about it ~~himself~~

This Survey I have run out
and find to be about 190 acres Connecting
with a Survey in the name of Simeon Senter
over of 65 acres and another in the name of
Jenny DeCordova of 140 acres being surrounded
by vacant land on three sides

There is parties living on both
these tracts of land and it is very desirable
that the title should be obtained

I am satisfied from the
papers and from Conference with W W Badle
him self that the first tract herein described
is the land he wants the patent for as assign
of Missus Hunt

Very respectfully yours &c
