# CONFEDERATE SCRIP.

No. 1776

1280 Acres.

GENERAL LAND OFFICE,

Austin, Texas, March 28 1882

This is to Certify, That James Z Atwell  
is entitled to have surveyed by any legally authorized Surveyor, upon any of  
the vacant, unreserved and unappropriated public domain of the State of Texas,  
Twelve Hundred and Eighty Acres of Land  
in accordance with the provisions of an act entitled

"An act granting to persons who have been permanently disabled by reason of  
wounds received while in the service of this State, or of the Confederate States, a land  
certificate for Twelve Hundred and Eighty Acres of Land," approved April 9, 1881,  
said James Z Atwell having made the proofs required by  
said act.

A like amount of land shall be located by virtue of this  
Certificate for the benefit of the permanent School Fund,  
before either location shall be patented, and both loca-  
tions shall be made upon any of the Public Domain of  
Texas not reserved by law from location.

In Testimony Whereof, I hereunto set my hand and  
affix the impress of the seal of said office, the date first  
above written.

25 Cents for examining each Survey.  
Please remit in Advance.

# General Land Office.

Austin, Sept. 8<sup>th</sup>, 1885

To any legally authorized Surveyor of the State of Texas  
This is to certify that Confederate Scrip Certificate No. 17,76  
issued to James G. Stowell, by the Commissioner of the  
General Land Office for 1280 acres of land on  
the 28<sup>th</sup> day of March 1882, having been returned  
to this office with the field notes of a survey of  
1280 acres of land made for the owner of same,  
You are hereby authorized to survey 1280 acres  
out of any of the vacant unreserved and unappro-  
priated public domain of the State of Texas, for  
the benefit of the Common School Fund.

In Testimony Whereof I hereunto set my  
hand and affix the impress of the Seal  
of said office the date first above written

GEO. D. BARNARD & CO  
ST. LOUIS

corrected  
July 20/88

July 11  
1888

Report of the Surveyor on the  
Jas & Stowell Survey Bogus Co.  
Tex.

I located the S.W. Cor. of the James Steele  
league from the N.W. Cor. of the Wm Fisher  
Survey at which corner one of the original  
witness trees is still standing & corresponds  
within 1300. of the call for Darringtons  
Creek, now Steele Creek. From this Cor ran

S 66° W. the complement of the said Steele  
apart in corner 1600. S 30° E 4430. N 66° E.  
from the N.E. Cor. of the E.R. Goulden which  
corner is defined by one of the original  
witness trees still standing. (See sketch,  
I found the west end of the S. line of the  
Wm Williams anciently marked & so ran  
the west line of the Steele league N 30° W  
2649. to intersect this line (or 2489. from  
N.E. Cor. Goulden)

I put in the S.W. Cor. of the Wm Williams  
from its own Natural Field Calls 3930.  
S 66° W - from the only branch on this line  
or 545 S 66° W from N.W. Cor. Steele league.  
The distance given in the Call for the  
N. line of the Steele is evidently a mistake  
as to run it as called for destroys all  
the relations with the Bowen, Rufus Charles  
& the Natural Creek Calls & puts the N.E. Cor of  
the Steele league in Hill Co. by 662. actual  
run - It is more than likely that the 4430. I made  
between the Steele & Goulden belongs to Steele  
league & really closes with the Goulden -

I found the Palmer E. line 1000 vrs. instead of 950  
witness trees at both N.E. & S.W. Cor. Still standing  
those on S. line also but not banded as  
called for & hence I put in new trees -

Found all the witness trees on the 3<sup>rd</sup> preemption  
surveys in this sketch but some of them  
so badly burnt & decayed as to require new ones  
hence they were put in.

I found the S.E. Cor. of the Thompson pre-empt.  
Surv. and its witness standing but 72 vrs. E.  
of its true position in conflict with the  
Loney pre-empt. which accounts for the  
shortening of S. lines in the Dr. J. Atwell  
field calls -

The distance from the S.W. Cor. of the Palmer to  
McMeens' East line makes a great excess for  
the Golden but this excess is clearly made  
by running from N.E. Cor. Golden (witness still  
standing) to the old marked line between the  
Garrett Allen & E.R. Golden each of them  
having actually about the same excess East &  
West.

There is much controversy about the true position  
of the N.E. Cor. of the Garrett Allen. The S.E. Cor.  
of the Garrett Allen is well settled, so observing  
that the Newshafer & Allen are tied by their  
mutual field notes & that the Allen (N.E.) is 450  
vrs. longer than the same combined line of
