The State of Texas

HROW Lease
Revised 10/89

Austin, Texas

OIL AND GAS LEASE NO. M-94821
GENERAL LAND OFFICE
AUSTIN, TEXAS

THIS AGREEMENT made and entered into by and between the Commissioner of the General Land Office of the State of Texas, whose address is Stephen F. Austin Building, 1700 North Congress, Austin, Texas, 78701, hereinafter called "Lessor", hereunto authorized by the School Land Board, pursuant to the provisions of Chapters 32, 34 and 52 of the Natural Resources Code (hereinafter called N.R.C.), and amendments thereto, and all applicable rules promulgated by the School Land Board, and Union Pacific Resources Company, whose address is 801 Cherry Street, Fort Worth, Texas 76102-6803, hereinafter called "Lessee". 4100031777

1. Lessor, in consideration of One Thousand Four Hundred Eighty Six and 25/100 Dollars ($1486.25), receipt of which is hereby acknowledged, and of the covenants and agreements of Lessee hereinafter contained, does hereby grant, lease, and let unto Lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, and all other hydrocarbons, produced from the land covered hereby. The land covered hereby, herein called "said land" is located in the County of Brazos, State of Texas, and is described as follows:

11.89 acres of land, more or less, situated in said Brazos County, more particularly described in Exhibit "A"

attached hereto and made a part hereof together with a plat, attached hereto as Exhibit "B", depicting said right-of-way and surrounding area for purposes of illustration only.

For the purpose of determining the amount of any bonus, delay rental or other payment hereunder, said land shall be deemed to contain 11.89 acres, whether actually containing more or less, and the above recital of acreage shall be deemed to be the true acreage thereof. Lessor accepts the bonus and agrees to accept the delay rental as lump sum considerations for this lease and all rights and options hereunder.

2. PRIMARY TERM: Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of Two (2) years from November 5,1991, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. ROYALTIES: As royalty Lessee covenants and agrees:

(a) To deliver to the credit of Lessor, in the pipe line to which Lessee may connect its well, the equal one-fifth (1\5) part of all oil produced and saved by Lessee from said land, or from time to time, at the option of Lessee, to pay Lessor the average posted market price of such one-fifth (1\5) part of such oil at the wells as of the day it is run to the pipe line or storage tanks, Lessor's interest, in either case, to bear none of the cost of treating oil to render it marketable pipe line oil;

(b) To pay Lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-fifth (1\5) of the amount realized by Lessee, computed at the mouth of the well, or (2) when used by Lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of one-fifth (1\5) of such gas and casinghead gas.

(c) If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-in, and thereafter this lease may be continued in force as if no shut-in had occurred.

(d) Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, Lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines,

separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to Lessee.

(e) If at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check of lessee, as royalty, the sum of $297.25. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

(f) All royalties not taken in kind shall be paid to the Commissioner of the General Land Office at Austin, Texas, in the following manner:

Royalty on oil is due and must be received in the General Land Office on or before the 5th day of the second month succeeding the month of production, and royalty on gas is due and must be received in the General Land Office on or before the 15th day of the second month succeeding the month of production, accompanied by the affidavit of the owner, manager, or other authorized agent, completed in the form and manner prescribed by the General Land Office and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, together with a copy of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records which the General Land Office may require to verify the gross production, disposition and market value. In all cases the authority of a manager or agent to act for the Lessee herein must be filed in the General Land Office. Each royalty payment shall be accompanied by a check stub, schedule, summary or other remittance advice showing by the assigned General Land Office lease number the amount of royalty being paid on each lease. If Lessee pays his royalty on or before thirty (30) days after the royalty payment was due, the Lessee owes a penalty of 5% on the royalty or $25.00, whichever is greater. A royalty payment which is over thirty (30) days late shall accrue a penalty of 10% of the royalty due or $25.00, whichever is greater. In addition to a penalty, royalties shall accrue interest at a rate of 12% per year; such interest will

begin accruing when the royalty is sixty (60) days overdue. Affidavits and supporting documents which are not filed when due shall incur a penalty in an amount set by the General Land Office administrative rule which is effective on the date when the affidavits or supporting documents were due. The Lessee shall bear all responsibility for paying or causing royalties to be paid as prescribed by the due date provided herein. Payment of the delinquency penalty shall in no way operate to prohibit the State's right of forfeiture as provided by law nor act to postpone the date on which royalties were originally due. The above penalty provisions shall not apply in cases of title dispute as to the State's portion of the royalty or to that portion of the royalty in dispute as to fair market value. The State shall have first lien upon all oil and gas produced from the area covered by this lease to secure the payment of all unpaid royalty and other sums of money that may become due to the State hereunder.

4. POOLING: (a) Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons. Units pooled for oil hereunder shall not exceed 160 acres each in area, and units pooled for gas hereunder shall not exceed in area 640 acres each plus a tolerance of ten percent (10%) thereof, unless oil or gas units of a greater size are allowed under or prescribed by rules of the Railroad Commission of Texas. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, as operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) the proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any

delay rental and shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of Lessee to release as provided in paragraph 5 hereof, except that Lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force Lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force for so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but Lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

(b) Neither unit production of oil or gas, nor unit operations, nor payment of shut-in royalties from a unit gas well, shall serve to hold the lease in force as to any area outside the unit, regardless of whether the production, maintenance of a shut-in gas well, or operations are actually located on the State tract or not.

(c) Lessee agrees to file with the General Land Office a copy of any unit designation which this lease is included within ninety (90) days of such designation.

5. DELAY RENTAL/RELEASE: (a) If operations are not conducted on said land or acreage pooled therewith on or before Noverber 5, 1992, this lease shall terminate as to both parties, unless Lessee on or before said date shall, subject to the further provisions hereof, pay or tender to Lessor the sum of $118.90, which shall operate as delay rental and cover the privilege of deferring operations for one year from said date. In like manner and upon like payments or tenders, operations may be further deferred for like periods of one year each during the primary term. Any payment hereunder may be made by check of Lessee deposited in the mail or delivered to Lessor on or before the last date for payment. Said delay rental shall be apportionable as to said land on an acreage basis, and a failure to make proper payment or tender of delay rental as to any portion of said land or as to any interest therein shall not affect this lease as to any portion of said land or as to any interest therein as to which proper payment or tender is made. Any payment or tender which is made in an attempt to make proper

payment, but which is erroneous in whole or in part as to parties or amounts shall nevertheless be sufficient to prevent termination of this lease and to extend the time within which operations may be conducted in the same manner as though a proper payment had been made; provided, however, Lessee shall correct such error within thirty (30) days after Lessee has received written notice thereof from Lessor.

(b) Lessee may relinquish the rights granted hereunder to the State at any time by recording the relinquishment in the county where this area is situated and filing the recorded relinquishment or certified copy of same in the General Land Office within ninety (90) days after its execution accompanied by the prescribed filing fee. Such relinquishment will not have the effect of releasing Lessee from any liability theretofore accrued in favor of the State. If this lease is so released as to all minerals and horizons under a portion of said land, the delay rental and other payments computed in accordance therewith shall thereupon be reduced in the proportion that the acreage released bears to the acreage which was covered by this lease immediately prior to such release.

6. REWORK: If at any time or times during the primary term operations are conducted on said land and if all operations are discontinued, this lease shall thereafter terminate on its anniversary date next following the ninetieth day after such discontinuance unless on or before such anniversary date Lessee either (1) conducts operations or (2) commences or resumes the payment or tender of delay rental; provided, however, if such anniversary date is at the end of the primary term or if there is no further anniversary date of the primary term, this lease shall terminate at the end of such term or on the ninetieth day after discontinuance of all operations, whichever is the later date, unless on such later date either (1) Lessee is conducting operations or (2) the shut-in well provisions of paragraph 3 or the provisions of paragraph 9 are applicable. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil or gas, or production of oil or gas in paying quantities.

7. MINERAL USE: Lessee shall have the use, free from royalty, of oil and gas produced from said land in all operations hereunder.

8. NOTICE: In the event Lessor considers that Lessee has not complied with all its obligations hereunder, both express and implied, Lessor shall notify Lessee in writing, setting out specifically in what respects Lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by Lessor. The service of said notice shall be precedent to the bringing of any action by Lessor on said lease for

any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on Lessee. Neither the service of said notice nor the doing of any acts by Lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that Lessee has failed to perform all its obligations hereunder. If this lease is canceled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by Lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations.

9. FORCE MAJEURE: If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and Lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of Lessee, the primary term and the delay rental provisions hereof shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

10. LESSER ESTATE CLAUSE: If this lease covers a less interest in the oil or gas in all or any part of said land than the entire and undivided fee simple estate (whether lessors interest is herein specified or not), or no interest therein, then the royalties, delay rental, and other monies accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease bears to the whole and undivided fee simple estate therein.

11. ASSIGNMENTS: This lease may be transferred at any time. All transfers must reference the lease by file number and must be recorded in the county where the land covered hereby is located, and the recorded transfer or a copy certified to by the County Clerk of the county where the transfer is recorded must be filed in the General Land Office within ninety (90) days of the execution date, as provided by N.R.C. Section 52.026, accompanied by the prescribed filing fee. Every transferee shall succeed to all rights and be subject to all obligations, liabilities, and penalties owed to the State by the original Lessee or any prior transferee of the lease, including any liabilities to the State for unpaid royalties.

12. WELL INFORMATION: Lessee agrees to forthwith furnish Lessor,

upon written request, with copies of all drilling logs, electrical logs, cores and core records and other information pertaining to all wells drilled by lessee either on the leased premises or acreage pooled therewith, when requested to do so. Said information shall remain confidential as required by statute.

13. SURFACE: Notwithstanding anything herein to the contrary, it is agreed that Lessee will not conduct any exploration or drilling on the surface of the leased premises or use the surface in the exercise of any rights herein granted. Any development of said land shall be by means of a directional well located off the leased premises, or by pooling of said land with other land, lease or leases as hereinabove provided.

14. COMPENSATORY ROYALTY: Lessee shall pay a compensatory royalty if this lease is not being held by production on the leased premises, by production from a pooled unit, or by payment of shut-in royalties in accordance with the terms of this lease, and if oil or gas is sold or delivered in paying quantities from a well located within 2500 feet of the leased premises and completed in a producible reservoir underlying the area leased hereunder or in any case in which drainage is occurring. Such compensatory royalty shall be paid at the royalty rate provided in this lease based on the value of production from the well as provided in the lease on which such well is located. The compensatory royalty shall be paid in the same proportion that the acreage of this lease has to the acreage of the proration unit surrounding the draining well plus the acreage of this lease. The compensatory royalty shall be paid monthly to the Commissioner of the General Land Office on or before the last day of the month after the month in which the oil or gas is sold and delivered from the well causing the drainage or from the well located within 2500 feet of the leased premises and completed in a producible reservoir under this lease. Notwithstanding anything herein to the contrary, compensatory royalty payable hereunder shall be no less than an amount equal to double the annual rental payable under this lease, and shall maintain this lease in effect for so long as such payments are made as provided herein.

15. FORFEITURE: If Lessee shall fail or refuse to make payment of any sum within thirty (30) days after it becomes due, or if Lessee or an authorized agent should knowingly make any false return or false report concerning production or drilling, or if Lessee shall fail or refuse to drill any offset well or wells in good faith as required by law and the rules and regulations adopted by the Commissioner of the General Land Office, or if Lessee should fail to file reports in the manner required by law or fail to comply with rules and regulations promulgated by the General Land Office, or refuse the proper authority access to the records pertaining to operations, or if Lessee or an authorized agent should knowingly fail or refuse to give correct information to the proper authority, or knowingly fail or refuse to furnish the General Land Office a

correct log of any well, or if this lease pooled or assigned and the unit desingation or assignment is not filed in the General Land Office as required by law, the rights acquired under this lease shall be subject to forfeiture by the Commissioner, and he shall forfeit same when sufficiently informed of the facts which authorize a forfeiture, and when forfeited the area shall again be subject to lease. However, nothing herein shall be construed as waiving the automatic termination of this lease by operations of law or by reason of any special limitation arising hereunder. Forfeitures may be set aside and this lease and all rights thereunder reinstated before the rights of another intervene upon satisfactory evidence to the Commissioner of the General Land Office of future compliance with the provisions of the law and of this lease and the rules and regulations that may be adopted relative hereto.

16. RAILROAD COMMISSION: No natural gas or casinghead gas, including both associated and non-associated gas, produced from the mineral estate subject to this lease may be sold or contracted for sale to any person for ultimate use outside the State unless the Railroad Commission of Texas, after notice and hearing as provided in Title 3 of the N.R.C., finds that:

(a) the person, agency, or entity that executed the lease in question does not require the natural gas or casinghead gas to meet its own existing needs for fuel;

(b) no private or public hospital, nursing home, or other similar health-care facility in this state requires the natural gas or casinghead gas to meet its existing needs for fuel;

(c) no public or private school in this state that provides elementary, secondary, or higher education requires the natural gas or casinghead gas to meet its existing needs for fuel;

(d) no facility of the State or of any county, municipality, or other political subdivision in this state requires the natural gas or casinghead gas to meet its existing needs for fuel;

(e) no producer of food and fiber requires the natural gas or casinghead gas necessary to meet the existing needs of irrigation pumps and other machinery directly related to this production; and

(f) no person who resides in this state and who relies on natural gas or casinghead gas to provide in whole or part his existing needs for fuel or raw material requires the natural gas or casinghead gas to meet those needs; provided, however, after notice and hearing as provided in Title 3 of the N.R.C., the Railroad Commission of Texas may grant exceptions to these provisions of Subchapter H of Chapter 52 of the N.R.C. if it finds and determines that enforcement of such provisions:

(1) would cause physical waste as defined in Title 3 of the N.R.C.; or

(2) would unreasonably deny to the Lessee an

opportunity to produce economically hydrocarbons from the land subject to this lease.

IN TESTIMONY WHEREOF, witness the signature of the Commissioner of the General Land Office, under the seal of the General Land Office, effective as of November 5, 1991.

Dear Mrs. Yakinta:

In connection with the preparation of certain title opinions for our client, Union Pacific Resources Company, we have reviewed that certain deed dated May 14, 1931, from E.F. Clay, acting individually and as attorney-in-fact for D.J. Clay, Sue Attie C. Campbell, Nettie Louise Myers and Dana B. Myers, to the State of Texas, recorded in Volume 80, page 530, Deed Records of Brazos County, Texas (herein called the "Deed"). A copy of the Deed is attached hereto as Exhibit "A". The Deed purports to convey to the State of Texas three separate tracts (the "Property") containing 10.2 acres, 4.56 acres and 7.23 acres, respectively, as more particularly described by metes and bounds in the Deed.

The Deed contains a granting clause which unequivocally grants and conveys to the State of Texas a fee simple interest in the Property. However, following the granting clause and the description of the Property, certain portions of the Deed refer to the Property conveyed as "said right-of-way". Under Texas law, it is does not appear that this recital in the Deed (i.e., that the affected Property conveyed is a "right-of-way") limits the fee simple conveyance otherwise granted pursuant to the granting clause. The Texas Supreme Court, in Texas Electric Railway Company v. Neale, 252 S.W.2d 451, 456, held that the use of the words "right-of-way" in a deed "does not change the effect of the conveyance, for the declaration in a deed for the purpose for which land is conveyed or the use to be made of it does not impose a condition upon the title granted; nor does it operate to limit the grant to a mere easement."

Therefore, based upon our review of the Deed, especially the unequivocal language of the granting clause in the Deed, and our analysis of Texas Electric Railway Company v. Neale, fee simple title to the surface and mineral estate of the Property is vested in the State of Texas by virtue of such Deed.

Please do not hesitate to contact me should you have any questions concerning our intrepretation of the Deed. This letter is being submitted to you at the request of our client, Union Pacific Resources Company.

Very truly yours,

J. Patrick Murphy

Any claim by Assignees under the warranty and covenant provided in this paragraph must be made in writing and given to Assignor not later than the last calendar day prior to the first anniversary of the execution of this Assignment.

It is the intent of Assignor herein to convey to Assignee all of its present right, title and interest in and to the Assets. To the extent an Oil and Gas Property is not properly described in or is omitted from Exhibit "A-1", Assignor agrees, upon Assignee's request, to execute, acknowledge and deliver or cause to be executed and delivered, all further documents or instruments necessary to effect such intent of Assignor.

Except as specifically set forth in this Assignment, Assignor makes no warranties or representations, express or implied in connection with the Assets, and expressly disclaims any such warranties or representations. ASSIGNOR EXPRESSLY DISCLAIMS ANY WARRANTY AS TO THE CONDITION OF ANY PERSONAL PROPERTY, FIXTURES AND ITEMS OF MOVABLE PROPERTY COMPRISING ANY PART OF THE ASSETS INCLUDING (i) ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY, (ii) ANY IMPLIED OR EXPRESS WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, (iii) ANY IMPLIED OR EXPRESS WARRANTY OF CONFORMITY TO MODELS OR SAMPLES OF MATERIALS, (iv) ANY RIGHTS OF BUYER UNDER APPLICABLE STATUTES TO CLAIM DIMINUTION OF CONSIDERATION, AND (v) ANY CLAIM BY ASSIGNOR FOR DAMAGES BECAUSE OF DEFECTS IN ANY PERSONAL PROPERTY, FIXTURES AND ITEMS OF MOVABLE PROPERTY, WHETHER KNOWN OR UNKNOWN. This Assignment is made with full substitution and subrogation of Assignees in and to all covenants and warranties by others heretofore given or made in respect of the Assets or any part thereof.

Contemporaneously with the execution and delivery of this Assignment to Assignees, Assignor has executed and delivered to each of 1988-III TEAI Limited Partnership, a Texas limited partnership, 1988-IV TEAI Limited Partnership, a Texas limited partnership, and 1988-VII TEAI Limited Partnership, a Texas limited partnership, a Conveyance of Net Profits Overriding Royalty Interest that assigns an overriding royalty interest in the Oil and Gas Properties (collectively the "Conveyances"). It is hereby stipulated and agreed that (i) the interests in the Assets acquired by BHOC are subject to and burdened by the interests assigned pursuant to the Conveyances and (ii) the interests in the Assets acquired by TEAI-I, TEAI-II, and TEAI-VI shall be free and clear of, are not subject to, or burdened by, the interests assigned pursuant to the Conveyances or any obligations of Assignor pursuant to the Conveyances.

To the extent any of the Oil and Gas Properties are subject to a commitment to sell any production to a purchaser under a gas purchase agreement that includes gas categorized as Section 104 or Section 106 gas under the Natural Gas Policy Act, and such Oil and Gas Properties were acquired by Assignor from Sohio Petroleum Company (such Oil and Gas Properties are hereinafter referred to as the "Sohio Properties"), if either party desires to conduct the Good Faith Negotiation Procedure ("GFN") set forth in Section 270.201 of the Federal Energy Regulatory Commission's regulations as to any of the Sohio Properties or to any of the properties that it retains after this Assignment that could impact the Sohio Properties, and is unable to do so without the cooperation of the other party, the other party agrees to enter into good faith discussions concerning measures necessary to enable the first party to conduct the GFN.

Prior to any transportation of natural gas produced from any of the Sohio Properties that could make either party subject to the crediting mechanism described in Sections 284.8(f) or 284.9(f) of the regulations of the Federal Energy Regulatory Commission ("FERC"), as promulgated in Order No. 500, 500-B and 500-C, or successor regulations, Assignee shall attempt to obtain the agreement of each potential transporting pipeline not to assert rights under such FERC regulations to credit volumes of gas produced from or allocated to such Sohio Properties and shipped on such transporting pipeline ("subject gas") against contractual or other obligations of such transporting pipeline to Assignor. If Assignees are unsuccessful in obtaining such agreement(s) from the transporting pipeline(s), Assignor shall execute and deliver such offer(s) of credit(s) or other document as may be required under FERC regulations to make the subject gas eligible for transportation on the transporting pipeline(s), unless the execution and delivery by Assignor of such offer(s) of credit(s) would cause the above-described crediting against any obligation (whether relating to the assigned interests or any other interests owned by Assignor) of the transporting pipeline to Assignor to occur.

If gas produced from or allocated to the Sohio Properties or interests owned by Assignor and not the subject of this transaction ("retained gas") is ineligible for transportation on the transporting pipeline unless Assignee executes offer(s) of credit(s), Assignor shall attempt to obtain the agreement of such transporting pipeline not to assert rights under FERC regulations to credit volumes of retained gas against the contractual or other obligations of such transporting pipeline to Assignees. If Assignor is unsuccessful in obtaining such agreement(s) from the transporting pipeline(s), Assignees shall execute and deliver such offer(s) of credit(s) as may be required under FERC regulations to make the retained gas eligible for transportation on the transporting pipeline(s) unless the execution and delivery by Assignees of such offer(s) of credit(s) would cause the above-described crediting against any obligation (whether related

to the assigned interests or any other interest owned by Assignees) of the transporting pipeline to Assignees to occur.

Any party's failure to observe any of the foregoing covenants and limitations shall constitute a material breach of this Assignment.

All subsequent conveyances or assignments of the Sohio Properties in whole or in part, shall incorporate covenants and limitations identical in substance to the foregoing for Assignees' and Assignor's continuing benefit and shall similarly bind Assignees' successors or assigns and Assignor's successors or assigns.

This Assignment may be executed in any number of counterparts and each of such counterparts shall for all purposes be deemed to be an original, and all such counterparts shall together constitute but one and the same Assignment.

IN WITNESS WHEREOF, the parties hereto have caused this Assignment to be duly executed on this, the 28th day of July, 1989. This Assignment shall be effective at 7:00 a.m. (in the locale where the Assets are located) on January 1, 1989 (the "Effective Date").

SAVE AND EXCEPT that certain 160-acre tract or parcel of land comprising that certain oil and gas unit known as the Keith D. Graham, Texas Speedway No. 1, as that tract is more fully described in that certain Assignment of Oil and Gas Lease from Keith D. Graham to Keith D. Graham, Jr., et al dated the 6th day of August, 1981 and recorded in Volume 512, Page 234, of the Deed Records of Brazos County, Texas.

until it has received Lessor's written consent to the proposed drill site locations and accessways which consent will not be unreasonably withheld.

(b) After completion of drilling operations, if there is production on said premises, Lessee shall be limited to the use of one (1) acre for each well site, with the exact location thereof subject to Lessor's consent, which consent will not be unreasonably withheld.

4. Lessee agrees that it will use for ingress and egress to the leased premises the existing roads and right-of-way wherever possible, and that any existing roads used shall be maintained in all-weather (gravel) conditions. In the event that an existing road right-of-way will not permit access to a drill site or production facility site, Lessee will construct all weather (gravel) roads, and such roads, along the route designated pursuant to paragraph 3(a) above which shall remain after completion of drilling operations. However, it is agreed and understood that upon written request by Lessor, such roads shall be removed by Lessee. Lessee and its assigns will at all times consult with Lessor concerning the location of roads and tank batteries and will construct such roads and facilities in a manner so as not to prevent the natural drainage on, over and across the leased premises or Lessor's adjacent lands, by placement of adequate culverts.

5. In matters requiring consultation, permission and a consent of Lessor, Lessor shall be represented by the President of Texas World Speedway, Inc. until Lessee is notified otherwise in writing.

6. It is understood and agreed that at the expiration of the primary term of this lease all acreage not comprising all or any portion of a gas or oil unit or units, (whether such units consists of any land or lands not covered by this lease not) and otherwise maintained under the terms hereof, shall be released from the terms hereof and Lessee shall place on record in the Deed Records of Brazos County, Texas an instrument releasing such non-producing acreage; provided however, that if at such time a well is being drilled or re-worked on any such land outside of such unit or units, this lease shall be extended and shall remain in force as to such acreage outside such unit or units so long as operations on said well, or for drilling or reworking of any additional well, are prosecuted with no cessation of more that 60 consecutive days.

7. Notwithstanding any provision of this lease to the contrary, Lessee its successors and assigns may not pool or unitize any part of the leased premises with any other land or lands not covered by this lease to form a pool unit unless at least 50% of the acreage comprising such pooled unit is of lands subject to this lease.

8. For purposes of paragraph 3 of the printed portion of this Oil, Gas and Mineral Lease, in each instance wherein it recites the fraction "one-eighth", the fraction three-sixteenths shall apply for all purposes including, but not limited to, the payment of royalty.

ADDENDUM TO OIL & GAS LEASE

In the event there is any conflict between the printed portion of this Oil, Gas and Mineral Lease and this Addendum, the terms of this Addendum shall control.

1. Notwithstanding anything referenced in this lease to "all oil, gas and other minerals", it is expressly understood and agreed that this lease covers only oil, gas and other liquid hydrocarbons and all references to "other minerals" are hereby deleted from this lease.

2. Lessee or its assigns shall reimburse Lessor for the reasonable value and agrees to promptly pay for all damages to growing crops, fences, animals, or other property of Lessor or its tenants caused by operations hereunder. Moreover, Lessee or its assigns shall also reimburse Lessor for the reasonable value of damages to the surface of leased premises which damages have been caused by Lessee's use thereof; and Lessee or its assigns shall fill and level off all slush pits, holes and ruts, and restore the surface to the same condition, as nearly as may be possible, to its condition before commencement of any operation hereunder, said restoration to be within 90 days after completion of such operation, or as soon thereafter as weather and surface condition permit. Lessee or its assigns shall remove all drilling mud and chemicals as may be reasonable and customary under the circumstances and fill and level all pits and other excavation. In the event that the well shall have been drilled in pasture land, the drilling mud and chemicals may be spread across the pasture, however, the remainder of the above stated requirements shall be complied with. In addition, Lessee shall seed and replant natural grass on the damaged surface area of leased premises in order to restore the surface of the ground as nearly as possible to its previous condition. Lessee agrees to bury any and all pipelines at least 30" below the surface of the ground. Surface casing is to be cut off at least three (3) feet below the surface of the ground.

3. Lessee agrees that oil and gas operations shall not unreasonably interfere with the current use of the property, nor the planned development thereon and such operations shall be conducted in such a manner so as to not interfere with the safety and continuity of the existing and planned use. Lessee agrees that to accomplish the above, its operations shall include, but not to be limited to the following restrictions.

(a) All drilling and other operations may be conducted by Lessee only upon drill sites designated by Lessee within thirty (30) days after the date of this lease. Initially, such drill sites should not exceed five (5) acres in total area, and such designation shall be in the form of a survey prepared by a Registered Professional Engineer showing the location of each proposed drill site in relation to the entire leased premises. Such survey must also show the location of proposed accessways to and from such designated drill sites if different from existing roads. After such designation, access to and from such drill sites for drilling or any subsequent operations shall be restricted to such designated accessways. Lessee may conduct no operation on the leased premises

7. Lessee shall have the use, free from royalty, of water, other than from lessor's water wells, and of oil and gas produced from said land in all operations hereunder. Lessee shall have the right at any time to remove all machinery and fixtures placed on said land, including the right to draw and remove casing. No well shall be drilled nearer than 200 feet to the house or barn now on said land without the consent of the lessor. Lessee shall pay for damages caused by its operations to growing crops and timber on said land.

8. The rights and estate of any party hereto may be assigned from time to time in whole or in part and as to any mineral or horizon. All of the covenants, obligations, and considerations of this lease shall extend to and be binding upon the parties hereto, their heirs, successors, assigns, and successive assigns. No change or division in the ownership of said land, royalties, delay rental, or other moneys, or any part thereof, howsoever effected, shall increase the obligations or diminish the rights of lessee, including, but not limited to, the location and drilling of wells and the measurement of production. Notwithstanding any other actual or constructive knowledge or notice thereof of or to lessee, its successors or assigns, no change or division in the ownership of said land or of the royalties, delay rental, or other moneys, or the right to receive the same, howsoever effected, shall be binding upon the then record owner of this lease until thirty (30) days after there has been furnished to such record owner at his or its principal place of business by lessor or lessor's heirs, successors, or assigns, notice of such change or division, supported by either originals or duly certified copies of the instruments which have been properly filed for record and which evidence such change or division, and of such court records and proceedings, transcripts, or other documents as shall be necessary in the opinion of such record owner to establish the validity of such change or division. If any such change in ownership occurs by reason of the death of the owner, lessee may, nevertheless pay or tender such royalties, delay rental, or other moneys, or part thereof, to the credit of the decedent in a depository bank provided for above. In the event of assignment of this lease as to any part (whether divided or undivided) of said land, the delay rental payable hereunder shall be apportionable as between the several leasehold owners, ratably according to the surface area or undivided interests of each, and default in delay rental payment by one shall not affect the right of other leasehold owners hereunder.

9. In the event lessor considers that lessee has not complied with all its obligations hereunder, both express and implied, lessor shall notify lessee in writing, setting out specifically in what respects lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by lessor. The service of said notice shall be precedent to the bringing of any action by lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on lessee. Neither the service of said notice nor the doing of any acts by lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that lessee has failed to perform all its obligations hereunder. If this lease is cancelled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations. Lessee shall also have such easements on said land as are necessary to operations on the acreage so retained.

10. Lessor hereby warrants and agrees to defend title to said land against the claims of all persons whomsoever. Lessor's rights and interests hereunder shall be charged primarily with any mortgages, taxes or other liens, or interest and other charges on said land, but lessor agrees that lessee shall have the right at any time to pay or reduce same for lessor, either before or after maturity, and be subrogated to the rights of the holder thereof and to deduct amounts so paid from royalties or other payments payable or which may become payable to lessor and/or assigns under this lease. If this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether lessor's interest is herein specified or not), or no interest therein, then the royalties, delay rental, and other moneys accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by lessor) shall be paid out of the royalty herein provided. This lease shall be binding upon each party who executes it without regard to whether it is executed by all those named herein as lessor.

11. If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of lessee, the primary term and the delay rental provisions hereof shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred. * *

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

**The terms of this Lease are expressly made subject to the attached Addendum.

JEAN WARD - CO. CLERK
BRAZOS COUNTY COURTHOUSE
BRYAN, TEXAS
DEPUTY

THIS AGREEMENT made this 2nd day of May 19 90, between BRAZOS COAL LIMITED, a Texas Partnership and THOUSAND OAKS DEVELOPMENT COMPANY, a Texas Partnership, by Managing Partner, Global Natural Resources, Inc., Roger C. Chapman, President

Lessor (whether one or more), whose address is: P.O. Box 4682, Houston, Texas 77210 and Union Pacific Resources Company, 801 Cherry Street, Ft. Worth, Texas 76102

1. Lessor in consideration of Ten And Other Valuable Consideration---------- Dollars ($ 10.00 & OVC), in hand paid, of the royalties herein provided, and of the agreements of Lessee herein contained, hereby grants, leases and lets exclusively unto Lessee for the purpose of investigating, exploring, prospecting, drilling and mining for and producing oil, gas and all other minerals, conducting exploration, geologic and geophysical surveys by seismograph, core test, gravity and magnetic methods, injecting gas, water and other fluids, and air into subsurface strata, laying pipe lines, building roads, tanks, power stations, telephone lines and other structures thereon and on, over and across lands owned or claimed by Lessor adjacent and contiguous thereto, to produce, save, take care of, treat, transport and own said products, and housing its employees, the following described land in Brazos County, Texas, to-wit:

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF FOR LEASE DESCRIPTION

SEE ADDITIONAL PROVISIONS ATTACHED HERETO AND MADE A PART HEREOF

Wherever the term 1/8th appears in paragraph three (3) below the same shall be changed to read 1/5th.

This lease also covers and includes all land owned or claimed by Lessor adjacent or contiguous to the land particularly described above, whether the same be in said survey or surveys or in adjacent surveys, although not included within the boundaries of the land particularly described above. For the purpose of calculating the rental payments hereinafter provided for, said land is estimated to comprise 1,246.533 acres, whether it actually comprises more or less.

2. Subject to the other provisions herein contained, this lease shall be for a term of THREE (3) years from this date (called "primary term") and as long thereafter as oil, gas or other mineral is produced from said land or land with which said land is pooled hereunder.

3. The royalties to be paid by Lessee are: (a) on oil, one-eighth of that produced and saved from said land, the same to be delivered at the wells or to the credit of Lessor into the pipelines to which the wells may be connected; Lessee may from time to time purchase any royalty oil in its possession, paying the market price therefor prevailing for the field where produced on the date of purchase; (b) to pay lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, one-eighth of the amount realized from the sale of gasoline or other products extracted therefrom and one-eighth of the amount realized from the sale of residue gas after deducting the amount used for plant fuel and/or compression; while there is a gas well on this lease or on acreage pooled therewith but gas is not being sold or used, Lessee may pay as royalty, on or before ninety (90) days after the date on which (1) said well is shut in, or (2) the land covered hereby or any portion thereof is included in a pooled unit on which a well is located, or (3) this lease ceases to be otherwise maintained as provided herein, whichever is the later date, and thereafter at annual intervals on or before the anniversary of the date the first payment is made, a sum equal to the amount of the annual rental payable in lieu of drilling operations during the primary term on the number of acres subject to this lease at the time such payment is made, and if such payment is made or tendered, this lease shall not terminate, and it will be considered that gas is being produced from this lease in paying quantities; and (c) on all other minerals mined and marketed, one-tenth either in kind or value at the well or mine, at Lessee's election, except that on sulphur mined and marketed the royalty shall be fifty cents (50¢) per long ton. Lessee shall have free use of oil, gas, coal, and water from said land, except water from Lessor's wells, for all operations hereunder, and the royalty on oil, gas and coal shall be computed after deducting any so used.

4. Lessee, at its option, is hereby given the right and power to pool or combine the acreage covered by this lease or any portion thereof as to oil and gas, or either of them, with any other land covered by this lease, and/or with any other land, lease or leases in the immediate vicinity thereof to the extent hereinafter stipulated, when in Lessee's judgment it is necessary or advisable to do so in order properly to explore, or to develop and operate said leased premises in compliance with the spacing rules of the Railroad Commission of Texas, or other lawful authority, or when to do so would, in the judgment of Lessee, promote the conservation of oil and gas in and under and that may be produced from said premises. Units pooled for oil hereunder shall not substantially exceed 40 acres each in area, and units pooled for gas hereunder shall not substantially exceed in area 640 acres each plus a tolerance of ten percent (10%) thereof, provided that should governmental authority having jurisdiction prescribe or permit the creation of units larger than those specified, for the drilling or operation of a well at a regular location or for obtaining maximum allowable from any well to be drilled, drilling or already drilled, units thereafter created may conform substantially in size with those prescribed or permitted by governmental regulations. Lessee under the provisions hereof may pool or combine acreage covered by this lease or any portion thereof as above provided as to oil in any one or more strata and as to gas in any one or more strata. The units formed by pooling as to any stratum or strata need not conform in size or area with the unit or units into which the lease is pooled or combined as to any other stratum or strata, and oil units need not conform as to area with gas units. The pooling in one or more instances shall not exhaust the rights of the Lessee hereunder to pool this lease or portions thereof into other units. Lessee shall file for record in the appropriate records of the county in which the leased premises are situated an instrument describing and designating the pooled acreage as a pooled unit; and upon such recordation the unit shall be effective as to all parties hereto, their heirs, successors, and assigns, irrespective of whether or not the unit is likewise effective as to all other owners of surface, mineral, royalty, or other rights in land included in such unit. Lessee may at its election exercise its pooling option before or after commencing operations for or completing an oil or gas well on the leased premises, and the pooled unit may include, but it is not required to include, land or leases upon which a well capable of producing oil or gas in paying quantities has theretofore been completed or upon which operations for the drilling of a well for oil or gas have theretofore been commenced. In the event of operations for drilling on or production of oil or gas from any part of a pooled unit which includes all or a portion of the land covered by this lease, regardless of whether such operations for drilling were commenced or such production was secured before or after the execution of this instrument or the instrument designating the pooled unit such operations shall be considered as operations for drilling on or production of oil and gas from land covered by this lease whether or not the well or wells be located on the premises covered by this lease and in such event operations for drilling shall be deemed to have been commenced on said land within the meaning of paragraph 5 of this lease; and the entire acreage constituting such unit or units, as to oil and gas, or either of them, as herein provided, shall be treated for all purposes, except the payment of royalties on production from the pooled unit, as if the same were included in this lease. For the purpose of computing the royalties to which owners of royalties and payments out of production and each of them shall be entitled on production of oil and gas, or either of them, from the pooled unit, there shall be allocated to the land covered by this lease and included in said unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) a pro rata portion of the oil and gas, or either of them, produced from the pooled unit after deducting that used for operations on the pooled unit. Such allocation shall be on an acreage basis—that is to say, there shall be allocated to the acreage covered by this lease and included in the pooled unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that pro rata portion of the oil and gas, or either of them, produced from the pooled unit which the number of surface acres covered by this lease (or in each such separate tract) and included in the pooled unit bears to the total number of surface acres included in the pooled unit. Royalties hereunder shall be computed on the portion of such production, whether it be oil and gas, or either of them, so allocated to the land covered by this lease and included in the unit just as though such production were from such land. The production from an oil well will be considered as production from the lease or oil pooled unit which it is producing and not as production from a gas pooled unit; and production from a gas well will be considered as production from the lease or gas pooled unit from which it is producing and not from an oil pooled unit. The formation of any unit hereunder shall not have the effect of changing the ownership of any delay rental or shut-in production royalty which may become payable under this lease. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interest as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but Lessee shall nevertheless have the right to pool as provided above with consequent allocation of production as above provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. If operations for drilling are not commenced on said land or on acreage pooled therewith as above provided on or before one year from this date, the lease shall then terminate as to both parties, unless on or before such anniversary date Lessee shall pay or tender (or shall make a bona fide attempt to pay or tender, as hereinafter stated) to Lessor or to the credit of Lessor in First Interstate of Texas Bank at Houston (Acct.# [redacted]

Texas, (which bank and its successors are Lessor's agent and shall continue as the depository for all rentals payable hereunder regardless of changes in ownership of said land or the rentals) the sum of Six Thousand Two Hundred Thirty Two and 67/100********** ********** Dollars ($ 6,232.67), (herein called rentals), which shall cover the privilege of deferring commencement of drilling operations for a period of twelve (12) months. In like manner and upon like payments or tenders annually, the commencement of drilling operations may be further deferred for successive periods of twelve (12) months each during the primary term. The payment or tender of rental under this paragraph and of royalty under paragraph 3 on any gas well from which gas is not being sold or used may be made by the check or draft of Lessee mailed or delivered to the parties entitled thereto or to said bank on or before the date of payment. If such bank (or any successor bank) should fail, liquidate or be succeeded by another bank, or for any reason fail or refuse to accept rental, Lessee shall not be held in default for failure to make such payment or tender or rental until thirty (30) days after Lessor shall deliver to Lessee a proper recordable instrument naming another bank as agent to receive such payments or tenders. If Lessee shall, on or before any anniversary date, make a bona fide attempt to pay or deposit rental to a Lessor entitled thereto according to Lessee's records or to a Lessor, who, prior to such attempted payment or deposit, has given Lessee notice, in accordance with subsequent provisions of this lease, of his right to receive rental, and if such payment or deposit shall be ineffective or erroneous in any regard, Lessee shall be unconditionally obligated to pay to such Lessor the rental properly payable for the rental period involved, and this lease shall not terminate but shall be maintained in the same manner as if such erroneous or ineffective rental payment or deposit had been properly made, provided that the erroneous or ineffective rental payment or deposit be corrected within 30 days after receipt by Lessee of written notice from such Lessor of such error accompanied by such instruments as are necessary to enable Lessee to make proper payment. The down cash payment is consideration for this lease according to its terms and shall not be allocated as a mere rental for a period. Lessee may at any time or times execute and deliver to lessor or to the depository above named or place of record a release or releases of this lease as to all or any part of the above-described premises, or of any mineral or horizon under all or any part thereof, and thereby be relieved of all obligations as to the released land or interest. If this lease is released as to all minerals and horizon under a portion of the land covered by this lease, the rentals and other payments computed in accordance therewith shall thereupon be reduced in the proportion that the number of surface acres within such released portion bears to the total number of surface acres which was covered by this lease immediately prior to such release.

6. If prior to discovery and production of oil, gas or other mineral on said land or on acreage pooled therewith, Lessee should drill a dry hole or holes thereon, or if after discovery and production of oil, gas or other mineral, the production thereof should cease from any cause, this lease shall not terminate if Lessee commences operations for drilling or reworking within sixty (60) days thereafter or if it be within the primary term, commences or resumes the payment or tender of rentals or commences operations for drilling or reworking on or before the rental paying date next ensuing after the expiration of sixty days from date of completion of dry hole or cessation of production. If at any time subsequent to sixty (60) days prior to the beginning of the last year of the primary term and prior to the discovery of oil, gas or other mineral on said land, or on acreage pooled therewith, Lessee should drill a dry hole thereon, no rental payment or operations are necessary in order to keep the lease in force during the remainder of the primary term. If at the expiration of the primary term, oil, gas or other mineral is not being produced on said land, or on acreage pooled therewith, but Lessee is then engaged in drilling or reworking operations thereon or shall have completed a dry hole thereon within sixty (60) days prior to the end of the primary term, the lease shall remain in force so long as operation on said well or for drilling or reworking of any additional well are prosecuted with no cessation of more than sixty (60) consecutive days, and if they result in the production of oil, gas or other mineral, so long thereafter as oil, gas or other mineral is produced from said land or acreage pooled therewith. Any pooled unit designated by Lessee in accordance with the terms hereof may be dissolved by Lessee by instrument filed for record in the appropriate records of the county in which the leased premises are situated at any time after the completion of a dry hole or the cessation of production on said unit. In the event a well or wells producing oil or gas in paying quantities should be brought in on adjacent land and within three hundred thirty (330) feet of and draining the leased premises, or acreage pooled therewith, Lessee agrees to drill such offset wells as a reasonably prudent operator would drill under the same or similar circumstances.

7. Lessee shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed by Lessee on said land, including the right to draw and remove all casing. When required by Lessor, Lessee will bury all pipe lines below ordinary plow depth, and no well shall be drilled within two hundred (200) feet of any residence or barn now on said land without Lessor's consent.

8. The rights of either party hereunder may be assigned in whole or in part, and the provisions hereof shall extend to their heirs, successors and assigns; but no change or division in ownership of the land, rentals or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee; and no change or division in such ownership shall be binding on Lessee until thirty (30) days after Lessee shall have been furnished by registered U.S. mail at Lessee's principal place of business with a certified copy of recorded instrument or instruments evidencing same. In the event of assignment hereof in whole or in part, liability for breach of any obligation hereunder shall rest exclusively upon the owner of this lease or of a portion thereof who commits such breach. In the event of the death of any person entitled to rentals hereunder, Lessee may pay or tender such rentals to the credit of the deceased or the estate of the deceased until such time as Lessee is furnished with proper evidence of the appointment and qualification of an executor or administrator of the estate, or if there be none, then until Lessee is furnished with evidence satisfactory to it as to the heirs or devisees of the deceased and that all debts of the estate have been paid. If at any time two or more persons be entitled to participate in the rental payable hereunder, Lessee may pay or tender said rental jointly to such persons or to their joint credit in the depository named herein; or, at Lessee's election, the proportionate part of said rentals to which each participant is entitled may be paid or tendered to him separately or to his separate credit in said depository; and payment or tender to any participant of his portion of the rentals hereunder shall maintain this lease as to such participant. In event of assignment of this lease as to a segregated portion of said land, the rentals payable hereunder shall be apportionable as between the several leasehold owners ratably according to the surface area of each, and default in rental payment by one shall not affect the rights of other leasehold owners hereunder. If six or more parties become entitled to royalty hereunder, Lessee may withhold payment thereof unless and until furnished with a recordable instrument executed by all such parties designating an agent to receive payment for all.

9. The breach by Lessee of any obligation arising hereunder shall not work a forfeiture or termination of this lease nor cause a termination or reversion of the estate created hereby nor be grounds for cancellation hereof in whole or in part. In the event Lessor considers that operations are not at any time being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if in default, shall have sixty days after receipt of such notice in which to commence the compliance with the obligations imposed by virtue of this instrument. After the discovery of oil, gas or other mineral in paying quantities on said premises, Lessee shall develop the acreage retained hereunder as a reasonably prudent operator, but in discharging this obligation it shall in no event be required to drill more than one well per forty (40) acres of the area retained hereunder and capable of producing oil in paying quantities and one well per 640 acres plus an acreage tolerance not to exceed 10% of 640 acres of the area retained hereunder and capable of producing gas or other mineral in paying quantities.

10. Lessor hereby warrants and agrees to defend the title to said land and agrees that Lessee at its option may discharge any tax, mortage or other lien upon said land, either in whole or in part, and in event Lessee does so, it shall be subrogated to such lien with right to enforce same and apply rentals and royalties accruing hereunder toward satisfying same. Without impairment of Lessee's rights under the warranty in event of failure of title, it is agreed that if this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether Lessor's interest is herein specified or not), or no interest therein, then the royalties, delay rental, and other monies accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by Lessor) shall be paid out of the royalty herein provided. Should any one or more of the parties named above as Lessors fail to execute this lease, it shall nevertheless be binding upon the party or parties executing the same. Failure of Lessee to reduce rental paid hereunder shall not impair the right of Lessee to reduce royalties.

11. Should Lessee be prevented from complying with any express or implied covenant of this lease, from conducting drilling or reworking operations thereon or from producing oil or gas therefrom by reason of scarcity of or inability to obtain or to use equipment or material, or by operation of force majeure, any Federal or state law or any order, rule or regulation of governmental authority, then while so prevented, Lessee's obligation to comply with such covenant shall be suspended, and Lessee shall not be liable in damages for failure to comply therewith; and this lease shall be extended while and so long as Lessee is prevented by any such cause from conducting drilling or reworking operations on or from producing oil or gas from the lease premises; and the time while Lessee is so prevented shall not be counted against Lessee, anything in this lease to the contrary notwithstanding.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

12. It is agreed and understood that this lease is limited to oil, gas and other hydrocarbons and substances normally associated with the production of oil and gas. Minerals not covered by this lease include (but are not limited to) sand, clay, gravel, iron ore, coal, lignite and uranium.

13. It is understood and agreed that Lessee, its successors or assigns, shall pay Lessor for any damage done to crops, trees or livestock by reason of operation thereon and shall pay for any damage to roads, culverts, bridges and fences, or other improvements on Lessors' lands resulting from the use by Lessee in connection with geophysical exploration thereof, or any other mineral development thereon by Lessee, its successors or assigns, and that upon the abandonment of said lease or surrender thereof, the Lessee, its successors or assigns, shall level all levees around slush pits and/or other excavations and generally restore the surface of the land covered hereby as nearly to its present condition as reasonably possible. In the event of drilling on said land, Lessee, its successors or assigns, shall install cattle guards at all fence crossings used by it or them in connection with said operation even though Lessor maintains gates that could be used, and Lessee shall erect and maintain around all open pits a fence capable of turning livestock.

14. At the end of the primary term, any well then drilled on the leased premises and not pooled with other lands, shall hold a proration unit the acreage amount subject to the Railroad Commission requirements in as nearly formed in a square as possible around the well bore. All acreage lying outside such unit or units and not held by other provisions of this lease shall be released by a recordable document.

This lease also covers and includes all land owned or claimed by Lessor adjacent or contiguous to the land particularly described above, whether the same be in said survey or surveys or in adjacent surveys, although not included within the boundaries of the land particularly described above. For the purpose of calculating the rental payments hereinafter provided for, said land is estimated to comprise 638.87 acres, whether it actually comprises more or less.

2. Subject to the other provisions herein contained, this lease shall be for a term of five (5) years from this date (called "primary term") and as long thereafter as oil, gas or other mineral is produced from said land or land with which said land is pooled hereunder.

3. The royalties to be paid by Lessee are: (a) on oil, one-eighth of that produced and saved from said land, the same to be delivered at the wells or to the credit of Lessor into the pipelines to which the wells may be connected; Lessee may from time to time purchase any royalty oil in its possession, paying the market price therefor prevailing for the field where produced on the date of purchase; (b) to pay lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, one-eighth of the amount realized from the sale of gasoline or other products extracted therefrom and one-eighth of the amount realized from the sale of residue gas after deducting the amount used for plant fuel and/or compression; while there is a gas well on this lease or on acreage pooled therewith but gas is not being sold or used monthly Lessee may pay as royalty, on or before ninety (90) days after the date on which (1) said well is shut in, or (2) the land covered hereby or any portion thereof is included in a pooled unit on which a well is located, or (3) this lease ceases to be otherwise maintained as provided herein, whichever is the later date, and thereafter at annual intervals after the date the first payment is made, a sum equal to the amount of after 640/mo. and if such payment is made or tendered, this lease shall not terminate, and it will be considered that gas is being produced from this lease in paying quantities;

4. Lessee, at its option, is hereby given the right and power to pool or combine the acreage covered by this lease or any portion thereof as to oil and gas, or either of them, with any other land covered by this lease, and/or with any other land, lease or leases in the immediate vicinity thereof to the extent hereinafter stipulated, when in Lessee's judgment it is necessary or advisable to do so in order properly to explore, or to develop and operate said leased premises in compliance with the spacing rules of the Railroad Commission of Texas, or other lawful authority, or when to do so would, in the judgment of Lessee, promote the conservation of oil and gas in and under and that may be produced from said premises. Units pooled for oil hereunder shall not substantially exceed 40 acres each in area, and units pooled for gas hereunder shall not substantially exceed in area 640 acres each plus a tolerance of ten percent (10%) thereof, provided that should governmental authority having jurisdiction prescribe or permit the creation of units larger than those specified, for the drilling or operation of a well at a regular location or for obtaining maximum allowable from any well to be drilled, drilling or already drilled, units thereafter created may conform substantially in size with those prescribed or permitted by governmental regulations. Lessee under the provisions hereof may pool or combine acreage covered by this lease or any portion thereof as above provided as to oil in any one or more strata and as to gas in any one or more strata. The units formed by pooling as to any stratum or strata need not conform in size or area with the unit or units into which the lease is pooled or combined as to any other stratum or strata, and oil units need not conform as to area with gas units. The pooling in one or more instances shall not exhaust the rights of the Lessee hereunder to pool this lease or portions thereof into other units. Lessee shall file for record in the appropriate records of the county in which the leased premises are situated an instrument describing and designating the pooled acreage as a pooled unit; and upon such recordation the unit shall be effective as to all parties hereto, their heirs, successors, and assigns, irrespective of whether or not the unit is likewise effective as to all other owners of surface, mineral, royalty, or other rights in land included in such unit. Lessee may at its election exercise its pooling option before or after commencing operations for or completing an oil or gas well on the leased premises, and the pooled unit may include, but it is not required to include, land or leases upon which a well capable of producing oil or gas in paying quantities has theretofore been completed or upon which operations for the drilling of a well for oil or gas have theretofore been commenced. In the event of operations for drilling on or production of oil or gas from any part of a pooled unit which includes all or a portion of the land covered by this lease, regardless of whether such operations for drilling were commenced or such production was secured before or after the execution of this instrument or the instrument designating the pooled unit, such operations shall be considered as operations for drilling on or production of oil and gas from land covered by this lease whether or not the well or wells be located on the premises covered by this lease and in such event operations for drilling shall be deemed to have been commenced on said land within the meaning of paragraph 5 of this lease; and the entire acreage constituting such unit or units, as to oil and gas, or either of them, as herein provided, shall be treated for all purposes, except the payment of royalties on production from the pooled unit, as if the same were included in this lease. For the purpose of computing the royalties to which owners of royalties and payments out of production and each of them shall be entitled on production of oil and gas, or either of them, from the pooled unit, there shall be allocated to the land covered by this lease and included in said unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) a pro rata portion of the oil and gas, or either of them, produced from the pooled unit after deducting that used for operations on the pooled unit. Such allocation shall be on an acreage basis—that is to say, there shall be allocated to the acreage covered by this lease and included in the pooled unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that pro rata portion of the oil and gas, or either of them, produced from the pooled unit which the number of surface acres covered by this lease (or in each such separate tract) and included in the pooled unit bears to the total number of surface acres included in the pooled unit. Royalties hereunder shall be computed on the portion of such production, whether it be oil and gas, or either of them, so allocated to the land covered by this lease and included in the unit just as though such production were from such land. The production from an oil well will be considered as production from the lease or oil pooled unit which it is producing and not as production from a gas pooled unit; and production from a gas well will be considered as production from the lease or gas pooled unit from which it is producing and not from an oil pooled unit. The formation of any unit hereunder shall not have the effect of changing the ownership of any delay rental or shut-in production royalty which may become payable under this lease. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interest as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but Lessee shall nevertheless have the right to pool as provided above with consequent allocation of production as above provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. If operations for drilling are not commenced on said land or on acreage pooled therewith as above provided on or before one year from this date, the lease shall then terminate as to both parties, unless on or before such anniversary date Lessee shall pay or tender (or shall make a bona fide attempt to pay or tender, as hereinafter stated) to Lessor or to the credit of Lessor in FIRST BANK & TRUST COMPANY Bank at Byran, Texas

Texas, (which bank and its successors are Lessor's agent and shall continue as the depository for all rentals payable hereunder regardless of changes in ownership of said land or the rentals) the sum of One thousand nine hundred sixteen and 61/100---------- ---------- Dollars ($1,916.61----), (herein called rentals), which shall cover the privilege of deferring commencement of drilling operations for a period of twelve (12) months. In like manner and upon like payments or tenders annually, the commencement of drilling operations may be further deferred for successive periods of twelve (12) months each during the primary term. The payment or tender of rental under this paragraph and of royalty under paragraph 3 on any gas well from which gas is not being sold or used may be made by the check or draft of Lessee mailed or delivered to the parties entitled thereto or to said bank on or before the date of payment. If such bank (or any successor bank) should fail, liquidate or be succeeded by another bank, or for any reason fail or refuse to accept rental, Lessee shall not be held in default for failure to make such payment or tender or rental until thirty (30) days after Lessor shall deliver to Lessee a proper recordable instrument naming another bank as agent to receive such payments or tenders. If Lessee shall, on or before any anniversary date, make a bona fide attempt to pay or deposit rental to a Lessor entitled thereto according to Lessee's records or to a Lessor, who, prior to such attempted payment or deposit, has given Lessee notice, in accordance with subsequent provisions of this lease, of his right to receive rental, and if such payment or deposit shall be ineffective or erroneous in any regard, Lessee shall be unconditionally obligated to pay to such Lessor the rental properly payable for the rental period involved, and this lease shall not terminate but shall be maintained in the same manner as if such erroneous or ineffective rental payment or deposit had been properly made, provided that the erroneous or ineffective rental payment or deposit be corrected within 30 days after receipt by Lessee of written notice from such Lessor of such error accompanied by such instruments as are necessary to enable Lessee to make proper payment. The down cash payment is consideration for this lease according to its terms and shall not be allocated as a mere rental for a period. Lessee may at any time or times execute and deliver to lessor or to the depository above named or place of record a release or releases of this lease as to all or any part of the above-described premises, or of any mineral or horizon under all or any part thereof, and thereby be relieved of all obligations as to the released land or interest. If this lease is released as to all minerals and horizon under a portion of the land covered by this lease, the rentals and other payments computed in accordance therewith shall thereupon be reduced in the proportion that the number of surface acres within such released portion bears to the total number of surface acres which was covered by this lease immediately prior to such release.

VOL 33 PAGE 375

6. If prior to discovery and production of oil, gas or other mineral on said land or on acreage pooled therewith, Lessee should drill a dry hole or holes thereon, or if after discovery and production of oil, gas or other mineral, the production thereof should cease from any cause, this lease shall not terminate if Lessee commences operations for drilling or reworking within sixty (60) days thereafter or if it be within the primary term, commences or resumes the payment or tender of rentals or commences operations for drilling or reworking on or before the rental paying date next ensuing after the expiration of sixty days from date of completion of dry hole or cessation of production. If at any time subsequent to sixty (60) days prior to the beginning of the last year of the primary term and prior to the discovery of oil, gas or other mineral on said land, or on acreage pooled therewith, Lessee should drill a dry hole thereon, no rental payment or operations are necessary in order to keep the lease in force during the remainder of the primary term. If at the expiration of the primary term, oil, gas or other mineral is not being produced on said land, or on acreage pooled therewith, but Lessee is then engaged in drilling or reworking operations thereon or shall have completed a dry hole thereon within sixty (60) days prior to the end of the primary term, the lease shall remain in force so long as operation on said well or for drilling or reworking of any additional well are prosecuted with no cessation of more than sixty (60) consecutive days, and if they result in the production of oil, gas or other mineral, so long thereafter as oil, gas or other mineral is produced from said land or acreage pooled therewith. Any pooled unit designated by Lessee in accordance with the terms hereof may be dissolved by Lessee by instrument filed for record in the appropriate records of the county in which the leased premises are situated at any time after the completion of a dry hole or the cessation of production on said unit. In the event a well or wells producing oil or gas in paying quantities should be brought in on adjacent land and within [illegible]
660 feet of and draining the leased premises, or acreage pooled therewith, Lessee agrees to drill such offset wells as a reasonably prudent operator would drill under the same or similar circumstances. within six (6) months

7. Lessee shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed by Lessee on said land, including the right to draw and remove all casing. When required by Lessor, Lessee will bury all pipe lines below ordinary plow depth, and no well shall be drilled within two hundred (200) feet of any residence or barn now on said land without Lessor's consent.

8. The rights of either party hereunder may be assigned in whole or in part, and the provisions hereof shall extend to their heirs, successors and assigns; but no change or division in ownership of the land, rentals or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee; and no change or division in such ownership shall be binding on Lessee until thirty (30) days after Lessee shall have been furnished by registered U.S. mail at Lessee's principal place of business with a certified copy of recorded instrument or instruments evidencing same. In the event of assignment hereof in whole or in part, liability for breach of any obligation hereunder shall rest exclusively upon the owner of this lease or of a portion thereof who commits such breach. In the event of the death of any person entitled to rentals hereunder, Lessee may pay or tender such rentals to the credit of the deceased or the estate of the deceased until such time as Lessee is furnished with proper evidence of the appointment and qualification of an executor or administrator of the estate, or if there be none, then until Lessee is furnished with evidence satisfactory to it as to the heirs or devisees of the deceased and that all debts of the estate have been paid. If at any time two or more persons be entitled to participate in the rental payable hereunder, Lessee may pay or tender said rental jointly to such persons or to their joint credit in the depository named herein; or, at Lessee's election, the proportionate part of said rentals to which each participant is entitled may be paid or tendered to him separately or to his separate credit in said depository; and payment or tender to any participant of his portion of the rentals hereunder shall maintain this lease as to such participant. In event of assignment of this lease as to a segregated portion of said land, the rentals payable hereunder shall be apportionable as between the several leasehold owners ratably according to the surface area of each, and default in rental payment by one shall not affect the rights of other leasehold owners hereunder. If six or more parties become entitled to royalty hereunder, Lessee may withhold payment thereof unless and until furnished with a recordable instrument executed by all such parties designating an agent to receive payment for all.

9. The breach by Lessee of any obligation arising hereunder shall not work a forfeiture or termination of this lease nor cause a termination or reversion of the estate created hereby nor be grounds for cancellation hereof in whole or in part. In the event Lessor considers that operations are not at any time being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if in default, shall have sixty days after receipt of such notice in which to commence the compliance with the obligations imposed by virtue of this instrument. After the discovery of oil, gas or other mineral in paying quantities on said premises, Lessee shall develop the acreage retained hereunder as a reasonably prudent operator, but in discharging this obligation it shall in no event be required to drill more than one well per forty (40) acres of the area retained hereunder and capable of producing oil in paying quantities and one well per 640 acres plus an acreage tolerance not to exceed 10% of 640 acres of the area retained hereunder and capable of producing gas or other mineral in paying quantities.

10. Lessor hereby warrants and agrees to defend the title to said land and agrees that Lessee at its option may discharge any tax, mortage or other lien upon said land, either in whole or in part, and in event Lessee does so, it shall be subrogated to such lien with right to enforce same and apply rentals and royalties accruing hereunder toward satisfying same. Without impairment of Lessee's rights under the warranty in event of failure of title, it is agreed that if this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether Lessor's interest is herein specified or not), or no interest therein, then the royalties, delay rental, and other monies accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by Lessor) shall be paid out of the royalty herein provided. Should any one or more of the parties named above as Lessors fail to execute this lease, it shall nevertheless be binding upon the party or parties executing the same. Failure of Lessee to reduce rental paid hereunder shall not impair the right of Lessee to reduce royalties.

11. Should Lessee be prevented from complying with any express or implied covenant of this lease, from conducting drilling or reworking operations thereon or from producing oil or gas therefrom by reason of scarcity of or inability to obtain or to use equipment or material, or by operation of force majeure, any Federal or state law or any order, rule or regulation of governmental authority, then while so prevented, Lessee's obligation to comply with such covenant shall be suspended, and Lessee shall not be liable in damages for failure to comply therewith; and this lease shall be extended while and so long as Lessee is prevented by any such cause from conducting drilling or reworking operations on or from producing oil or gas from the lease premises; and the time while Lessee is so prevented shall not be counted against Lessee, anything in this lease to the contrary notwithstanding.

Anything hereinabove to the contrary not withstanding, the following terms and conditions terms and conditions shall apply:

12. Notwithstanding anything referenced in this lease to "all oil, gas and other minerals", it is expressly understood and agreed that this lease covers only oil, gas and other liquid hydrocarbons and all references to "other minerals" are hereby deleted from this lease.

13. Lessee or its assigns shall reimburse Lessor for the reasonable value and agrees to promptly pay for all damages to growing crops, fences, animals, or other property of Lessor or its tenants caused by operations hereunder. Moreover, Lessee or its assigns shall also reimburse Lessor for the reasonable value of damages to the surface of leased premises which damages have been caused by Lessee's use thereof; and Lessee or its assigns shall fill and level off all slush pits, holes and ruts, and restore the surface to the same condition, as nearly as may be possible, to its condition before commencement of any operation hereunder, said restoration to be within 90 days after completion of such operation, or as soon thereafter as weather and surface conditions permit. Lessee or its assigns shall remove all drilling mud and chemicals as may be reasonable and customary under the circumstances and fill and level all pits and other excavations. In the event that the well shall have been drilled in pasture land, the drilling mud and chemicals may be spread across the pasture, however, the remainder of the above stated requirements shall be complied with. In addition, Lessee shall seed and replant natural grass on the damaged surface area of leased premises in order to restore the surface of the ground as nearly as possible to its previous condition. Lessee agrees to bury any and all pipelines at least 30" below the surface of the ground. Surface casing is to be cut off at least three (3) feet below the surface of the ground.

14. Lessee agrees that oil and gas operations shall be conducted in such a manner so as not to interfere with the safety and continuity of Texas World Speedway operations. Lessee agrees that to accomplish the above, its operations shall include, but not be limited to the following restrictions:

(a) All drill sites and/or surface facilities must be enclosed with hurricane or other fencing adequate to prevent normal entrance of humans.

(b) The extremities of the fenced drill-site and/or surface facilities must not be closer than one hundred (100') feet of the track or road course, with guard rails between such extremities and the track or road course as specified by Lessor.

(c) In the event that operations for the drilling of a well occur within the road course area, Lessee agrees to have road crossings into road course area approved by Lessor.

(d) Lessee shall not use the in-field area of the main track for drilling operations, unless given special written permission by Lessor.

(e) After completion of drilling operations, if there is production on said premises, Lessee shall be limited to the use of one-half (½) acre for each well site, with production facility sites subject to approval by Lessor.

15. Lessee agrees that it will use for ingress and egress to the leased premises the existing roads and right-of-way wherever possible, and that any existing roads used shall be maintained in all-weather (gravel) conditions. In the event that an existing road or right-of-way will not permit access to a drill site or production facility site, Lessee will construct all-weather (gravel) roads, and such roads shall remain after completion of drilling operations. However, it is agreed and understood that upon written request by Lessor, such roads shall be removed by Lessee. Lessee and its assigns will at all times consult with Lessor concerning the location of roads and tank batteries and will construct such roads and facilities in a manner so as not to prevent the natural drainage on, over and across the leased premises or Lessor's adjacent lands, by placement of adequate culverts.

16. In matters requiring consultantion and/or permission of Lessor, Lessor shall be represented by the President of Texas World Speedway, Inc. until Lessee is notified otherwise in writing. Lessor shall not unreasonably withold approval for roads, facilities or operations as required above if such proposal permit existing draining patterns and do not interfere with the safety and continuity of Texas World Speedway operations.

17. It is understood and agreed that at the expiration of the primary term of this lease all acreage not a portion of a gas unit or units, and not otherwise maintained under the terms hereof, shall be released from the terms hereof and Lessee shall place on record in the Deed Records of Brazos County, Texas an instrument releasing such non-producing acreage; provided, however, that if at such time a well is being drilled or re-worked on any such land outside of such unit or units, this lease shall be extended and shall remain in force as to such acreage outside such unit or units so long as operations on said well, or for drilling or reworking of any additional well, are prosecuted with no cessation of more than 60 consective days.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT made this 11th day of June 1990, between TEXAS SPEEDWAY LIMITED PARTNERSHIP, joined by TEXAS WORLD SPEEDWAY, INC.

Lessor (whether one or more), whose address is Box 11000 College Station, Texas 77842 San Antonio, TX 78217
and AMERITEX MINERALS, INC., 8620 North New Braunfels, Suite 612/. Lessee, WITNESSETH:

1. Lessor, in consideration of $10.00 and other good and valuable consideration ~~DOLLARS~~, receipt of which is hereby acknowledged, and of the covenants and agreements of lessee hereinafter contained, does hereby grant, lease and let unto lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, sulphur and all other minerals (whether or not similar to those mentioned), together with the right to make surveys on said land, lay pipe lines, establish and utilize facilities for surface or subsurface disposal of salt water, construct roads and bridges, dig canals, build tanks, power stations, telephone lines, employee houses and other structures on said land, necessary or useful in lessee's operations in exploring, drilling for, producing, treating, storing and transporting minerals produced from the land covered hereby or any other land adjacent thereto. The land covered hereby, herein called "said land", is located in the County of Brazos, State of Texas, and is described as follows:

That certain 478.87 acre tract or parcel of land described in Exhibit "A", hereto attached and made a part hereof.

FILED
90 JUN 22 AM 10:03

This lease also covers and includes, in addition to that above described, all land, if any, contiguous or adjacent to or adjoining the land above described and (a) owned or claimed by lessor by limitation, prescription, possession, reversion or unrecorded instrument or (b) as to which lessor has a preference right of acquisition. Lessor agrees to execute any supplemental instrument requested by lessee for a more complete or accurate description of said land. For the purpose of determining the amount of any bonus, delay rental or other payment hereunder, said land shall be deemed to contain 478.87 acres, whether actually containing more or less, and the above recital of acreage in any tract shall be deemed to be the true acreage thereof. Lessor accepts the bonus and agrees to accept the delay rental as lump sum consideration for this lease and all rights and options hereunder.

2. Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of ~~XXXX~~ two (2) years from the date hereof, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. As royalty, lessee covenants and agrees: (a) To deliver to the credit of lessor, in the pipe line to which lessee may connect its wells, the equal one-eighth part of all oil produced and saved by lessee from said land, or from time to time, at the option of lessee, to pay lessor the average posted market price of such one-eighth part of such oil at the wells as of the day it is run to the pipe line or storage tanks, lessor's interest, in either case, to bear one-eighth of the cost of treating oil to render it marketable pipe line oil; (b) To pay lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of one-eighth of such gas and casinghead gas; (c) To pay lessor on all other minerals mined and marketed or utilized by lessee from said land, one-tenth either in kind or value at the well or mine at lessee's election, except that on sulphur mined and marketed the royalty shall be one dollar ($1.00) per long ton. If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-in, and thereafter this lease may be continued in force as if no shut-in had occurred. Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to lessee. If, at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check or draft of lessee, as royalty, a sum equal to the amount of annual delay rental provided for in this lease. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing, and may be deposited in a depository bank provided for below. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

4. Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons, so as to establish units containing not more than 80 surface acres, plus 10% acreage tolerance; provided, however, units may be established as to any one or more horizons, or existing units may be enlarged as to any one or more horizons, so as to contain not more than 640 surface acres plus 10% acreage tolerance, if limited to one or more of the following: (1) gas, other than casinghead gas, (2) liquid hydrocarbons (condensate) which are not liquids in the subsurface reservoir, (3) minerals produced from wells classified as gas wells by the conservation agency having jurisdiction. If larger units than any of those herein permitted, either at the time established, or after enlargement, are required under any governmental rule or order, for the drilling or operation of a well at a regular location, or for obtaining maximum allowable from any well to be drilled, drilling, or already drilled, any such unit may be established or enlarged to conform to the size required by such governmental order or rule. Lessee shall exercise said option as to each desired unit by executing an instrument identifying such unit and filing it for record in the public office in which this lease is recorded. Each of said options may be exercised by lessee at any time and from time to time while this lease is in force, and whether before or after production has been established either on said land, or on the portion of said land included in the unit, or on other land unitized therewith. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any delay rental and shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of lessee to release as provided in paragraph 5 hereof, except that lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. If operations are not conducted on said land on or before the first anniversary date hereof, this lease shall terminate as to both parties, unless lessee on or before said date shall, subject to the further provisions hereof, pay or tender to lessor or to lessor's credit in the N/A

Bank at _____

or its successors, which shall continue as the depository, regardless of changes in ownership of delay rental, royalties, or other moneys, the sum of $_____, which shall operate as delay rental and cover the privilege of deferring operations for one year from said date. In like manner and upon like payments or tenders, operations may be further deferred for like periods of one year each during the primary term. If at any time that lessee pays or tenders delay rental, royalties, or other moneys, two or more parties are, or claim to be, entitled to receive same, lessee may, in lieu of any other method of payment herein provided, pay or tender such rental, royalties, or other moneys, in the manner herein specified, either jointly to such parties or separately to each in accordance with their respective ownerships thereof, as lessee may elect. Any payment hereunder may be made by check or draft of lessee deposited in the mail or delivered to lessor or to a depository bank on or before the last date for payment. Said delay rental shall be apportionable as to said land on an acreage basis, and a failure to make proper payment or tender of delay rental as to any portion of said land or as to any interest therein shall not affect this lease as to any portion of said land or as to any interest therein as to which proper payment or tender is made. Any payment or tender which is made in an attempt to make proper payment, but which is erroneous in whole or in part as to parties, amounts, or depository shall nevertheless be sufficient to prevent termination of this lease and to extend the time within which operations may be conducted in the same manner as though a proper payment had been made; provided, however, lessee shall correct such error within thirty (30) days after lessee has received written notice thereof from lessor. Lessee may at any time and from time to time execute and deliver to lessor or file for record a release or releases of this lease as to any part or all of said land or of any mineral or horizon thereunder, and thereby be relieved of all obligations as to the released acreage or interest. If this lease is so released as to all minerals and horizons under a portion of said land, the delay rental and other payments computed in accordance therewith shall thereupon be reduced in the proportion that the acreage released bears to the acreage which was covered by this lease immediately prior to such release. All delay rentals have been prepaid or "paid up".

6. If at any time or times during the primary term operations are conducted on said land and if all operations are discontinued, this lease shall thereafter terminate on its anniversary date next following the ninetieth day after such discontinuance unless on or before such anniversary date lessee either (1) conducts operations or (2) commences or resumes the payment or tender of delay rental; provided, however, if such anniversary date is at the end of the primary term, or if there is no further anniversary date of the primary term, this lease shall terminate at the end of such term or on the ninetieth day after discontinuance of all operations, whichever is the later date, unless on such later date either (1) lessee is conducting operations or (2) the shut-in well provisions of paragraph 3 or the provisions of paragraph 11 are applicable. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil, gas, sulphur or other minerals, excavating a mine, production of oil, gas, sulphur or other mineral, whether or not in paying quantities.

NOW, THEREFORE, for and in consideration of the sum of Ten and no/100's Dollars ($10.00) and other good and valuable consideration, cash in hand paid by the Assignee herein, the receipt and sufficiency of which is hereby acknowledged, Assignor does hereby GRANT, BARGAIN, SELL, TRANSFER, ASSIGN AND CONVEY, unto UNION PACIFIC RESOURCES COMPANY, 801 Cherry Street, Ft. Worth, Texas 76102, hereinafter referred to as Assignee, all of the leasehold estate and working interest, and rights of Assignor in and to the Leases, together with all interest in and to all of the personal property used or obtained in connection with said leasehold estate.

SAVE AND EXCEPT, Assignor hereby reserves and retains unto itself, its successors or assigns, an Overriding Royalty Interest equal to the difference between existing lease burdens and twenty-two percent (22.0%) of all oil, gas, and other minerals that may be produced under and by virtue of the terms of the above Leases, if and when produced, saved and sold from or attributable to said Leases during the term thereof, including any extensions, renewals, replacements, or amendments thereof taken within one (1) year of termination of said Leases. Said Overriding royalty interest shall be free and clear of all costs and expenses of every kind and character, including development and operating expense, but shall bear its proportionate part of any and all gross production taxes, ad valorem taxes, or taxes of any nature. Said overriding royalty interest is to be computed and paid at the same time and in the same manner as royalties under said Leases are so computed and paid.

Any operations upon the leased premises conducted by Assignee and/or its assigns, its contractor or employees, shall at all times be open to the inspection and examination of Assignor or his duly authorized representative(s). It is intended by this paragraph that Assignor will be furnished with all information pertaining to any well or wells drilled upon the leased premises except information which is interpretive or proprietary in nature or which is subject to a confidentiality agreement. Additionally, Assignor or its duly authorized representative(s) shall have full access at Assignor's risk to all locations, drilling rigs and any other activities pertaining to the leased premises; provided that Assignee shall not be liable to Assignor, its employees and representatives for personal injury or property damage resulting from Assignee's sole or concurrent negligence and Assignor shall defend and hold Assignee harmless therefrom.

This assignment is made without warranty. If the Leases cover less than the entire mineral fee estate in the land covered thereby the overriding royalty interest reserved herein, as to such lease and land, shall be reduced proportionately.

OIL, GAS AND MINERAL LEASE

FILED

THIS AGREEMENT made this 10th day of July, 19 90 between

Nantucket, Ltd.

90 AUG 16 PM 12:23

lessor (whether one or more), whose address is: 8620 N. New Braunfels, Ste. 612, San Antonio, Texas 78217
and Ameritex Minerals, Inc.,
WITNESSETH:

1. Lessor, in consideration of Ten and No/100------- Dollars, receipt of which is hereby acknowledged, and of the covenants and agreements of lessee hereinafter contained, does hereby grant, lease and let unto lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, sulphur and all other minerals (whether or not similar to those mentioned), together with the right to make surveys on said land, lay pipe lines, establish and utilize facilities for surface or subsurface disposal of salt water, construct roads and bridges, dig canals, build tanks, power stations, telephone lines, employee houses and other structures on said land, necessary or useful in lessee's operations in exploring, drilling for, producing, treating, storing and transporting minerals produced from the land covered hereby or any other land adjacent thereto. The land covered hereby, herein called "said land", is located in the County of Brazos, State of Texas, and is described as follows:

595.85 acres of land, more or less, situated in the S.W. Robertson Survey, Abstract 202 and the Sterrett D. Smith Survey, Abstract 210, Brazos County, Texas and being the same land described in that certain Deed from Donald S. Morris, Trustee for Tommy E. Morris and Tommy E. Morris, Trustee for Donald S. Morris, as Grantor, to Nantucket, Ltd., as Grantee, dated March 19, 1986 and recorded in Volume 874, page 377 of the Deed Records of Brazos County, Texas.

This lease also covers and includes, in addition to that above described, all land, if any, contiguous or adjacent to or adjoining the land above described and (a) owned or claimed by lessor by limitation, prescription, possession, reversion or unrecorded instrument or (b) as to which lessor has a preference right of acquisition. Lessor agrees to execute any supplemental instrument requested by lessee for a more complete or accurate description of said land. For the purpose of determining the amount of any bonus, delay rental or other payment hereunder, said land shall be deemed to contain 595.85 acres, whether actually containing more or less, and the above recital of acreage in any tract shall be deemed to be the true acreage thereof. Lessor accepts the bonus and agrees to accept the delay rental as lump sum considerations for this lease and all rights and options hereunder.

2. Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of three(3) years from the date hereof, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. As royalty, lessee covenants and agrees: (a) To deliver to the credit of lessor, in the pipe line to which lessee may connect its wells, the equal one-eighth part of all oil produced and saved by lessee from said land, or from time to time, at the option of lessee, to pay lessor the average posted market price of such one-eighth part of such oil at the wells as of the day it is run to the pipe line or storage tanks, lessor's interest, in either case, to bear one-eighth of the cost of treating oil to render it marketable pipe line oil; (b) To pay lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of one-eighth of such gas and casinghead gas; (c) To pay lessor on all other minerals mined and marketed or utilized by lessee from said land, one-tenth either in kind or value at the well or mine at lessee's election, except that on sulphur mined and marketed the royalty shall be one dollar ($1.00) per long ton. If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-in, and thereafter this lease may be continued in force as if no shut-in had occurred. Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to lessee. If, at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check or draft of lessee, as royalty, a sum equal to the amount of annual delay rental provided for in this lease. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing, and may be deposited in a depository bank provided for below. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

4. Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons, so as to establish units containing not more than 80 surface acres, plus 10% acreage tolerance; provided, however, units may be established as to any one or more horizons, or existing units may be enlarged as to any one or more horizons, so as to contain not more than 640 surface acres plus 10% acreage tolerance, if limited to one or more of the following: (1) gas, other than casinghead gas, (2) liquid hydrocarbons (condensate) which are not liquids in the subsurface reservoir, (3) minerals produced from wells classified as gas wells by the conservation agency having jurisdiction. If larger units than any of those herein permitted, either at the time established, or after enlargement, are required under any governmental rule or order, for the drilling or operation of a well at a regular location, or for obtaining maximum allowable from any well to be drilled, drilling, or already drilled, any such unit may be established or enlarged to conform to the size required by such governmental order or rule. Lessee shall exercise said option as to each desired unit by executing an instrument identifying such unit and filing it for record in the public office in which this lease is recorded. Each of said options may be exercised by lessee at any time and from time to time while this lease is in force, and whether before or after production has been established either on said land, or on the portion of said land included in the unit, or on other land unitized therewith. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitaton, any delay rental and shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of lessee to release as provided in paragraph 5 hereof, except that lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. If operations are not conducted on said land on or before the first anniversary date hereof, this lease shall terminate as to both parties, unless lessee on or before said date shall, subject to the further provisions hereof, pay or tender to lessor or to lessor's credit in the _____ Bank at _____, or its successors, which shall continue as the depository, regardless of changes in ownership of delay rental, royalties, or other moneys, the sum of $ 5,958.50, which shall operate as delay rental and cover the privilege of deferring operations for one year from said date. In like manner and upon like payments or tenders, operations may be further deferred for like periods of one year each during the primary term. If at any time that lessee pays or tenders delay rental, royalties, or other moneys, two or more parties are, or claim to be, entitled to receive same, lessee may, in lieu of any other method of payment herein provided, pay or tender such rental, royalties, or other moneys, in the manner herein specified, either jointly to such parties or severately to each in accordance with their respective ownerships thereof, as lessee may elect. Any payment hereunder may be made by check or draft of lessee deposited in the mail or delivered to lessor or to a depository bank on or before the last date for payment. Said delay rental shall be apportionable as to said land on an acreage basis, and a failure to make proper payment or tender of delay rental as to any portion of said land or as to any interest therein shall not affect this lease as to any portion of said land or as to any interest therein as to which proper payment or tender is made. Any payment or tender which is made in an attempt to make proper payment, but which is erroneous in whole or in part as to parties, amounts, or depository shall nevertheless be sufficient to prevent termination of this lease and to extend the time within which operations may be conducted in the same manner as though a proper payment had been made; provided, however, lessee shall correct such error within thirty (30) days after lessee has received written notice thereof from lessor. Lessee may at any time and from time to time execute and deliver to lessor or file for record a release or releases of this lease as to any part or all of said land or of any mineral or horizon thereunder, and thereby be relieved of all obligations as to the released acreage or interest. If this lease is so released as to all minerals and horizons under a portion of said land, the delay rental and other payments computed in accordance therewith shall thereupon be reduced in the proportion that the acreage released bears to the acreage which was covered by this lease immediately prior to such release.

6. If at any time or times during the primary term operations are conducted on said land and if all operations are discontinued, this lease shall thereafter terminate on its anniversary date next following the ninetieth day after such discontinuance unless on or before such anniversary date lessee either (1) conducts operations or (2) commences or resumes the payment or tender of delay rental; provided, however, if such anniversary date is at the end of the primary term, or if there is no further anniversary date of the primary term, this lease shall terminate at the end of such term or on the ninetieth day after discontinuance of all operations, whichever is the later date, unless on such later date either (1) lessee is conducting operations or (2) the shut-in well provisions of paragraph 3 or the provisions of paragraph 11 are applicable. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil, gas, sulphur or other minerals, excavating a mine, production of oil, gas, sulphur or other mineral, whether or not in paying quantities.

7. Lessee shall have the use, free from royalty, of water, other than from lessor's water wells, and of oil and gas produced from said land in all operations hereunder. Lessee shall have the right at any time to remove all machinery and fixtures placed on said land, including the right to draw and remove casing. No well shall be drilled nearer than 200 feet to the house or barn now on said land without the consent of the lessor. Lessee shall pay for damages caused by its operations to growing crops and timber on said land.

8. The rights and estate of any party hereto may be assigned from time to time in whole or in part and as to any mineral or horizon. All of the covenants, obligations, and considerations of this lease shall extend to and be binding upon the parties hereto, their heirs, successors, assigns, and successive assigns. No change or division in the ownership of said land, royalties, delay rental, or other moneys, or any part thereof, howsoever effected, shall increase the obligations or diminish the rights of lessee, including, but not limited to, the location and drilling of wells and the measurement of production. Notwithstanding any other actual or constructive knowledge or notice thereof of or to lessee, its successors or assigns, no change or division in the ownership of said land or of the royalties, delay rental, or other moneys, or the right to receive the same, howsoever effected, shall be binding upon the then record owner of this lease until thirty (30) days after there has been furnished to such record owner at his or its principal place of business by lessor or lessor's heirs, successors, or assigns, notice of such change or division, supported by either originals or duly certified copies of the instruments which have been properly filed for record and which evidence such change or division, and of such court records and proceedings, transcripts, or other documents as shall be necessary in the opinion of such record owner to establish the validity of such change or division. If any such change in ownership occurs by reason of the death of the owner, lessee may, nevertheless pay or tender such royalties, delay rental, or other moneys, or part thereof, to the credit of the decedent in a depository bank provided for above. In the event of assignment of this lease as to any part (whether divided or undivided) of said land, the delay rental payable hereunder shall be apportionable as between the several leasehold owners, ratably according to the surface area or undivided interests of each, and default in delay rental payment by one shall not affect the right of other leasehold owners hereunder.

9. In the event lessor considers that lessee has not complied with all its obligations hereunder, both express and implied, lessor shall notify lessee in writing, setting out specifically in what respects lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by lessor. The service of said notice shall be precedent to the bringing of any action by lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on lessee. Neither the service of said notice nor the doing of any acts by lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that lessee has failed to perform all its obligations hereunder. If this lease is cancelled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations. Lessee shall also have such easements on said land as are necessary to operations on the acreage so retained.

10. Lessor hereby warrants and agrees to defend title to said land against the claims of all persons whomsoever. Lessor's rights and interests hereunder shall be charged primarily with any mortgages, taxes or other liens, or interest and other charges on said land, but lessor agrees that lessee shall have the right at any time to pay or reduce same for lessor, either before or after maturity, and be subrogated to the rights of the holder thereof and to deduct amounts so paid from royalties or other payments payable or which may become payable to lessor and/or assigns under this lease. If this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether lessor's interest is herein specified or not), or no interest therein, then the royalties, delay rental, and other moneys accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by lessor) shall be paid out of the royalty herein provided. This lease shall be binding upon each party who executes it without regard to whether it is executed by all those named herein as lessor.

11. If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of lessee, the primary term and the delay rental provisions hereof shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

EXHIBIT "A"

Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 10, 1990, by and between NANTUCKET, LTD., as Lessor, and AMERITEX MINERALS, INC., as Lessee.

1. Notwithstanding anything referenced in this lease to "all oil, gas and other minerals", it is expressly understood and agreed that this lease covers only oil, gas and other liquid hydrocarbons and all references to "other minerals" are hereby deleted from this lease.

2. Lessee agrees that oil and gas operations shall not unreasonably interfere with the current use of the property, nor the planned development thereon and such operations shall be conducted in such a manner so as to not interfere with the safety and continuity of the existing and planned use. Lessee agrees that to accomplish the above, its operations shall include, but not to be limited to the following restriction.

   (a) All drilling operations must be conducted by Lessee only upon the drillsite areas designated on the plat attached hereto and no other areas. The "drillsite area" is the property shown as Lot ONE (1), Block FIFTEEN (15) and Block NINETEEN (19) on the attached plat and Block TWENTY (20), Block TWENTY-ONE (21) and Lots TWO (2), THREE (3), FIVE (5), and SIX (6) of Block TWENTY-TWO (22) shown on the attached plat. Access to said drillsite by Lessee shall not be along or within existing roadways located on the herein described property unless approved in writing by Lessor. Any access will be directly from Texas highway six (6) and not from any subdivision roads, even if platted and dedicated to the public. Lessee may construct a road along proposed Snug Harbor Drive as shown on the plat, from Texas Highway six (6) to the drillsite, but no equipment or traffic shall access such drillsite from other subdivision roads, including but not limited to Nantucket Drive. Lessee may conduct no operation on the leased premises until it has received Lessor's written consent to the proposed drill site locations and accessways of which consent will not be unreasonably withheld provided, however, no consent will be granted for a drillsite except on the drillsite located above. Lessor is obligated to provide a drillsite location on the above drillsite and access to such drillsite. Lessee shall have the right to have two (2) drillsites in the designated drillsite area.

3. In the event that an existing road right-of-way will not permit access to a drill site or production facility site, Lessee will construct all weather (gravel) roads, and such roads shall remain after completion of drilling operations. However, it is agreed and understood that upon written request by Lessor, such roads shall be removed by Lessee. Lessee and its assigns will at all times consult with Lessor concerning the location of roads and tank batteries and will construct such roads and facilities in a manner so as not to prevent the natural drainage on, over and across the leased premises or Lessor's adjacent lands, by placement of adequate culverts.

VOL 1203 PAGE 341

4. Notwithstanding any provision of this lease to the contrary, Lessee, its successors and assigns may not pool or utilize any part of the leased premises with any other land or lands not covered by this lease to form a pool unit unless at least fifty percent (50%) of the acreage comprising such pooled unit is of lands subject to this lease and Lessor shares in production from the date of first production.

5. Lessee shall pay Lessor or the property owner the sum of TEN THOUSAND AND NO/100 DOLLARS ($10,000.00) for each well located in a drillsite. The Lessee agrees to use not more than four (4) acres in each drillsite exclusive of roads. The leased premises shall not be used as a storage facility for equipment other than the actual equipment used by Lessee on these premises or acreage pooled therewith. After each well has been completed, only production equipment will remain on the drillsite of the producing well and shall occupy no more than one (1) acre of land exclusive of roads. The wellsite will be fenced with a six (6) foot chain-link fence and shall be maintained, at Lessee's expense, in a neat, clean, and appealing manner. If Lessor so requests, the Lessee shall landscape the outside perimeter of the chain-link fence with shrubs or vegetation to conceal the drillsite area as much as is reasonably possible. Not less than quarterly, Lessee shall remove all grasses or other noxious growth upon the wellsite. Lessee further agrees to paint all personal property left upon the drillsite (tanks, wellhead, flowlines, separator, and so forth) in accordance with the color scheme used by the company, or if no such color scheme exists, then in any reasonable color scheme chosen by Lessor. Lessee shall reconstruct the site and repaint any fixtures located on the premises as often as may be reasonably necessary to maintain the aesthetic beauty of the wellsite.

6. Lessee shall only be able to construct and lay pipe lines for transporting minerals produced from well or wells located on the herein leased premises or upon acreage pooled therewith, and no other pipe liens shall be constructed by Lessee hereunder without the expressed written consent of Lessor. Lessor shall have the right to approve the location of such pipelines with such pipelines taking the most direct route when possible.

7. If Lessee exercises its right to pool as provided in Paragraph five (5) above, and less than all of the surface acreage covered by this lease is placed in any pooled unit or pooled units, then production, drilling or reworking operations on any such unit in which such acreage is pooled shall be treated as production, drilling or reworking operations only on the acreage covered by this lease and placed in such pooled unit or pooled units and shall not be considered as production, drilling or reworking operations on any acreage covered by this lease and not placed in such a pooled unit or pooled units.

8. The provisions herein shall be binding upon the parties hereto, their respective heirs, legal representatives, successors and assigns.

VOL 1203 PAGE 342

9. It is expressly agreed between the parties hereto that no warranty or covenant of title to the land covered hereby or to the oil and gas therein or produced therefrom either expressed or implied is made by Lessor, and that no warranty, covenant, or guaranty of title shall be created or arise from this lease.

10. This lease only covers 595.85 acres of land and does not cover any adjoining or adjacent lands even if such lands are contiguous to the lands described herein and Lessor advises Lessee that Lessor does not own all the mineral interest in the above referenced property.

11. Neither Lessee nor any of the employees of the Lessee shall ever have any hunting or fishing right to or on the above described land nor the right to take any firearm or firearms thereon.

12. Lessee agrees not to store any salt water in earthen pits on said lands and not to allow any oil or other mineral covered by and included in this lease and produced hereunder, any salt water, waste material or deleterious substances such as drilling fluids, acids, and cements, to flow over the surface of the Leased Premises and not to allow the same to run or flow down any draws, drains, lakes, creeks, gullies, ditches or ravines on the Leased Premises or onto adjacent properties. Lessee shall construct such temporary retaining or disposal pits on the Leased Premises as shall be necessary to confine and dispose of such substance or substances in such disposal pits. Lessee shall temporarily retain drilling muds and/or fluids in earthen pits of such volume as will retain the surface of the fluids at least two (2) feet below the top of the pit wall. All deleterious substances, drilling fluids, waste material and salt water shall be removed from the Leased Premises within one hundred twenty (120) days following completion or abandonment of any well. The ground surface shall be restored to the same elevations as existed prior to construction of such pits, unless otherwise permitted by Lessor. Topsoil, fertilizer and grass shall be reestablished on the restored area. Lessee shall erect and maintain a six (6) foot chain fence, around all drilling sites and open pits, and same shall be kept locked unless specific permission to the contrary is given by Lessor.

13. Lessee shall not have the right to make any use of the leased premises in connection with operations upon any land other than the leased premises or land pooled with the leased premises. In particular, but without limitation, Lessee may not use the leased premises as a means of ingress to or egress from any adjoining property.

14. The royalties payable to Lessor hereunder shall never be charged with any part of the operation, storing, processing, dehydrating, compressing or transportation expenses. Lessor shall, however, bear its proportionate part of any windfall profits or severance taxes.

15. The roadways to be constructed hereunder shall be maintained throughout the period of the lease in an acceptable condition to permit traffic of usual oil

hauling trucks, not only during the drilling period, but as long as this lease is or full force and effect.

16. All trees, brush, stumps, and similar materials designated to be wasted from the approved right-of-way and drillsite shall be removed from the leased property. Burning of timber or trash on the Leased premises is not permitted without the express written permission of Lessor.

17. If at the end of the primary term this lease is still in force, this lease shall expire as to all that part of said land, as herein described, on which there is not a producing oil or gas well, or on which Lessee is not then drilling or reworking a well. At the end of the primary term, Lessee shall select and designate a producing unit around and including each producing oil or gas well or drilling or reworking well, the area of such unit to be limited to and conform with the minimum area provided for or established directly or indirectly in the applicable rules and regulations of the appropriate governing body of the state in which the subject acreage is located with reference to the spacing of wells or the size of producing units. As to each producing unit so designated, this lease shall continue in force so long as oil or gas is produced in paying quantities therefrom or so long as drilling or reworking operations are prosecuted thereon as provided in the following paragraph.

In the absence of field rules promulgated by the appropriate governing body of the state in which such acreage is located, the term "producing unit" as used herein means the following number os acres, depending on the depth to which the well has been drilled, and whether the well is an oil or gas well: A) 160 acres for an oil well, and B) 640 acres for a gas well. If a portion of Lessee's rights terminate as provided in the paragraph, then Lessee shall designate in writing the acreage it is allowed to retain around each oil well and each gas well and such written designation shall be filed for record in the county in which such acreage is located. Lessee shall be entitled to designate the number of acres above specified in a form of its choosing so long as such form does not unreasonably interfere with the production of the remaining acreage. The provisions of this paragraph shall not have the effect of relieving Lessee of its obligations to develop the lease with reasonable diligence after oil or gas is first discovered in paying quantities.

18. Lessee shall have no right to use any of the water from existing water wells of Lessor, or any tanks, creeks, lakes, or streams of Lessor. Lessee may drill a water well on such property for its own use. In the event such water wells are completed, Lessee shall have the option to retain same for its own use after Lessor's use has terminated.

19. After the conclusion of the primary term of this Lease, if a gas well or wells on the Leased Lands, or on lands with which Lessee has pooled all or a part of the Leased Lands, is shut-in, Lessee shall tender to the depository bank of the Lessor, a sum equal to TWENTY FIVE AND NO/100

DOLLARS ($25.00) per acre for each acre within the unit. This payment will be payable on each anniversary date of this Lease, if production has not commenced. Neither this lease, nor any part thereof, will be maintained in force and effect, solely by the payment of shut-in royalties, for a cumulative period exceeding two (2) years.

TO: DALE OPERATING COMPANY
400 GRAHAM ROAD
COLLEGE STATION, TEXAS 77845

Effective as of the first date of production.

Each of the undersigned, severally and not jointly, certifies that he is the owner of the interest shown opposite his name below in the oil (which shall mean crude petroleum and all other liquid hydrocarbons, including condensate which shall be accounted for in the same manner as oil hereunder) and gas (which shall mean the proceeds from gas including casinghead gas and all other gaseous substances) produced from the Barrera Unit #1 situated in Brazos County, Texas and operated by Dale Operating Company. Said unit is more fully described as follows:

600.00- Acre Pooling Agreement and Unit Designation dated June 4, 1993, recorded in Volume 1813, Page 186, Brazos County, Texas.

Set forth below is your division of interest in the tract or tracts situated in the Barrera Unit #1.

DIVISION OF INTEREST

Credit To:	Unit Royalty Interest
Royalty Owner	
Tract 7 - 3.57 acres	
State of Texas General Land Office Stepehen F. Austin Building 1700 North Congress Avenue Austin, TX 78701-1495	0.00119000

This division Order shall be binding on each of the undersigned owners, his successors, legal representatives, and assigns, severally and not jointly, until written notice has been received by you at the above address or sent by you to the owners at the above addresses, and you are authorized to receive, purchase, and account for oil, and/or gas, as to the interest of each owner upon the following terms and conditions:

1. Each owner, according to the division of interest herein set forth, shall be paid by you therefore, subject to the other terms hereof, as follows:

(a) On oil, the proceeds actually received by Dale Operating Company under the various marketing arrangements in place, at the time of the sale, net of severance tax, and on transportion, gravity or other incidental charges or adjustments imposed.

(b) On gas, (and gas liquids), the proceeds actually received by Dale Operating Company under the various gas marketing contracts in place, at the time of the sale.

2. Delivery to any pipe line company, your nominee or other designated receiving agency that is authorized by hereinafter called "receiving agency," for your account shall be valid delivery, and title to the production delivered hereunder shall thereupon become your property. You or the receiving agency may lay and connect lines to tanks or other equipment and disconnect and remove same, and determine the quantity and the grade, gravity and quality as herein provided.

3. The quantity, grade, gravity and quality hereunder may be determined, with corrections and deductions, in accordance with customary rules and regulations or practices by you or the receiving agency, or by other methods including meters and/or other facilities, including commingling and allocation practices which are reliable and appropriate in accordance with any rules and regulations of the government agency or commission having or asserting jurisdiction or control of the production and handling thereof in such area on which you may rely in making payments hereunder.

4. Each owner warrants, ratifies, adapts, and confirms title to the interest credited to such owner according to the division of interest hereinabove indicated, as well as all interest hereafter acquired, and agrees to furnish evidence satisfactory to you of title to such interest in the land and the production therefrom. In case of any dispute or adverse claim thereto, or any part or value hereof, each owner agrees to defend, protect, and indemnify you and the receiving agency therefrom and from any fees, costs and expense in connection therewith, and you are authorized to retain all sums accruing hereunder, without interest, until you receive a surety company indemnity bond or other security, satisfactory to you, or until the dispute is settled or finally determined and you receive evidence thereof satisfactory to you.

5. All payments hereunder shall be made by check or draft mailed to the respective owners at their addresses given below. Payment for oil and gas delivered hereunder during a calendar month shall be made within 60 days of the production month's end, provided you have received the proceeds from the initial oil and gas purchasers. At your option, no payment shall be made to any owner of any amount less than Twenty-Five Dollars ($25.00), except that accumulated amounts less than $25.00 shall be disbursed at least once in any twelve-month period, or within thirty days subsequent to the termination of this division order. In case of substantially continuous deliveries and measurements by meters or other reliable facilities and practices as above provided, where there are frequent intervals or periods for readings or collections of measurements or recordings and a price change occurs during such period, then the total deliveries during the period shall be divided by the number of days in the period and the average shall be deemed the daily deliveries during the period to which the prices shall apply.

6. You or the receiving agency need not accept oil which is not merchantable, in the judgment of you or the receiving agency, and operators or owners responsible for the production of the oil may be required to treat, or otherwise make the oil so merchantable before acceptance hereunder. You may purchase or receive only such quantities as are acceptable to you, subject to the laws and regulations applicable thereto. You are authorized to deduct from all oil purchased hereunder, truck or other transportation and marketing charges from the property to the receiving station, point of connection to a common carrier, or other marketing or delivery point in the area designated by you. If, however, your oil hereunder is sold by you to another purchaser on the property, or at such a delivery point, payment hereunder shall be based upon the proceeds received by you from such purchaser subject to the deductions herein authorized, and shall be made during the following calendar month after such receipt.

7. Payment shall be made on gas produced, saved and sold, but not on gas used in operation under the terms of the lease or for fuel in compressing, dehydrating, treating, or processing gas hereunder, or which is lost in handling, or which is injected into a formation or formations underlying the property.

8. In the event gas is processed in a plant in or near the field for the extraction of liquid hydrocarbons, then notwithstanding the definition of oil and gas above, and in lieu thereof, gas shall include condensate if and to the extent such is processed and all other fluid (both liquid and gaseous) hydrocarbons contained in such gas and to such extent shall not be considered oil hereunder.

COPY

9. You are hereby authorized, as may be required at your election, to withhold from the proceeds accruing hereunder to any owner the amount of any severance, production, occupation, or other tax, levied by or under the authority of the laws of the state in which the property is situated or of the United States against him for and on account of said interest, and to pay such tax or taxes with the withheld proceeds. All parties hereto connected with and responsible for the operation of and production from said property severally warrant that said production has not been produced or otherwise handled in violation of the Federal Fair Labor Standards Act of 1938 or other applicable laws, as amended, and has been produced in accordance with the conservation and other laws and the rules and regulations thereunder of any governmental agency which now or hereafter has or asserts jurisdiction.

10. Should any interest hereunder be limited to any portion of the production or proceeds or value thereof for a definite time or until any sum has been paid, or should any interest increase, diminish, terminate, or revert to any party, whether or not there is any provision herein relating thereto, it is understood that the distribution and application thereof by you for the benefit of the parties concerned therewith is purely an accommodation by you and that you are not responsible for any erroneous distribution or payments relating thereto, and may, without liability, continue distribution or payments unless and until you receive at your above address written notice to discontinue from any of the parties concerned.

11. Should all or any part of the above described property now or hereafter be included in one or more pools or units duly authorized by the interest owners, or formed or revised by the duly authorized state or Federal agency having or asserting jurisdiction thereof in the state where the property is situated, then the provisions of this division order shall attach to that portion of the total production from the pool or unit which is allocated to the property covered hereby, and such portion shall be deemed hereunder to have been actually produced from the above described property.

12. You will not be responsible for any change of ownership unless and until you receive at the above address written notice, and proof and records satisfactory thereof to you, and any transfer or other change of ownership of any interest hereunder is and shall be made subject to this division order and shall be effective at 7:00 o ' clock a.m., on the first day of the calendar month following the receipt of said notice and proof by you. This division order shall become valid and binding on each and every owner when signed by him regardless of whether or not any other owner signs. As used herein, the masculine gender includes the feminine and neuter genders.

Re: Mineral File No. M-94821
Property No 331227

Dear Sir or Madam:

We have received the division order submitted by your company for the above referenced lease and filed same in our files. Please be sure to reference this mineral file number in all future royalty payments, reports and correspondence concerning the lease.

The payment of royalties to the State of Texas is set by statute. As the execution of the division order may, in some cases, effect the payments of such royalties, it is not the policy of this office to execute them. Insofar as allowed by law, the Texas General Land Office acquiesces in the sale of oil and gas under the terms and conditions set out in the lease.

If you should have any questions, please feel free to call me at (512) 475-1494.

25.80 Acre Survey
Brazos County, Texas

Dear Owners:

Enclosed is the division order for the Dansby Trust #1-H unit. As many of you are aware this division order has been delayed due to certain complex title issues surrounding numerous tracts in the unit. The ownership calculations contained in this division order are based on our discussions with owners, advice of legal counsel, and the laws of the State of the Texas.

One of the many difficult issues concerned a non-participating royalty owner who owned in several unit tracts, some underlying the wellbore of the well. This owner has refused to ratify the pooling provision of the lease, and therefore is not unitized. For the owners who were affected by this situation, those in Tracts 1, 2, and 7 through 13, an attachment to this letter will explain the method used in calculating royalty ownership. Some of these same tracts as well as others had other title problems which need clarification, and these also are addressed by attachment to this letter.

This division order reflects in separate columns your ownership decimal for oil and gas. Your revenue from oil will be paid 100% by Chesapeake, the gas will be paid to you by Chesapeake and Edco Energy, Inc. Edco elected to take their production-in-kind, and they should send to you a division order for their share of the gas produced.

If you have any questions about the manner in which your interest was calculated, or need further information or assistance, please contact us as soon as possible.

Sincerely,

Connie R. Robles

Re: Mineral File No. M- 94821, 95228, 95380

Dear Sir or Madam:

We have received the division order submitted by your company for the above referenced lease and filed same in our files. Please be sure to reference this mineral file number in all future royalty payments, reports and correspondence concerning the lease.

The payment of royalties to the State of Texas is set by statute. As the execution of the division order may, in some cases, affect the payments of such royalties, it is not the policy of this office to execute them. Insofar as allowed by law, the Texas General Land Office acquiesces in the sale of oil and gas under the terms and conditions set out in the lease.

If you should have any questions, please feel free to call me at (512) 475-2317 .

Sincerely,

Re: **New Division Orders covering Snyder Acquisition**
D/O 5800 thru 5841; 5844, 5848, 5851, & 5862; Austin Chalk Area
Burleson, Brazos, Fayette, Grimes, Lee, & Washington Counties, Texas

Dear Interest Owner:

Rosewood Resources, Inc. has acquired all of the interest owned by Snyder Oil Corporation in approximately 64 wells in the Austin Chalk Area of Texas. Rosewood took over operations of the 40 wells previously operated by Snyder effective as of January 1, 1997.

As a result of our acquisition, Rosewood will take over all revenue disbursements presently being made by Snyder, beginning with January, 1997, production. Rosewood's revenue checks covering the January, 1997, production will be issued around the 25th of March, 1997.

Enclosed are Rosewood's Division Orders for your execution, which detail only your specific interest in the captioned group of wells. Please follow the directions on the enclosed Division Order Instruction Sheet and return one signed division order to the undersigned in the return envelope provided.

The decimals shown on your Exhibit A cover the exact interests previously paid to you by Snyder. If you notice any well name listed twice, but with different tract numbers--then Rosewood has a disbursement responsibility that differs according to whether the product is oil or gas. In this situation, Rosewood's "Tract 0000" covers oil and "Tract 0001" covers gas.

Please give this your prompt attention. We would like to have your signed division order back in our office no later than March 14th. If you should have any questions or require additional information, feel free to call me at (214) 871-5718. Thank you.

Sincerely,

KNOW ALL MEN BY THESE PRESENTS:

The undersigned, being the owners of valid and subsisting oil, gas, and mineral leases listed in Exhibit "A", attached hereto and made a part hereof, insofar as said oil, gas, and mineral leases cover and affect the land and depths described on Exhibit "B", attached hereto and made a part hereof, do, by virtue of the authority conferred by the terms of such oil, gas, and mineral leases and all amendments and corrections thereto, hereby pool, consolidate, combine, and unitize said oil, gas, and mineral leases, the leasehold rights, overriding royalty, and royalty interests therein and thereunder, for the purpose of drilling for, development, and production of oil, gas, and liquid hydrocarbons (including condensate, distillate, and other liquids). The unit (hereinafter "Unit") shall be comprised of the land and interval described on the attached Exhibit "B", as depicted on the Plat attached hereto as Exhibit "C".

If at any time any tract of land or interest within the Unit is not properly pooled or unitized hereby or is not otherwise committed to the Unit, such fact shall not affect, terminate, impair, or invalidate the Unit as to any interest properly pooled or unitized hereby or otherwise.

This Designation of Unit covers all production from the land and depths described on the attached Exhibit "B" which is produced from any well drilled to the unitized interval underlying the Unit area. Production from the Unit shall be allocated proportionately among all of the tracts within the Unit in the proportion which the number of surface acres in each of such tracts bears to the total number of surface acres in the Unit.

The undersigned reserves the right to amend this Designation of Unit from time to time, and at any time, in order to correct any error herein or to include in this Unit any newly acquired interests within the Unit boundaries or to enlarge the Unit area in accordance with the applicable rules and regulations of any governmental regulatory body or agency having jurisdiction insofar as such right is granted in the subject leases, by appropriate amendments or instruments correcting or committing any such interest to this Unit. Any such Amendment may be executed by the Operator of the Unit, on behalf of the undersigned, provided that such Amendment will not change the interests of the owner in the Unit.

By execution of this Designation of Unit, the undersigned do not exhaust their right to pool the leases and lands hereinabove described with other leases and lands as to any other minerals, horizon, or strata covered thereby, and they expressly reserve to themselves, their assignees, or successors in interest, the right and power to pool or unitize the above described leases and lands with any other leases, lands, horizons, or strata in the vicinity and so far as the power, right, and authority to do so is granted in the subject leases and various agreements and so long as such power and authority is exercised in accordance with applicable rules and regulations of any governmental regulatory body or agency having jurisdiction.

This instrument may be executed as one document signed by all parties, or parties named herein may join herein by execution of a counterpart or ratification, with the same effect as if all parties executed this instrument. The failure of any one or more persons owning an interest in the Unit to execute this instrument or a counterpart or ratification thereof shall not in any manner affect the validity of same as to the parties who do execute this instrument. This Unit may not be ratified or joined in by any party who is not named hereinbelow without the consent of the parties hereto.

The Unit hereby created shall be effective as of the date of first production from the Unit, and shall remain in force as long as the pooled minerals are being produced from the Unit, or so long as the leases covering the Unit are maintained in force by payment or tender of shut-in royalties or by other means, in accordance with the terms of said leases.

IN WITNESS WHEREOF, this Designation of Unit is executed on this 6 day of July, 1993.

RE: Termination of State Lease MF094821
Lease Name: Brazos Coal Ltd. Nantucket Unit #2240 (03-146622)
Brazos County
API 041-31476

Gentlemen:

Based on the information reviewed, it appears that the above-referenced lease and unit may have terminated March 1, 2006 due to non-production. The lease and unit have not been held by timely paid shut-in payments and there is no documentation in this office of any reworking operations. As a result, this lease may have terminated under the terms and conditions of the lease and laws of the State as further defined in Title 31 of the Texas Administrative Code ("TAC"). Pursuant to the TAC, a recorded original or certified copy of a Release of the State Oil and Gas Lease must be filed with our office.

If the wells are plugged, copies of Railroad Commission Form W-3 must be filed with our office. Our Audit Division will notify you shortly if delinquent royalties are due.

In accordance with the provisions of the TAC, if you disagree with this assessment please provide evidence to this office at the address shown below within 30 days of receipt of this letter. Failure to reply or failure to present sufficient evidence of the continuation of the lease will result in the mineral file being endorsed as terminated. You will receive no further communication from this office prior to endorsement.

Sincerely,

Carl F. Bonn, CPL

Gentlemen:

Hi Susan-

Since it is so quiet, I have had time to work through a stack of problems Alex Saenz left for me. :-)

I have resolved this one:

"Mixed Up Units"

Per Alex, someone in FM notified him that Endeavor has its units switched in RRAC. After looking at well locations, I agree. I have corrected WI and have asked Mark Conway to correct GIS. See attached GIS printout.

4204131735 03-22086 is located in Unit 2291, MF095228. I have re-activated the unit in Alamo.

4204131476 03-146622 is located in Unit 2240, MF094821 and was P/A 9/19/2006. I have re-terminated the unit in Alamo. This is the lease and unit Endeavor has been paying 03-022086 to even though the well is not located within the unit boundary.

Let me know if you have any questions!

Mary Beth,

These are the units I told you about, that have their reports switched in RRAC.
Unit 2240 has reports and payments for RRC# 03-22086.
The well is actually located in Unit 2291.
Happy hunting.
