The survey call for should be correctly named. The 40 acres survey is in the name of M. J. Fernandez and the 30 acres survey in the name of J. De Cordova. Fernandez's N.E. corner is not on the E. line of T.L. Keister - the Westline of this survey is 1481' vs. while the combined E. line of De Cordova and Fernandez is only 1036' vs., therefore the corner certainly lies along the N. line of Fernandez, which must be included.
