First. Two sections of land adjoining and connecting with each other must be surveyed, one for the State and the other for the company.

Second. The surveys to be made square, unless prevented by previous entries or navigable streams.

Third. The Commissioner will select and number the surveys and report the result to the Surveyor, who will fill up the blanks left in his record for that purpose, accordingly. (As a matter of convenience in describing the surveys, when reporting the numbers the Surveyor should number the field notes temporarily, in pencil.)

Fourth. Fractions of land of less size than 1280 acres of land, surrounded by previous surveys, must be equally divided, one-half surveyed for the State and the other half for the Company, and the residue of the Certificate may in like manner be located elsewhere, until the same is exhausted.

Fifth. The even numbers will be reserved to the State, and the odd numbers to the company.

In Testimony Whereof, I have hereunto set my hand and affix the impress of the seal of said office, the date first above written.
