Mr. Sir some time since Mr N. B. Randal handed me a letter that had been addressed to him but intended for me, which stated that was an error in the G. M. Brisco field notes, which made the E. line 50 varas longer than the West boundary, that was a mistake of the pen, should <sup>be</sup> 1500.000 in stead of 1550, will please correct the same and oblige

The James Steele League was run by Mr Ed Barry, a few day before I made the survey of the Brisco, The owners of the Steele are satisfied with its location and do not claim, there is any conflict with the said Steele and Brisco
