Dear Sir I was not at home when you wrote me in regard to the surveys I made for J. C. Keystal & Charles Alletah on Meridian & Bee Creeks, and now hasten to answer. I made actual surveys of the John B. Blonde Thomas B. Barnes Thomas Monnow & the two J. Thoupes & the South line of Allen Talbot. I commenced at the N.W. corner of the John B. Blonde Survey and run N 60 E 19000 for the N.E. corner it being in the prairie I went to the S.E. corner and run N 30 W to make across for corner and found it to be 20200 instead of 19000 I then run the Thoupe surveys and the other above named surveys and found by actual measurement the vacancy the field notes call for

Office of

S. J. SIDDALL,

SURVEYOR, BOSQUE COUNTY,

Meridian, Texas, Dec. 21st 1874

and in regard to O. J. Kystal survey on Spring Creek I run out the John & Brown Survey and the West line of the Lazo Survey and the West ~~on~~ North Line of the Parnell Survey & Mr. Cassady former Surveyor of McLennan County was Sgt for the Harper Survey and he run round it and establish his corners & I run to his ~~the~~ East line his S.E. corner is in the prairie but his N.E. corner has witness trees.

O. J. Kystal has given up his claim was the reason I made the survey for Charles Shetcher

I, S. J. Siddall Surveyor of Bosque County do here by certify that I did take the original field notes of the above named surveys and by actual measurement did find the amount of land that the field notes called for. These old surveys run over from 20 to 11 per cent and I would like to

is, to have the dimen-
