This office is of the opinion that the survey should have gone to the river to locate the line, as we have found there a deep bank which to back lines by which to identify them without some cooperation of river owners, also the surveyer seems to make no effort to find the bearings as called for in field notes of the Mrs. B. find the corner as called for at this place; He then
ran S 60 W 204 varas to the original S.W. corner

Dear Sir:

Referring to the above files covering surveys under the act of 1900, beg to advise you that this office is of the opinion that you should have gone to the river to locate the William Fisher, S.
