to one or more of the following: (1) gas, other than casinghead gas, (2) liquid hydrocarbons (condensate) which are not liquids in the subsurface reservoir, (3) minerals produced from wells classified as gas wells by the conservation agency having jurisdiction. If larger units than any of those herein permitted, either at the time established, or after enlargement, are required under any governmental rule or order, for the drilling or operation of a well at a regular location, or for obtaining maximum allowable from any well to be drilled, drilling, or already drilled, any such unit may be established or enlarged to conform to the size required by such governmental order or rule. Lessee shall exercise said option as to each desired unit by executing an instrument identifying such unit and filing it for record in the public office in which this lease is recorded. Each of said options may be exercised by lessee at any time and from time to time while this lease is in force, and whether before or after production has been established either on said land, or on the portion of said land included in the unit, or on other land unitized therewith. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of lessee to release as provided in paragraph 5 hereof, except that lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. Lessee may at any time and from time to time execute and deliver to lessor or file for record a release or releases of this lease as to any part or all of said land or of any mineral or horizon thereunder, and thereby be relieved of all obligations, as to the released acreage or interest.

6. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil, gas, sulphur or other minerals, excavating a mine, production of oil, gas, sulphur or other mineral, whether or not in paying quantities.

VOL 1245 PAGE 57

7. Lessee shall have the use, free from royalty, water, other than from lessor's water wells, and of oil and gas produced from said land in all operations hereunder. Lessee shall have the right at any time to remove all machinery and fixtures placed on said land, including the right to draw and remove casing. No well shall be drilled nearer than 200 feet to the house or barn now on said land without the consent of the lessor. Lessee shall pay for damages caused by its operations to growing crops and timber on said land.

8. The rights and estate of any party hereto may be assigned from time to time in whole or in part and as to any mineral or horizon. All of the covenants, obligations, and considerations of this lease shall extend to and be binding upon the parties hereto, their heirs, successors, assigns, and successive assigns. No change or division in the ownership of said land, royalties, or other moneys, or any part thereof, howsoever effected, shall increase the obligations or diminish the rights of lessee, including, but not limited to, the location and drilling of wells and the measurement of production. Notwithstanding any other actual or constructive knowledge or notice thereof of or to lessee, its successors or assigns, no change or division in the ownership of said land or of the royalties, or other moneys, or the right to receive the same, howsoever effected, shall be binding upon the then record owner of this lease until thirty (30) days after there has been furnished to such record owner at his or its principal place of business by lessor or lessor's heirs, successors, or assigns, notice of such change or division, supported by either originals or duly certified copies of the instruments which have been properly filed for record and which evidence such change or division, and of such court records and proceedings, transcripts, or other documents as shall be necessary in the opinion of such record owner to establish the validity of such change or division. If any such change in ownership occurs by reason of the death of the owner, lessee may, nevertheless pay or tender such royalties, or other moneys, or part thereof, to the credit of the decedent in a depository bank provided for above.

9. In the event lessor considers that lessee has not complied with all its obligations hereunder, both express and implied, lessor shall notify lessee in writing, setting out specifically in what respects lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by lessor. The service of said notice shall be precedent to the bringing of any action by lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on lessee. Neither the service of said notice nor the doing of any acts by lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that lessee has failed to perform all its obligations hereunder. If this lease is cancelled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations. Lessee shall also have such easements on said land as are necessary to operations on the acreage so retained.

10. Lessor hereby warrants and agrees to defend title to said land against the claims of all persons whomsoever. Lessor's rights and interests hereunder shall be charged primarily with any mortgages, taxes or other liens, or interest and other charges on said land, but lessor agrees that lessee shall have the right at any time to pay or reduce same for lessor, either before or after maturity, and be subrogated to the rights of the holder thereof and to deduct amounts so paid from royalties or other payments payable or which may become payable to lessor and/or assigns under this lease. If this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether lessor's interest is herein specified or not), or no interest therein, then the royalties and other moneys accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by lessor) shall be paid out of the royalty herein provided. This lease shall be binding upon each party who executes it without regard to whether it is executed by all those named herein as lessor.

11. If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of lessee, the primary term hereof shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

VOL 1245 PAGE 58

ATTACHED TO AND MADE A PART OF THAT CERTAIN OIL, GAS AND MINERAL LEASE DATED JANUARY 31, 1991, BY AND BETWEEN ROSE E. PUTZ, AS LESSOR AND UNION PACIFIC RESOURCES COMPANY, AS LESSEE.

12. All references to one-eight (1/8) royalty in the printed text of this lease are hereby changed to three-sixteenths (3/16).

13. Notwithstanding anything herein to the contrary, this lease covers and includes only oil and/or gas, which for all purposes of this lease are defined as, and limited to oil, gas, casinghead gas and other gaseous substances, distillate, condensates and associated hydrocarbons substances and all by products of the foregoing and such sulphur as is produced by the wellbore, necessarily with and incidental to the production of any of the foregoing. This lease does not cover production of any fissionable materials, iron ore, copper, lignite, coal or other material or any other type, it being understood this lease is made for oil and gas and associated hydrocarbons substances only.

14. Lessee shall initiate the payment of any royalties under this lease within ninety (90) days following commencement of deliveries of oil or gas produced from the leased premises. If not paid within ninety (90) days, royalties shall be deemed to be delinquent. Unless the failure of Lessee to timely commence royalty payments as provided herein is due to a legitimate title problem, the delay of royalty owners in executing and returning to Lessee appropriate title curative instruments, (but not division orders whose contents alter, amend, or add to this lease agreement), or some other circumstances reasonably beyond the control of Lessee, Lessee shall pay interest on the amount of delinquent royalty at the rate of eighteen percent (18%) per annum, or the highest interest rate then permitted by law, whichever is lesser, calculated from ninety (90) days following the commencement of deliveries of oil or gas and continuing until the date that the payment of royalties is initiated by Lessee. After royalty payments commence, royalty payments will be paid on a monthly basis, subject to previously described interest penalty for delays of payment. In the event title problems are shown to exist which necessitate curative, royalty payable shall be suspended only to the extent that they are adversely affected by such title problem or dispute. Division orders which alter, add to, or amend any provision or language in this lease shall not be used as a basis for suspending royalty payments, and any payments suspended for such reason shall accrue interest as provided above.

15. In conjunction to the definition of the word "operations" in paragraph 6 of this lease, it is further agreed and understood by Lessor and Lessee that the term "operations for drilling" shall mean the actual penetration of the surface by the drill bit.

16. Upon 20 days written notice from Lessor to Lessee, Lessee shall allow Lessor or his agent to examine or review at Lessee's office copies of all logs, records and reports and other information obtained or developed by Lessee in the drilling of all wells on the leased premises.

17. Lessee agrees to furnish Lessor within thirty (30) days after the termination of this lease a duly executed and acknowledged instrument releasing or evidencing the termination of this lease as to all or any portion of the leased premises that shall have terminated.

18. Notwithstanding anything to the contrary, Lessee shall not use any water from stock tanks, surface reservoirs, existing water wells or steams situated on the property covered by this lease.

If Lessee should drill any water wells on the leased premises, then after Lessee has completed its use of such water wells, it shall turn over such water wells, including all casing connected therewith, over to Lessor (if Lessor desires) free of any costs or charges, without any further obligation or liability of Lessee.

19. (a) Prior to the commencing of any drilling operations, Lessee shall pay to Lessor as prepaid location damages to cover normal and usual drilling operations, the sum of $3,000.00. The location shall not encompass more than four (4) acres or as normal industry standards require.

(b) All slush pits or excavations of any nature made by Lessee on the leased premises shall be fenced by Lessee at its cost and expense.

(c) Lessee agrees to vacuum all pits and fill said pits with the original subsoil and then cover same with top soil within sixty (60) days after cessation of use of such pits, which in no event shall exceed one hundred eighty (180) days after the drilling rig is removed from the drillsite. Lessee further agrees to remove all equipment, refuse, garbage and contaminates from the surface therefrom and restore the surface of said land as nearly as possible to the level and condition existing before drilling and exploration was begun.

(d) Lessee agrees that after drilling operations are concluded on a producing well all drilling equipment will be removed within sixty (60) days after the termination of drilling. Only production equipment will remain on said lease to be located within a two (2) acre area of the producing well. The two acre wellsite shall be fenced and shall be maintained, at Lessee's expense, in a neat, clean and appealing manner. Not less than quarterly, Lessee shall remove all grasses or other noxious growth upon wellsite. Lessee further agrees to paint all personal property left upon the site (tanks, wellhead, flowlines, separator, etc.) in accordance with the color scheme used by the company. Lessee shall reconstruct the site and repaint any fixtures located on the premises as often as may be reasonably necessary to maintain the aesthetic beauty of the wellsite.

(e) Lessee further agrees that, if at any time in the future, a producing well or wells become nonproductive and cannot be brought back into production under the reworking or additional drilling provisions hereof, Lessee, at Lessee's expense, will remove within six (6) months all production equipment and the land around said well or wells will be returned as nearly as practicable to its natural environmental state.

(f) Lessee agrees to use all reasonable efforts to prevent any waste oil or salt water from flowing on or over the surface of the leased premises and to prevent any waste oil or salt water from draining into any draw, drain creek or ravine on the leased premises or into any tank or water hole thereon. Lessee shall construct such salt water disposal facilities off the premises as shall be necessary to confine and dispose of the salt water and waste oil produced from the leased premises in accordance with the rules and regulations of the Railroad Commission of the State of Texas. Lessee shall not provide for any salt water disposal well on the property covered by this lease without Lessor's written consent. Lessee agrees to use all reasonable efforts to prevent underground water on such premises from becoming contaminated in any manner as a result of Lessee's operations and Lessee shall pay any and all damages resulting from the breach of this provision.

(g) Lessee agrees at all times to use reasonable care in all of Lessee's operations on the leased premises to prevent injury or damage to cattle, livestock, buildings or other property situated on the surface of said land and all water wells and tanks located thereon and Lessee agrees to pay for any and all damages to the surface of said land and to cattle, crops, building, livestock, fences, tanks, water wells and without limitation, any and all other property situated on the surface of the leased premises. Lessee agrees herein that the cost of any and all damages incurred will be determined by an independent third party appraiser of Lessor's and Lessee's.

20. (a) Lessee, in connection with its operations hereunder, may use any existing road or roads on said leased premises, or which may hereafter be constructed thereon by Lessee; but in the use of said roads, Lessee shall be fully liable for all damage done to the same by its use thereof and shall maintain and repair all roads so used to the extent of complete repair of all damages so caused. All roads and bridges used by Lessee and those entering said property for and on behalf of Lessee or at its instance, shall be used at Lessee's risk and all damages to the same or to any such persons or equipment utilizing the same, shall be at the risk of Lessee.

(b) All roads shall be maintained by Lessee in good condition and repair so as to allow the reasonable passage of any and all passenger vehicles.

(c) Lessee agrees to grade only one road to each location on the leases premises and to confine all travel incident to the drilling and production of such well to such road.

(d) Lessee shall consult with Lessor as to the location of all roads and any drillsites on the leased premises.

21. Lessee agrees that Lessee will not cut or go over any fence or fences on the leased premises at any time or in connection with any operations on the leased premises without first obtaining the consent thereto of the Lessor. Lessee agrees prior to cutting any fence to brace the existing fence adequately on both sides of the proposed cut so that when the fence is cut there will be no slackening of the wires. If the cut in such fence is an outside fence, Lessee agrees promptly after making such cut to install and maintain a metal gate in such opening, which gate shall be a type approved by the Lessor, and which gate Lessee shall keep locked at all times, and if the surface owner shall desire, Lessee shall also install and maintain a substantial iron cattleguard (a minimum of ten (10) feet in width). If the cut in such fence is an inside fence, Lessee agrees promptly after making such cut to install and maintain a metal gate or cattleguard, whichever shall be designated the surface owner, in such opening. During the term of this lease such gates and cattleguards shall be maintained by Lessee; upon termination of this lease such gates and cattleguards shall become the property of the surface owner at no expense to the Lessor and/or surface owner of shall be removed by the Lessee if the surface owner so requests, in which case the fences shall be restored to their original condition. Lessee agrees to promptly close all gates which Lessee, its agents, servants and/or employees may use in Lessee's operations on the leased premises.

22. Lessee's right to lay pipelines shall be limited to such lines as are necessary to transport oil and gas from such wells located on Lessor's property (or property pooled therewith). Lessee's pipelines are to be located on a reasonably direct route which is approved by Lessor. Such approval shall not be unduly or

which is approved by Lessor. Such approval shall not be unduly or arbitrarily withheld. All pipelines are to be buried below plow depth. Said easement is to terminate and revert to the Lessor when use thereof for the purpose aforesaid is not made by Lessee for a period of twelve (12) consecutive months or when all wells served thereby are finally plugged and abandoned by Lessee.

23. It is understood and provided this lease cannot be held, maintained nor extended by virtue of the shut-in gas well provision of this lease for a longer term than the primary term and two (2) years immediately thereafter, and from time to time thereafter for non-consecutive periods of not more than one (1) year each.

24. Paragraph 4 hereinabove pertaining to pooling is hereby amended as follows and any provisions above to the contrary shall be considered deleted from this lease:

(a) If Lessee exercises the right and power to pool for the production of oil and/or gas as to any well completed on the leased premises, then in such event all the acreage covered by this lease must be placed in a pool or unit.

(b) If Lessee exercises the right and power to pool for production of oil and/or gas as to any of the acreage covered by this lease for the production of oil and/or gas as to any well completed on lands other than the leased premises, then in such event, at least one-half of the acreage covered by this lease must be placed in a pool or unit.

(c) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease, as to the land not included in such unit or units, may be maintained in force and effect by drilling or reworking operations on such acreage or production therefrom, in accordance with the terms and provisions of this lease.

Instructions to Form W-15, Cementing Report

IMPORTANT: Operators and cementing companies must comply with the requirements of the Commission's Statewide Rules 8 (Water Protection), 13 (Casing, Cementing, Drilling, and Completion), and 14 (Well Plugging). For offshore operations, see the requirements of Rule 13 (c).

A. **What to file.** An operator should file an original and one copy of the completed Form W-15 for each cementing company used on a well. The cementing of different casing strings on a well by one cementing company may be reported on one form. Form W-15 should be filed with the following:

- An initial oil or gas completion report, Form W-2 or G-1, as required by Statewide or special field rules;
- Form W-4, Application for Multiple Completion, if the well is a multiple parallel casing completion; and
- Form W-3, Plugging Record, unless the W-3 is signed by the cementing company representative. When reporting dry holes, operators must complete Form W-15, in addition to Form W-3, to show any casing cemented in the hole.

B. **Where to file.** The appropriate Commission District Office for the county in which the well is located.

C. **Surface casing.** An operator must set and cement sufficient surface casing to protect all usable-quality water strata, as defined by the Texas Department of Water Resources, Austin. Before drilling a well in any field or area in which no field rules are in effect or in which surface casing requirements are not specified in the applicable rules, an operator must obtain a letter from the Department of Water Resources stating the protection depth. Surface casing should not be set deeper than 200 feet below the specified depth without prior approval from the Commission.

D. **Centralizers.** Surface casing must be centralized at the shoe, above and below a stage collar or diverting tool, if run, and through usable-quality water zones. In nondeviated holes, a centralizer must be placed every fourth joint from the cement shoe to the ground surface or to the bottom of the cellar. All centralizers must meet API specifications.

E. **Exceptions and alternative casing programs.** The District Director may grant an exception to the requirements of Statewide Rule 13. In a written application, an operator must state the reason for the requested exception and outline an alternate program for casing and cementing through the protection depth for strata containing usable-quality water. The District Director may approve, modify, or reject a proposed program. An operator must obtain approval of any exception before beginning casing and cementing operations.

F. **Intermediate and production casing.** For specific technical requirements, operators should consult Statewide Rule 13 (b) (3) and (4).

G. **Plugging and abandoning.** Cement plugs must be placed in the wellbore as required by Statewide Rule 14. The District Director may require additional cement plugs. For onshore or inland wells, a 10-foot cement plug must be placed in the top of the well, and the casing must be cut off three feet below the ground surface. All cement plugs, except the top plug, must have sufficient slurry volume to fill 100 feet of hole, plus ten percent for each 1,000 feet of depth from the ground surface to the bottom of the plug.

To plug and abandon a well, operators must use only cementers approved by the Director of Field Operations. Cementing companies, service companies, or operators can qualify as approved cementers by demonstrating that they are able to mix and pump cement in compliance with Commission rules and regulations.

Instructions to Form W-15, Cementing Report

IMPORTANT: Operators and cementing companies must comply with the requirements of the Commission's Statewide Rules 8 (Water Protection), 13 (Casing, Cementing, Drilling, and Completion), and 14 (Well Plugging). For offshore operations, see the requirements of Rule 13 (c).

A. **What to file.** An operator should file an original and one copy of the completed Form W-15 for each cementing company used on a well. The cementing of different casing strings on a well by one cementing company may be reported on one form. Form W-15 should be filed with the following:

- An initial oil or gas completion report, Form W-2 or G-1, as required by Statewide or special field rules;
- Form W-4, Application for Multiple Completion, if the well is a multiple parallel casing completion; and
- Form W-3, Plugging Record, unless the W-3 is signed by the cementing company representative. When reporting dry holes, operators must complete Form W-15, in addition to Form W-3, to show any casing cemented in the hole.

B. **Where to file.** The appropriate Commission District Office for the county in which the well is located.

C. **Surface casing.** An operator must set and cement sufficient surface casing to protect all usable-quality water strata, as defined by the Texas Department of Water Resources, Austin. Before drilling a well in any field or area in which no field rules are in effect or in which surface casing requirements are not specified in the applicable rules, an operator must obtain a letter from the Department of Water Resources stating the protection depth. Surface casing should not be set deeper than 200 feet below the specified depth without prior approval from the Commission.

D. **Centralizers.** Surface casing must be centralized at the shoe, above and below a stage collar or diverting tool, if run, and through usable-quality water zones. In nondeviated holes, a centralizer must be placed every fourth joint from the cement shoe to the ground surface or to the bottom of the cellar. All centralizers must meet API specifications.

E. **Exceptions and alternative casing programs.** The District Director may grant an exception to the requirements of Statewide Rule 13. In a written application, an operator must state the reason for the requested exception and outline an alternate program for casing and cementing through the protection depth for strata containing usable-quality water. The District Director may approve, modify, or reject a proposed program. **An operator must obtain approval of any exception before beginning casing and cementing operations.**

F. **Intermediate and production casing.** For specific technical requirements, operators should consult Statewide Rule 13 (b) (3) and (4).

G. **Plugging and abandoning.** Cement plugs must be placed in the wellbore as required by Statewide Rule 14. The District Director may require additional cement plugs. For onshore or inland wells, a 10-foot cement plug must be placed in the top of the well, and the casing must be cut off three feet below the ground surface. All cement plugs, except the top plug, must have sufficient slurry volume to fill 100 feet of hole, plus ten percent for each 1,000 feet of depth from the ground surface to the bottom of the plug.

To plug and abandon a well, operators must use only cementers approved by the Director of Field Operations. Cementing companies, service companies, or operators can qualify as approved cementers by demonstrating that they are able to mix and pump cement in compliance with Commission rules and regulations.

KNOW ALL MEN BY THESE PRESENTS:

COUNTY OF BRAZOS §

The undersigned being the owners of valid and subsisting oil, gas and mineral leases listed in Exhibit "A", attached hereto and made a part hereof, insofar as said oil, gas and mineral leases cover and affect the land and depths described on Exhibit "B", attached hereto and made a part hereof, do, by virtue of the authority conferred by the terms of such oil, gas and mineral leases and all amendments and corrections thereto, hereby pool, consolidate, combine and unitize said oil, gas and mineral leases, the leasehold rights, overriding royalty and royalty interests therein and thereunder, for the purpose of drilling for, development and production of oil, gas and liquid hydrocarbons (including condensate, distillate and other liquids). The unit (hereinafter "Unit") shall be comprised of the land and interval described on the attached Exhibit "B", as depicted on the plat attached hereto as Exhibit "C".

If at any time any tract of land or interest within the Unit is not properly pooled or unitized hereby or is not otherwise committed to the Unit, such fact shall not affect, terminate, impair, or invalidate the Unit as to any interest properly pooled or unitized hereby or otherwise.

This Designation of Unit covers all production from the land and formation described on the attached Exhibit "B" which is produced from any well drilled to the unitized interval underlying the Unit area. Production from the Unit shall be allocated proportionately among all of the tracts within the Unit in the proportion which the number of surface acres in each of such tracts bears to the total number of surface acres in the Unit.

The undersigned reserves the right to amend this Designation of Unit from time to time, and at any time, in order to correct any error herein or to include in this Unit any newly acquired interests within the Unit boundaries or to enlarge the Unit area in accordance with the applicable rules and regulations of any governmental regulatory body or agency having jurisdiction insofar as such right is granted in the subject leases, by appropriate amendments or instruments correcting or committing any such interest to this Unit.

By execution of this Designation of Unit, the undersigned do not exhaust their right to pool the leases and lands hereinabove described with other leases and lands as to any other minerals, horizon or strata covered thereby, and they expressly reserve to themselves, their assignees, or successors in interest, the right and power to pool or unitize the above described leases and lands with any other leases, lands, horizons or strata in the vicinity and so far as the power, right and authority to do so is granted in the subject leases and various agreements and so long as such power and authority is exercised in accordance with applicable rules and regulations of any governmental regulatory body or agency having jurisdiction.

This instrument may be executed as one document signed by all parties, or parties named herein named may join herein by execution of a counterpart or ratification, with the same effect as if all parties executed this instrument. The failure of any one or more persons owning an interest in the Unit to execute this instrument or a counterpart or ratification thereof shall not in any manner affect the validity of same as to the parties who do execute this instrument. This Unit may not be ratified or joined in by any party who is not named hereinbelow without the consent of the parties hereto.

The Unit hereby created shall remain in force as long as the pooled minerals are being produced from the Unit, or so long as the leases covering the Unit are maintained in force by payment or tender of shut-in royalties or by other means, in accordance with the terms of said leases.

IN WITNESS WHEREOF, this Designation of Unit is dated and made effective on this 16th day of October, 1991.

This Designation of Unit covers all production from the land and formation described on the attached Exhibit "B" which is produced from any well drilled to the unitized interval underlying the Unit area. Production from the Unit shall be allocated proportionately among all of the tracts within the Unit in the proportion which the number of surface acres in each of such tracts bears to the total number of surface acres in the Unit.

The undersigned reserves the right to amend this Designation of Unit from time to time, and at any time, in order to correct any error herein or to include in this Unit any newly acquired interests within the Unit boundaries or to enlarge the Unit area in accordance with the applicable rules and regulations of any governmental regulatory body or agency having jurisdiction insofar as such right is granted in the subject leases, by appropriate amendments or instruments correcting or committing any such interest to this Unit.

By execution of this Designation of Unit, the undersigned do not exhaust their right to pool the leases and lands hereinabove described with other leases and lands as to any other minerals, horizon or strata covered thereby, and they expressly reserve to themselves, their assignees, or successors in interest, the right and power to pool or unitize the above described leases and lands with any other leases, lands, horizons or strata in the vicinity and so far as the power, right and authority to do so is granted in the subject leases and various agreements and so long as such power and authority is exercised in accordance with applicable rules and regulations of any governmental regulatory body or agency having jurisdiction.

This instrument may be executed as one document signed by all parties, or parties named herein named may join herein by execution of a counterpart or ratification, with the same effect as if all parties executed this instrument. The failure of any one or more persons owning an interest in the Unit to execute this instrument or a counterpart or ratification thereof shall not in any manner affect the validity of same as to the parties who do execute this instrument. This Unit may not be ratified or joined in by any party who is not named hereinbelow without the consent of the parties hereto.

The Unit hereby created shall remain in force as long as the pooled minerals are being produced from the Unit, or so long as the leases covering the Unit are maintained in force by payment or tender of shut-in royalties or by other means, in accordance with the terms of said leases.

NEMEC NO. 1

STATE OF TEXAS §

KNOW ALL MEN BY THESE PRESENTS:

COUNTY OF BRAZOS §

The undersigned being the owners of valid and subsisting oil, gas and mineral leases listed in Exhibit "A", attached hereto and made a part hereof, insofar as said oil, gas and mineral leases cover and affect the land and depths described on Exhibit "B", attached hereto and made a part hereof, do, by virtue of the authority conferred by the terms of such oil, gas and mineral leases and all amendments and corrections thereto, hereby pool, consolidate, combine and unitize said oil, gas and mineral leases, the leasehold rights, overriding royalty and royalty interests therein and thereunder, for the purpose of drilling for, development and production of oil, gas and liquid hydrocarbons (including condensate, distillate and other liquids). The unit (hereinafter "Unit") shall be comprised of the land and interval described on the attached Exhibit "B", as depicted on the plat attached hereto as Exhibit "C".

If at any time any tract of land or interest within the Unit is not properly pooled or unitized hereby or is not otherwise committed to the Unit, such fact shall not affect, terminate, impair, or invalidate the Unit as to any interest properly pooled or unitized hereby or otherwise.

This Designation of Unit covers all production from the land and formation described on the attached Exhibit "B" which is produced from any well drilled to the unitized interval underlying the Unit area. Production from the Unit shall be allocated proportionately among all of the tracts within the Unit in the proportion which the number of surface acres in each of such tracts bears to the total number of surface acres in the Unit.

The undersigned reserves the right to amend this Designation of Unit from time to time, and at any time, in order to correct any error herein or to include in this Unit any newly acquired interests within the Unit boundaries or to enlarge the Unit area in accordance with the applicable rules and regulations of any governmental regulatory body or agency having jurisdiction insofar as such right is granted in the subject leases, by appropriate amendments or instruments correcting or committing any such interest to this Unit.

By execution of this Designation of Unit, the undersigned do not exhaust their right to pool the leases and lands hereinabove described with other leases and lands as to any other minerals, horizon or strata covered thereby, and they expressly reserve to themselves, their assignees, or successors in interest, the right and power to pool or unitize the above described leases and lands with any other leases, lands, horizons or strata in the vicinity and so far as the power, right and authority to do so is granted in the subject leases and various agreements and so long as such power and authority is exercised in accordance with applicable rules and regulations of any governmental regulatory body or agency having jurisdiction.

This instrument may be executed as one document signed by all parties, or parties named herein named may join herein by execution of a counterpart or ratification, with the same effect as if all parties executed this instrument. The failure of any one or more persons owning an interest in the Unit to execute this instrument or a counterpart or ratification thereof shall not in any manner affect the validity of same as to the parties who do execute this instrument. This Unit may not be ratified or joined in by any party who is not named hereinbelow without the consent of the parties hereto.

The Unit hereby created shall remain in force as long as the pooled minerals are being produced from the Unit, or so long as the leases covering the Unit are maintained in force by payment or tender of shut-in royalties or by other means, in accordance with the terms of said leases.

IN WITNESS WHEREOF, this Designation of Unit is dated and made effective on this 16th day of October, 1991.

Provided, however, that at your option no payments shall be made to an owner until the sum due on account of such interest shall amount to $25.00 or more.

3. Quantities shall be computed from regularly compiled tank tables or by other reliable methods of computation (the owners to have the privilege of witnessing the gauge tickets), and correction shall be made for temperature and impurities according to the prevailing practice and the rules and regulations prescribed by the Commission or other legal authority of the State where the purchases hereunder are made. You may require the owners to treat or steam any unmerchantable oil at the owners' expense, before acceptance hereunder.

4. The owners severally agree to notify you in writing of any change in ownership, and that their successors shall be bound by the terms hereof. Orders transferring interests, supported by certified copy of deed, assignment, or other legal document, shall be in your hands by the 20th day of the month in which the transfer becomes effective, it being understood that transfers of interests are effective only on the first day of any current month at 7:00 o'clock A.M.

5. Satisfactory abstracts or other evidence of title will be furnished to you at any time on demand. In the event of a failure to so furnish such evidence of title, or in the event of a claim or controversy, which in your opinion, concerns title to any interest hereunder, you may hold, without interest and without any liability, the proceeds of all oil received by you hereunder until indemnity satisfactory to you has been furnished or until such claim or controversy has been settled to your satisfaction. In the event any action or suit is filed in any court affecting the title either to the real property above described or to the oil produced therefrom in which any of the owners are parties, written notice of the filing of said action or suit shall be immediately furnished to you by such owner against whom such action or suit is commenced, stating the court in which same is filed and the title of such action or suit. Each owner agrees to hold you harmless and to protect and indemnify you and/or any carrier transporting oil for your account from, against and for any loss or expense which you and/or such carrier may suffer or sustain or become liable for by reason of your purchase hereunder of said owner's interest, as above set out, in said oil and the payment therefor to said owner regardless of how the same may arise and including, but not limited to, the following: Any judgment rendered in an action or suit affecting the title to either the real property above described or the oil produced therefrom; all reasonable costs or expenses incurred in defending in such action or suit your position or that of your carrier receiving the oil; any claim or claims or judgment arising therefrom, for any tax, State or Federal, which may be asserted by any taxing authority against you in connection with, incident or in any manner related to, any sum or sums of money held in Suspense by you during the existence of any claim, controversy or suit, as above provided. You may deduct any such loss or expense from any amount owed by you to such owner at any time. Upon written notification to you by any Operator of the above lease that the undersigned is in default in the payment of its share of the leasehold expenses, you may pay direct to such Operator the proceeds of the oil run hereunder until notified by such Operator that the default is cured, and the undersigned agrees to hold you harmless and to protect and indemnify you for any such payments. You shall further be authorized to withhold funds in the event you are due money from owner and apply the funds to the payment of your account. In the event you are notified of a mispayment to any owner on any lease from which you purchase or that all parties have not been properly paid from any lease from which you purchase, each owner agrees to allow you to suspend funds until the claim is satisfied.

6. You are hereby authorized to withhold from the proceeds of any and all runs made hereunder the amount of any tax, either State or Federal, placed thereon, and to pay the same in our behalf.

7. This division order shall become valid and binding upon each and every owner as soon as signed by such owner, regardless of whether or not any other owners have so signed, and this division order supersedes all former division orders given on the property described above.

8. This contract shall continue in force for Thirty days and thereafter, until terminated by you giving notice of your intent to so terminate, or by any owner giving notice of intent to so terminate, without, however, affecting the same as to the interest of the other owners.

9. Where the term "oil" is used herein, it is intended also to include "distillate, condensate or other liquid hydrocarbons."

Re: Delinquent Reports MF-94397

Dear Sir or Madam::

An examination of our records indicate that the Oil and Gas Production/Royalty Reports (Form GLO-1 and GLO-2) were not received by this office on or before their due date and could be subject to penalty. Oil and Gas Production/Royalty Reports carry the same due dates as royalty payments. Timely submission of the reports is important because it is difficult for this agency to evaluate and verify royalty payments without the information contained on the Production\Royalty Reports. Due dates for royalty payments and reports are outlined in the Oil and Gas Reports and Payments Procedures booklet published by this office.

The assessment of penalties for late reporting is authorized by the Texas Administrative Code (T.A.C.) chapter 9.7. The T.A.C. provides for a penalty of $10.00 per document for each 30 day period the report or document is delinquent. Please make arrangements in the future to assure that your Oil and Gas Production/Royalty Reports are submitted timely.

If you have any questions please call me at (512) 475-1479

RE: Notice of non-payment on State Lease(s) 094397

Dear Ms. Woods:

The Royalty Audit Division of the Texas General Land Office has completed a lease reconciliation of the above-referenced lease operated by OGDEN RESOURCES CORPORATION. Through this review, it was determined that $6,899.70 has been underpaid to the State for the reporting period 5/2002 through 10/2007. This amount is comprised of $3,098.92 in additional royalty, $3,000.00 in penalty, and $800.78 in interest, computed through 2/11/2008, in accordance with Section 52.131 of the Texas Natural Resources Code.

The following documents are attached in support of our findings:

A brief summary of our review (Attachment I);

Schedule supporting our royalty, penalty, and interest calculation (Attachment II); and

Procedures used for assessment of penalties and interest (Attachment III).

To ensure your company remains in good standing with the General Land Office, please respond to this notice within 30 days of the above date. If your records reflect this royalty has been paid, please provide us with documentation of payments made and remittance dates. Payment of this notice should be submitted separately from monthly royalty payments you may be remitting.
