The State of Texas

Austin, Texas

PAID-UP

OIL AND GAS LEASE NO. M-95942
GENERAL LAND OFFICE
AUSTIN, TEXAS

THIS AGREEMENT made and entered into by and between the Commissioner of the General Land Office of the State of Texas, whose address is Stephen F. Austin Building, 1700 North Congress, Austin, Texas, 78701, hereinafter called "Lessor", hereunto authorized by the School Land Board, pursuant to the provisions of Chapters 32, 34 and 52 of the Natural Resources Code (hereinafter called N.R.C.), and amendments thereto, and all applicable rules promulgated by the School Land Board, and Clayton Williams Energy, Inc., whose address is 500 North Loop 1604 East, San Antonio, Texas 78232, hereinafter called "Lessee".

1. Lessor, in consideration of Five Hundred Sixty Two and 50/100 Dollars ($562.50), receipt of which is hereby acknowledged, and of the covenants and agreements of Lessee hereinafter contained, does hereby grant, lease, and let unto Lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, and all other hydrocarbons, produced from the land covered hereby. The land covered hereby, herein called "said land" is located in the County of Burleson, State of Texas, and is described as follows:

7.72
~~7.5~~ acres of land, more or less, situated in said Burleson County, Texas, more particularly described in

Exhibit "A" attached hereto and made a part hereof together with a plat, attached hereto as Exhibit "B", depicting said right-of-way and surrounding area for purposes of illustration only.

For the purpose of determining the amount of any bonus or other payment hereunder, said land shall be deemed to contain 7.5 acres, whether actually containing more or less, and the above recital of acreage shall be deemed to be the true acreage thereof. Lessor accepts the bonus as lump sum consideration for this lease and all rights and options hereunder.

2. PRIMARY TERM: This lease, which is a "paid up" lease requiring no rentals, shall remain in force for a term of three (3) years from July 5, 1994, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. ROYALTIES: As royalty Lessee covenants and agrees:

(a) To deliver to the credit of Lessor, in the pipe line to which Lessee may connect its well, the equal three sixteenth (3/16) part of all oil produced and saved by Lessee from said land, or from time to time, at the option of Lessee, to pay Lessor the average posted market price of such three sixteenth (3/16) part of such oil at the wells as of the day it is run to the pipe line or storage tanks, Lessor's interest, in either case, to bear none of the cost of treating oil to render it marketable pipe line oil;

(b) To pay Lessor on gas and casinghead gas produced from said land (1) when sold by lessee, three sixteenth (3/16) of the amount realized by Lessee, computed at the mouth of the well, or (2) when used by Lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of three sixteenth (3/16) of such gas and casinghead gas.

(c) If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-in, and thereafter this lease may be continued in force as if no shut-in had occurred.

(d) Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, Lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle

labor trouble or to market gas upon terms unacceptable to Lessee.

(e) If at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check of lessee, as royalty, the sum of $150.00. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

(f) All royalties not taken in kind shall be paid to the Commissioner of the General Land Office at Austin, Texas, in the following manner:

Royalty on oil is due and must be received in the General Land Office on or before the 5th day of the second month succeeding the month of production, and royalty on gas is due and must be received in the General Land Office on or before the 15th day of the second month succeeding the month of production, accompanied by the affidavit of the owner, manager, or other authorized agent, completed in the form and manner prescribed by the General Land Office and showing the gross amount and disposition of all oil and gas produced and the market value of the oil and gas, together with a copy of all documents, records or reports confirming the gross production, disposition and market value including gas meter readings, pipeline receipts, gas line receipts and other checks or memoranda of amount produced and put into pipelines, tanks, or pools and gas lines or gas storage, and any other reports or records which the General Land Office may require to verify the gross production, disposition and market value. In all cases the authority of a manager or agent to act for the Lessee herein must be filed in the General Land Office. Each royalty payment shall be accompanied by a check stub, schedule, summary or other remittance advice showing by the assigned General Land Office lease number the amount of royalty being paid on each lease. If Lessee pays his royalty on or before thirty (30) days after the royalty payment was due, the Lessee owes a penalty of 5% on the royalty or $25.00, whichever is greater. A royalty payment which is over thirty (30) days late shall accrue a penalty of 10% of the royalty due or $25.00, whichever is greater. In addition to a penalty, royalties shall accrue interest at a rate of 12% per year; such interest will begin accruing when the royalty is sixty (60) days overdue.

Affidavits and supporting documents which are not filed when due shall incur a penalty in an amount set by the General Land Office administrative rule which is effective on the date when the affidavits or supporting documents were due. The Lessee shall bear all responsibility for paying or causing royalties to be paid as prescribed by the due date provided herein. Payment of the delinquency penalty shall in no way operate to prohibit the State's right of forfeiture as provided by law nor act to postpone the date on which royalties were originally due. The above penalty provisions shall not apply in cases of title dispute as to the State's portion of the royalty or to that portion of the royalty in dispute as to fair market value. The State shall have first lien upon all oil and gas produced from the area covered by this lease to secure the payment of all unpaid royalty and other sums of money that may become due to the State hereunder.

4. POOLING: (a) Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons. Units pooled for oil hereunder shall not exceed 160 acres each in area, and units pooled for gas hereunder shall not exceed in area 640 acres each plus a tolerance of ten percent (10%) thereof, unless oil or gas units of a greater size are allowed under or prescribed by rules of the Railroad Commission of Texas. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, as operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) the proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any shut-in royalty which may become payable under this lease) between

parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of Lessee to release as provided in paragraph 5 hereof, except that Lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force Lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force for so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but Lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

(b) Neither unit production of oil or gas, nor unit operations, nor payment of shut-in royalties from a unit gas well, shall serve to hold the lease in force as to any area outside the unit, regardless of whether the production, maintenance of a shut-in gas well, or operations are actually located on the State tract or not.

(c) Lessee agrees to file with the General Land Office a copy of any unit designation which this lease is included within ninety (90) days of such designation.

5. RELEASE: Lessee may relinquish the rights granted hereunder to the State at any time by recording the relinquishment in the county where this area is situated and filing the recorded relinquishment or certified copy of same in the General Land Office within ninety (90) days after its execution accompanied by the prescribed filing fee. Such relinquishment will not have the effect of releasing Lessee from any liability theretofore accrued in favor of the State.

6. REWORK: If at any time or times during the primary term operations are conducted on said land and if all operations are discontinued, this lease shall thereafter terminate at the end of the primary term or on the ninetieth day after discontinuance of all operations, whichever is the later date, unless on such later date either (1) Lessee is conducting operations or (2) the shut-in well provisions of paragraph 3 or the provisions of paragraph 9 are applicable. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling,

testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil or gas, or production of oil or gas in paying quantities.

7. MINERAL USE: Lessee shall have the use, free from royalty, of oil and gas produced from said land in all operations hereunder.

8. NOTICE: In the event Lessor considers that Lessee has not complied with all its obligations hereunder, both express and implied, Lessor shall notify Lessee in writing, setting out specifically in what respects Lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by Lessor. The service of said notice shall be precedent to the bringing of any action by Lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on Lessee. Neither the service of said notice nor the doing of any acts by Lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that Lessee has failed to perform all its obligations hereunder. If this lease is canceled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by Lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations.

9. FORCE MAJEURE: If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and Lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of Lessee, the primary term shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

10. LESSER ESTATE, CLAUSE: If this lease covers a less interest in the oil or gas in all or any part of said land than the entire and undivided fee simple estate (whether lessors interest is herein specified or not), or no interest therein, then the royalties, and other monies accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease bears to the whole and undivided fee simple estate therein.

11. ASSIGNMENTS: This lease may be transferred at any time. All transfers must reference the lease by file number and must be recorded in the county where the land covered hereby is located, and the recorded transfer or a copy certified to by the County Clerk of the county where the transfer is recorded must be filed in the General Land Office within ninety (90) days of the execution date, as provided by N.R.C. Section 52.026, accompanied by the prescribed filing fee. Every transferee shall succeed to all rights and be subject to all obligations, liabilities, and penalties owed to the State by the original Lessee or any prior transferee of the lease, including any liabilities to the State for unpaid royalties.

12. WELL INFORMATION: Lessee agrees to forthwith furnish Lessor, upon written request, with copies of all drilling logs, electrical logs, cores and core records and other information pertaining to all wells drilled by lessee either on the leased premises or acreage pooled therewith, when requested to do so. Said information shall remain confidential as required by statute.

13. SURFACE: Notwithstanding anything herein to the contrary, it is agreed that Lessee will not conduct any exploration or drilling on the surface of the leased premises or use the surface in the exercise of any rights herein granted. Any development of said land shall be by means of a directional well located off the leased premises, or by pooling of said land with other land, lease or leases as hereinabove provided.

14. COMPENSATORY ROYALTY: Lessee shall pay a compensatory royalty if this lease is not being held by production on the leased premises, by production from a pooled unit, or by payment of shut-in royalties in accordance with the terms of this lease, and if oil or gas is sold or delivered in paying quantities from a well located within 2500 feet of the leased premises and completed in a producible reservoir underlying the area leased hereunder or in any case in which drainage is occurring. Such compensatory royalty shall be paid at the royalty rate provided in this lease based on the value of production from the well as provided in the lease on which such well is located. The compensatory royalty shall be paid in the same proportion that the acreage of this lease has to the acreage of the proration unit surrounding the draining well plus the acreage of this lease. The compensatory royalty shall be paid monthly to the Commissioner of the General Land Office on or before the last day of the month after the month in which the oil or gas is sold and delivered from the well causing the drainage or from the well located within 2500 feet of the leased premises and completed in a producible reservoir under this lease. Notwithstanding anything herein to the contrary, compensatory royalty payable hereunder shall be no less than an amount equal to $300.00, and shall maintain this lease in effect for so long as such payments are made as provided herein.

15. FORFEITURE: If Lessee shall fail or refuse to make payment of any sum within thirty (30) days after it becomes due, or if Lessee or an authorized agent should knowingly make any false return or false report concerning production or drilling, or if Lessee shall fail or refuse to drill any offset well or wells in good faith as required by law and the rules and regulations adopted by the Commissioner of the General Land Office, or if Lessee should fail to file reports in the manner required by law or fail to comply with rules and regulations promulgated by the General Land Office, or refuse the proper authority access to the records pertaining to operations, or if Lessee or an authorized agent should knowingly fail or refuse to give correct information to the proper authority, or knowingly fail or refuse to furnish the General Land Office a correct log of any well, or if this lease is pooled or assigned and the unit designation or assignment is not filed in the General Land Office as required by law, the rights acquired under this lease shall be subject to forfeiture by the Commissioner, and he shall forfeit same when sufficiently informed of the facts which authorize a forfeiture, and when forfeited the area shall again be subject to lease. However, nothing herein shall be construed as waiving the automatic termination of this lease by operations of law or by reason of any special limitation arising hereunder. Forfeitures may be set aside and this lease and all rights thereunder reinstated before the rights of another intervene upon satisfactory evidence to the Commissioner of the General Land Office of future compliance with the provisions of the law and of this lease and the rules and regulations that may be adopted relative hereto.

16. RAILROAD COMMISSION: No natural gas or casinghead gas, including both associated and non-associated gas, produced from the mineral estate subject to this lease may be sold or contracted for sale to any person for ultimate use outside the State unless the Railroad Commission of Texas, after notice and hearing as provided in Title 3 of the N.R.C., finds that:

(a) the person, agency, or entity that executed the lease in question does not require the natural gas or casinghead gas to meet its own existing needs for fuel;

(b) no private or public hospital, nursing home, or other similar health-care facility in this state requires the natural gas or casinghead gas to meet its existing needs for fuel;

(c) no public or private school in this state that provides elementary, secondary, or higher education requires the natural gas or casinghead gas to meet its existing needs for fuel;

(d) no facility of the State or of any county, municipality, or other political subdivision in this state requires the natural gas or casinghead gas to meet its existing needs for fuel;

(e) no producer of food and fiber requires the natural gas or casinghead gas necessary to meet the existing needs of irrigation pumps and other machinery directly related to this

production; and

(f) no person who resides in this state and who relies on natural gas or casinghead gas to provide in whole or part his existing needs for fuel or raw material requires the natural gas or casinghead gas to meet those needs; provided, however, after notice and hearing as provided in Title 3 of the N.R.C., the Railroad Commission of Texas may grant exceptions to these provisions of Subchapter H of Chapter 52 of the N.R.C. if it finds and determines that enforcement of such provisions:

(1) would cause physical waste as defined in Title 3 of the N.R.C.; or

(2) would unreasonably deny to the Lessee an opportunity to produce economically hydrocarbons from the land subject to this lease.

IN TESTIMONY WHEREOF, witness the signature of the Commissioner of the General Land Office, under the seal of the General Land Office, effective as of July 5, 1994.

Victoria Bank & Trust Co.
Oil, Gas and Mineral Lease

This AGREEMENT, made and entered into this 26th day of April, 19 93, BY AND BETWEEN Victoria Bank & Trust Company, Bryan/College Station Office, (formerly known as First City, Texas-Bryan/ College Station, N.A.), as Trustee of the Herbert Hover Alford Residuary Trust

whose Post Office address is: One O'Connor Plaza, 6th Floor, Victoria, Texas 77902

hereinafter called LESSOR(S), and Clayton Williams Energy, LLC

whose Post Office address is: 500 North Loop 1604 East, San Antonio, Texas 78232

hereinafter called LESSEE(S).

WITNESSETH:

1. That Lessor, in consideration of the cash bonus in hand paid, of the royalties herein provided, and of the agreements of Lessee herein contained, hereby grants, leases, and lets exclusively unto Lessee for the sole and only purpose of exploring, drilling and operating for and producing oil and gas and of laying pipelines, storing oil and building tanks, telephone lines, roads and structures thereon to produce, save, care for, treat and transport said substances produced from the land leased hereunder only, the following described land situated in Burleson County, State of Texas, to wit:

863.88 acres, more or less, out of the Sterling C. Robertson Survey, A-50 and the H.E. Davis Survey, A-100, Burleson County, Texas, described as two tracts in Exhibit "A", being 745.38 acres, more or less, and Exhibit "B", being 704.50 acres, more or less, together being 1,449.88 acres, more or less, and more particularly described in Deed dated February 28, 1987, from H. Hoover Alford to Dan F. Alford, recorded in Volume 363, Page 427 of the Deed Records of Burleson County, Texas.
Less and Except: 586.00 acres, more or less, described as two tracts in Deed dated February 24, 1982, from Dan F. Alford et al to Robert A. Alford, Jr., recorded in Volume 304, Page 60 of the Deed Records of Burleson County, Texas.

and containing 863.88 acres, more or less.

2. Subject to the other provisions hereof, this lease shall be for a term of 3 years from this date (called "Primary Term") and as long thereafter as oil and gas, or either of them is produced in paying quantities from said land or lands with which said land is pooled hereunder and the royalties are paid as provided.

3. Lessee shall pay the following royalties, subject to the following provisions:

(a) Lessee shall either pay the Lessor 3/16 of the market value at the well of all oil and other liquid hydrocarbons recovered or separated on the leased premises, produced and saved from the leased premises; or after 60 days written notice from Lessor, which notice may be given from time to time, deliver free of cost to lessor at the wells or to the credit of Lessor into the pipeline to which the well may be connected such percentage of all oil and other liquid hydrocarbons produced and saved from the leased premises.

(b) Lessee shall pay the Lessor 3/16 of the market value at the well for all gas (including all substances contained in such gas) produced from the leased premises and sold by Lessee or used off the leased premises, including sulphur produced in conjunction therewith; provided, however, that the royalty portion of such gas shall be free and clear of all of the costs and expenses of dehydrating, transporting, compressing, treating, gathering or otherwise rendering marketable or marketing such gas, and no deduction shall be made for any of such costs and expenses in computing any payment to be made to Lessor pursuant to this clause (b).

(c) Lessee shall pay Lessor royalty on all gas produced from a well on the leased premises or on lands pooled with the leased premises and sold or used off the leased premises regardless of whether or not such gas is produced to the credit of Lessee or sold under a contract executed by or binding on Lessee. Should gas be sold under a sales contract not binding on Lessor, Lessor's royalty will be calculated based on the highest price paid for any of the gas produced from the well from which such gas is produced. In no event will the price paid Lessor for Lessor's share of gas be less than the price paid Lessee for Lessee's share of gas.

(d) While there is a well on leased premises capable of producing gas in paying quantities but the production thereof is shut-in or suspended for any reason Lessee may pay as royalty on or before 90 days after the date on which (i) production from any such well is shut-in or suspended or (ii) this lease is no longer maintained by compliance with other provisions hereof, whichever is the later date, and thereafter at annual intervals, a sum in the amount of $ 20.00 per acre, or a minimum of Fifty Dollars ($50.00), whichever is greater, for each and every shut-in gas well; and if such payment is made or tendered in accordance with the terms hereof, this lease shall not terminate but shall continue in full force, subject to the provisions of paragraph 15, and it will be considered that gas is being produced from the leased premises in paying quantities within the meaning of each pertinent provision of these lease, it being understood and agreed that such payment shall be in lieu of and excuse payment or tender of the annual delay rentals which will have otherwise accrued and become payable under the terms and provisions hereof and in no event shall shut-in well payments maintain this lease in force for a cumulative period exceeding 3 year(s). Lessee shall not be entitled to recover any shut-in royalty payments from the future sale of gas. Should the shut-in period extend beyond the expiration of the primary term, such shut-in provision will pertain only to the producing unit of such gas well as provided for in paragraph 15. Should such shut-in royalty payments not be made in a timely manner as provided in this paragraph, it will be considered for all purposes that there is no production or no excuse for delayed production of gas from any such well or wells and unless there is then in effect other preservation provisions of this lease, this lease shall terminate at midnight on the last day provided for the payment of such shut-in royalties, and Lessee shall thereupon furnish to Lessor a release of all its interest in and to this oil and gas lease insofar as that portion of the premises included in the producing unit assigned to such shut-in well.

(e) Lessee agrees that before any gas produced from the leased premises is used or sold off the leased premises, it will be run, free of cost to Lessor, through an adequate oil and gas separator of a conventional type or equipment at least as efficient, to the end that all liquid hydrocarbons recoverable from the gas by such means will be recovered on the lease.

(f) Lessee agrees that it will not enter into any contract of sale of production from this lease which shall extend more than 5 years from the effective date of such sales contract unless such contract has adequate provisions for redetermination of price at intervals of not less frequently than 1 years to assure that production from this lease is not being sold for less than the then current fair market value. Lessee, its successors or assigns, shall advise Lessor of the price and other pertinent terms under which gas from the premises shall be sold and Lessor shall, within 30 days of receiving such notice notify Lessee as to whether Lessee may sell Lessor's royalty share of gas under Lessee's sales contract or whether Lessor shall take and separately dispose of its royalty share of gas. In the event Lessor elects to take and separately dispose of its royalty share of gas, an appropriate gas balancing agreement shall be entered into between the parties.

(g) Within 120 days following the first sale of oil or gas produced from the leased premises, settlement shall be made by Lessee or by its agent for royalties due hereunder with respect to such oil or gas sold off the premises, and such royalties shall be paid monthly thereafter without the necessity of Lessor executing a division or transfer order. If said initial royalty payment is not so made under the terms hereof, the unpaid balance shall bear interest at the maximum lawful rate. After said initial royalty payment, with respect to oil or gas produced during any month, if royalty is not paid hereunder on or before the last day of the second succeeding month, this lease shall terminate at midnight of such last day. It is agreed, however, that Lessor shall notify Lessee, by certified mail of such delinquency, and Lessee shall then have 30 days from delivery of said notification, and prior to said termination dates, to remedy said delinquency.

4. If actual drilling is not commenced on said land, or on land pooled therewith, on or before twelve (12) months from the date of this lease, this lease shall then terminate, unless on or before such anniversary date Lessee shall pay or tender to Lessor or to the credit of Lessor in N/A

_____ Bank of _____, which bank and its successors shall continue as the depository for all rentals payable hereunder, regardless of changes in ownership of delay rentals, the sum of 3 year paid up lease DOLLARS ($ -0-) (hereinafter called "rental"), which shall cover the privilege of deferring commencement of actual drilling for a period of twelve (12) months. In like manner, and upon like payments or tenders, actual drilling may be further deferred for like periods of twelve (12) months each during the primary term. The payment or tender of rentals or shut-in royalties may be made by check or draft of Lessee mailed or delivered to Lessor or to said bank on or before the date of payment. The bonus paid hereunder is considered for this lease and shall not be allocated as mere rental for a period. Lessee may at any time execute and deliver to Lessor or to the depository named above, a release or releases covering any portion or portions of said land and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered, and thereafter the rental and shut-in royalty payable hereunder shall be reduced in the proportion that the acreage coverage hereby is reduced by said release or releases. Lessee agrees that if at any time the aforesaid delay rental is not paid on or before the date on which same is required to be paid under the terms of this lease, or if this lease terminated for any other reason, then in said event, Lessee shall promptly prepare and execute a recordable release instrument covering the land leased hereunder and shall forward same to Lessor.

5. Lessee is hereby granted the right to pool or combine the land covered by this lease, or any part or parts thereof, as to all strata or any stratum, with any other land, as to all strata or any stratum, for the production of gas. Pooling in one or more instances shall not exhaust the right of Lessee hereunder to pool this lease or portion thereof into other or different units. Units pooled for gas hereunder shall not exceed six hundred forty (640) acres each, provided that is any federal or state law, executive order, rule or regulation shall prescribe a spacing pattern for the development of the field or allocate a producing allowable based in whole or in part on acreage per well, then any such unit may consist of that minimum number of additional acres which will permit the allocation to such unit and the well thereon of the maximum producing allowable. To effect a unit or units Lessee shall file a written unit designation and surveyor's plat outlining any such unit and describing the participating tracts in the county conveyance records in which the premises are located. A copy of the unit designation shall be furnished to Lessor within thirty (30) days after it is filed in the appropriate county records, and if Lessee fails to do so, such unit may be declared invalid by Lessor by an instrument filed in such county records. Drilling or reworking operations and production on any part of the pooled acreage shall be treated for all purposes hereof (except the payment of royalties on such production) as if such drilling or reworking operations were upon or such production was from the land described in this lease whether the well or wells be located on the land covered by this lease or not. For the purpose of computing the royalties and other payments out of production to which the owners of such interests shall be entitled on production of oil and gas, or either of them, from any such pooled unit, there shall be allocated to the land covered by this lease and included in such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) a pro rata portion of the oil and gas, or either of them, produced from the pooled unit after deducting that used for operations on the pooled unit. Such allocation shall be on a acreage basis; thus, there shall be allocated to the acreage covered by this lease and included in the polled unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that pro rata portion of the oil and gas, or either of them, produced from the pooled unit which the number of surface acres covered by this lease (or in each such separate tract) and included in the unit bears to the total number of surface acres included in the pooled unit. Royalties hereunder shall be computed on the portion of such production whether it be oil and gas, or either of them so allocated to the land covered by this lease and included in the unit just as though such production were from such land. In the event only a part or parts of the land covered by this lease instrument is pooled or unitized with other land, or lands, so as to form a pooled unit, or units, operations on or production from such unit, or units, will maintain this lease in force only as to the land included in such unit, or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rental payments shall be reduced in proportion to the number of acres covered hereby and included in such unit or units.

6. If prior to discovery of oil or gas on said land or land pooled therewith, Lessee should drill and abandon a dry hole or holes thereon, or if, after discover of oil or gas, the production thereof should cease from any cause, this lease shall not terminate if Lessee commences reworking or actual drilling within sixty (60) days thereafter, or, if it be within the primary term, commences or resumes the payment or tender of rentals or commences actual drilling or reworking on or before the rental paying date next ensuing after the expiration of sixty (60) days from date of completion and abandonment of said dry hold or holes or the cessation of production. If, at the expiration of the primary term, oil or gas is not being produced on said land or land pooled therewith and Lessee is then engaged in actual drilling or reworking of any well thereon, this lease shall remain in force so long as drilling or reworking is prosecuted with no cessation of more than sixty (60) consecutive days, and if such operation results in production, so long thereafter as oil or gas is produced in paying quantities from said land or land pooled therewith. In the event a well or wells producing oil or gas should be brought in on adjacent land within four hundred sixty-seven (467) of the leased premises for an oil well or within four hundred sixty-seven (467) of the leased premises for a gas well, Lessee agrees to commence the drilling of an offset well as would a reasonable and prudent operator within 120 days or release that portion of the leased acreage that would be allocated to such well unit. If oil or gas is discovered on the land covered by this lease, or on land pooled therewith Lessee agrees to further develop said land covered by this lease as a reasonably prudent operator would under the same or similar circumstances.

7. Lessee shall have free use of oil, gas and water from said land, except water from Lessor's wells, tanks, creeks, rivers, streams and springs, for all operations hereunder, provided that no surface water or underground fresh water will be used for water flood or pressure maintenance purposes. Lessee shall have the right at any time within 180 days after the expiration of this lease to remove all property and fixtures placed by Lessee on said land, including the right to draw and remove all casing except as to water wells in which Lessee shall have the right to remove all property and fixtures except casing and shall do nothing that will in any way damage said water well or prevent its future use by Lessor. Lessee will, at Lessor's request, remove the casing from and plug and abandon such water well at Lessee's sole expense. When required by Lessor, Lessee will bury all pipelines below ordinary plow depth, and no well shall be drilled within four hundred (400) feet of any residence or barn now on said land without Lessor's consent. Lessor shall have the privilege, at its risk and expense, of using gas from any gas well on said land for stoves and inside lights in the principal dwelling thereon, out of any surplus gas not needed for operations hereunder.

8. In the event Lessor owns all or any part of the surface estate, Lessee will so conduct its operations hereunder as not to interfere unreasonable with Lessor or its assigns in the use of the surface of the lands covered by this lease provided, that any use of the surface will require written consent of Lessor in advance. Lessor agrees that such consent will not be unreasonably withheld. Prior to any use of the surface, Lessee will present to Lessor a plat of the property showing the area proposed to be used and the type of use to be made. Within 30 days of the receipt of such notice, Lessor will either deliver written consent or propose a reasonable alternative area for such use. Lessee will provide at Lessee's expense all protective measures to prevent any loss or damage to the property of Lessor on account of any operations by Lessee. Lessee will pay for all damages to the surface of or crops or improvements on the leased lands or suffered by any tenant of Lessor and caused by or arising out of operations under this lease. Pits and excavations made during drilling operations or otherwise will be filled by Lessee and the surface restored, as nearly as reasonably possible, to its original condition; and if Lessee shall fail to do so, the cost to Lessor of such filing and restoration shall be paid by Lessee.

9. No assignment of this lease, or interest therein, may be made without written approval of the lessor except within Clayton Williams entities, and consent shall not be unreasonably withheld. Subject to the preceding condition, the provisions hereof shall extend to the heirs, executors, administrators, successors and assigns of Lessor and Lessee, but no change or division in ownership of the land, rentals, or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee. No such change or division in the ownership of the land, rental or royalties shall be binding upon Lessee for any purpose until Lessee shall have been furnished with the instrument or instruments, or certified copies thereof, evidencing such change or division. In the event of a permitted assignment of this lease as to a segregated portion of said land, the rentals payable hereunder shall be apportioned as between the several leasehold owners ratably according to the surface area owned by each, and default in rental payment by one shall not affect the rights of other leasehold owners hereunder, and liability for breach of any obligation hereunder shall rest exclusively upon the owner of this lease or a portion thereof who commits such breach.

10. Lessee shall not be liable for delays or defaults in its performance of any agreement or covenant hereunder due to force majeure, except any and all monetary payments due under the terms of this lease. The term "force majeure" as employed herein shall mean: any act of God including but not limited to storms, floods, washouts, landslides, and lightning. If Lessee is required, ordered or directed by any federal, state or municipal law, executive order, rule or regulation enacted or promulgated under color of authority to cease drilling operations, reworking operations or producing operations on the land covered by this lease or if Lessee by operation of force majeure is prevented from conducting drilling operations, reworking operations or producing operations, then until such time as such law, order, rule, regulation, request or force majeure is terminated and for a period of sixty (60) days after such termination each and every provision of this lease or implied covenant arising thereunder that might operate to terminate it or the estate conveyed by it shall be suspended and inoperative and this lease shall continue in full force, provided, however, that in no event will the primary term be extended unless Lessee has begun the actual drilling of a well prior to the date of the expiration of the primary term.

11. If Lessor owns an interest in said land less than the entire and undivided fee simple estate therein, then the royalties and rental herein provided shall be paid the Lessor in the proportion which Lessor's interest bears to the entire and undivided fee simple estate therein.

12. Lessee, at its option, 30 days after giving written notice to Lessor, may discharge any tax lien upon the interest herein leased; and, in the event Lessee does so, Lessee shall have the right to apply rentals and royalties accruing hereunder to reimburse such payment.

13. In the event this lease expires for any reason as to all or any portion of the land described in this lease, Lessee shall furnish Lessor promptly with a written, recordable release instrument covering all of the land as to which this lease has so expired.

14. Lessee shall advise Lessor in writing as to the location of each well drilled upon the premises, or on land pooled therewith, on or before seven (7) days after commencement of operations, and shall advise Lessor in writing as to the date of completion or abandonment of each well drilled within thirty (30) days after such completion or abandonment. Lessee agrees to furnish Lessor with all well drilling completion and production data, reports, logs, and information when specifically requested by the Lessor.

15. If this lease is continued in force and effect beyond the primary term (or any extension of the primary term) hereof, it is agreed that this lease shall remain in force as to all of the land covered hereby so long and only so long as Lessee is engaged in continuous drilling operations, as such drilling operations are hereinafter provided, and, upon Lessee's failure to conduct continuous drilling operations as provided herein, this lease shall terminate, except as to acreage as hereinafter set forth. Lessee shall be conclusively deemed to be conducting continuous drilling operations hereunder if Lessee commences the drilling of a well within ninety (90) days after the end of the primary term on the land covered hereby or land pooled therewith, provided, however, in the event that Lessee is engaged in drilling operations on a well on the land covered hereby or land pooled therewith at the end of said primary term, Lessee may commence the continuous drilling program hereby contemplated within ninety (90) days after the completion of abandonment of the well being drilled at the end of said primary term, and in a like manner, commences the drilling of successive wells on the land covered hereby or land pooled therewith, within ninety (90) days of the completion or abandonment of the preceding well. If at any time Lessee fails to commence the drilling of any well within the time intervals as above set forth, or any other termination or forfeiture condition or provision becomes effective under this lease, then this lease shall terminate as to all of the land covered hereby, save and except the amount of acreage around such well as is then prescribed or permitted by the rules of the Railroad Commission of the State of Texas or other lawful authority for obtaining a maximum allowable for such well, each such oil or gas well and the acreage assigned hereto being hereinafter referred to as the "well tract". Within ninety (90) days after the cessation of continuous development operations, each such well tract shall be selected and designated by Lessee in writing in which the well tract or well tracts shall be described by metes and bounds or other adequate description. If a portion of Lessee's rights terminate as provided in this Paragraph 15, then Lessee shall designate in writing the acreage it is allowed to retain around each oil will and each gas well and such written designation shall be filed for record in the county in which such acreage is located. Lessee shall be entitled to designate the number of acres above specified in a form of his choosing so long as the unit is as near a rectangular shape as possible. The provisions of this paragraph 15 shall not have the effect of relieving Lessee of its obligations to develop the lease with reasonable diligence after oil or gas is first discovered in paying quantities.

16. If Lessor files a legal action to enforce any express or implied obligation of this lease and receives a favorable judgement from a court of competent jurisdiction, then Lessee shall reimburse Lessor for all costs of such legal proceeding including reasonable attorney's fees.

17. Lessee shall conduct his operations in compliance of all applicable rules and regulations of any regulatory body having jurisdiction on such operations.

18. Parties in interest. Lessee represents that he is not an officer, director, or employee of Victoria Bankshares, Inc. or Victoria Bank & Trust Co. or any of its affiliate and or subsidiaries, nor is Lessee acting on behalf of any such officer, director, or employee.

EXHIBIT "A" TO OIL AND GAS LEASE

DATED: April 26, 1993

Anything included in the Addendum shall supersede language written in the attached printed forms.

Attached to and made a part of that certain Oil, Gas and Mineral Lease dated April 26, 1993, by and between VICTORIA BANK & TRUST COMPANY, BRYAN/COLLEGE STATION OFFICE, (formerly known as FIRST CITY, TEXAS-BRYAN/COLLEGE STATION, N.A.), as Trustee of the HERBERT HOOVER ALFORD RESIDUARY TRUST, as Lessor, and CLAYTON WILLIAMS ENERGY, LLC, as Lessee.

19. If production is obtained from the leased premises during the primary term, the minimum royalty payable hereunder after the primary term shall be TEN AND NO/100 DOLLARS ($10.00) per acre per annum for each acre covered by this lease on January 1st of each year in question reduced proportionately to the leased premises actually in a producing unit. The only credits applicable to this annual minimum royalty are royalties actually paid during the year in question. Lessee shall pay to Lessor the actual royalties provided for herein as they accrue. Within thirty (30) days after the end of each year, upon written request from Lessor, Lessee shall furnish Lessor with a detailed statement of the actual production and royalties paid for the year in question and any applicable credit. If such statement shows that the minimum royalty provided for herein has not been paid Lessee shall remit the difference to the Lessor with the statement. Should Lessee fail to furnish such statement or fail to pay the minimum payment required within thirty (30) days after written notice by Lessor that it has not been received, then Lessee shall have an additional thirty (30) days to cure such default, failing which,* ~~this lease shall terminate~~. Each year shall stand on its own, and Lessee shall not apply any excess paid during any year to a deficiency existing in any other year. The annual periods provided for herein shall begin on January 1st of the year immediately following the year in which production is first obtained from the leased premises. WRW

Provison for minimum royalties provided herein shall in no way alter, limit, lessen, restrict, change or impair the obligation which the Lessee herein assumes to develop said property reasonably and with due diligence for oil and gas and shall not relieve Lessee of the obligation to maintain this lease by production, operations or as otherwise provided herein.

20. All roads which are presently in use on the leased premises and which are used by Lessee shall be maintained and kept in good state of repair by Lessee. Also, any roads which Lessee desires to construct on said premises, shall be constructed so as to destroy or interfere with as little cultivated land as possible and shall be maintained in a good state of repair at all times. When any drilling operations are entered upon under this lease and Lessee will desire the continuous use of any entrance into said lands, Lessee will, at the request of Lessor, construct a good and sufficient cattleguard adjoining the gate at such entrance into said lands for the passage of automobiles and trucks, such cattleguards to be so constructed as to prevent the passage of cattle and shall have chains across them. All gates and chains across cattleguards shall be locked except when in actual use.

21. Lessor shall have the right to specify the route of any road or roads constructed on the leased premises as well as the right to select reasonable materials to be used for the construction of said road or roads. If Lessee constructs roads on said premises, it is to notify Lessor of the intended location of said road which shall be subject to the discretion of Lessor; Lessor must respond within fifteen (15) days of such notice. This right of road approval is granted so that the Lessor is assured that the land can be used for farming purposes with a minimum of loss acreage due to roadways, and so that the drainage shall not be hindered.

* The unpaid balance shall bear interest at the maximum lawful rate. WRW

22. Lessee shall level all pits or other excavations dug by it in its operations hereunder promptly after the termination of its use thereof, and shall pay for all damage done or caused to be done to all buildings, fences, water wells, roads, culverts, turf and other improvements, including cultivated land and growing crops thereof and to return the surface of the land to its original condition as nearly as possible upon the completion or abandonment of any well or wells on the leased premises. It is expressly agreed by the Lessee that the surface rights of Lessor will be impaired as little as reasonably possible by the operation of the Lessee on the leased premises. In connection with the cleanup obligations imposed upon Lessee herein, Lessee specifically agrees, at Lessor's request, to remove from the subject premises all drilling mud used in connection with Lessee's drilling operations.

23. Lessee shall dispose of all salt water from any well or wells drilled on the leased premises by re-injection of such salt water into some sand below the fresh-water level or dispose of the salt water in other ways; provided, however, that Lessee shall never permit such water to flow on or over the leased premises or to pollute any waters thereon and to use reasonable means to prevent the pollution of subsurface water, and shall use due precautions to see that as little cultivated land as possible is destroyed or interfered with in the salt water disposal method stated herein.

24. Any operations upon the leased premises conducted by Lessee, its contractors or employees, shall at all times be open to the inspection and examination of Lessor or its duly accredited representative. It is intended by this paragraph that Lessor will be entitled to full information in every respect pertaining to any well or wells drilled upon the leased premises. Lessor or its representative shall have the right at all reasonable times to examine any gas or oil meters placed on any wells upon the leased premises.

25. It is expressly understood and agreed that this lease covers oil and gas only, along with the products and by-products thereof, but this lease does not cover any other minerals of any type, including uranimum, thorium and other fissionable materials, iron ore, copper, coal, lignite, or any other minerals of any type, it being understood that this lease is made for oil and gas purposes only.

26. That anything to the contrary in this lease notwithstanding, this lease shall terminate one (1) year after the primary term hereof or at the expiration of the continuous drilling clause herein (Paragraph 6) as to all depths below one hundred feet (100') below the stratigraphic equivalent of the deepest depth drilled either during the primary term or at the expiration of the continuous drilling clause referred to and Lessee shall furnish to Lessor a release covering such depths.

27. This Lease is subject to any valid outstanding oil, gas or mineral lease pertaining to the subject property which is of record in the office of the County Clerk. Lessor makes no warranty or representation as to the title of the property covered by this Lease or any previous oil and gas or mineral lease pertaining to the subject property. Lessee has satisfied itself as to the condition of title to the mineral estate and Lessor's ability to make this Lease. The remedies of Lessee for the failure of Lessor's title are strictly limited to the proportionate reduction of future payments to be made to Lessor after the date of discovery of any such title failure.

28. Lessor shall have no responsibility under this lease or otherwise for leases hereafter granted unless Lessee shall have properly recorded this lease in the County Records of the county or parish in which the property is located. It is agreed that any suits at law will be initiated in the court of proper jurisdiction of the State of Texas and that the laws of Texas will control in construing the lease. Should Lessor prevail in any litigation in enforcement of this lease, Lessor will be entitled to reasonable attorney's fees and prejudgment interest.

29. Lessee shall defend, indemnify and hold harmless Lessor from and against all claims, liabilities, judgments, losses and causes of action of, to or by third persons (including, without limitation, Lessee and Lessee's employees and governmental authorities and agencies), for injury to or death of any person, for environmental damage or pollution, and for damage to or destruction of any property resulting directly or indirectly from any and all acts, omissions or courses of conduct by Lessee or its employees, agents, contractors, subcontractors, suppliers and invitees, or resulting from, in connection with, arising out of or in any way incidental to the exercise of the rights herein granted, or from the use, maintenance or condition of the above described land, including, without limitation, any such injury, death or damage caused by, or contributed to by, the sole or concurrent negligence of Lessee or its agents, lessees, contractors, subcontractors, licensees and employees. Lessee shall conduct all operations hereunder in accordance with all valid rules, regulations and orders of the governmental authority having jurisdiction. Upon abandonment of any well hereunder, Lessee shall properly plug and abandon such well in accordance with the rules and regulations of the governmental authority having jurisdiction.

30. Anything in this Lease to the contrary notwithstanding it is understood and agreed that:

A) Lessee cannot pool the lands described herein without the written consent of Lessor, which consent cannot be unreasonably withheld. Provided, however, Lessee may freely pool this lease with the following described tract of land without Lessor's prior written consent: 586.00 acres, more or less, out of the Sterling C. Robertson Survey, A-50, Burleson County, Texas, described as two tracts in Deed dated February 24, 1982, from Dan F. Alford et al to Robert A. Alford, Jr., recorded in Volume 304, Page 60 of the Deed Records of Burleson County, Texas. In the event a portion or portions of the land described in this lease are pooled or unitized with other land, lease or leases, so as to form a pooled unit or units, operations for drilling, drilling, or reworking operations on such unit or units, or production of oil or gas from such unit or units, or payment of shut-in gas royalties on a well or wells drilled on such unit or units, shall maintain this lease in effect only as to the portion or portions of the land described in this lease which is included in a pooled unit or units. As to any portion or portions of the land not included in a pooled unit or units, this lease may be maintained in force and effect in any manner elsewhere provided in this lease including, but not limited to, the payment of delay rentals during the primary term.

(B) If Lessee exercises its authority under the terms of this Lease to pool for production of gas as to any well drilled on land other than the lease premises, then at least (50%) of the acreage covered by this Lease will be included in such pooled unit.

31. The undersigned Bank acts herein in its capacity as aforesaid and not otherwise, and it shall never have any personal, individual or corporate liability or responsibility, express or implied, under by or by virtue of this instrument.

32. With reference to the performance by Lessee of its obligations hereunder, time is of the essence of this agreement.

In witness whereof, this lease is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT made this 26th day of April 19 93, between

DAN F. ALFORD and wife, RAY ANN ALFORD

Lessor (whether one or more), whose address is: 201 N. Hill St., Caldwell, Texas 77836

and CLAYTON WILLIAMS ENERGY, LLC, 500 North Loop 1604 East, San Antonio, Texas 78232, Lessee, WITNESSETH:

1. Lessor, in consideration of Ten and MORE ---------- Dollars, receipt of which is hereby acknowledged, and of the covenants and agreements of lessee hereinafter contained, does hereby grant, lease and let unto lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, sulphur and all other minerals (whether or not similar to those mentioned), together with the right to make surveys on said land, lay pipe lines, establish and utilize facilities for surface or subsurface disposal of salt water, construct roads and bridges, dig canals, build tanks, power stations, telephone lines, employee houses and other structures on said land, necessary or useful in lessee's operations in exploring, drilling for, producing, treating, storing and transporting minerals produced from the land covered hereby or any other land adjacent thereto. The land covered hereby, herein called "said land", is located in the County of Burleson, State of Texas, and is described as follows:

863.88 acres, more or less, out of the Sterling C. Robertson Survey, A-50 and the H.E. Davis Survey, A-100, Burleson County, Texas, described as two tracts in Exhibit "A", being 745.38 acres, more or less, and Exhibit "B", being 704.50 acres, more or less, together being 1449.88 acres, more or less, and more particularly described in Deed dated February 28, 1987, from H. Hoover Alford to Dan F. Alford, recorded in Volume 363, Page 427 of the Deed Records of Burleson County, Texas.
Less and Excepting: 586.00 acres, more or less, described as two tracts in Deed dated February 24, 1982, from Dan F. Alford et al to Robert A. Alford, Jr., recorded in Volume 304, Page 60 of the Deed Records of Burleson County, Texas.

This lease also covers and includes, in addition to that above described, all land, if any, contiguous or adjacent to or adjoining the land above described and (a) owned or claimed by lessor by limitation, prescription, possession, reversion or unrecorded instrument or (b) as to which lessor has a preference right of acquisition. Lessor agrees to execute any supplemental instrument requested by lessee for a more complete or accurate description of said land. For the purpose of determining the amount of any bonus or other payment hereunder, said land shall be deemed to contain 863.88 acres, whether actually containing more or less, and the above recital of acreage in any tract shall be deemed to be the true acreage thereof. Lessor accepts the bonus as lump sum consideration for this lease and all rights and options hereunder.

2. Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of ~~XXXXX~~ Three years from the date hereof, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. As royalty, lessee covenants and agrees: (a) To deliver to the credit of lessor, in the pipe line to which lessee may connect its wells, the equal one-eighth part of all oil produced and saved by lessee from said land, or from time to time, at the option of lessee, to pay lessor the average posted market price of such one-eighth part of such oil at the wells as of the day it is run to the pipe line or storage tanks, lessor's interest, in either case, to bear one-eighth of the cost of treating oil to render it marketable pipe line oil; (b) To pay lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of one-eighth of such gas and casinghead gas; (c) To pay lessor on all other minerals mined and marketed or utilized by lessee from said land, one-tenth either in kind or value at the well or mine at lessee's election, except that on sulphur mined and marketed the royalty shall be one dollar ($1.00) per long ton. If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-ins, and thereafter this lease may be continued in force as if no shut-in had occurred. Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to lessee. If, at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check or draft of lessee, as royalty, a sum equal to one dollar ($1.00) for each acre of land then covered hereby. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing, and may be deposited in the Citizen's State Bank at Box 389, Caldwell, Tx. 77836, or its successors, which shall continue as the depositories, regardless of changes in the ownership of shut-in royalty. If at any time that lessee pays or tenders shut-in royalty, two or more parties are, or claim to be, entitled to receive same, lessee may, in lieu of any other method of payment herein provided, pay or tender such shut-in royalty, in the manner above specified, either jointly to such parties or separately to each in accordance with their respective ownerships thereof, as lessee may elect. Any payment hereunder may be made by check or draft of lessee deposited in the mail or delivered to the party entitled to receive payment or to a depository bank provided for above on or before the last date for payment. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

4. Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons, so as to establish units containing not more than 80 surface acres, plus 10% acreage tolerance; provided, however, units may be established as to any one or more horizons, or existing units may be enlarged as to any one or more horizons, so as to contain not more than 640 surface acres plus 10% acreage tolerance, if limited to one or more of the following: (1) gas, other than casinghead gas, (2) liquid hydrocarbons (condensate) which are not liquids in the subsurface reservoir, (3) minerals produced from wells classified as gas wells by the conservation agency having jurisdiction. If larger units than any of those herein permitted, either at the time established, or after enlargement, are required under any governmental rule or order, for the drilling or operation of a well at a regular location, or for obtaining maximum allowable from any well to be drilled, drilling, or already drilled, any such unit may be established or enlarged to conform to the size required by such governmental order or rule. Lessee shall exercise said option as to each desired unit by executing an instrument identifying such unit and filing it for record in the public office in which this lease is recorded. Each of said options may be exercised by lessee at any time and from time to time while this lease is in force, and whether before or after production has been established either on said land, or on the portion of said land included in the unit, or on other land unitized therewith. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of lessee to release as provided in paragraph 5 hereof, except that lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. Lessee may at any time and from time to time execute and deliver to lessor or file for record a release or releases of this lease as to any part or all of said land or of any mineral or horizon thereunder, and thereby be relieved of all obligations, as to the released acreage or interest.

6. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil, gas, sulphur or other minerals, excavating a mine, production of oil, gas, sulphur or other mineral, whether or not in paying quantities.

7. Lessee shall have the use, free from royalty, of water, other than from lessor's water wells, and of oil and gas produced from said land in all operations hereunder. Lessee shall have the right at any time to remove all machinery and fixtures placed on said land, including the right to draw and remove casing. No well shall be drilled nearer than 200 feet to the house or barn now on said land without the consent of the lessor. Lessee shall pay for damages caused by its operations to growing crops and timber on said land.

8. The rights and estate of any party hereto may be assigned from time to time in whole or in part and as to any mineral or horizon. All of the covenants, obligations, and considerations of this lease shall extend to and be binding upon the parties hereto, their heirs, successors, assigns, and successive assigns. No change or division in the ownership of said land, royalties, or other moneys, or any part thereof, howsoever effected, shall increase the obligations or diminish the rights of lessee, including, but not limited to, the location and drilling of wells and the measurement of production. Notwithstanding any other actual or constructive knowledge or notice thereof of or to lessee, its successors or assigns, no change or division in the ownership of said land or of the royalties, or other moneys, or the right to receive the same, howsoever effected, shall be binding upon the then record owner of this lease until thirty (30) days after there has been furnished to such record owner at his or its principal place of business by lessor or lessor's heirs, successors, or assigns, notice of such change or division, supported by either originals or duly certified copies of the instruments which have been properly filed for record and which evidence such change or division, and of such court records and proceedings, transcripts, or other documents as shall be necessary in the opinion of such record owner to establish the validity of such change or division. If any such change in ownership occurs by reason of the death of the owner, lessee may, nevertheless pay or tender such royalties, or other moneys, or part thereof, to the credit of the decedent in a depository bank provided for above.

9. In the event lessor considers that lessee has not complied with all its obligations hereunder, both express and implied, lessor shall notify lessee in writing, setting out specifically in what respects lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by lessor. The service of said notice shall be precedent to the bringing of any action by lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on lessee. Neither the service of said notice nor the doing of any acts by lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that lessee has failed to perform all its obligations hereunder. If this lease is cancelled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations. Lessee shall also have such easements on said land as are necessary to operations on the acreage so retained.

10. Lessor hereby warrants and agrees to defend title to said land against the claims of all persons whomsoever. Lessor's rights and interests hereunder shall be charged primarily with any mortgages, taxes or other liens, or interest and other charges on said land, but lessor agrees that lessee shall have the right at any time to pay or reduce same for lessor, either before or after maturity, and be subrogated to the rights of the holder thereof and to deduct amounts so paid from royalties or other payments payable or which may become payable to lessor and/or assigns under this lease. If this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether lessor's interest is herein specified or not), or no interest therein, then the royalties and other moneys accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by lessor) shall be paid out of the royalty herein provided. This lease shall be binding upon each party who executes it without regard to whether it is executed by all those named herein as lessor.

11. If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of lessee, the primary term hereof shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

IN WITNESS WHEREOF, this instrument is executed on the date first above written. See attached ADDENDUM "A" for continuation of lease.

ADDENDUM "A"

Attached to and made a part of that certain Oil, Gas and Mineral Lease dated April 26, 1993, by and between Dan F. Alford et ux, as Lessor, and Clayton Williams Energy, LLC, as Lessee.

12. Notwithstanding anything herein above to the contrary, it is specifically understood and agreed that this lease covers only oil, gas, sulphur, and associated liquid or liquefiable hydrocarbons, but this lease does not cover or include any other minerals, with all other such minerals, including coal, being reserved to the Lessor herein.

13. Lessee agrees to pay Lessor or tenants of Lessor for all damages or injury to cattle or other livestock, pasturage, crops, fences, terraces, water wells, the surface otherwise in whatever way damaged and all other property of Lessor or tenants of Lessor situated on the lease premises resulting from Lessee's operations under the terms of this lease; and, Lessee further agrees that within a reasonable time after completion or abandonment of any well drilled on the leased premises, Lessee shall fill and level all excavations not required for production, fencing those that must remain open, and restore the surface of the ground to as near its original condition as is practicable.

14. Lessee cannot pool the lands described herein without the written consent of Lessor, which consent cannot be unreasonably withheld. Provided, however, Lessee may freely pool this lease with the following described tract of land without Lessor's prior written consent: 586.00 acres, more or less, out of the Sterling C. Robertson Survey, A-50, Burleson County, Texas, described as two tracts in Deed dated February 24, 1982, from Dan F. Alford et al to Robert A. Alford, Jr., recorded in Volume 304, Page 60 of the Deed Records of Burleson County, Texas. In the event a portion or portions of the land described in this lease are pooled or unitized with other land, lease or leases, so as to form a pooled unit or units, operations for drilling, drilling, or reworking operations on such unit or units, or production of oil or gas from such unit or units, or payment of shut-in gas royalties on a well or wells drilled on such unit or units, shall maintain this lease in effect only as to the portion or portions of the land described in this lease which is included in a pooled unit or units. As to any portion or portions of the land not included in a pooled unit or units, this lease may be maintained in force and effect in any manner elsewhere provided in this lease including, but not limited to, the payment of delay rentals during the primary term.

15. Notwithstanding anything herein above to the contrary, it is expressly agreed and understood that Lessee's right to maintain this lease in force after the primary term by shut-in gas well payments under Paragraph 3 shall not continue for any one shut-in period of more than two (2) years immediately following the primary term, or in recurring periods after the primary term not to exceed two (2) years in the aggregate.

16. Lessee is hereby given the option to extend the primary term of this lease for an additional two (2) years from the expiration of the original primary term. This option may be exercised by Lessee at any time during the last year of the original primary term by paying the sum of $50.00 per net mineral acre to Lessor or to Lessor's credit in any depository named in this lease. This payment shall be based upon the number of net mineral acres then covered by this lease, and all the provisions of this lease relating to the payment of shut-in royalties shall apply equally to this payment including, but not limited to, the provisions regarding changes in ownership. Should this option be exercised as herein provided, it shall be considered for all purposes as though this lease originally provided for a term of five (5) years. In the event this lease is being maintained by any provision hereof at the expiration of the original primary term, Lessee shall have thirty (30) days from the date this lease ceases to be so maintained within which to exercise this option.

17. Any reference made herein to a one-eighth (1/8) royalty is hereby amended to read (3/16) royalty.

18. Anything contained hereinabove to the contrary notwithstanding, Lessor in no way grants Lessee the right to use any surface water found in streams, ponds, tanks, lakes or reservoirs on the lease premises. Any water Lessee uses from lease premises shall come from a water well or wells, drilled on lease premises by Lessee at his sole expense.

THIS AGREEMENT made this 26th day of April 19 93, between

DAN F. ALFORD and wife, RAY ANN ALFORD

Lessor (whether one or more), whose address is: 201 N. Hill St., Caldwell, Texas 77836
and CLAYTON WILLIAMS ENERGY, LLC, 500 North Loop 1604 East, San Antonio, Texas 78232, Lessee, WITNESSETH:

1. Lessor, in consideration of Ten and More ---------- Dollars, receipt of which is hereby acknowledged, and of the covenants and agreements of lessee hereinafter contained, does hereby grant, lease and let unto lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, sulphur and all other minerals (whether or not similar to those mentioned), together with the right to make surveys on said land, lay pipe lines, establish and utilize facilities for surface or subsurface disposal of salt water, construct roads and bridges, dig canals, build tanks, power stations, telephone lines, employee houses and other structures on said land, necessary or useful in lessee's operations in exploring, drilling for, producing, treating, storing and transporting minerals produced from the land covered hereby or any other land adjacent thereto. The land covered hereby, herein called "said land", is located in the County of Burleson, State of Texas, and is described as follows:

586.00 acres, more or less, out of the Sterling C. Robertson Survey, A-50, Burleson County, Texas, described in two tracts in Deed dated February 24, 1982, from Dan F. Alford et al to Robert A. Alford, Jr., recorded in Volume 304, Page 60 of the Deed Records of Burleson County, Texas.

This lease also covers and includes, in addition to that above described, all land, if any, contiguous or adjacent to or adjoining the land above described and (a) owned or claimed by lessor by limitation, prescription, possession, reversion or unrecorded instrument or (b) as to which lessor has a preference right of acquisition. Lessor agrees to execute any supplemental instrument requested by lessee for a more complete or accurate description of said land. For the purpose of determining the amount of any bonus or other payment hereunder, said land shall be deemed to contain 586.00 acres, whether actually containing more or less, and the above recital of acreage in any tract shall be deemed to be the true acreage thereof. Lessor accepts the bonus as lump sum consideration for this lease and all rights and options hereunder.

2. Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of ~~ten~~ years from the date hereof, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. As royalty, lessee covenants and agrees: (a) To deliver to the credit of lessor, in the pipe line to which lessee may connect its wells, the equal one-eighth part of all oil produced and saved by lessee from said land, or from time to time, at the option of lessee, to pay lessor the average posted market price of such one-eighth part of such oil at the wells as of the day it is run to the pipe line or storage tanks, lessor's interest, in either case, to bear one-eighth of the cost of treating oil to render it marketable pipe line oil; (b) To pay lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of one-eighth of such gas and casinghead gas; (c) To pay lessor on all other minerals mined and marketed or utilized by lessee from said land, one-tenth either in kind or value at the well or mine at lessee's election, except that on sulphur mined and marketed the royalty shall be one dollar ($1.00) per long ton. If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-ins, and thereafter this lease may be continued in force as if no shut-in had occurred. Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells; but in the exercise of such diligence, lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to lessee. If, at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check or draft of lessee, as royalty, a sum equal to one dollar ($1.00) for each acre of land then covered hereby. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing, and may be deposited in the Citizen's State Bank at Box 389, Caldwell, Tx. 77836, or its successors, which shall continue as the depositories, regardless of changes in the ownership of shut-in royalty. If at any time that lessee pays or tenders shut-in royalty, two or more parties are, or claim to be, entitled to receive same, lessee may, in lieu of any other method of payment herein provided, pay or tender such shut-in royalty, in the manner above specified, either jointly to such parties or separately to each in accordance with their respective ownerships thereof, as lessee may elect. Any payment hereunder may be made by check or draft of lessee deposited in the mail or delivered to the party entitled to receive payment or to a depository bank provided for above on or before the last date for payment. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

4. Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons, so as to establish units containing not more than 80 surface acres, plus 10% acreage tolerance; provided, however, units may be established as to any one or more horizons, or existing units may be enlarged as to any one or more horizons, so as to contain not more than 640 surface acres plus 10% acreage tolerance, if limited to one or more of the following: (1) gas, other than casinghead gas, (2) liquid hydrocarbons (condensate) which are not liquids in the subsurface reservoir, (3) minerals produced from wells classified as gas wells by the conservation agency having jurisdiction. If larger units than any of those herein permitted, either at the time established, or after enlargement, are required under any governmental rule or order, for the drilling or operation of a well at a regular location, or for obtaining maximum allowable from any well to be drilled, drilling, or already drilled, any such unit may be established or enlarged to conform to the size required by such governmental order or rule. Lessee shall exercise said option as to each desired unit by executing an instrument identifying such unit and filing it for record in the public office in which this lease is recorded. Each of said options may be exercised by lessee at any time and from time to time while this lease is in force, and whether before or after production has been established either on said land, or on the portion of said land included in the unit, or on other land unitized therewith. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in each such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of lessee to release as provided in paragraph 5 hereof, except that lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. Lessee may at any time and from time to time execute and deliver to lessor or file for record a release or releases of this lease as to any part or all of said land or of any mineral or horizon thereunder, and thereby be relieved of all obligations, as to the released acreage or interest.

6. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil, gas, sulphur or other minerals, excavating a mine, production of oil, gas, sulphur or other mineral, whether or not in paying quantities.

7. Lessee shall have the use, free from royalty, of water, other than from lessor's water wells, and of oil and gas produced from said land in all operations hereunder. Lessee shall have the right at any time to remove all machinery and fixtures placed on said land, including the right to draw and remove casing. No well shall be drilled nearer than 200 feet to the house or barn now on said land without the consent of the lessor. Lessee shall pay for damages caused by its operations to growing crops and timber on said land.

8. The rights and estate of any party hereto may be assigned from time to time in whole or in part and as to any mineral or horizon. All of the covenants, obligations, and considerations of this lease shall extend to and be binding upon the parties hereto, their heirs, successors, assigns, and successive assigns. No change or division in the ownership of said land, royalties, or other moneys, or any part thereof, howsoever effected, shall increase the obligations or diminish the rights of lessee, including, but not limited to, the location and drilling of wells and the measurement of production. Notwithstanding any other actual or constructive knowledge or notice thereof of or to lessee, its successors or assigns, no change or division in the ownership of said land or of the royalties, or other moneys, or the right to receive the same, howsoever effected, shall be binding upon the then record owner of this lease until thirty (30) days after there has been furnished to such record owner at his or its principal place of business by lessor or lessor's heirs, successors, or assigns, notice of such change or division, supported by either originals or duly certified copies of the instruments which have been properly filed for record and which evidence such change or division, and of such court records and proceedings, transcripts, or other documents as shall be necessary in the opinion of such record owner to establish the validity of such change or division. If any such change in ownership occurs by reason of the death of the owner, lessee may, nevertheless pay or tender such royalties, or other moneys, or part thereof, to the credit of the decedent in a depository bank provided for above.

9. In the event lessor considers that lessee has not complied with all its obligations hereunder, both express and implied, lessor shall notify lessee in writing, setting out specifically in what respects lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by lessor. The service of said notice shall be precedent to the bringing of any action by lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on lessee. Neither the service of said notice nor the doing of any acts by lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that lessee has failed to perform all its obligations hereunder. If this lease is cancelled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations. Lessee shall also have such easements on said land as are necessary to operations on the acreage so retained.

10. Lessor hereby warrants and agrees to defend title to said land against the claims of all persons whomsoever. Lessor's rights and interests hereunder shall be charged primarily with any mortgages, taxes or other liens, or interest and other charges on said land, but lessor agrees that lessee shall have the right at any time to pay or reduce same for lessor, either before or after maturity, and be subrogated to the rights of the holder thereof and to deduct amounts so paid from royalties or other payments payable or which may become payable to lessor and/or assigns under this lease. If this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether lessor's interest is herein specified or not), or no interest therein, then the royalties and other moneys accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by lessor) shall be paid out of the royalty herein provided. This lease shall be binding upon each party who executes it without regard to whether it is executed by all those named herein as lessor.

11. If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of lessee, the primary term hereof shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

IN WITNESS WHEREOF, this instrument is executed on the date first above written. See ADDENDUM "A" attached hereto for continuation of

ADDENDUM "A"

Attached to and made a part of that certain Oil, Gas and Mineral Lease dated April 26, 1993, by and between Dan F. Alford et ux, as Lessor, and Clayton Williams Energy, LLC, as Lessee.

12. Notwithstanding anything herein above to the contrary, it is specifically understood and agreed that this lease covers only oil, gas, sulphur, and associated liquid or liquefiable hydrocarbons, but this lease does not cover or include any other minerals, with all other such minerals, including coal, being reserved to the Lessor herein.

13. Lessee agrees to pay Lessor or tenants of Lessor for all damages or injury to cattle or other livestock, pasturage, crops, fences, terraces, water wells, the surface otherwise in whatever way damaged and all other property of Lessor or tenants of Lessor situated on the lease premises resulting from Lessee's operations under the terms of this lease; and, Lessee further agrees that within a reasonable time after completion or abandonment of any well drilled on the leased premises, Lessee shall fill and level all excavations not required for production, fencing those that must remain open, and restore the surface of the ground to as near its original condition as is practicable.

14. Lessee cannot pool the lands described herein without the written consent of Lessor, which consent cannot be unreasonably withheld. Provided, however, Lessee may freely pool this lease with the following described tract of land without Lessor's prior written consent: 863.88 acres, more or less, out of the Sterling C. Robertson Survey, A-50 and the H.E. Davis Survey, A-100, Burleson County, Texas, described as two tracts in Exhibit "A", being 745.38 acres, more or less, and Exhibit "B", being 704.50 acres, more or less, together being 1449.88 acres, more or less, and more particularly described in Deed dated February 28, 1987, from H. Hoover Alford to Dan F. Alford, recorded in Volume 363, Page 427 of the Deed Records of Burleson County, Texas. Less and Except: 586.00 acres, more or less, described as two tracts in Deed dated February 24, 1982, from Dan F. Alford et al to Robert A. Alford, Jr., recorded in Volume 304, Page 60 of the Deed Records of Burleson County, Texas. In the event a portion or portions of the land described in this lease are pooled or unitized with other land, lease or leases, so as to form a pooled unit or units, operations for drilling, drilling, or reworking operations on such unit or units, or production of oil or gas from such unit or units, or payment of shut-in gas royalties on a well or wells drilled on such unit or units, shall maintain this lease in effect only as to the portion or portions of the land described in this lease which is included in a pooled unit or units. As to any portion or portions of the land not included in a pooled unit or units, this lease may be maintained in force and effect in any manner elsewhere provided in this lease including, but not limited to, the payment of delay rentals during the primary term.

15. Notwithstanding anything herein above to the contrary, it is expressly agreed and understood that Lessee's right to maintain this lease in force after the primary term by shut-in gas well payments under Paragraph 3 shall not continue for any one shut-in period of more than two (2) years immediately following the primary term, or in recurring periods after the primary term not to exceed two (2) years in the aggregate.

16. Lessee is hereby given the option to extend the primary term of this lease for an additional two (2) years from the expiration of the original primary term. This option may be exercised by Lessee at any time during the last year of the original primary term by paying the sum of $50.00 per net mineral acre to Lessor or to Lessor's credit in any depository named in this lease. This payment shall be based upon the number of net mineral acres then covered by this lease, and all the provisions of this lease relating to the payment of shut-in royalties shall apply equally to this payment including, but not limited to, the provisions regarding changes in ownership. Should this option be exercised as herein provided, it shall be considered for all purposes as though this lease originally provided for a term of five (5) years. In the event this lease is being maintained by any provision hereof at the expiration of the original primary term, Lessee shall have thirty

(30) days from the date this lease ceases to be so maintained within which to exercise this option.

17. Any reference made herein to a one-eighth (1/8) royalty is hereby amended to read (3/16) royalty.

18. Anything contained hereinabove to the contrary notwithstanding, Lessor in no way grants Lessee the right to use any surface water found in streams, ponds, tanks, lakes or reservoirs on the lease premises. Any water Lessee uses from lease premises shall come from a water well or wells, drilled on lease premises by Lessee at his sole expense.

Victoria Bank & Trust Co.
Oil, Gas and Mineral Lease

This AGREEMENT, made and entered into this 26th day of April, 19 93 BY AND BETWEEN Victoria Bank & Trust Company, Bryan/College Station Office, (formerly known as First City, Texas-Bryan/ College Station, N.A.), as Trustee of the Herbert Hover Alford Residuary Trust

whose Post Office address is: One O'Connor Plaza, 6th Floor, Victoria, Texas 77902

hereinafter called LESSOR(S), and Clayton Williams Energy, LLC

whose Post Office address is: 500 North Loop 1604 East, San Antonio, Texas 78232

hereinafter called LESSEE(S).

WITNESSETH:

1. That Lessor, in consideration of the cash bonus in hand paid, of the royalties herein provided, and of the agreements of Lessee herein contained, hereby grants, leases, and lets exclusively unto Lessee for the sole and only purpose of exploring, drilling and operating for and producing oil and gas and of laying pipelines, storing oil and building tanks, telephone lines, roads and structures thereon to produce, save, care for, treat and transport said substances produced from the land leased hereunder only, the following described land situated in Burleson County, State of Texas, to wit:

586.00 acres, more or less, out of the Sterling C. Robertson Survey, A-50, Burleson County Texas, described in two tracts in Deed dated February 24, 1982, from Dan F. Alford et al to Robert A. Alford, Jr., Recorded in Volume 304, Page 60 of the Deed Records of Burleson County, Texas.

and containing 586.00 acres, more or less.

2. Subject to the other provisions hereof, this lease shall be for a term of 3 years from this date (called "Primary Term") and as long thereafter as oil and gas, or either of them is produced in paying quantities from said land or lands with which said land is pooled hereunder and the royalties are paid as provided.

3. Lessee shall pay the following royalties, subject to the following provisions:

(a) Lessee shall either pay the Lessor 3/16 of the market value at the well of all oil and other liquid hydrocarbons recovered or separated on the leased premises, produced and saved from the leased premises; or after 60 days written notice from Lessor, which notice may be given from time to time, deliver free of cost to lessor at the wells or to the credit of Lessor into the pipeline to which the well may be connected such percentage of all oil and other liquid hydrocarbons produced and saved from the leased premises.

(b) Lessee shall pay the Lessor 3/16 of the market value at the well for all gas (including all substances contained in such gas) produced from the leased premises and sold by Lessee or used off the leased premises, including sulphur produced in conjunction therewith; provided, however, that the royalty portion of such gas shall be free and clear of all of the costs and expenses of dehydrating, transporting, compressing, treating, gathering or otherwise rendering marketable or marketing such gas, and no deduction shall be made for any of such costs and expenses in computing any payment to be made to Lessor pursuant to this clause (b).

(c) Lessee shall pay Lessor royalty on all gas produced from a well on the leased premises or on lands pooled with the leased premises and sold or used off the leased premises regardless of whether or not such gas is produced to the credit of Lessee or sold under a contract executed by or binding on Lessee. Should gas be sold under a sales contract not binding on Lessor, Lessor's royalty will be calculated based on the highest price paid for any of the gas produced from the well from which such gas is produced. In no event will the price paid Lessor for Lessor's share of gas be less than the price paid Lessee for Lessee's share of gas.

(d) While there is a well on leased premises capable of producing gas in paying quantities but the production thereof is shut-in or suspended for any reason Lessee may pay as royalty on or before 90 days after the date on which (i) production from any such well is shut-in or suspended or (ii) this lease is no longer maintained by compliance with other provisions hereof, whichever is the later date, and thereafter at annual intervals, a sum in the amount of $ 20.00 per acre, or a minimum of Fifty Dollars ($50.00), whichever is greater, for each and every shut-in gas well; and if such payment is made or tendered in accordance with the terms hereof, this lease shall not terminate but shall continue in full force, subject to the provisions of paragraph 15, and it will be considered that gas is being produced from the leased premises in paying quantities within the meaning of each pertinent provision of these lease, it being understood and agreed that such payment shall be in lieu of and excuse payment or tender of the annual delay rentals which will have otherwise accrued and become payable under the terms and provisions hereof and in no event shall shut-in well payments maintain this lease in force for a cumulative period exceeding 3 year(s). Lessee shall not be entitled to recover any shut-in royalty payments from the future sale of gas. Should the shut-in period extend beyond the expiration of the primary term, such shut-in provision will pertain only to the producing unit of such gas well as provided for in paragraph 15. Should such shut-in royalty payments not be made in a timely manner as provided in this paragraph, it will be considered for all purposes that there is no production or no excuse for delayed production of gas from any such well or wells and unless there is then in effect other preservation provisions of this lease, this lease shall terminate at midnight on the last day provided for the payment of such shut-in royalties, and Lessee shall thereupon furnish to Lessor a release of all its interest in and to this oil and gas lease insofar as that portion of the premises included in the producing unit assigned to such shut-in well.

(e) Lessee agrees that before any gas produced from the leased premises is used or sold off the leased premises, it will be run, free of cost to Lessor, through an adequate oil and gas separator of a conventional type or equipment at least as efficient, to the end that all liquid hydrocarbons recoverable from the gas by such means will be recovered on the lease.

(f) Lessee agrees that it will not enter into any contract of sale of production from this lease which shall extend more than 5 years from the effective date of such sales contract unless such contract has adequate provisions for redetermination of price at intervals of not less frequently than 1 years to assure that production from this lease is not being sold for less than the then current fair market value. Lessee, its successors or assigns, shall advise Lessor of the price and other pertinent terms under which gas from the premises shall be sold and Lessor shall, within 30 days of receiving such notice notify Lessee as to whether Lessee may sell Lessor's royalty share of gas under Lessee's sales contract or whether Lessor shall take and separately dispose of its royalty share of gas. In the event Lessor elects to take and separately dispose of its royalty share of gas, an appropriate gas balancing agreement shall be entered into between the parties.

(g) Within 120 days following the first sale of oil or gas produced from the leased premises, settlement shall be made by Lessee or by its agent for royalties due hereunder with respect to such oil or gas sold off the premises, and such royalties shall be paid monthly thereafter without the necessity of Lessor executing a division or transfer order. If said initial royalty payment is not so made under the terms hereof, the unpaid balance shall bear interest at the maximum lawful rate. After said initial royalty payment, with respect to oil or gas produced during any month, if royalty is not paid hereunder on or before the last day of the second succeeding month, this lease shall terminate at midnight of such last day. It is agreed, however, that Lessor shall notify Lessee, by certified mail of such delinquency, and Lessee shall then have 30 days from delivery of said notification, and prior to said termination dates, to remedy said delinquency.

4. If actual drilling is not commenced on said land, or on land pooled therewith, on or before twelve (12) months from the date of this lease, this lease shall then terminate, unless on or before such anniversary date Lessee shall pay or tender to Lessor or to the credit of Lessor in N/A

_____ Bank of _____, which bank and its successors shall continue as the depository for all rentals payable hereunder, regardless of changes in ownership of delay rentals, the sum of 3 year paid up lease DOLLARS ($ -0-) (hereinafter called "rental"), which shall cover the privilege of deferring commencement of actual drilling for a period of twelve (12) months. In like manner, and upon like payments or tenders, actual drilling may be further deferred for like periods of twelve (12) months each during the primary term. The payment or tender of rentals or shut-in royalties may be made by check or draft of Lessee mailed or delivered to Lessor or to said bank on or before the date of payment. The bonus paid hereunder is considered for this lease and shall not be allocated as mere rental for a period. Lessee may at any time execute and deliver to Lessor or to the depository named above, a release or releases covering any portion or portions of said land and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered, and thereafter the rental and shut-in royalty payable hereunder shall be reduced in the proportion that the acreage coverage hereby is reduced by said release or releases. Lessee agrees that if at any time the aforesaid delay rental is not paid on or before the date on which same is required to be paid under the terms of this lease, or if this lease terminated for any other reason, then in said event, Lessee shall promptly prepare and execute a recordable release instrument covering the land leased hereunder and shall forward same to Lessor.

5. Lessee is hereby granted the right to pool or combine the land covered by this lease, or any part or parts thereof, as to all strata or any stratum, with any other land, as to all strata or any stratum, for the production of gas. Pooling in one or more instances shall not exhaust the right of Lessee hereunder to pool this lease or portion thereof into other or different units. Units pooled for gas hereunder shall not exceed six hundred forty (640) acres each, provided that is any federal or state law, executive order, rule or regulation shall prescribe a spacing pattern for the development of the field or allocate a producing allowable based in whole or in part on acreage per well, then any such unit may consist of that minimum number of additional acres which will permit the allocation to such unit and the well thereon of the maximum producing allowable. To effect a unit or units Lessee shall file a written unit designation and surveyor's plat outlining any such unit and describing the participating tracts in the county conveyance records in which the premises are located. A copy of the unit designation shall be furnished to Lessor within thirty (30) days after it is filed in the appropriate county records, and if Lessee fails to do so, such unit may be declared invalid by Lessor by an instrument filed in such county records. Drilling or reworking operations and production on any part of the pooled acreage shall be treated for all purposes hereof (except the payment of royalties on such production) as if such drilling or reworking operations were upon or such production was from the land described in this lease whether the well or wells be located on the land covered by this lease or not. For the purpose of computing the royalties and other payments out of production to which the owners of such interests shall be entitled on production of oil and gas, or either of them, from any such pooled unit, there shall be allocated to the land covered by this lease and included in such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) a pro rata portion of the oil and gas, or either of them, produced from the pooled unit after deducting that used for operations on the pooled unit. Such allocation shall be on a acreage basis; thus, there shall be allocated to the acreage covered by this lease and included in the pooled unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that pro rata portion of the oil and gas, or either of them, produced from the pooled unit which the number of surface acres covered by this lease (or in each such separate tract) and included in the unit bears to the total number of surface acres included in the pooled unit. Royalties hereunder shall be computed on the portion of such production whether it be oil and gas, or either of them so allocated to the land covered by this lease and included in the unit just as though such production were from such land. In the event only a part or parts of the land covered by this lease instrument is pooled or unitized with other land, or lands, so as to form a pooled unit, or units, operations on or production from such unit, or units, will maintain this lease in force only as to the land included in such unit, or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rental payments shall be reduced in proportion to the number of acres covered hereby and included in such unit or units.

6. If prior to discovery of oil or gas on said land or land pooled therewith, Lessee should drill and abandon a dry hole or holes thereon, or if, after discover of oil or gas, the production thereof should cease from any cause, this lease shall not terminate if Lessee commences reworking or actual drilling within sixty (60) days thereafter, or, if it be within the primary term, commences or resumes the payment or tender of rentals or commences actual drilling or reworking on or before the rental paying date next ensuing after the expiration of sixty (60) days from date of completion and abandonment of said dry hold or holes or the cessation of production. If, at the expiration of the primary term, oil or gas is not being produced on said land or land pooled therewith and Lessee is then engaged in actual drilling or reworking of any well thereon, this lease shall remain in force so long as drilling or reworking is prosecuted with no cessation of more than sixty (60) consecutive days, and if such operation results in production, so long thereafter as oil or gas is produced in paying quantities from said land or land pooled therewith. In the event a well or wells producing oil or gas should be brought in on adjacent land within four hundred sixty-seven (467) of the leased premises for an oil well or within four hundred sixty-seven (467) of the leased premises for a gas well, Lessee agrees to commence the drilling of an offset well as would a reasonable and prudent operator within 120 days or release that portion of the leased acreage that would be allocated to such well unit. If oil or gas is discovered on the land covered by this lease, or on land pooled therewith Lessee agrees to further develop said land covered by this lease as a reasonably prudent operator would under the same or similar circumstances.

7. Lessee shall have free use of oil, gas and water from said land, except water from Lessor's wells, tanks, creeks, rivers, streams and springs, for all operations hereunder, provided that no surface water or underground fresh water will be used for water flood or pressure maintenance purposes. Lessee shall have the right at any time within 180 days after the expiration of this lease to remove all property and fixtures placed by Lessee on said land, including the right to draw and remove all casing except as to water wells in which Lessee shall have the right to remove all property and fixtures except casing and shall do nothing that will in any way damage said water well or prevent its future use by Lessor. Lessee will, at Lessor's request, remove the casing from and plug and abandon such water well at Lessee's sole expense. When required by Lessor, Lessee will bury all pipelines below ordinary plow depth, and no well shall be drilled within four hundred (400) feet of any residence or barn now on said land without Lessor's consent. Lessor shall have the privilege, at its risk and expense, of using gas from any gas well on said land for stoves and inside lights in the principal dwelling thereon, out of any surplus gas not needed for operations hereunder.

8. In the event Lessor owns all or any part of the surface estate, Lessee will so conduct its operations hereunder as not to interfere unreasonable with Lessor or its assigns in the use of the surface of the lands covered by this lease provided, that any use of the surface will require written consent of Lessor in advance. Lessor agrees that such consent will not be unreasonably withheld. Prior to any use of the surface, Lessee will present to Lessor a plat of the property showing the area proposed to be used and the type of use to be made. Within 30 days of the receipt of such notice, Lessor will either deliver written consent or propose a reasonable alternative area for such use. Lessee will provide at Lessee's expense all protective measures to prevent any loss or damage to the property of Lessor on account of any operations by Lessee. Lessee will pay for all damages to the surface of or crops or improvements on the leased lands or suffered by any tenant of Lessor and caused by or arising out of operations under this lease. Pits and excavations made during drilling operations or otherwise will be filled by Lessee and the surface restored, as nearly as reasonably possible, to its original condition; and if Lessee shall fail to do so, the cost to Lessor of such filing and restoration shall be paid by Lessee.

9. No assignment of this lease, or interest therein, may be made without written approval of the lessor except within Clayton Williams entities, and consent shall not be unreasonably withheld. Subject to the preceding condition, the provisions hereof shall extend to the heirs, executors, administrators, successors and assigns of Lessor and Lessee, but no change or division in ownership of the land, rentals, or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee. No such change or division in the ownership of the land, rental or royalties shall be binding upon Lessee for any purpose until Lessee shall have been furnished with the instrument or instruments, or certified copies thereof, evidencing such change or division. In the event of a permitted assignment of this lease as to a segregated portion of said land, the rentals payable hereunder shall be apportioned as between the several leasehold owners ratably according to the surface area owned by each, and default in rental payment by one shall not affect the rights of other leasehold owners hereunder, and liability for breach of any obligation hereunder shall rest exclusively upon the owner of this lease or a portion thereof who commits such breach.

10. Lessee shall not be liable for delays or defaults in its performance of any agreement or covenant hereunder due to force majeure, except any and all monetary payments due under the terms of this lease. The term "force majeure" as employed herein shall mean: any act of God including but not limited to storms, floods, washouts, landslides, and lightning. If Lessee is required, ordered or directed by any federal, state or municipal law, executive order, rule or regulation enacted or promulgated under color of authority to cease drilling operations, reworking operations or producing operations on the land covered by this lease or if Lessee by operation of force majeure is prevented from conducting drilling operations, reworking operations or producing operations, then until such time as such law, order, rule, regulation, request or force majeure is terminated and for a period of sixty (60) days after such termination each and every provision of this lease or implied covenant arising thereunder that might operate to terminate it or the estate conveyed by it shall be suspended and inoperative and this lease shall continue in full force, provided, however, that in no event will the primary term be extended unless Lessee has begun the actual drilling of a well prior to the date of the expiration of the primary term.

11. If Lessor owns an interest in said land less than the entire and undivided fee simple estate therein, then the royalties and rental herein provided shall be paid the Lessor in the proportion which Lessor's interest bears to the entire and undivided fee simple estate therein.

12. Lessee, at its option, 30 days after giving written notice to Lessor, may discharge any tax lien upon the interest herein leased; and, in the event Lessee does so, Lessee shall have the right to apply rentals and royalties accruing hereunder to reimburse such payment.

13. In the event this lease expires for any reason as to all or any portion of the land described in this lease, Lessee shall furnish Lessor promptly with a written, recordable release instrument covering all of the land as to which this lease has so expired.

14. Lessee shall advise Lessor in writing as to the location of each well drilled upon the premises, or on land pooled therewith, on or before seven (7) days after commencement of operations, and shall advise Lessor in writing as to the date of completion or abandonment of each well drilled within thirty (30) days after such completion or abandonment. Lessee agrees to furnish Lessor with all well drilling completion and production data, reports, logs, and information when specifically requested by the Lessor.

15. If this lease is continued in force and effect beyond the primary term (or any extension of the primary term) hereof, it is agreed that this lease shall remain in force as to all of the land covered hereby so long and only so long as Lessee is engaged in continuous drilling operations, as such drilling operations are hereinafter provided, and, upon Lessee's failure to conduct continuous drilling operations as provided herein, this lease shall terminate, except as to acreage as hereinafter set forth. Lessee shall be conclusively deemed to be conducting continuous drilling operations hereunder if Lessee commences the drilling of a well within ninety (90) days after the end of the primary term on the land covered hereby or land pooled therewith, provided, however, in the event that Lessee is engaged in drilling operations on a well on the land covered hereby or land pooled therewith at the end of said primary term, Lessee may commence the continuous drilling program hereby contemplated within ninety (90) days after the completion of abandonment of the well being drilled at the end of said primary term, and in a like manner, commences the drilling of successive wells on the land covered hereby or land pooled therewith, within ninety (90) days of the completion or abandonment of the preceding well. If at any time Lessee fails to commence the drilling of any well within the time intervals as above set forth, or any other termination or forfeiture condition or provision becomes effective under this lease, then this lease shall terminate as to all of the land covered hereby, save and except the amount of acreage around such well as is then prescribed or permitted by the rules of the Railroad Commission of the State of Texas or other lawful authority for obtaining a maximum allowable for such well, each such oil or gas well and the acreage assigned hereto being hereinafter referred to as the "well tract". Within ninety (90) days after the cessation of continuous development operations, each such well tract shall be selected and designated by Lessee in writing in which the well tract or well tracts shall be described by metes and bounds or other adequate description. If a portion of Lessee's rights terminate as provided in this Paragraph 15, then Lessee shall designate in writing the acreage it is allowed to retain around each oil will and each gas well and such written designation shall be filed for record in the county in which such acreage is located. Lessee shall be entitled to designate the number of acres above specified in a form of his choosing so long as the unit is as near a rectangular shape as possible. The provisions of this paragraph 15 shall not have the effect of relieving Lessee of its obligations to develop the lease with reasonable diligence after oil or gas is first discovered in paying quantities.

16. If Lessor files a legal action to enforce any express or implied obligation of this lease and receives a favorable judgement from a court of competent jurisdiction, then Lessee shall reimburse Lessor for all costs of such legal proceeding including reasonable attorney's fees.

17. Lessee shall conduct his operations in compliance of all applicable rules and regulations of any regulatory body having jurisdiction on such operations.

18. Parties in interest. Lessee represents that he is not an officer, director, or employee of Victoria Bankshares, Inc. or Victoria Bank & Trust Co. or any of its affiliates and or subsidiaries, nor is Lessee acting on behalf of any such officer, director, or employee.

EXHIBIT "A" TO OIL AND GAS LEASE

DATED: April 26, 1993

Anything included in the Addendum shall supersede language written in the attached printed forms.

Attached to and made a part of that certain Oil, Gas and Mineral Lease dated April 26, 1993, by and between VICTORIA BANK & TRUST COMPANY, BRYAN/COLLEGE STATION OFFICE, (formerly known as FIRST CITY, TEXAS-BRYAN/COLLEGE STATION, N.A.), as Trustee of the HERBERT HOOVER ALFORD RESIDUARY TRUST, as Lessor, and CLAYTON WILLIAMS ENERGY, LLC, as Lessee.

19. If production is obtained from the leased premises during the primary term, the minimum royalty payable hereunder after the primary term shall be TEN AND NO/100 DOLLARS ($10.00) per acre per annum for each acre covered by this lease on January 1st of each year in question reduced proportionately to the leased premises actually in a producing unit. The only credits applicable to this annual minimum royalty are royalties actually paid during the year in question. Lessee shall pay to Lessor the actual royalties provided for herein as they accrue. Within thirty (30) days after the end of each year, upon written request from Lessor, Lessee shall furnish Lessor with a detailed statement of the actual production and royalties paid for the year in question and any applicable credit. If such statement shows that the minimum royalty provided for herein has not been paid Lessee shall remit the difference to the Lessor with the statement. Should Lessee fail to furnish such statement or fail to pay the minimum payment required within thirty (30) days after written notice by Lessor that it has not been received, then Lessee shall have an additional thirty (30) days to cure such default, failing which,* ~~this lease shall terminate~~. Each year shall stand on its own, and Lessee shall not apply any excess paid during any year to a deficiency existing in any other year. The annual periods provided for herein shall begin on January 1st of the year immediately following the year in which production is first obtained from the leased premises. WRW

Provison for minimum royalties provided herein shall in no way alter, limit, lessen, restrict, change or impair the obligation which the Lessee herein assumes to develop said property reasonably and with due diligence for oil and gas and shall not relieve Lessee of the obligation to maintain this lease by production, operations or as otherwise provided herein.

20. All roads which are presently in use on the leased premises and which are used by Lessee shall be maintained and kept in good state of repair by Lessee. Also, any roads which Lessee desires to construct on said premises, shall be constructed so as to destroy or interfere with as little cultivated land as possible and shall be maintained in a good state of repair at all times. When any drilling operations are entered upon under this lease and Lessee will desire the continuous use of any entrance into said lands, Lessee will, at the request of Lessor, construct a good and sufficient cattleguard adjoining the gate at such entrance into said lands for the passage of automobiles and trucks, such cattleguards to be so constructed as to prevent the passage of cattle and shall have chains across them. All gates and chains across cattleguards shall be locked except when in actual use.

21. Lessor shall have the right to specify the road[illegible] constructed on the leased premises as well as the right to select reasonable materials to be used for the construction of said road or roads. If Lessee constructs roads on said premises, it is to notify Lessor of the intended location of said road which shall be subject to the discretion of Lessor; Lessor must respond within fifteen (15) days of such notice. This right of road approval is granted so that the Lessor is assured that the land can be used for farming purposes with a minimum of loss acreage due to roadways, and so that the drainage shall not be hindered.

* The unpaid balance shall bear interest at the maximum lawful rate. WRW

29. Lessee shall defend, indemnify and hold harmless Lessor from and against all claims, liabilities, judgments, losses and causes of action of, to or by third persons (including, without limitation, Lessee and Lessee's employees and governmental authorities and agencies), for injury to or death of any person, for environmental damage or pollution, and for damage to or destruction of any property resulting directly or indirectly from any and all acts, omissions or courses of conduct by Lessee or its employees, agents, contractors, subcontractors, suppliers and invitees, or resulting from, in connection with, arising out of or in any way incidental to the exercise of the rights herein granted, or from the use, maintenance or condition of the above described land, including, without limitation, any such injury, death or damage caused by, or contributed to by, the sole or concurrent negligence of Lessee or its agents, lessees, contractors, subcontractors, licensees and employees. Lessee shall conduct all operations hereunder in accordance with all valid rules, regulations and orders of the governmental authority having jurisdiction. Upon abandonment of any well hereunder, Lessee shall properly plug and abandon such well in accordance with the rules and regulations of the governmental authority having jurisdiction.

30. Anything in this Lease to the contrary notwithstanding it is understood and agreed that:

A) Lessee cannot pool the lands described herein without the written consent of Lessor, which consent cannot be unreasonably withheld. Provided, however, Lessee may freely pool this lease with the following described tract of land without Lessor's prior written consent: 863.88 acres, more or less, out of the Sterling C. Robertson Survey, A-50, and the H.E. Davis Survey, A-100, Burleson County, Texas, described as two tracts in Exhibit "A", being 745.38 acres, more or less, and Exhibit "B", being 704.50 acres, more or less, together being 1449.88 acres, more or less, and more particularly described in Deed dated February 28, 1987, from H. Hoover Alford to Dan F. Alford, recorded in Volume 363, Page 427 of the Deed Records of Burleson County, Texas. Less and Except: 586.00 acres, more or less, described as two tracts in Deed dated February 24, 1982, from Dan F. Alford et al to Robert A. Alford, Jr., recorded in Volume 304, Page 60 of the Deed Records of Burleson County, Texas. In the event a portion of portions of the land described in this lease are pooled or unitized with other land, lease or leases, so as to form a pooled unit or units, operations for drilling, drilling, or reworking operations on such unit or units, or production of oil or gas from such unit or units, or payment of shut-in gas royalties on a well or wells drilled on such unit or units, shall maintain this lease in effect only as to the portion or portions of the land described in this lease which is included in a pooled unit or units. As to any portion or portions of the land not included in a pooled unit or units, this lease may be maintained in force and effect in any manner elsewhere provided in this lease including, but not limited to, the payment of delay rentals during the primary term.

(B) If Lessee exercises its authority under the terms of this Lease to pool for production of gas as to any well drilled on land other than the lease premises, then at least (50%) of the acreage covered by this Lease will be included in such pooled unit.

31. The undersigned Bank acts herein in its capacity as aforesaid and not otherwise, and it shall never have any personal, individual or corporate liability or responsibility, express or implied, under by or by virtue of this instrument.

SIGNED FOR IDENTIFICATION:

AETNA LIFE INSURANCE COMPANY
By: COLBY HAGAN, INC., Attorney-In-Fa
By _____
James C. Hagan, President

of Section _____, Township _____, Range _____, and containing _____ acres, more or less.

It is agreed that this lease shall remain in force for a term of Three (3) ** years from date (herein call primary term) ~~and as long thereafter as oil or gas, or either of them, is produced from said land by the lessee.~~

In consideration of the premises the said lessee covenants and agrees:

1st. To deliver to the credit of lessor free of cost, in the pipe line to which it may connect its wells, the 3/16ths part of all oil (including but not limited to condensate and distillate) produced and saved from the leased premises.

2nd. To pay lessor for gas of whatsoever nature or kind (with all of its constituents) produced and sold or used off the leased premises, or used in the manufacture of products therefrom, 3/16ths of the gross proceeds received for the gas sold, used off the premises, or in the manufacture of products therefrom, but in no event more than 3/16ths of the actual amount received by the lessee, said payments to be made monthly. During any period (whether before or after expiration of the primary term hereof) when gas is not being so sold or used and the well or wells are shut in and there is no current production of oil or operations on said leased premises sufficient to keep this lease in force, lessee shall pay or tender a royalty of One Dollar ($1.00) per year per net royalty acre retained hereunder, such payment or tender to be made, on or before the anniversary date of this lease next ensuing after the expiration of ninety (90) days from the date such well is shut in and thereafter on the anniversary date of this lease during the period such well is shut in, to the royalty owners. When such payment or tender is made it will be considered that gas is being produced within the meaning of the entire lease. Lessor shall have the privilege at his risk and expense of using gas from any well, producing gas only, on the leased premises for stoves and inside lights in the principal dwelling thereon out of any surplus gas not needed for operations hereunder.

3rd. To pay lessor for gas produced from any oil well and used off the premises, or for the manufacture of casing-head gasoline or dry commercial gas, 3/16ths of the gross proceeds, at the mouth of the well, received by lessee for the gas during the time such gas shall be used, said payments to be made monthly.

If the lessee shall commence to drill a well or commence reworking operations on an existing well within the term of this lease or any extension thereof, or on acreage pooled therewith, the lessee shall have the right to drill such well to completion or complete reworking operations with reasonable diligence and dispatch, and if oil or gas, or either of them, be found in paying quantities, this lease shall continue and be in force with like effect as if such well had been completed within the term of years first mentioned.

Lessee is hereby granted the right at any time and from time to time to unitize the leased premises or any portion or portions thereof, as to all strata or any stratum or strata, with any other lands as to all strata or any stratum or strata, for the production primarily of oil or primarily of gas with or without distillate. However, no unit for the production primarily of oil shall embrace more than 40* acres, or for the production primarily of gas with or without distillate more than 640* acres; provided that if any governmental regulation shall prescribe a spacing pattern for the development of the field or allocate a producing allowable based on acreage per well, then any such unit may embrace as much additional acreage as may be so prescribed or as may be used in such allocation of allowable. Lessee shall file written unit designations in the county in which the leased premises are located. Operations upon and production from the unit shall be treated as if such operations were upon or such production were from the leased premises whether or not the well or wells are located thereon. The entire acreage within a unit shall be treated for all purposes as if it were covered by and included in this lease except that the royalty on production from the unit shall be as below provided, and except that in calculating the amount of any shut in gas royalties, only the part of the acreage originally leased and then actually embraced by this lease shall be counted. In respect to production from the unit, Lessee shall pay Lessor, in lieu of other royalties thereon, only such proportion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein on an acreage basis bears to the total acreage in the unit.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties herein provided shall be paid to the lessor only in the proportion which his interest bears to the whole and undivided fee.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for its operations thereon, except water from wells of lessor.

When requested by the lessor, lessee shall bury his pipe lines below plow depth.

No well shall be drilled nearer than 200 feet to the house or barn now on said premises, without the written consent of the lessor.

Lessee shall pay for all damages caused by its operations to growing crops on said land.

Lessee shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.

If the estate of either party hereto is assigned, and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns. However, no change or division in ownership of the land or royalties shall enlarge the obligations or diminish the rights of Lessee. No change in the ownership of the land or royalties shall be binding on the lessee until after the lessee has been furnished with a written transfer or assignment or a true copy thereof. In case lessee assigns this lease, in whole or in part, lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment.

All express or implied covenants of this lease shall be subject to all Federal and State Laws, Executive Orders, Rules and Regulations, and this lease shall not be terminated, in whole or in part, nor lessee held liable in damages, for failure to comply therewith, if compliance is prevented by, or such failure is the result of any such Law, Order, Rule or Regulation.

This lease shall be effective as to each lessor on execution hereof as to his or her interest and shall be binding on those signing, notwithstanding some of the lessors above named may not join in the execution hereof. The word "Lessor" as used in this lease means the party or parties who execute this lease as Lessor, although not named above.

Lessee may at any time and from time to time surrender this lease as to any part or parts of the leased premises by delivering or mailing a release thereof to lessor, or by placing a release of record in the proper County.

~~Lessor hereby warrants and agrees to defend the title to the lands herein described, and agrees that the lessee shall have the right at any time to redeem for lessor by payment any mortgages, taxes or other liens on the above described lands, in the event of default of payment by lessor, and be subrogated to the rights of the holder thereof.~~

* Plus a tolerance of ten per cent (10%) of 40 acres for oil, and Plus a tolerance of ten per cent (10%) of 640 acres for gas.

** Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of three (3) years from the date hereof, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

Notwithstanding the foregoing pooling provisions of this lease, the pooling or combining within one or more units of less than all of the lands covered by this lease shall operate to maintain this lease in force and effect under such pooling provisions only as to that portion of the lands covered hereby actually included within any such unit or units, and only as to those stratum underlying the [illegible] lands which stratum are actually included within

gas royalties, only the part of the acreage originally ... duction from the unit, Lessee shall pay Lessor, in lieu of other royalties thereon, only such proportion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein on an acreage basis bears to the total acreage in the unit.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties herein provided shall be paid to the lessor only in the proportion which his interest bears to the whole and undivided fee.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for its operations thereon, except water from wells of lessor.

When requested by the lessor, lessee shall bury his pipe lines below plow depth.

No well shall be drilled nearer than 200 feet to the house or barn now on said premises, without the written consent of the lessor.

Lessee shall pay for all damages caused by its operations to growing crops on said land.

Lessee shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right to draw and remove casing.

If the estate of either party hereto is assigned, and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall extend to their heirs, executors, administrators, successors or assigns. However, no change or division in ownership of the land or royalties shall enlarge the obligations or diminish the rights of Lessee. No change in the ownership of the land or royalties shall be binding on the lessee until after the lessee has been furnished with a written transfer or assignment or a true copy thereof. In case lessee assigns this lease, in whole or in part, lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment.

All express or implied covenants of this lease shall be subject to all Federal and State Laws, Executive Orders, Rules and Regulations, and this lease shall not be terminated, in whole or in part, nor lessee held liable in damages, for failure to comply therewith, if compliance is prevented by, or such failure is the result of any such Law, Order, Rule or Regulation.

This lease shall be effective as to each lessor on execution hereof as to his or her interest and shall be binding on those signing, notwithstanding some of the lessors above named may not join in the execution hereof. The word "Lessor" as used in this lease means the party or parties who execute this lease as Lessor, although not named above.

Lessee may at any time and from time to time surrender this lease as to any part or parts of the leased premises by delivering or mailing a release thereof to lessor, or by placing a release of record in the proper County.

~~Lessor hereby warrants and agrees to defend the title to the lands herein described, and agrees that the lessee shall have the right at any time to redeem for lessor by payment any mortgages, taxes or other liens on the above described lands, in the event of default of payment by lessor and be subrogated to the rights of the holder thereof.~~

* Plus a tolerance of ten per cent (10%) of 40 acres for oil, and Plus a tolerance of ten per cent (10%) of 640 acres for gas.

** Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of three (3) years from the date hereof, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

VOL 217 PAGE 290

Notwithstanding the foregoing pooling provisions of this lease, the pooling or combining within one or more units of less than all of the lands covered by this lease shall operate to maintain this lease in force and effect under such pooling provisions only as to that portion of the lands covered hereby actually included within any such unit or units, and only as to those stratum underlying the surface of such lands which stratum are actually included within such unit or units. That portion of such lands and stratum not so included within such unit or units shall be considered a separate lease and may be maintained in force and effect only under the operation of the provisions of that lease.

Further, notwithstanding anything herein to the contrary, on the day after the expiration of the primary term this lease shall terminate insofar as it covers all rights deeper than One Hundred (100) feet below the base of the deepest horizon penetrated by any well or wells drilled on the lands covered hereby or on land with which said land or a portion thereof has been pooled or unitized, provided if the Lessee, its successors and assigns, shall be engaged in operations for drilling new wells or reworking existing wells on the leased premises or on land with which said land or a portion thereof has been pooled or unitized, and if such operations are prosecuted with due diligence, then this lease shall continue in effect as to all formations until such drilling or reworking operations have been completed and total depth has been established.

Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil, gas or sulphur.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT made this 27th day of May 19 93, between

JOSEPHINE NIGLIAZZO, a widow

Lessor (whether one or more), whose address is: 505 Sulphur Springs, Bryan, Texas 77801
and CLAYTON WILLIAMS ENERGY, INC., 500 North Loop 1604 East, San Antonio, Texas 78232, Lessee, WITNESSETH:

1. Lessor, in consideration of Ten and More ---------- Dollars, receipt of which is hereby acknowledged, and of the covenants and agreements of lessee hereinafter contained, does hereby grant, lease and let unto lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, sulphur and all other minerals (whether or not similar to those mentioned), together with the right to make surveys on said land, lay pipe lines, establish and utilize facilities for surface or subsurface disposal of salt water, construct roads and bridges, dig canals, build tanks, power stations, telephone lines, employee houses and other structures on said land, necessary or useful in lessee's operations in exploring, drilling for, producing, treating, storing and transporting minerals produced from the land covered hereby or any other land adjacent thereto. The land covered hereby, herein called "said land", is located in the County of Burleson, State of Texas, and is described as follows:

100.00 acres, more or less, out of the H.E. Davis Survey, A-100, Burleson County, Texas, described in Deed dated August 22, 1950, from L.D. Johnson et ux to Charles Nigliazzo, recorded in Volume 107, Page 152 of the Deed Records of Burleson County, Texas.

31

This lease also covers and includes, in addition to that above described, all land, if any, contiguous or adjacent to or adjoining the land above described and (a) owned or claimed by lessor by limitation, prescription, possession, reversion or unrecorded instrument or (b) as to which lessor has a preference right of acquisition. Lessor agrees to execute any supplemental instrument requested by lessee for a more complete or accurate description of said land. For the purpose of determining the amount of any bonus or other payment hereunder, said land shall be deemed to contain 100.00 acres, whether actually containing more or less, and the above recital of acreage in any tract shall be deemed to be the true acreage thereof. Lessor accepts the bonus as lump sum consideration for this lease and all rights and options hereunder.

2. Unless sooner terminated or longer kept in force under other provisions hereof, this lease shall remain in force for a term of ~~XXXXX~~ Three years from the date hereof, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

3. As royalty, lessee covenants and agrees: (a) To deliver to the credit of lessor, in the pipe line to which lessee may connect its wells, the equal one-eighth part of all oil produced and saved by lessee from said land, or from time to time, at the option of lessee, to pay lessor the average posted market price of such one-eighth part of such oil at the wells as of the day it is run to the pipe line or storage tanks, lessor's interest, in either case, to bear one-eighth of the cost of treating oil to render it marketable pipe line oil; (b) To pay lessor on gas and casinghead gas produced from said land (1) when sold by lessee, one-eighth of the amount realized by lessee, computed at the mouth of the well, or (2) when used by lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of one-eighth of such gas and casinghead gas; (c) To pay lessor on all other minerals mined and marketed or utilized by lessee from said land, one-tenth either in kind or value at the well or mine at lessee's election, except that on sulphur mined and marketed the royalty shall be one dollar ($1.00) per long ton. If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-ins, and thereafter this lease may be continued in force as if no shut-in had occurred. Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle labor trouble or to market gas upon terms unacceptable to lessee. If, at any time or times after the expiration of the primary term, all such wells are shut-in for a period of ninety consecutive days, and during such time there are no operations on said land, then at or before the expiration of said ninety day period, lessee shall pay or tender, by check or draft of lessee, as royalty, a sum equal to one dollar ($1.00) for each acre of land then covered hereby. Lessee shall make like payments or tenders at or before the end of each anniversary of the expiration of said ninety day period if upon such anniversary this lease is being continued in force solely by reason of the provisions of this paragraph. Each such payment or tender shall be made to the parties who at the time of payment would be entitled to receive the royalties which would be paid under this lease if the wells were producing, and may be deposited in the First National Bank at Bryan, Texas 77801, or its successors, which shall continue as the depositories, regardless of changes in the ownership of shut-in royalty. If at any time that lessee pays or tenders shut-in royalty, two or more parties are, or claim to be, entitled to receive same, lessee may, in lieu of any other method of payment herein provided, pay or tender such shut-in royalty, in the manner above specified, either jointly to such parties or separately to each in accordance with their respective ownerships thereof, as lessee may elect. Any payment hereunder may be made by check or draft of lessee deposited in the mail or delivered to the party entitled to receive payment or to a depository bank provided for above on or before the last date for payment. Nothing herein shall impair lessee's right to release as provided in paragraph 5 hereof. In the event of assignment of this lease in whole or in part, liability for payment hereunder shall rest exclusively on the then owner or owners of this lease, severally as to acreage owned by each.

4. Lessee is hereby granted the right, at its option, to pool or unitize any land covered by this lease with any other land covered by this lease, and/or with any other land, lease, or leases, as to any or all minerals or horizons, so as to establish units containing not more than 80 surface acres, plus 10% acreage tolerance; provided, however, units may be established as to any one or more horizons, or existing units may be enlarged as to any one or more horizons, so as to contain not more than 640 surface acres plus 10% acreage tolerance, if limited to one or more of the following: (1) gas, other than casinghead gas, (2) liquid hydrocarbons (condensate) which are not liquids in the subsurface reservoir, (3) minerals produced from wells classified as gas wells by the conservation agency having jurisdiction. If larger units than any of those herein permitted, either at the time established, or after enlargement, are required under any governmental rule or order, for the drilling or operation of a well at a regular location, or for obtaining maximum allowable from any well to be drilled, drilling, or already drilled, any such unit may be established or enlarged to conform to the size required by such governmental order or rule. Lessee shall exercise said option as to each desired unit by executing an instrument identifying such unit and filing it for record in the public office in which this lease is recorded. Each of said options may be exercised by lessee at any time and from time to time while this lease is in force, and whether before or after production has been established either on said land, or on the portion of said land included in the unit, or on other land unitized therewith. A unit established hereunder shall be valid and effective for all purposes of this lease even though there may be mineral, royalty, or leasehold interests in lands within the unit which are not effectively pooled or unitized. Any operations conducted on any part of such unitized land shall be considered, for all purposes, except the payment of royalty, operations conducted upon said land under this lease. There shall be allocated to the land covered by this lease within each such unit (or to each separate tract within the unit if this lease covers separate tracts within the unit) that proportion of the total production of unitized minerals from the unit, after deducting any used in lease or unit operations, which the number of surface acres in such land (or in such such separate tract) covered by this lease within the unit bears to the total number of surface acres in the unit, and the production so allocated shall be considered for all purposes, including payment or delivery of royalty, overriding royalty and any other payments out of production, to be the entire production of unitized minerals from the land to which allocated in the same manner as though produced therefrom under the terms of this lease. The owner of the reversionary estate of any term royalty or mineral estate agrees that the accrual of royalties pursuant to this paragraph or of shut-in royalties from a well on the unit shall satisfy any limitation of term requiring production of oil or gas. The formation of any unit hereunder which includes land not covered by this lease shall not have the effect of exchanging or transferring any interest under this lease (including, without limitation, any shut-in royalty which may become payable under this lease) between parties owning interests in land covered by this lease and parties owning interests in land not covered by this lease. Neither shall it impair the right of lessee to release as provided in paragraph 5 hereof, except that lessee may not so release as to lands within a unit while there are operations thereon for unitized minerals unless all pooled leases are released as to lands within the unit. At any time while this lease is in force lessee may dissolve any unit established hereunder by filing for record in the public office where this lease is recorded a declaration to that effect, if at that time no operations are being conducted thereon for unitized minerals. Subject to the provisions of this paragraph 4, a unit once established hereunder shall remain in force so long as any lease subject thereto shall remain in force. If this lease now or hereafter covers separate tracts, no pooling or unitization of royalty interests as between any such separate tracts is intended or shall be implied or result merely from the inclusion of such separate tracts within this lease but lessee shall nevertheless have the right to pool or unitize as provided in this paragraph 4 with consequent allocation of production as herein provided. As used in this paragraph 4, the words "separate tract" mean any tract with royalty ownership differing, now or hereafter, either as to parties or amounts, from that as to any other part of the leased premises.

5. Lessee may at any time and from time to time execute and deliver to lessor or file for record a release or releases of this lease as to any part or all of said land or of any mineral or horizon thereunder, and thereby be relieved of all obligations, as to the released acreage or interest.

6. Whenever used in this lease the word "operations" shall mean operations for and any of the following: drilling, testing, completing, reworking, recompleting, deepening, plugging back or repairing of a well in search for or in an endeavor to obtain production of oil, gas, sulphur or other minerals, excavating a mine, production of oil, gas, sulphur or other mineral, whether or not in paying quantities.

7. Lessee shall have the use, free from royalty, of water, other than from lessor's water wells, and of oil and gas produced from said land in all operations hereunder. Lessee shall have the right at any time to remove all machinery and fixtures placed on said land, including the right to draw and remove casing. No well shall be drilled nearer than 200 feet to the house or barn now on said land without the consent of the lessor. Lessee shall pay for damages caused by its operations to growing crops and timber on said land.

8. The rights and estate of any party hereto may be assigned from time to time in whole or in part and as to any mineral or horizon. All of the covenants, obligations, and considerations of this lease shall extend to and be binding upon the parties hereto, their heirs, successors, assigns, and successive assigns. No change or division in the ownership of said land, royalties, or other moneys, or any part thereof, howsoever effected, shall increase the obligations or diminish the rights of lessee, including, but not limited to, the location and drilling of wells and the measurement of production. Notwithstanding any other actual or constructive knowledge or notice thereof of or to lessee, its successors or assigns, no change or division in the ownership of said land or of the royalties, or other moneys, or the right to receive the same, howsoever effected, shall be binding upon the then record owner of this lease until thirty (30) days after there has been furnished to such record owner at his or its principal place of business by lessor or lessor's heirs, successors, or assigns, notice of such change or division, supported by either originals or duly certified copies of the instruments which have been properly filed for record and which evidence such change or division, and of such court records and proceedings, transcripts, or other documents as shall be necessary in the opinion of such record owner to establish the validity of such change or division. If any such change in ownership occurs by reason of the death of the owner, lessee may, nevertheless pay or tender such royalties, or other moneys, or part thereof, to the credit of the decedent in a depository bank provided for above.

9. In the event lessor considers that lessee has not complied with all its obligations hereunder, both express and implied, lessor shall notify lessee in writing, setting out specifically in what respects lessee has breached this contract. Lessee shall then have sixty (60) days after receipt of said notice within which to meet or commence to meet all or any part of the breaches alleged by lessor. The service of said notice shall be precedent to the bringing of any action by lessor on said lease for any cause, and no such action shall be brought until the lapse of sixty (60) days after service of such notice on lessee. Neither the service of said notice nor the doing of any acts by lessee aimed to meet all or any of the alleged breaches shall be deemed an admission or presumption that lessee has failed to perform all its obligations hereunder. If this lease is cancelled for any cause, it shall nevertheless remain in force and effect as to (1) sufficient acreage around each well as to which there are operations to constitute a drilling or maximum allowable unit under applicable governmental regulations, (but in no event less than forty acres), such acreage to be designated by lessee as nearly as practicable in the form of a square centered at the well, or in such shape as then existing spacing rules require; and (2) any part of said land included in a pooled unit on which there are operations. Lessee shall also have such easements on said land as are necessary to operations on the acreage so retained.

10. Lessor hereby warrants and agrees to defend title to said land against the claims of all persons whomsoever. Lessor's rights and interests hereunder shall be charged primarily with any mortgages, taxes or other liens, or interest and other charges on said land, but lessor agrees that lessee shall have the right at any time to pay or reduce same for lessor, either before or after maturity, and be subrogated to the rights of the holder thereof and to deduct amounts so paid from royalties or other payments payable or which may become payable to lessor and/or assigns under this lease. If this lease covers a less interest in the oil, gas, sulphur, or other minerals in all or any part of said land than the entire and undivided fee simple estate (whether lessor's interest is herein specified or not), or no interest therein, then the royalties and other moneys accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. All royalty interest covered by this lease (whether or not owned by lessor) shall be paid out of the royalty herein provided. This lease shall be binding upon each party who executes it without regard to whether it is executed by all those named herein as lessor.

11. If, while this lease is in force, at, or after the expiration of the primary term hereof, it is not being continued in force by reason of the shut-in well provisions of paragraph 3 hereof, and lessee is not conducting operations on said land by reason of (1) any law, order, rule or regulation, (whether or not subsequently determined to be invalid) or (2) any other cause, whether similar or dissimilar, (except financial) beyond the reasonable control of lessee, the primary term hereof shall be extended until the first anniversary date hereof occurring ninety (90) or more days following the removal of such delaying cause, and this lease may be extended thereafter by operations as if such delay had not occurred.

IN WITNESS WHEREOF, this instrument is executed on the date first above written. See attached ADDENDUM "A" for continuation of lease.

ADDENDUM "A"

Attached to and made a part of that certain Oil, Gas and Mineral Lease dated May 27, 1993, by and between JOSEPHINE NIGLIAZZO, as Lessor, and CLAYTON WILLIAMS ENERGY, INC, as Lessee.

12. Notwithstanding anything herein above to the contrary, it is specifically understood and agreed that this lease covers only oil, gas, sulphur, and associated liquid or liquefiable hydrocarbons, but this lease does not cover or include any other minerals, with all other such minerals, including coal, being reserved to the Lessor herein.

13. Lessee agrees to pay Lessor or tenants of Lessor for all damages or injury to cattle or other livestock, pasturage, crops, fences, terraces, water wells, the surface otherwise in whatever way damaged and all other property of Lessor or tenants of Lessor situated on the lease premises resulting from Lessee's operations under the terms of this lease; and, Lessee further agrees that within a reasonable time after completion or abandonment of any well drilled on the leased premises, Lessee shall fill and level all excavations not required for production, fencing those that must remain open, and restore the surface of the ground to as near its original condition as is practicable.

14. In the event a portion or portions of the land described in this lease are pooled or unitized with other land, lease or leases, so as to form a pooled unit or units, operations for drilling, drilling, or reworking operations on such unit or units, or production of oil or gas from such unit or units, or payment of shut-in gas royalties on a well or wells drilled on such unit or units, shall maintain this lease in effect only as to the portion or portions of the land described in this lease which is included in a pooled unit or units. As to any portion or portions of the land not included in a pooled unit or units, this lease may be maintained in force and effect in any manner elsewhere provided in this lease including, but not limited to, the payment of delay rentals during the primary term.

15. Notwithstanding anything herein above to the contrary, it is expressly agreed and understood that Lessee's right to maintain this lease in force after the primary term by shut-in gas well payments under Paragraph 3 shall not continue for any one shut-in period of more than two (2) years immediately following the primary term, or in recurring periods after the primary term not to exceed two (2) years in the aggregate.

16. Any reference made herein to a one-eighth (1/8) royalty is hereby amended to read three-sixteenths (3/16) royalty.

17. Anything contained hereinabove to the contrary notwithstanding, Lessor in no way grants Lessee the right to use any surface water found in streams, ponds, tanks, lakes or reservoirs on the lease premises. Any water Lessee uses from lease premises shall come from a water well or wells, drilled on lease premises by Lessee at his sole expense.

Re: Mineral File No. M- 095942
Division Order # 3400 001

Dear Sir or Madam:

We have received the division order submitted by your company for the above referenced lease and filed same in our files. Please be sure to reference this mineral file number in all future royalty payments, reports and correspondence concerning the lease.

The payment of royalties to the State of Texas is set by statute. As the execution of the division order may, in some cases, effect the payments of such royalties, it is not the policy of this office to execute them. Insofar as allowed by law, the Texas General Land Office acquiesces in the sale of oil and gas under the terms and conditions set out in the lease.

If you should have any questions, please feel free to call me at (512)475-1538.

Sincerely,

Robin Olson

Re: Mineral File No. M-95942 DIV. ORDER NO. 3485 001

Dear Sir or Madam:

We have received the division order submitted by your company for the above referenced lease and filed same in our files. Please be sure to reference this mineral file number in all future royalty payments, reports and correspondence concerning the lease.

The payment of royalties to the State of Texas is set by statute. As the execution of the division order may, in some cases, effect the payments of such royalties, it is not the policy of this office to execute them. Insofar as allowed by law, the Texas General Land Office acquiesces in the sale of oil and gas under the terms and conditions set out in the lease.

If you should have any questions, please feel free to call me at (512) 475-1494.

Sincerely,

Joshua Sanchez

M-95942

The undersigned, and each of us, as Owners, guarantee and warrant that we are the legal owners, in the proportions set out below, of all the oil and gas (the term "gas" including, without limitation, gas well gas, casinghead gas, and condensate, natural gas liquids, and all other constituent elements of the raw gas stream) produced, or all of the proceeds thereof, from the

Clayton Williams Energy, Inc., Alford-Weeber Unit #1

located in Burleson County, State of Texas, described as:

407.491-acre unit out of the Sterling C. Robertson Survey, A-50, Burleson County, Texas, more fully described in Declaration of Unit recorded in Vol. 235, Page 534, Oil and Gas Lease Records, Burleson County, Texas. (See Exhibit "B" for description of leases and plat.)

and commencing on date of first production/or last settlement and until 30-day advance written notice from the undersigned, you are authorized to receive and give credit for all oil and gas received from said property, or the proceeds therefrom, as may be applicable as per directions below:

CREDIT TO	DIVISION OF INTEREST	ADDRESS

See attached Exhibit "A"

FIRST: It is agreed that when and if payment due to any Owner hereunder, when combined with payments due such Owner under other properties, for which Purchaser is making distribution of proceeds of production, is during any month less than Twenty-Five Dollars ($25.00), then Purchaser may thereafter, at its option, without payment of interest, accumulate proceeds accruing to such Owner and make payment of the accumulated total in December of each year.

SECOND: The purpose of this division order is to set out the ownership of the property described herein and in no way diminishes or enlarges either parties' obligations under the oil and gas lease(s) attributable thereto, or amend the terms thereof.

The undersigned, and each of us, as Owners, guarantee and warrant that we are the legal owners, in the proportions set out below, of all the oil and gas (the term "gas" including, without limitation, gas well gas, casinghead gas, and condensate, natural gas liquids, and all other constituent elements of the raw gas stream) produced, or all of the proceeds thereof, from the

Clayton Williams Energy, Inc., Alford-Weeber Unit #1

located in Burleson County, State of Texas, described as:

407.491-acre unit out of the Sterling C. Robertson Survey, A-50, Burleson County, Texas, more fully described in Declaration of Unit recorded in Vol. 235, Page 534, Oil and Gas Lease Records, Burleson County, Texas. (See Exhibit "B" for description of leases and plat.)

and commencing on date of first production/or last settlement and until 30-day advance written notice from the undersigned, you are authorized to receive and give credit for all oil and gas received from said property, or the proceeds therefrom, as may be applicable as per directions below:

CREDIT TO	DIVISION OF INTEREST	ADDRESS

See attached Exhibit "A"

FIRST: It is agreed that when and if payment due to any Owner hereunder, when combined with payments due such Owner under other properties, for which Purchaser is making distribution of proceeds of production, is during any month less than Twenty-Five Dollars ($25.00), then Purchaser may thereafter, at its option, without payment of interest, accumulate proceeds accruing to such Owner and make payment of the accumulated total in December of each year.

SECOND: The purpose of this division order is to set out the ownership of the property described herein and in no way diminishes or enlarges either parties' obligations under the oil and gas lease(s) attributable thereto, or amend the terms thereof.

RE: Infill Wells #9S & #6
State Lease # M-95942
CWEI Lease # TX-2036-206912
BURLESON COUNTY, TEXAS

Dear Mr. Reid:

Attached are plats that shows State Lease #M-95942 (copy attached) with 2 possible locations for a proposed infill well #9S and infill well #6.

#9S - If the "A" location were used, it would require taking approximately 2 acres from the Alford Unit #1 to be placed in the new unit. If the "B" location is used, we could drill it without taking any acreage from the State Lease. In either case, it would require CWEI to reduce the size of the existing Alford Unit #1. In the "A" well, the State would be in a new well and be reduced in the Alford Unit #1. In the "B" well, the State's interest in the Alford Unit #1 would increase.
#6 - Proposed infill well #6 will increase your interest in the Alford Unit #1.

If you are in agreement with our plans as outlined above, please signify your acceptance by signing in the space provided below and return in the self-addressed, self-stamped envelope.

Should you have any questions, please do not hesitate to call or write.

Very truly yours,

David L. Knape

PAID-UP

OIL AND GAS LEASE NO. M-95942
GENERAL LAND OFFICE
AUSTIN, TEXAS

THIS AGREEMENT made and entered into by and between the Commissioner of the General Land Office of the State of Texas, whose address is Stephen F. Austin Building, 1700 North Congress, Austin, Texas, 78701, hereinafter called "Lessor", hereunto authorized by the School Land Board, pursuant to the provisions of Chapters 32, 34 and 52 of the Natural Resources Code (hereinafter called N.R.C.), and amendments thereto, and all applicable rules promulgated by the School Land Board, and Clayton Williams Energy, Inc., whose address is 500 North Loop 1604 East, San Antonio, Texas 78232, hereinafter called "Lessee".

1. Lessor, in consideration of Five Hundred Sixty Two and 50/100 Dollars ($562.50), receipt of which is hereby acknowledged, and of the covenants and agreements of Lessee hereinafter contained, does hereby grant, lease, and let unto Lessee the land covered hereby for the purposes and with the exclusive right of exploring, drilling, mining and operating for, producing and owning oil, gas, and all other hydrocarbons, produced from the land covered hereby. The land covered hereby, herein called "said land" is located in the County of Burleson, State of Texas, and is described as follows:

7.5 acres of land, more or less, situated in said Burleson County, Texas, more particularly described in

VOL. 232 PAGE 609

Exhibit "A" attached hereto and made a part hereof together with a plat, attached hereto as Exhibit "B", depicting said right-of-way and surrounding area for purposes of illustration only.

For the purpose of determining the amount of any bonus or other payment hereunder, said land shall be deemed to contain 7.5 acres, whether actually containing more or less, and the above recital of acreage shall be deemed to be the true acreage thereof. Lessor accepts the bonus as lump sum consideration for this lease and all rights and options hereunder.

2. PRIMARY TERM: This lease, which is a "paid up" lease requiring no rentals, shall remain in force for a term of three (3) years from July 5, 1994, hereinafter called "primary term", and as long thereafter as operations, as hereinafter defined, are conducted upon said land with no cessation for more than ninety (90) consecutive days.

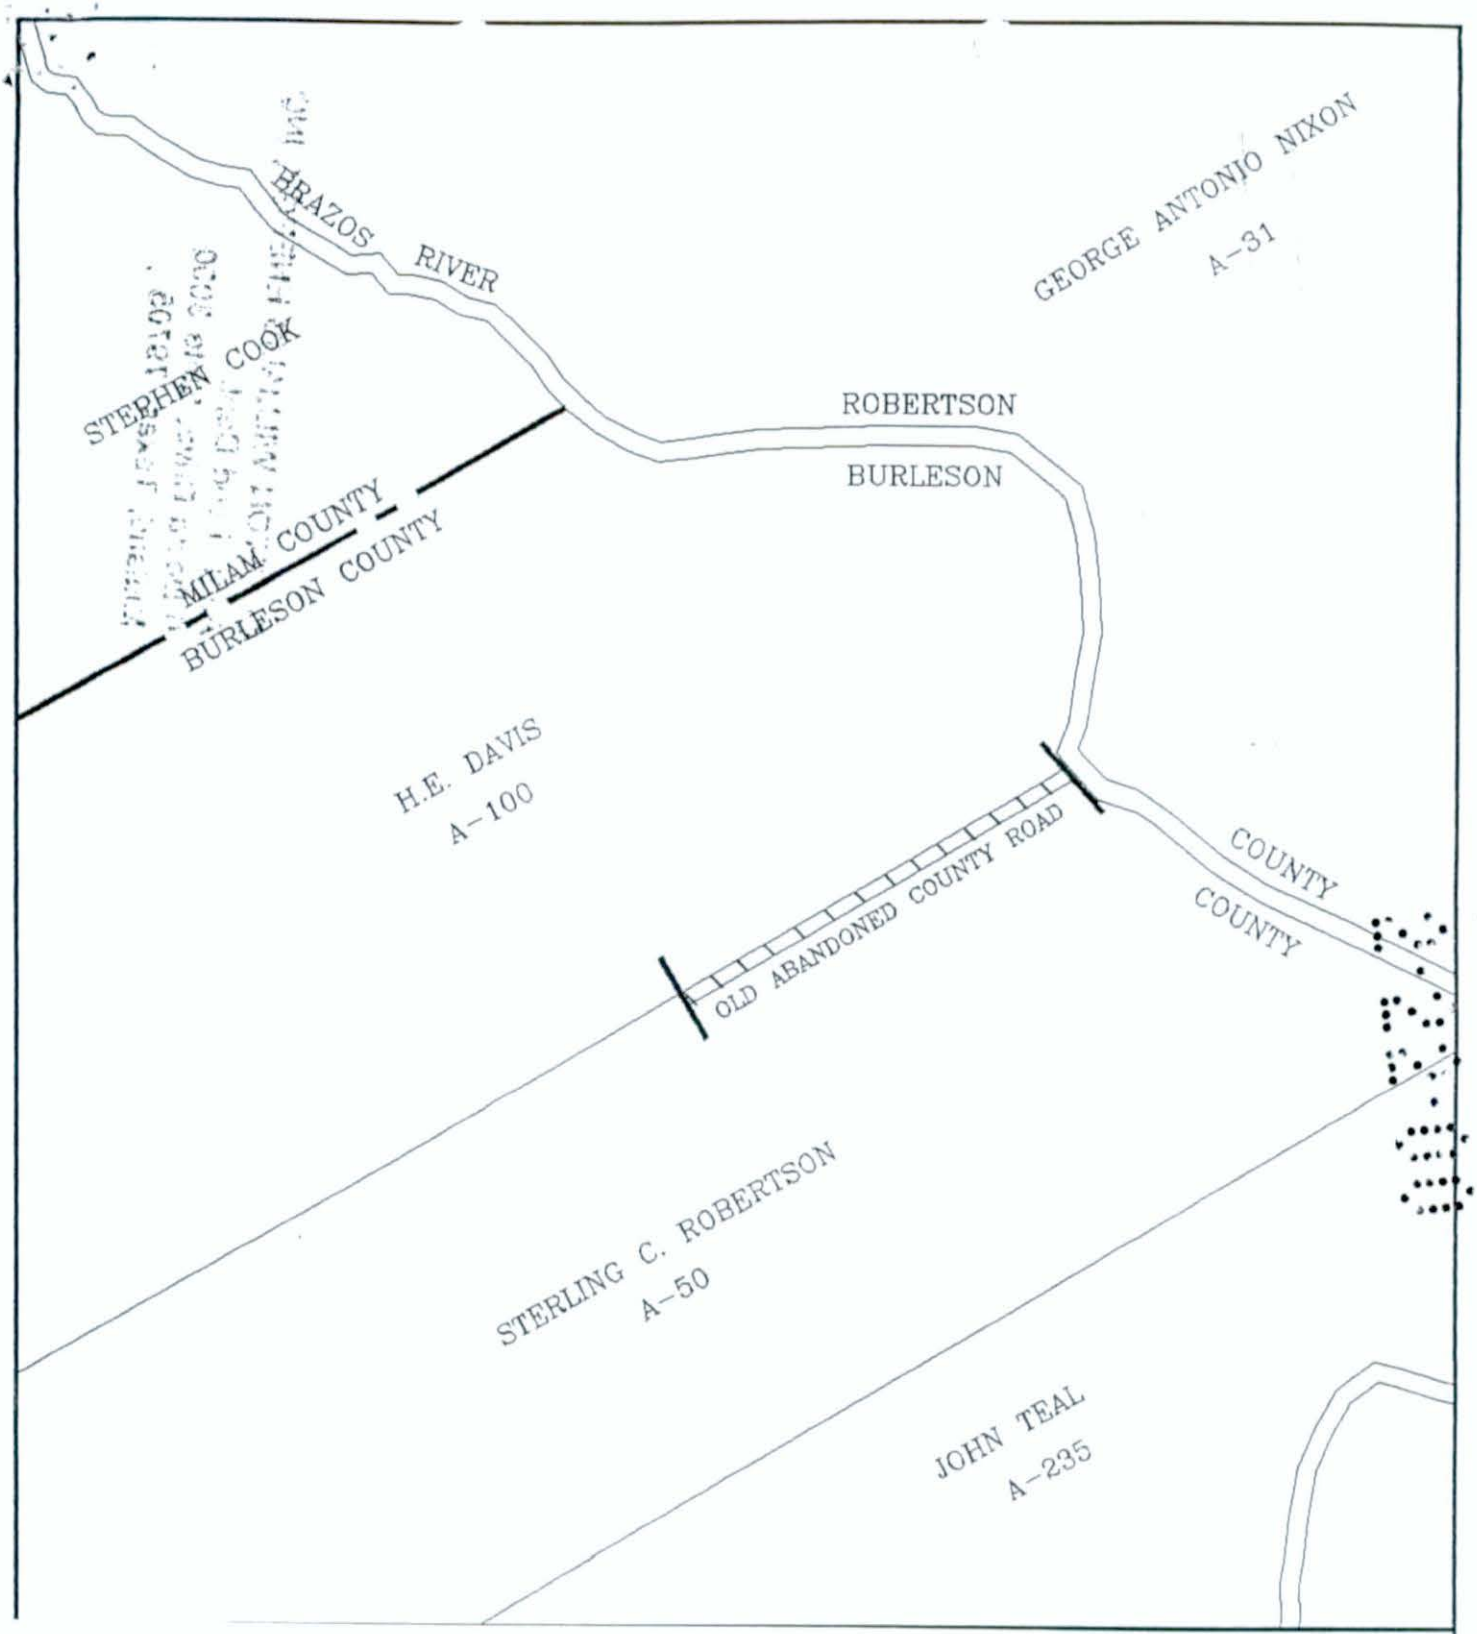

3. ROYALTIES: As royalty Lessee covenants and agrees:

(a) To deliver to the credit of Lessor, in the pipe line to which Lessee may connect its well, the equal three sixteenth (3/16) part of all oil produced and saved by Lessee from said land, or from time to time, at the option of Lessee, to pay Lessor the average posted market price of such three sixteenth (3/16) part of such oil at the wells as of the day it is run to the pipe line or storage tanks, Lessor's interest, in either case, to bear none of the cost of treating oil to render it marketable pipe line oil;

(b) To pay Lessor on gas and casinghead gas produced from said land (1) when sold by lessee, three sixteenth (3/16) of the amount realized by Lessee, computed at the mouth of the well, or (2) when used by Lessee off said land or in the manufacture of gasoline or other products, the market value, at the mouth of the well, of three sixteenth (3/16) of such gas and casinghead gas.

(c) If, at the expiration of the primary term or at any time or times thereafter, there is any well on said land or on lands with which said land or any portion thereof has been pooled, capable of producing oil or gas, and all such wells are shut-in, this lease shall, nevertheless, continue in force as though operations were being conducted on said land for so long as said wells are shut-in, and thereafter this lease may be continued in force as if no shut-in had occurred.

(d) Lessee covenants and agrees to use reasonable diligence to produce, utilize, or market the minerals capable of being produced from said wells, but in the exercise of such diligence, Lessee shall not be obligated to install or furnish facilities other than well facilities and ordinary lease facilities of flow lines, separator, and lease tank, and shall not be required to settle

Re: ALFORD #1 UNIT
Property No. 3400 001
Burleson County, Texas

TO ALL INTEREST OWNERS LISTED ON ATTACHED EXHIBIT "A":

Please be advised that Clayton Williams Energy, Inc. has reformed the captioned unit. The unit size has been reduced to 378.651 acres.

Enclosed are two (2) copies of the Oil and Gas Division Order for this reformation, effective with September 2000 production. If the division order meets with your approval, please execute same, in the presence of two witnesses being sure to fill in your social security/tax identification number and return one copy to the undersigned. An envelope has been provided for your convenience.

Please note that any revenue prior to September 2000 being held in suspense, will be disbursed in the interests as set out before the reformation.

Should you have any questions, please advise. Thank you for your assistance in this matter.

Sincerely,

Pamela J. Swiefc

Harriet,
I have another one for you.
I found the Alford Unit #1 (Unit 2279) and Alford-Weeber No 1 Unit (Unit 2312), but couldn't find the Alford-Alford Unit #1. They are saying we have interest in one, but not the other any more. Can you confirm?

Griffin,

Attached are the Declaration of Units and Reformation of Unit for the Alford-Weeber Unit #1 and the Alford-Alford Unit #1. Please note that the GLO's interest is no longer in the Alford-Weeber, but in the Alford-Alford. Please pass this along for their files. Thank you.

Ellen, I am showing this to be the Alford Weeber and it was reformed in 9/2010 and we do not show the GLO to still be in it and they disagree. I couldn't dig much on the rrc site but I believe they show them to be in it too.

Could you help me on this? This should be the very last one with questions for now, I went into the Glo site and cleaned up all the leases we had listed and Mike has updated everything, this was the only questionable one.

Thanks,

DECLARATION OF UNIT

STATE OF TEXAS §
§ KNOW ALL MEN BY THIS PRESENTS:
COUNTY OF BURLESON §

THAT, Clayton Williams Energy, Inc., the present owner and holder of those certain Oil, Gas and Mineral Leases more particularly described in Exhibit "A" attached hereto and by reference incorporated herein and made a part hereof, pursuant to the right, power and option granted to the owner of said Leases under the terms and provisions thereof, as the same may have from time to time been amended or ratified, hereby POOLS, COMBINES and UNITIZES into one pooled area or unit, the Leases described in the attached Exhibit "A", INSOFAR AS AND ONLY INSOFAR AS said Leases cover and include the limited vertical interval from the surface down to but not below the stratigraphic equivalent of the base of the "Austin Chalk" Formation in and under 305.774 acres out of the lands described in said leases located in the H. E. Davis Survey, A–100, and the Sterling C. Robertson Survey, A–50, Burleson County, Texas, said 305.774 acres being more particularly described in the attached Exhibit "B", reference to which is herein made for all purposes, for the purpose of exploring, operating, drilling for and producing oil, gas, casinghead gas, condensate, distillate and other liquid or gaseous hydrocarbons in and from said unitized interval and area. The pooled area or unit described herein, containing an aggregate 305.774 acres, is hereby designated as the **CLAYTON WILLIAMS ENERGY, INC.–ALFORD-ALFORD UNIT NO. 1**.

This unit shall include only the oil, gas and mineral interests covered by the Leases, insofar as the Leases cover the lands and intervals described herein which are presently owned or hereafter acquired by Clayton Williams Energy, Inc., its successors and assigns. This instrument shall not be considered an invitation or offer to the owner of any unleased mineral interest in lands within the pooled area to unitize such interest other than pursuant to an oil and gas lease to the undersigned, nor shall this instrument be construed as an invitation or offer to the owner of any oil and gas lease or interest in lands within the unit herein described (other than the undersigned) to pool said lease or interest without the written consent and agreement of the undersigned. This unit shall be effective as to all of the leases and lands properly pooled herein, notwithstanding the inclusion of one or more leases in Exhibit "A" which do not cover an interest in the unit acreage or which are not otherwise properly pooled herein. This unit may be amended from time to time to correct any errors, to add any additional leases owned or acquired by the undersigned covering the unit acreage, to limit the pooled interval to one or more producing formations, or to reform or revise the unit when in the judgment of the

undersigned it is necessary or advisable to do so in order to properly develop or operate the unit area or the leases.

This instrument is executed this 17th day of November, 2010, but to be effective as of August 29, 2010.

REFORMATION OF UNIT

STATE OF TEXAS §
§ KNOW ALL MEN BY THESE PRESENTS:
COUNTY OF BURLESON §

Reference is made to that certain Declaration of Unit dated November 21, 1994, recorded in Volume 235, page 534, Oil and Gas Lease Records, Burleson County, Texas (the "Declaration of Unit"), wherein Clayton Williams Energy, Inc., designated and declared a pooled unit identified as the Clayton Williams Energy, Inc.–Alford-Weeber No. 1 Unit, for the production of oil, gas, and liquid hydrocarbons associated therewith, in and under 407.491 acres of land, in the Sterling C. Robertson Survey, A–50, Burleson County, Texas (the "Unit"); and

WHEREAS, Clayton Williams Energy, Inc., as the owner of the oil and gas leases described in the Declaration of Unit and the amendment thereto and as the operator of the Unit, desires to amend the Declaration of Unit in order to reconfigure the acreage contributed to the Unit under the oil and gas leases described in the Declaration of Unit, reference here being made to the Declaration of Unit for all purposes:

NOW, THEREFORE, in consideration of the premises, and in order to facilitate the additional development of the leases described in the Declaration of Unit, as amended, the undersigned, Clayton Williams Energy, Inc., does hereby AMEND and REVISE the Declaration of Unit as follows:

1. By deleting Exhibit "A" attached thereto, consisting of a description of the oil and gas leases included in the Unit, and substituting therefor the Exhibit "A" attached to this Reformation of Unit and consisting of the oil and gas leases included in the 243.654 acres to be pooled into the Unit, as reconfigured; and

2. By deleting Exhibit "B" attached thereto, consisting of a metes and bounds description of the 407.491-acre pooled area, and by substituting therefor Exhibit "B" attached to this Reformation of Unit, consisting of a metes and bounds description of the 243.654 acres to be pooled into the Unit, as reconfigured.

For the same purposes, the undersigned does hereby POOL, COMBINE and UNITIZE into one pooled area or unit, the leases described in Exhibit "A" attached hereto, INSOFAR AS AND ONLY INSOFAR AS said leases cover and include the interval from the surface down to, but not below, the stratigraphic equivalent of the base of the "Austin Chalk" formation in and under 243.654 acres in the Sterling C. Robertson Survey, A–50, Burleson County, Texas, described in Exhibit "B", attached hereto and incorporated herein by reference for all purposes, for the purpose of exploring, operating, drilling for and producing oil, gas, and liquid hydrocarbons associated therewith in and from said unitized interval and area (the "Reformed Unit"). The Reformed Unit, containing an aggregate 243.654 acres, shall continue to be designated as the **CLAYTON WILLIAMS ENERGY, INC.–ALFORD-WEEBER NO. 1 UNIT**.

Base Austin Chalk

The Reformed Unit shall include only the oil, gas and mineral interests covered by the leases, insofar as the leases cover the lands described in the attached Exhibit "B" which are presently owned or hereafter acquired by Clayton Williams Energy, Inc., its successors and assigns. This instrument shall not be considered an invitation or offer to the owner of any unleased mineral interest in lands within the Reformed Unit to unitize such interest other than pursuant to an oil and gas lease to the undersigned, nor shall this instrument be construed as an invitation or offer to the owner of any oil and gas lease or interest in lands within the Reformed Unit (other than the undersigned) to pool said lease or interest without the written consent and agreement of the undersigned. The Reformed Unit shall be effective as to all of the leases and lands properly pooled herein, notwithstanding the inclusion of one or more leases in Exhibit "A" which do not cover an interest in the acreage covered by the Reformed Unit or which are not otherwise properly pooled herein. The Reformed Unit may be amended from time to time to correct any errors, to add any additional leases owned or acquired by the undersigned covering the Reformed Unit, to limit the pooled interval to one or more producing formations, or to reform or revise the Reformed Unit when in the judgment of the undersigned it is necessary or advisable to do so in order to properly develop or operate the unit area or the leases.

This instrument is EXECUTED this 17TH day of November, 2010, but effective as of August 29, 2010.

Mary Beth,

I was scanning the plats and Reformation of Unit as you were emailing!

Attached is a Unit Plat of the original 407.491-acre Alford-Weeber No. 1 Unit, with the State 0.281 acre highlighted green. Also, attached is a Unit Plat and Reformation of Unit for the Alford-Weeber No. 1 Unit evidencing the exclusion of the State lease.

Thanks,
Faye

Hi Faye-

I think you mentioned when we spoke the State no longer has an interest in this unit. If that is the case, can you please send me something that indicates that so I can cancel it in our system.

Thank you,

:-) mb

REFORMATION OF UNIT

STATE OF TEXAS §
§ KNOW ALL MEN BY THESE PRESENTS:
COUNTY OF BURLESON §

Reference is made to that certain Declaration of Unit dated November 21, 1994, recorded in Volume 235, page 534, Oil and Gas Lease Records, Burleson County, Texas (the "Declaration of Unit"), wherein Clayton Williams Energy, Inc., designated and declared a pooled unit identified as the Clayton Williams Energy, Inc.–Alford-Weeber No. 1 Unit, for the production of oil, gas, and liquid hydrocarbons associated therewith, in and under 407.491 acres of land, in the Sterling C. Robertson Survey, A–50, Burleson County, Texas (the "Unit"); and

WHEREAS, Clayton Williams Energy, Inc., as the owner of the oil and gas leases described in the Declaration of Unit and the amendment thereto and as the operator of the Unit, desires to amend the Declaration of Unit in order to reconfigure the acreage contributed to the Unit under the oil and gas leases described in the Declaration of Unit, reference here being made to the Declaration of Unit for all purposes;

NOW, THEREFORE, in consideration of the premises, and in order to facilitate the additional development of the leases described in the Declaration of Unit, as amended, the undersigned, Clayton Williams Energy, Inc., does hereby AMEND and REVISE the Declaration of Unit as follows:

1. By deleting Exhibit "A" attached thereto, consisting of a description of the oil and gas leases included in the Unit, and substituting therefor the Exhibit "A" attached to this Reformation of Unit and consisting of the oil and gas leases included in the 243.654 acres to be pooled into the Unit, as reconfigured; and

2. By deleting Exhibit "B" attached thereto, consisting of a metes and bounds description of the 407.491-acre pooled area, and by substituting therefor Exhibit "B" attached to this Reformation of Unit, consisting of a metes and bounds description of the 243.654 acres to be pooled into the Unit, as reconfigured.

For the same purposes, the undersigned does hereby POOL, COMBINE and UNITIZE into one pooled area or unit, the leases described in Exhibit "A" attached hereto, INSOFAR AS AND ONLY INSOFAR AS said leases cover and include the interval from the surface down to, but not below, the stratigraphic equivalent of the base of the "Austin Chalk" formation in and under 243.654 acres in the Sterling C. Robertson Survey, A–50, Burleson County, Texas, described in Exhibit "B", attached hereto and incorporated herein by reference for all purposes, for the purpose of exploring, operating, drilling for and producing oil, gas, and liquid hydrocarbons associated therewith in and from said unitized interval and area (the "Reformed Unit"). The Reformed Unit, containing an aggregate 243.654 acres, shall continue to be designated as the **CLAYTON WILLIAMS ENERGY, INC.–ALFORD-WEEBER NO. 1 UNIT**.

The Reformed Unit shall include only the oil, gas and mineral interests covered by the leases, insofar as the leases cover the lands described in the attached Exhibit "B" which are presently owned or hereafter acquired by Clayton Williams Energy, Inc., its successors and assigns. This instrument shall not be considered an invitation or offer to the owner of any unleased mineral interest in lands within the Reformed Unit to unitize such interest other than pursuant to an oil and gas lease to the undersigned, nor shall this instrument be construed as an invitation or offer to the owner of any oil and gas lease or interest in lands within the Reformed Unit (other than the undersigned) to pool said lease or interest without the written consent and agreement of the undersigned. The Reformed Unit shall be effective as to all of the leases and lands properly pooled herein, notwithstanding the inclusion of one or more leases in Exhibit "A" which do not cover an interest in the acreage covered by the Reformed Unit or which are not otherwise properly pooled herein. The Reformed Unit may be amended from time to time to correct any errors, to add any additional leases owned or acquired by the undersigned covering the Reformed Unit, to limit the pooled interval to one or more producing formations, or to reform or revise the Reformed Unit when in the judgment of the undersigned it is necessary or advisable to do so in order to properly develop or operate the unit area or the leases.

This instrument is EXECUTED this 17TH day of November, 2010, but effective as of August 29, 2010.

COUNTY OF BURLESON §

KNOW ALL MEN BY THIS PRESENTS:

THAT, Clayton Williams Energy, Inc., the present owner and holder of those certain Oil, Gas and Mineral Leases more particularly described in Exhibit "A" attached hereto and by reference incorporated herein and made a part hereof, pursuant to the right, power and option granted to the owner of said Leases under the terms and provisions thereof, as the same may have from time to time been amended or ratified, hereby POOLS, COMBINES and UNITIZES into one pooled area or unit the Leases described in the attached Exhibit "A", INSOFAR AS AND ONLY INSOFAR AS said Leases cover and include the limited vertical interval from the top of the Eagle Ford Formation down to but not below the top of the Buda Formation in and under 449.670 acres out of the lands described in said leases located in the H. E. Davis Survey, A-100, and the Sterling C. Robertson Survey, A-50, Burleson County, Texas, said 449.670 acres being more particularly described in the attached Exhibit "B", reference to which is herein made for all purposes, for the purpose of exploring, operating, drilling for and producing oil, gas, casinghead gas, condensate, distillate and other liquid or gaseous hydrocarbons in and from said unitized interval and area. The pooled area or unit described herein, containing an aggregate 449.670 acres, is hereby designated as the CLAYTON WILLIAMS ENERGY, INC. – DAN ALFORD 119 UNIT #1.

This unit shall include only the oil, gas and mineral interests covered by the Leases, insofar as the Leases cover the lands and interval described herein which are presently owned or hereafter acquired by Clayton Williams Energy, Inc., its successors and assigns. This instrument shall not be considered an invitation or offer to the owner of any unleased mineral interest in lands within the pooled area to unitize such interest other than pursuant to an oil and gas lease to the undersigned, nor shall this instrument be construed as an invitation or offer to the owner of any oil and gas lease or interest in lands within the unit herein described (other than the undersigned) to pool said lease or interest without the written consent and agreement of the undersigned. This unit shall be effective as to all of the leases and lands properly pooled herein, notwithstanding the inclusion of one or more leases in Exhibit "A" which do not cover an interest in the unit acreage or which are not otherwise properly pooled herein. This unit may be amended from time to time to correct any errors, to add any additional leases owned or acquired by the undersigned covering the unit acreage, to limit the pooled interval to one or more producing formations, or to reform or revise the unit when in the judgment of the

undersigned it is necessary or advisable to do so in order to properly develop or operate the unit area or the leases.

This instrument is executed this 12TH day of September, 2014, but to be effective as of September 8, 2014.

COUNTY OF BURLESON §

THAT, Clayton Williams Energy, Inc., the present owner and holder of those certain Oil, Gas and Mineral Leases more particularly described in Exhibit "A" attached hereto and by reference incorporated herein and made a part hereof, pursuant to the right, power and option granted to the owner of said Leases under the terms and provisions thereof, as the same may have from time to time been amended or ratified, hereby POOLS, COMBINES and UNITIZES into one pooled area or unit, the Leases described in the attached Exhibit "A", INSOFAR AS AND ONLY INSOFAR AS said Leases cover and include the limited vertical interval from the surface down to but not below the stratigraphic equivalent of the base of the "Austin Chalk" Formation in and under 305.774 acres out of the lands described in said leases located in the H. E. Davis Survey, A–100, and the Sterling C. Robertson Survey, A–50, Burleson County, Texas, said 305.774 acres being more particularly described in the attached Exhibit "B", reference to which is herein made for all purposes, for the purpose of exploring, operating, drilling for and producing oil, gas, casinghead gas, condensate, distillate and other liquid or gaseous hydrocarbons in and from said unitized interval and area. The pooled area or unit described herein, containing an aggregate 305.774 acres, is hereby designated as the **CLAYTON WILLIAMS ENERGY, INC.–ALFORD-ALFORD UNIT NO. 1**.

This unit shall include only the oil, gas and mineral interests covered by the Leases, insofar as the Leases cover the lands and intervals described herein which are presently owned or hereafter acquired by Clayton Williams Energy, Inc., its successors and assigns. This instrument shall not be considered an invitation or offer to the owner of any unleased mineral interest in lands within the pooled area to unitize such interest other than pursuant to an oil and gas lease to the undersigned, nor shall this instrument be construed as an invitation or offer to the owner of any oil and gas lease or interest in lands within the unit herein described (other than the undersigned) to pool said lease or interest without the written consent and agreement of the undersigned. This unit shall be effective as to all of the leases and lands properly pooled herein, notwithstanding the inclusion of one or more leases in Exhibit "A" which do not cover an interest in the unit acreage or which are not otherwise properly pooled herein. This unit may be amended from time to time to correct any errors, to add any additional leases owned or acquired by the undersigned covering the unit acreage, to limit the pooled interval to one or more producing formations, or to reform or revise the unit when in the judgment of the

undersigned it is necessary or advisable to do so in order to properly develop or operate the unit area or the leases.

This instrument is executed this 17th day of November, 2010, but to be effective as of August 29, 2010.

THAT, Clayton Williams Energy, Inc., the present owner and holder of those certain Oil, Gas and Mineral Leases more particularly described in Exhibit "A" attached hereto and by reference incorporated herein and made a part hereof, pursuant to the right, power and option granted to the owner of said Leases under the terms and provisions thereof, as the same may have from time to time been amended or ratified, hereby POOLS, COMBINES and UNITIZES into one pooled area or unit, the Leases described in the attached Exhibit "A", INSOFAR AS AND ONLY INSOFAR AS said Leases cover and include the limited vertical interval from the surface down to but not below the stratigraphic equivalent of the base of the "Austin Chalk" Formation in and under 284.145 acres out of the lands described in said leases located in the H. E. Davis Survey, A–100, and the Sterling C. Robertson Survey, A–50, Burleson County, Texas, said 284.145 acres being more particularly described in the attached Exhibit "B", reference to which is herein made for all purposes, for the purpose of exploring, operating, drilling for and producing oil, gas, casinghead gas, condensate, distillate and other liquid or gaseous hydrocarbons in and from said unitized interval and area. The pooled area or unit described herein, containing an aggregate 284.145 acres, is hereby designated as the **CLAYTON WILLIAMS ENERGY, INC.–RAY ANN ALFORD UNIT NO. 1.**

This unit shall include only the oil, gas and mineral interests covered by the Leases, insofar as the Leases cover the lands and intervals described herein which are presently owned or hereafter acquired by Clayton Williams Energy, Inc., its successors and assigns. This instrument shall not be considered an invitation or offer to the owner of any unleased mineral interest in lands within the pooled area to unitize such interest other than pursuant to an oil and gas lease to the undersigned, nor shall this instrument be construed as an invitation or offer to the owner of any oil and gas lease or interest in lands within the unit herein described (other than the undersigned) to pool said lease or interest without the written consent and agreement of the undersigned. This unit shall be effective as to all of the leases and lands properly pooled herein, notwithstanding the inclusion of one or more leases in Exhibit "A" which do not cover an interest in the unit acreage or which are not otherwise properly pooled herein. This unit may be amended from time to time to correct any errors, to add any additional leases owned or acquired by the undersigned covering the unit acreage, to limit the pooled interval to one or more producing formations, or to reform or revise the unit when in the judgment of the

undersigned it is necessary or advisable to do so in order to properly develop or operate the unit area or the leases.

This instrument is executed this 17th day of November, 2010, but to be effective as of the August 29, 2010.

§ KNOW ALL MEN BY THESE PRESENTS:
COUNTY OF BURLESON §

REFERENCE is made to that certain Declaration of Unit dated August 8, 1994, recorded in Volume 233, page 344, Oil and Gas Lease Records, Burleson County, Texas, as amended by that certain Amended Declaration of Unit dated September 28, 1994, recorded in Volume 234, page 501, Oil and Gas Lease Records, Burleson County, Texas (collectively, the "Declaration of Unit"), wherein Clayton Williams Energy, Inc., designated and declared a pooled unit identified as the Clayton Williams Energy, Inc.–Alford No. 1 Unit, for the production of oil, gas, and liquid hydrocarbons associated therewith, in and under 480 acres of land, in the Sterling C. Robertson Survey, A–50, and the H. E. Davis Survey, A–100, Burleson County, Texas (the "Unit"); and

WHEREAS, the Unit was further amended by that Second Amendment to Declaration of Unit dated September 26, 2000, effective August 25, 2000, recorded in Volume 538, page 866, Official Records, Burleson County, Texas, in order to reconfigure the acreage contributed to the Unit under the Oil and Gas Leases described in the Declaration of Unit as containing 378.651 acres, reference being here made to the Declaration of Unit, as amended, for all purposes; and

WHEREAS, the Unit was reformed by that certain Reformation of Unit dated November 17, 2010, effective August 29, 2010 (the "Reformation of Unit"), in order to reconfigure the acreage contributed to the Unit under the Oil and Gas Leases described therein as containing 85.344 acres, reference being here made to the Reformation of Unit for all purposes; and

WHEREAS, Clayton Williams Energy, Inc., as the owner of the Oil and Gas Leases described in the Declaration of Unit, the amendments thereto and the Reformation of Unit, and as the operator of the Unit, desires to correct the Reformation of Unit in order to property describe the acreage contributed to the Unit area from each of the leases as set forth therein:

NOW, THEREFORE, in consideration of the premises, **CLAYTON WILLIAMS ENERGY, INC.**, does hereby further CORRECT and REVISE the Reformation of Unit by deleting therefrom Exhibits "A" and "B" as attached thereto, and by substituting therefor Exhibits "A" and "B" as attached to this Correction to Reformation of Unit.

Except as herein amended, the Reformation of Unit is ratified and confirmed in all respects.

EXECUTED this 29th day of ~~October~~ September, 2011, but effective as of August 29, 2010, the effective date of the Reformation of Unit.

REFORMATION OF UNIT

STATE OF TEXAS §
§
COUNTY OF BURLESON §

KNOW ALL MEN BY THESE PRESENTS:

Reference is made to that certain Declaration of Unit dated August 8, 1994, recorded in Volume 233, page 344, Oil and Gas Lease Records, Burleson County, Texas, as amended by that certain Amended Declaration of Unit dated September 28, 1994, recorded in Volume 234, page 501, Oil and Gas Lease Records, Burleson County, Texas (collectively, the "Declaration of Unit"), wherein Clayton Williams Energy, Inc., designated and declared a pooled unit identified as the Clayton Williams Energy, Inc.–Alford No. 1 Unit, for the production of oil, gas, and liquid hydrocarbons associated therewith, in and under 480 acres of land, in the Sterling C. Robertson Survey, A–50, and the H. E. Davis Survey, A–100, Burleson County, Texas (the "Unit"); and

WHEREAS, the Unit was further amended by that Second Amendment to Declaration of Unit dated September 26, 2000, effective August 25, 2000, recorded in Volume 538, page 866, Official Records, Burleson County, Texas, in order to reconfigure the acreage contributed to the Unit under the Oil and Gas Leases described in the Declaration of Unit as containing 378.651 acres, reference being here made to the Declaration of Unit, as amended, for all purposes; and

WHEREAS, Clayton Williams Energy, Inc., as the owner of the Oil and Gas Leases described in the Declaration of Unit and the amendments thereto and as the operator of the Unit, desires to further amend the Declaration of Unit in order to reconfigure the acreage contributed to the Unit under the Oil and Gas Leases described in the Declaration of Unit as set forth below:

NOW, THEREFORE, in consideration of the premises, and in order to facilitate the additional development of the leases described in the Declaration of Unit, as amended, the undersigned, **CLAYTON WILLIAMS ENERGY, INC.**, does hereby further AMEND and REVISE the Declaration of Unit as follows:

1. By deleting Exhibit "A" attached to the Second Amendment to Declaration of Unit, consisting of a description of the oil and gas leases included in the Unit, and substituting therefor the Exhibit "A" attached to this Reformation of Unit and consisting of the oil and gas leases covering the 85.344 acres to be pooled into the Unit, as reconfigured;

2. By deleting Exhibits "B" and "C" attached to the Second Amendment to Declaration of Unit, consisting of a metes and bounds description and plat of the 378.651-acre pooled area, and by substituting therefor Exhibit "B" attached to this Reformation of Unit, consisting of a metes and bounds description of the 85.344 acres to be pooled into the Unit, as reconfigured; and

3. By limiting the pooled interval to those depths from the surface down to, but not below, the stratigraphic equivalent of the base of the "Austin Chalk" formation in and under the 85.344-acre pooled area.

For the same purposes, the undersigned does hereby POOL, COMBINE and UNITIZE into one pooled area or unit, the leases described in Exhibit "A" attached hereto, INSOFAR AS AND ONLY INSOFAR AS said leases cover and include the interval from the surface down to, but not below, the stratigraphic equivalent of the base of the "Austin Chalk" formation in and under 85.344 acres in the Sterling C. Robertson Survey, A–50, and the H. E. Davis Survey, A–100, Burleson County, Texas, described in Exhibit "B", attached hereto and incorporated herein by reference for all purposes, for the purpose of exploring, operating, drilling for and producing oil, gas, and liquid hydrocarbons associated therewith in and from said unitized interval and area (the "Reformed Unit"). The Reformed Unit, containing an aggregate 85.344 acres, shall continue to be designated as the **CLAYTON WILLIAMS ENERGY, INC.–ALFORD NO. 1 UNIT**.

The Reformed Unit shall include only the oil, gas and mineral interests covered by the leases, insofar as the leases cover the lands described in the attached Exhibit "B" which are presently owned or hereafter acquired by Clayton Williams Energy, Inc., its successors and assigns. This instrument shall not be considered an invitation or offer to the owner of any unleased mineral interest in lands within the Reformed Unit to unitize such interest other than pursuant to an oil and gas lease to the undersigned, nor shall this instrument be construed as an invitation or offer to the owner of any oil and gas lease or interest in lands within the Reformed Unit (other than the undersigned) to pool said lease or interest without the written consent and agreement of the undersigned. The Reformed Unit shall be effective as to all of the leases and lands properly pooled herein, notwithstanding the inclusion of one or more leases in Exhibit "A" which do not cover an interest in the acreage covered by the Reformed Unit or which are not otherwise properly pooled herein. The Reformed Unit may be amended from time to time to correct any errors, to add any additional leases owned or acquired by the undersigned covering the Reformed Unit, to limit the pooled interval to one or more producing formations, or to reform or revise the Reformed Unit when in the judgment of the undersigned it is necessary or advisable to do so in order to properly develop or operate the unit area or the leases.

This instrument is EXECUTED this 17TH day of November, 2010, but effective as of August 29, 2010.

DECLARATION OF UNIT

STATE OF TEXAS §
§ KNOW ALL MEN BY THESE PRESENTS:
COUNTY OF BURLESON §

THAT, Clayton Williams Energy, Inc., the present owner and holder of those certain Oil, Gas and Mineral Leases more particularly described in Exhibit "A" attached hereto and by reference incorporated herein and made a part hereof, pursuant to the right, power and option granted to the owner of said Leases under the terms and provisions thereof, as the same may have from time to time been amended or ratified, hereby POOLS, COMBINES and UNITIZES into one pooled area or unit, the Leases described in the attached Exhibit "A", INSOFAR AS AND ONLY INSOFAR AS said Leases cover and include the limited vertical interval from the top of the Eagle Ford Formation down to but not below the top of the Buda Formation in and under 495.308 acres out of the lands described in said leases located in the H. E. Davis Survey, A-100, and the Sterling C. Robertson Survey, A-50, Burleson County, Texas, said 495.308 acres being more particularly described in the attached Exhibit "B", reference to which is herein made for all purposes, for the purpose of exploring, operating, drilling for and producing oil, gas, casinghead gas, condensate, distillate and other liquid or gaseous hydrocarbons in and from said unitized interval and area. The pooled area or unit described herein, containing an aggregate 495.308 acres, is hereby designated as the **CLAYTON WILLIAMS ENERGY, INC. – D.N. JONES 130 #1 UNIT**.

This unit shall include only the oil, gas and mineral interests covered by the Leases, insofar as the Leases cover the lands and interval described herein which are presently owned or hereafter acquired by Clayton Williams Energy, Inc., its successors and assigns. This instrument shall not be considered an invitation or offer to the owner of any unleased mineral interest in lands within the pooled area to unitize such interest other than pursuant to an oil and gas lease to the undersigned, nor shall this instrument be construed as an invitation or offer to the owner of any oil and gas lease or interest in lands within the unit herein described (other than the undersigned) to pool said lease or interest without the written consent and agreement of the undersigned. This unit shall be effective as to all of the leases and lands properly pooled herein, notwithstanding the inclusion of one or more leases in Exhibit "A" which do not cover an interest in the unit acreage or which are not otherwise properly pooled herein. This unit may be amended from time to time to correct any errors, to add any additional leases owned or acquired by the undersigned covering the unit acreage, to limit the pooled interval to one or more producing formations, or to reform or revise the unit when in the judgment of the

undersigned it is necessary or advisable to do so in order to properly develop or operate the unit area or the leases.

This instrument is executed this 1st day of December 2014, but to be effective as of November 5, 2014.

Re: State Lease No. MF095942 D.N. Jones 130 No. 1
(Unit 7512)

Dear Mrs. Hernandez:

The Texas General Land Office (GLO) has received your Division Order for the referenced unit. This Division Order has been filed in the appropriate mineral file.

The payment of royalties attributable to state-owned mineral and royalty interests is set by contract and applicable statutes and rules. The execution of division orders may, in some cases, affect the manner in which such payments are made or calculated. Therefore, Title 31, §9.32, of the Texas Administrative Code specifies that GLO staff cannot execute a division order or bind the state to any terms contained within it.

Subject to applicable state law and the state's right to take its production in-kind, the GLO acquiesces to the sale of oil and gas in accordance with the terms and conditions set out in the oil and gas leases. If you have questions concerning this matter, please feel free to e-mail me at the address below my signature.

We look forward to being put on pay status as soon as you are able to set up the wells in our RRAC system.

Thank you,

Vivian Hernandez

Assignor and Assignee also agree to the following additional terms and conditions:

3. **Purchase Agreement**. This Assignment shall be effective as of the Effective Time and shall be subject to the terms and conditions of that certain Purchase and Sale Agreement dated as of October 24, 2016, between Assignor and Assignee (as amended from time to time, the "***Purchase Agreement***"), which terms and conditions are incorporated herein by reference. If there is any conflict between the terms of this Assignment and the terms of the Purchase Agreement, the Purchase Agreement shall control in all respects and shall not merge into the terms of this Assignment; *provided, however*, this Assignment may be relied upon for all purposes without further recourse or reference to the Purchase Agreement with respect to the conveyance and transfer of title to the Assets. Capitalized terms used in this Assignment that are not otherwise defined herein shall have the respective meanings given to such terms in the Purchase Agreement.

4. **Special Warranty of Defensible Title**. Except as expressly, and subject to the limitations, set forth in the Purchase Agreement and the other Transaction Documents, Assignor makes no warranty, express, implied or statutory, as to any of the rights, titles or interests hereby conveyed, and all such rights, titles or interests are sold to and accepted by the Assignee "as-is" and "where-is" with all defects and faults, if any, except that, other than any Permitted Encumbrances, Assignor warrants Defensible Title to the Assets against all Persons lawfully claiming the same, or any part thereof, by, through or under Assignor, but not otherwise. Recovery by Assignee for any breach by Assignor of the special warranty of Defensible Title contained herein shall be subject to Section 3.1(b) of the Purchase Agreement.

5. **Assumed Obligations**. Assignee hereby assumes and agrees to timely and fully pay, perform and otherwise discharge, the Assumed Obligations, under the terms of, and subject to the conditions in, the Purchase Agreement.

(d) **CONSPICUOUSNESS**. **ASSIGNOR AND ASSIGNEE AGREE THAT, TO THE EXTENT REQUIRED BY APPLICABLE LAW TO BE EFFECTIVE, THE DISCLAIMERS OF CERTAIN REPRESENTATIONS AND WARRANTIES CONTAINED IN THIS ASSIGNMENT ARE "*CONSPICUOUS*" DISCLAIMERS FOR THE PURPOSE OF ANY APPLICABLE LAW.**

7. **Separate Assignments**. Separate governmental forms of assignments of the Assets may be executed on officially approved forms by Assignor and Assignee, in sufficient counterparts to satisfy applicable statutory and regulatory requirements. Those assignments shall be deemed to contain all of the exceptions, reservations, warranties, rights, titles, powers and privileges set forth herein as fully as though they were set forth in each such assignment. The interests conveyed by such separate assignments are the same, and not in addition to the interests conveyed by this Assignment and are not intended to modify, and shall not modify, any of the terms, covenants and conditions or limitations on warranties set forth in this Assignment and are not intended to create, and shall not create, any representations, warranties or additional covenants of or by Assignor to Assignee.

8. **Binding Obligations**. This Assignment and all rights and covenants in connection herewith shall be binding upon the Parties, and their respective heirs, successors, and assigns, and the covenants hereof shall run with the Assets. All Exhibits and Schedules attached hereto are hereby made part hereof and incorporated herein by this reference. This Assignment is intended to be recorded and filed of record. To facilitate recordation, there are omitted from the Exhibits to this Assignment in certain counterpart descriptions of property located in recording jurisdictions other than the jurisdiction (tax district, county, parish, state, or federal agency) in which the particular counterpart is to be filed or recorded.

9. **Subrogation**. To the extent permitted by Law, Assignee shall be subrogated to Assignor's rights in and to representations, warranties and covenants given by others with respect to the Assets, and Assignor hereby grants and transfers to Assignee, its respective successors and assigns, to the extent so transferable and permitted by Law, the benefit of and the right to enforce the covenants, representations and warranties, if any, which Assignor is entitled to enforce with respect to the Assets (but excluding covenants and warranties made by Assignor,

10. **Governing Law**. This Assignment and the documents delivered pursuant hereto and the legal relations between the Parties shall be governed by, construed and enforced in accordance with the Laws of the State of Texas, without regard to principles of conflicts of Laws that would direct the application of the Laws of another jurisdiction.

11. **Dispute Resolution**. Section 13.3 (*Dispute Resolution*) of the Purchase Agreement is incorporated herein, and shall apply *mutatis mutandis*.

12. **Further Assurances**. Each Party covenants and agrees to execute and deliver to the other Party all such additional reasonable instruments and other documents and will do all such other reasonable acts and things as may be necessary to more fully assure to Assignee or its successors or assigns, all of the respective properties, rights and interests herein and hereby granted or intended to be granted, including, without limitation, executing separate assignments of individual oil, gas and mineral leases or interests therein, which are included in the Assets and which are necessary to facilitate the recognition of Assignee's ownership of the Assets.

13. **Counterparts**. This Assignment may be executed and delivered in one or more counterparts, each of which when executed and delivered shall be an original, and all of which when executed shall constitute one and the same instrument.
